Midwest Alcoholism Research Center presents

The Seventh Annual Guze Symposium on Alcoholism
Alcohol Use Across the Lifespan

Thursday, February 15, 2007
The Seventh Annual Guze Symposium on Alcoholism

In Memory of Samuel B. Guze, MD
Samuel B. Guze, MD, was a pioneer in the field of alcoholism research. He joined the Washington University School of Medicine faculty in 1951, served as vice chancellor and president of the Medical Center from 1971 to 1989, and headed the Department of Psychiatry from 1975 to 1989 and again from 1993 to 1997. Dr. Guze was highly respected as a researcher, an administrator and a leader in the field of psychiatry.

About the Symposium
Presenters at the symposium will include experts on research related to alcohol use and dependence. Topics will include:
- Neurobiology of addiction and recovery
- Developmental model of youth drinking
- Alcohol use and problems in adolescence
- Alcohol involvement during emerging adulthood
- Alcoholism throughout mid-life
- Alcohol use, misuse and abuse in older adults

Posters are displayed throughout the day and will feature the latest findings by Midwest Alcoholism Research Center investigators and other contributors. In addition, two dedicated staffed poster sessions will be held: one in the morning and one in the afternoon.

Meeting Award Opportunities
Limited numbers of meeting awards are available to NIAAA and other pre- and post-doctoral trainees as well as community-based individuals. The awards are intended to help defray costs associated with attendance at the symposium for those who would otherwise not be able to attend. Research awardees are expected to present a scientific poster. The application and registration brochure can be accessed from our web site at www.alcoholdependence.org or by e-mailing requests to GuzeSympl@matlock.wustl.edu. Award applications must be received by December 15, 2006.

Midwest Alcoholism Research Center
The Midwest Alcoholism Research Center (MARC) is one of 16 Alcohol Research Centers funded by the U.S. National Institutes of Health. MARC is a multisite Alcohol Research Center, with participating investigators from two leading Midwest research universities — Washington University (the lead institution) and the University of Missouri-Columbia, and from additional collaborators, Queensland Institute of Medical Research, Brisbane, Australia; the University of Iowa, Iowa City, Iowa; and Palo Alto Veterans Administration, Palo Alto, California. Its research programs include statewide, national and international projects.
