DR. FRANK R. BRADLEY, our Director, has lent us fine moral support for our new publication, and has expressed the hope that all employees will take an active interest in this project. We're hoping that you like the idea as much as we do.

First, we must have a name. We're leaving that up to you, though, so any name you think appropriate will be gladly received. We have even managed to get a small prize, so put your thinking caps on and give us some ideas.

Next, we need some reporters. MARGIE JACKSON and DOROTHY RUFFIN, attendants on 5200 and 3100, and LILLIAN REDMON in McMillan, have already become official reporters. JOAN SELLENRICK is representing the Accounting and Credit Offices, and MARY KAY RICHARDS is going to keep the floor secretaries in the limelight. We do want to have all departments represented and should like at least one volunteer from each. So perhaps you could get together and choose someone to act as the official reporter for your section.

Whether or not you are an official reporter, if you have any news at all — just come to the Personnel Office—we'll be glad to see you.

We can make this paper a success only by your help. If you like the idea, let's make it interesting and worthwhile to everyone. With your enthusiasm we can watch it grow!

Today, October 21st, at St. Benedict's Church, Evansville, Indiana, MARGARET GORDON, Ass't Personnel Director, will become the bride of Robert J. Tracy. HAPPY BIRTHDAY MCMILLAN

Four years ago on October 15th, McMillan Hospital was opened under the direction of MRS. CORNELIA S. KNOWLES. That day saw 15 patients admitted—four years later 120 new patients were received. We give our praise and wishes for many more happy birthdays.

COMMUNITY CHEST

In this day and age we are constantly striving for time savers and expense savers. Not long ago some wise people found a way to economically collect money—by the Community Chest.

How often we groan at the thought of another drive for money. The Community Chest prevents this by combining the small drives into one large one—such as United Charities, YMCA, YWCA, Boy Scouts, Salvation Army, Jewish Welfare Fund, Goodwill Industries, and many independent drives.

The Community Chest provides many benefits—clinics, hospitals, children's homes, Scouting, and numerous other valuable services. It makes St. Louis a safe place to live by fighting disease, poverty, and crime.

This is a democratic drive which benefits all of our citizens without regard to race, creed, or color. It helps to strengthen and steady family life, keeps children happy, healthy, and out of trouble; and cares for the sick, handicapped and aged.

There is no set amount one has to give. Just give as much as you are personally able. But greet your Red Feather volunteer with a smile when he comes to you, and remember that he is a willing citizen doing a much needed service for the whole community.

The Chest’s slogan this year is, “Get Going, St. Louis, Give Now.” The goal is $4,785,000.00. Let’s do our part in making it a success.
