BLANKE-WENNEKER CANDY CO.
WASHINGTON UNIVERSITY
DENTAL DEPARTMENT
Missouri Dental College  
Saint Louis, Missouri

THE FORTY-SECOND ANNUAL SESSION
Will begin on Tuesday October 1, 1907, and continue thirty-two weeks, exclusive of holidays. This department is located on the corner of 27th and Locust Streets. The building is the most commodious, best lighted and best ventilated west of the Mississippi. It is furnished newly throughout, and the facilities for teaching dentistry are unsurpassed.

The advantages offered by a large University, like Washington University, should appeal to those intending to enter the profession of dentistry. The time is approaching when dental instruction will be confined to the great Universities of the country.

While the student body of the Dental Department of Washington University is not so large as some other schools, yet, the results accomplished are more satisfactory. It is a known fact that while the Dental Department of Washington University has graduated fewer students, in comparison to the time it has been teaching, yet, for the number of its graduates, it has turned out more teachers of dentistry than any other school in the United States.

Anyone desiring to take up the study of dentistry would do well to investigate this department thoroughly before deciding to go elsewhere.

For annual announcement, and other information regarding school,

DR. J. H. KENNERLY, Dean,

E. M. Grove
The No. 2 Favorite Columbia Chair

with Imperial Improvements

Same raising and lowering devices as formerly. Imperial Columbia headrest having two ball and socket joints governed by one lever. Permits the most comfortable adaptation.

Imperial Clamping device governing inclining of back. Opens and releases back when foot is pressed on lever; closes and locks back when foot is removed. Back locks automatically when lifted to nearer vertical.

Similar device governing tilting of chair body. Permits exact position desired for light and access. Absence of notches gives smooth motion.

Imperial Child’s Footrest; operated by dentist’s foot.

At slight additional expense chair may be fitted with a sanitary, readily removable, rubber pad in place of carpet.

This chair stands next to the Imperial Columbia and is excelled only by it.

Easy terms; of your dealer. Ask him or us about it.

WHEN you buy printing from a good printer you get two things for your money—a commodity and a service. Every good printer has a certain individuality of style, and when not bound too closely by specifications will make his particular individuality felt in every job he turns out.

This is what might properly be termed a service. A printer's ability to put into his work those little touches which make for attractiveness and good taste in his ability to render a service.

In spite of this fact the average buyer is still inclined to place any number of printers upon an equal basis, thus bestowing a premium upon the one who will get the work through at the lowest possible cost. We prefer to render a service—we think it pays.

A service well performed is appreciated and yields more business. A commodity at a close price only creates a thirst for "more for less money".

There be those in the printing business who are troubled with a slight cough when they speak of us who are in the business for "Art's Sake!"—this latter always being used sarcastically. While we confess to a weakness for the "art" side of it we are thoroughly possessed of the opinion that it is also good business.

Some buyers know the advantages of getting a service. More find it out as time passes. Eventually enough wil know it to enable us to smile at the gibes of our friends and to contemplate ourselves with much satisfaction. So might it be.
