A GREAT INSTITUTION
It is a pleasure to be associated with all the workers in Barnes Hospital. Just a few weeks ago we heard that the scientists of Europe had rated Barnes Hospital one of the best hospitals in this great country. We are all proud of the record that our hospital has been making during the last few decades. It certainly has become a great medical center.

There is an excellent spirit prevailing in this institution. We have made a great many calls during the past year. So many of the patients spoke of the great leadership of this institution. They liked the efficiency, kindness and courtesies of the surgeons, doctors, nurses, maids and all who work in this hospital. We are glad that there are so many people working here who are trying to put into practice the spirit, principles, and teachings of the greatest of all Physicians, the Son of God. May our great hospital ever continue to serve humanity, even in a larger way in the years to come.

We are pleased that a goodly number have been attending our Chapel service on Sunday afternoons at 3:15. Our service is very brief. It lasts only 35 to 40 minutes. Each Sunday afternoon a group of young people from one of our Methodist Churches in the city come in to sing for us. The Chapel is just east of the operating rooms on the third floor. All are most welcome to attend this Worship Service on Sunday afternoons.

------F. W. Wahl, Chaplain

Thanksgiving Day was here again and many men would pause upon the day to think, "What is there to be thankful for, indeed?"

No one could give a true and honest answer, no one could know. Beauty and peace were abroad in the land, and we were free again to see Nature and beware, free once more to know peace, and be thankful.

EDITH SIMPKINS, Cafeteria Dietitian, is returning to her home in West Virginia. She will be replaced by Ellie Sheridan.

Miss HENRIETTA BECKER returned from Iowa State University, November 8, to attend the Dietitians' convention and to visit friends at the hospital.

BETTY WALSH, Dietitian, gave a talk to the leaders of the Boy Scout troops of St. Louis, on November 5. The subject was the seven basic food in relation to the normal diet, and their importance in camping menus for Boy Scouts.

At the November meeting of the St. Louis Hospital Council, dietitians of the city discussed their departments. Ralphene Gerdng spoke on 'Rising Food Costs.'

The Maintenance Dept. has been redecorating 3100 and is now plastering and painting 2100.
