## Library Partnership in the Responsible Conduct of Research (RCR)

Provide education on complying with the NIH public access policy and other research funding agency mandates

Resources on copyright for authors and faculty--  
Publishing & Copyright web site in progress

Resources on responsible research, ethics, statistics, human & animal studies, etc.

Dissemination of news and other resources related to RCR in blogs and newsletters

Participate in curriculum planning;  
<http://percw.wustl.edu>

## Research & Publishing Support for Authors

Assistance and resources to promote adequate & efficient literature searching

Third-party submittal service for authors to comply with the NIH Public Access Policy

Research impact and citation analysis

Publishing contract addenda

Strategies to enhance dissemination of research findings

Seek permissions from publishers on behalf of authors

Locate publisher policies on behalf of authors

Delivery of information using traditional means and web 2.0 tools to reach a wide audience

## Assessment of Activities: How do we know we are having an impact?

Number of uses of the WU addendum

Publisher responses to the WU addendum and other permissions from publishers on behalf of authors

Number of third-party submissions to PMC for NIH Policy

Number of requests for information from authors and other researchers

Number of presentations provided

Website visitor statistics

Authors and faculty report positive outcomes as a result of our services and resources

WU Libraries help authors exercise control over the dissemination and preservation of their intellectual output by:

- providing author addenda including a customized addenda
- subsidizing open access fees via paid memberships to open access publishers
- negotiating license agreements that provide options for authors and faculty such as allowing use of materials for teaching
- hosting an institutional repository
