Quadwrangles

The Frosh-Soph fight on the steps of the old dental building in 1905
Dedication

To you, dear Readers, and to your friends whose well meant efforts have done much to make these pages a cross section of campus life, the following leaves of our most veracious record are dedicated.

We have collected with meticulous care and culled from divers sources, the material herein set down with the manifest purpose of showing you as you seem to others. But we realize that truth in its purest ray serene is often annoying and sometimes embarrassing. We can only ask that you pardon any personalities for even the most slanderous mention is meant as a compliment to your campus prominence.
Letters from the Editor's Correspondence

Dear John,

To write how false the manusion is that I own you
must have and of all the ancient. This
to have been, and to many others. I have the
hopes of the old, and the heads of the
old. I am always glad to see the old, and to
see the heads of the old.

Yours truly,

[Signature]

When You Think of Travel
Think of Yelloway
If you are contemplating a trip of any kind consult the Information Bureau of Yelloway where one can get an insight of the many trips that are offered.

A trip to the coast that cannot be surpassed over the time-honored route of the covered wagon—over the trail of the pioneer—YellowaY winds its way across the highways of America to the end of the trail and Pacific peace.

Denver, the queen city of the plains, from which some two hundred miles of panoramic mountain peaks, many of them clad with perpetual snow, may be viewed. This city, the gateway to the Rocky Mountain National Park, owns some ten thousand acres of city and mountain parks. From here one may within an hour’s time view the plains of Colorado from one of these mountain peaks or fish for alluring trout in one of her icy streams.

The West, through YellowaY, bids you welcome to her scenic territory and assures the home-seeker that many opportunities present themselves in a land where resources are abundant and the hearts of the people hold a warm welcome for the newcomer.

GRACIOUS! WHAT PHYSIOGNOMIES!

On this page are presented for the first time in any book, periodical, or any printed form whatsoever, the celebrated Aaron Burr and his equally famous traymen. They need no introduction to most Washingtonians, for there is not a person who ever passed beyond the double doors—the ones that open the wrong way—of Joe’s who does not know every one of these nine men.

The days of feudalism, knight errantry, etc., are but a memory in the far distant past. But down at Aaron’s, right now, in 1927, are nine men who are always ready to serve you.
BETA LAMBDA OF
PI KAPPA ALPHA
WASHINGTON UNIVERSITY

March 31st 1927

The Shield and Diamond,
Pi Kappa Alpha Fraternity.
Dear S. and D.:

Beta Lambda chapter started off the year in splendid shape and is recognized as the leader on the campus.

As Brother Bob Smith has fallen in love, he is training four freshmen to take over his activities. The boys are planning to have a bust, marble or beer, in honor of “Stinky” Davis, the most famous young blade the chapter ever had. Brother E. Clair Cullenbine is helping out the chapter by giving embroidery lessons out at McMillan Hall.

We are planning to move into a new house in East St. Louis next week. This will make things much more convenient for the majority of the chapter. We have a lovely location in the center of the stock-yard district. Brother “P. K.” Harding is the chapter’s three-letter man—he got one from track, one from football, and one from the dean. Wish you was here.

Jordan.

TAU KAPPA EPSILON
XI CHAPTER
WASHINGTON UNIVERSITY
FOUNDED 1899—ST. LOUIS, MO.

February 29th 1927

Editor,
The Teke.
Dear Editor:

Xi chapter started off the year in splendid shape and is recognized as the leader on the campus. The fraternity has given up basketball as one of its activities. Brother “Speedy” Dyer, on his second attempt, was successful in getting himself elected president of his law class. Deacon Koch, pledge, is holding evangelistic and revival meetings in the living room, and is interesting all the boys in the Y. M. C. A. and the International Forum. The chapter continues to progress, despite the constant fatherly advice of Brother Phillips.

Fraternally yours,

John McCarroll.

SIGMA CHI FRATERNITY
TAU TAU CHAPTER
WASHINGTON UNIVERSITY
ST. LOUIS, MO.

