TWO years ago, a Young Men's Christian Association was founded in the Medical Department of Washington University. During these two years the Association has grown remarkably. Under the direction of a general secretary, seven committees carry on the work. The membership committee has thus far in the present year enrolled one hundred and forty-one students as active and associate members. There are two hundred and forty students in the school. The committee in charge of religious meetings has conducted a weekly meeting at which many of the most prominent ministers and laymen in the city have spoken. The committee in charge of the rooms has furnished the Y. M. C. A. quarters very comfortably and provided them with periodicals and papers, free stationary, games, and greater source of pleasure than any of these, a piano. The committee has sought to aid the new men finding boarding places.

The social and Bible study committees have been equally active in their respective spheres. During the year four entertainments and socials have been given at the various churches and have been a very pleasant means of introducing the students to the people of St. Louis. Systematic Bible study has made a good start this year. Four Association men have volunteered for the foreign missionary field.
