Soll Mayer Tet 11. 1834 E. 11 How: Somes Al Mayser of the Library Country We have examined the work Entelled " Experients and observations on the Gerstin : June othe Thy sirley of Digestion - by Welleam Bianwort M.D. of united States Army" The Dudyis on which the Exprovements referred to, were in the above recetal, were made, while a case he thinks we known in medual bestory and one not likely to recur. these Experiments have already reluted many curious facts in the remoney of alignstian, relieber to the action of the Stomach as an organice function and the proporties of the Gastrin pun as a Chounal Solvent. It would seem to be the part of a were Segistation to menerage the continuence of these "Expts "with prospection views of benefit to the intensts of sacre and humanity. With these views, the undusiqued : members of the medical profession (& Hof Reps) respectfully recommend that copies of Beaumont' Expts be furchased for the use of the que some he pland in Library of learpress' (Signed) Abel Hentington. John Thompson and Robert Metabell. Mr. C.