April 1st 1927

Editor,
The Magazine of Sigma Chi.
Dear Ed:

Tau Tau chapter started off the year in splendid shape and is recognized as the leader on the campus. A splendid group of between 35 and 40 men were pledged at the beginning of this, our banner year. Final figures will be sent in when we are able to make an accurate check of those men whose pledges remain unbroken. Brother Gustafson, after a bitter struggle up from the ranks, signifying the spirit of a true Sig, last year was made Chief Racket of the tennis team.

Brother Gustafson made Pralma, senior honorary society. Brother Straub also ran. Someone blundered terribly and Brother Monroe was elected editor of Dirge. He had a slight lapse of memory during one of his law exams and got another “con” when he wrote jokes on the paper. The prof explained it would have been O. K. with him if they had been good jokes.

The Witchell brothers, as in the past, have continued to be a dead loss to the chapter. Brother Torrance brought much credit to the chapter when he walked down the aisle at the Junior Prom surrounded by the same “monkey suit” in which his father was married.

Brother Bartender Posey continues to carry on a flourishing business. After unsuccessfully trying out for all the varsity teams, Brother Schaberg finally made his letter in Spring horseshoes. Brother Power, a student in the Commerce School, has become an expert on figures since serving as a lifeguard at Sunset last summer.

The chapter house, located on an island surrounded by Lake Sigma Chi, is greatly in need of some new plumbing.

Yours in the Pond,
Grant Torrance,
Substitute Secretary.
—with a background of Victor experience and General Electric Company’s research facilities

THE Coolidge X-Ray Tube, which has revolutionized the art of radiography, was developed in the Research Laboratories of the General Electric Company. In collaboration with these same laboratories, the Victor "CDX" Dental X-Ray Unit was evolved, when Victor X-Ray Corporation’s Engineering Department, with its background of experience in the design of X-Ray apparatus, worked with the physicists of those laboratories, to the end that the mechanical and electrical design of the X-Ray unit would answer the critical requirements of the Coolidge tube itself. Thus has emanated a perfectly balanced equipment.

Inasmuch as the "CDX" Dental X-Ray Unit is sponsored by the same research facilities as all other notable "G. E." developments, and the Victor X-Ray Corporation is the subsidiary that extends a tangible service to the dental and medical professions in their X-Ray and Electro-Medical requirements, what better safeguard could be offered on your investment in dental X-Ray equipment?

The Fuel that serves 46 Million People

GAS, the clean fuel of science! Convenient, efficient, dependable.

In this country the use of gas has doubled in 10 years, quadrupled in 20 years. Over 46 million people enjoy the benefits of gas service.

A century ago there was one use for gas—lighting. Today, it is estimated, over 21,000 trade processes are being carried out with the aid of gas.

In the home gas is used for heating, cooking, water-warming; it supplies refrigeration; heats the washer, ironer and laundry dryer; burns garbage; warms the garage, protects the car.

In the heating needs of industry gas offers advantages that no other fuel can give.

On request our engineers will supply full information.

Just before the battle, Mother. After the battle.
A NEW Quick Meal Gas Range for Your NEW Home or Apartment!

DON'T move the old, black stove! You'll want a brand new white-enameled Quick Meal Gas Range with Lorain Self-regulating Oven for that beautiful home or cozy, little apartment. You'll want more time to "play house" than ever before. The little RED WHEEL of the Quick Meal Oven automatically regulates the heat for perfect baking or Whole Meal Oven cooking for one to five hours (as the case may be) without your once looking.

LORAIN OVEN HEAT REGULATOR

QUICK MEAL Gas Ranges are made of rust-resisting ingot iron. Made in a large number of sizes and styles and a variety of finishes—black japan, white, grey or blue fusenamel and semi-enamel.

Oven and broiler-linings are enameled and easily removable for cleaning. Durability and convenience mark these stoves as better ranges for every purpose.

