JOHN HANGER KENNERLY, Dean of the Faculty of the Dental School, and Professor of Clinical Dentistry; Member and Ex-President of Missouri State Dental Association; Member and Ex-President of the St. Louis Dental Society; Member of the National Dental Association; Ex-President and Ex-Secretary of the National Association of Dental Faculties; Member of the Central District Dental Society of Missouri; Corresponding Member of the Illinois State Dental Association; Ex-President of the Institute of Dental Pedagogics; Delta Sigma Delta.
The Dental School

The Faculty

John Hanger Kennerly, D. D. S., M. D. - Professor of Clinical Dentistry and Dean of the Dental School
Walter Manny Bartlett, D. D. S. - Professor of Prosthetic Dentistry
Benno Edward Lischer, D. M. D. - Professor of Orthodontics
Bland Nixon Pippin, D. M. D. - Professor of Operative Dentistry
Oliver Howard Campbell, M. D. - Professor of Physiology
Vilray P. Blair, A. M., M. D. - Professor of Oral Surgery
Jerome E. Cook, M. D. - Professor of Bacteriology and General Pathology
James Alexander Brown, D. D. S. - Professor of Histology
Ewing Paul Brady, D. D. S. - Professor of Chemistry, Materia Medica and Metallurgy
Marsh Pitzman, M. D. - Professor of Anatomy
Charles E. Jones, D. D. S., M. D. - Professor of Therapeutics and Dental Pathology
Jesse Duncan White, D. M. D. - Associate Professor of Prosthetic Dentistry and Lecturer on Crown and Bridge Work and Porcelain Art
Louis George Neuhoef, D. D. S. - Associate Professor of Dental Anatomy and Instructor in Technic
John Richard Pendleton, D. D. S. - Clinical Instructor in Operative Dentistry
Fred John Beckman, D. D. S. - Clinical Instructor in Prosthetic Dentistry
Harry Moll Fisher, D. M. D. - Lecturer on Anesthetics and Extraction
William Henry Siepert, D. D. S. - Clinical Instructor in Operative Dentistry
Walter Fritz Neuhoef, D. D. S. - Instructor in Prosthetic Dentistry
Edgar Hayden Keys, D. D. S. - Lecturer on Oral Hygiene
Frank Henry Forster, D. D. S. - Instructor in Prosthetic Technic
Greenfield Sluder, M. D. - Special Lecturer on Diseases of the Nose and Throat

Prov. 7—For the good man is not at home.—Mr. Max Diez.

—One Hundred Twenty—
IT WAS on September twenty-ninth, 1912, that we entered the Washington University School of Dentistry as Freshmen. "Alone in the world" was our chief feeling, and except for the glad hands of the Dean and the supply men, "Pat" and "Bill," our view was not changed much. As time went on, however, and we began to gather a small idea of how much we did not know, we began to branch out into several specialties. A few specialized in anatomy (at about Seventh and Walnut Streets), a few found time for collecting, a very few took up dentistry, and the rest made nightly pilgrimages to Dreamland. Among our other stunts during this year was the humbling of the Juniors at baseball to the tune of 27 to 9, and other games in similar fashion.

In our Junior year we decided to teach the Freshmen the respect due to upperclassmen, and to this end we arranged a code of thirteen commandments, which were to govern the "Red Necks." The size of the lower class made us hesitate to enforce it; but one day we did take it up, and a scouring of the pavement and a general distribution of black eyes was the result. Above all, the wrath of the Dean descended upon our heads. He made up a simple little code of his own, and found very little trouble in enforcing it. It was, "Settle down or Get out." Thus, while we instituted hazing, there is little danger of its being continued.

But frivolities aside, we studied hard and all passed into the Senior year. As Seniors we are much more dignified. We all have figured out the State Board questions, we all have fair prospects of getting our work out, and all have passed on Dr. Bartlett's case. We would like to point out how each of us has chosen a special line in which he excels and what they are, but in the fear that we would not do ourselves justice, we must forbear; and so, with the modest remark that those who have lost an opportunity to become acquainted with us have certainly missed something good, we will bid our farewell to Washington, and close.

—R. S. M.

Matt. 6—Even Solomon in all his glory was not arrayed like one of them.—Junior Prom.
The Dental Class of 1916

-One Hundred Twenty-four-
Juniors

JOYOUS and high-spirited, as a result of a pleasant vacation, the members of the Junior Class assembled at the college building on Monday, September 28, to renew their efforts to fulfill satisfactorily the requirements necessary for the ensuing year.

They extended to each other the usual “opening day” greetings, the cordiality of which one must experience to appreciate and understand. It was gratifying to learn that, except one, all the members of the previous year had been able to return, while three were gained. It was evident from their dignified appearance and the haughty manner in which they sized up the “Red Necks” that they had profited from the previous year’s training.

With renewed energy they began the work of the Junior year with a determination to make it in every way a success.

I Cor. 9—Neither have I written these things, that it should be so done unto me.—Compiler of Hatchet Quotations.
Ps. 35—Rescue my darling from the lions.—Poor Pauline.

—One Hundred Twenty-seven—
E, the Class of '17, gathered together from mountain, plain, woods and sagebrush and assembled at the Court of King John for instruction in the use of hammer and tongs, do hereby proclaim our valor and prowess. A mighty class are we, and, though four of our number have departed from our midst (probably back to the milk pail and furrow ere this), we still can muster two score and one.

We have two "fatties," two "slim Jims," and the rest—well, they vary considerably in the great middle class. In fact, we are here both great and small, fat and lean, slim and tall.

But let us glance down the roll and see who is present. There are Maxwell, Westfall and Forbes, fresh from the wielding of the rod and imparting precept to the young and erring youth of the land; Thumser, the man whose eyebrow has slipped down from its normal place of abode; Edele, who can locate one more bone in the human anatomy than Cunningham himself; Howell, the human string bean, "nuf sed?" "Rough-house" Adams, who can start more rough-houses and look more innocent than any man in seven states (and he is not out of his territory either). Here is our friend Barney (Barnage). He can boast of being on the carpet oftener and for less cause than any man in the class. Take off your hats, boys, to Kriege, the wizard of vocal expression. He can and does use all the adjectives found in Webster's dictionary, and a great many which are not. Here comes big "Hip" Siever, who has a standing challenge to meet all comers two at a time with one hand tied behind his back and a pillow tied on the other one. Coats has already found it necessary to take unto himself a partner. There is "Sleepy Sam" Wilmesherr, whose work is "good enough" for any practical purpose; Fleming, the youth with the blond "pomp." We present to you Katz, who has discovered that Harvey was wrong in the blood circulation of, at least, the gastro-intestinal tract. Cone—oh! he rooms with "Fat" Blount, that's all. We must not overlook Martin. He is a master in chemistry. If you don't believe it, ask him. Caldwell, a name which immediately causes you to see big things—when looking into a microscope, he can see anything from a balloon to a camel and not bat an eye.

But why go farther? When one glances down the list and sees the illustrious names of Anthony, Bedell, Caffee, Carson, Faber, Gallager, Henderson, Hohmann, Jacobsmeier, Metzger, Miller, Moore, Pendleton, Ratliff, Renfrow, Rode, Russel, Taylor, "Heinie" Volmer, White, Weigreffe and Yates yet to come, words fail and the quill ceases its motion. Justice will be done to them only in the pages of history yet unwritten.
