Women's Athletics

Page Two Hundred Eighty-one
Miss WILLIAMS

Athletics

During the past year the standard of the Department of Physical Education for Women has been raised and a keen interest in sports of all kinds has been aroused through the efforts of Miss Kate Williams and Miss Elizabeth Childs, who have the friendship and hearty co-operation of every one in the Department.

There have been several important innovations in the course, chief among which was the introduction of the regulation uniform for gymnastics and all athletic work. Also, at the instigation of the coaches, the point system in sports was revised, almost all of the sports being made major ones, except dancing, horseback riding, canoeing, and hiking, which comprise the Outing Club. Each girl is limited to three major teams a year, and one sport in the Outing Club. This enables more girls to participate in sports, formerly a few girls “made” everything and the others did not have a chance. It is much better to have all the sports on the same basis because it makes the point system fairer.

A new and interesting class, organized by Miss Williams this year, is the Coaches’ Training Class, in which all girls who were interested were given instruction and practical experience in coaching. In this way the girls receive training without attending a special Physical Education School.

The regular gymnasium regime of exercises, drill, and folk-dancing was carried out the first semester, but second semester work was optional, the electives being sports, swimming, playground work, and dancing, giving each girl an opportunity to specialize in her favorite branch of gym work.

The comradie and good feeling that exists between instructor and pupil was shown by the election of Miss Williams and Miss Childs to “Peppers” and “Cleats.” Both Miss Williams and Miss Childs are graduates of the Chicago Normal School of Physical Education, the former completing her work in 1914, and the latter in 1920; both came to Washington in 1921, and we were indeed fortunate in having them again this year.

Page Two Hundred Ninety-five
During the past year tennis has become a more important and more popular sport for women than formerly. Two courts, west of the girl's gym, have recently been completed for the exclusive use of the girls. This is a great help because formerly the women had to use the men's courts, which are excellent, but usually crowded. Now that they have their own courts they are sure of a place to play and they take a greater interest in the game. W. A. A. made tennis a major sport this year, and a greater number of girls participated in the tournament than ever before. Virginia Gorin became champion in the singles when she defeated Catherine Soraghan. In the doubles Olive Huey and Elizabeth Atwood were champions, Dorothy Specht and Elizabeth Lord being runners up.
