New Haven July 30 - 1833

B. 5.

Dear Sir

I have delayed replying to your letter of June 30 because I have been hoping ^{see this to go} into the Laboratory to attempt something with the Gastric Fluid. I can only say that hitherto I have found it impossible owing to mesany & inevitable demands on my time. I write now merely that

you may know that I have not forgotten you. I do not see at present any thing to hinder my doing something for you within a few days & if you are about to remove from Wall Street you please to give me notice & in the mean time remember what I said to you last Spring, that I have no great confidence in myself on this subject. The moment I hear from Dr. Besselin I will write to you but I think we cannot expect to hear from him within several months. —

Yours very truly & respectfully

B. B. B. B. B.

Dr. Beaumont