This ex-student considers himself the best-dressed man of the campus. The trouble is he's always on the campus and more than most students. But we must BEAR him.

The "trouble is he's receiving a few hints on load speaking from one who knows.

Below—a Byrd of a picture. Look at the Brav grin. By his foot, Mr. Gauss, the gentleman whose back you see, shows the results of long practice at the bar, though not a lawyer.

The girl to the left is the champion sorority rusher of the campus. She rushed her best friend (on her right) into another sorority.

Ah, there, James, we know you without your beard!

Six of the brothers registering disgust after having met their thirty-six pledges. (These pictures were taken three months after Pledge Night.)
A Most Adaptable Contract
THE STANDARD SPECIAL

This life insurance policy has been prepared with special features that will enable the insured to adapt it to his particular needs as they may change from time to time.

By leaving the guaranteed coupons with the Company the insured creates for himself a 25 Year Endowment policy.

Or the insured can use these coupons in part payment of the premiums and by so doing converts his policy to a whole life non-participating contract without medical examination.

In addition to these features this policy has optional provisions permitting the use of the coupons to purchase paid-up insurance—and this policy becomes paid-up for the face amount from 11 to 21 years depending on the age of the insured.

SIGMA ALPHA EPSILON FRATERNITY
MISSOURI BETA CHAPTER
WASHINGTON UNIVERSITY
ST. LOUIS, MO.

The Record,
Sigma Alpha Epsilon.
Dear Editor:
Missouri Beta chapter started off the year in splendid shape and is recognized as the leader on the campus.
The second floor of the house has been converted into a laundry agency for the use of Brother Waterous. Gertrude Ederle, famous conqueror of the English Channel, visited the chapter during the spring rainy season. After dinner she showed the boys some tricks out in front of the house. We have several splendid locations in the county, which we are planning to rent for rushing purposes next fall.

Brotherly love,
Bob Miltenberger,
The Poo-Poo.

April 3rd 1927

PHI DELTA THETA
MISSOURI GAMMA
WASHINGTON UNIVERSITY
SAINT LOUIS

George Banta, Jr., Editor,
The Scroll,
Menasha, Wisconsin.
Dear Brother Banta:
Missouri Gamma chapter started off the year in splendid shape and is recognized as the leader on the campus. The chapter, aided by several noted campus personages, presented the annual musical comedy, "Rosita," this year. We finally collected enough money to buy some furniture; we got two chairs and a rug for the bathroom.
Despite all wishes to the contrary, Brother Hadley is completing his sixth year at the university. Brother Ledbetter has refused to pay his gas bill. Brother Thompson has left the chapter to seek bigger and better things. "O. K.," said John M. as he departed. Brother Quinby's nose qualified him for the presidency of the Commerce School, to which he was recently elected.
The traditional control of the Glee Club by the K. A.'s was wrested from that lodge when Brother "Canary" Hyndman was elected president. The chapter easily breezed through in the fall track meet and took firsts in all events, winning a huge cup. (There were no other entries.)
Brother "Ozgar" Morgens has become famous as the "every-chapter-has-one" boy. (Other fraternities qualifying are Kappa Alpha with McCoy, Sig Alph with Waterous, and the Betas with Marshall.) Brother "Non" Senseney continues to act like an animal over in the Architectural School. Brothers Hencken and Herr, varsity musicians de luxe, will provide doggy music on a cattle boat this summer. (This is no bull.)

Yours in the Bond,
Carl Revelle,
Reporter.

COLLEGIATE!
CLOTHES OF DISTINCTION THAT IMPART THAT COLLEGIATE AIR

HERE YOU WILL FIND THE NEWEST STYLE EFFECTS
FOR YOUNG MEN AND YOUNG LADIES OF DISCRIMINATING TASTES

TODAY, the style trend follows the dictates of the college student—the wonderful new effects now in vogue owe their popularity to the demands of the young man or the young lady whose good taste is responsible for the clever new fashions of the day.

Our buyers have carefully scoured the Eastern markets for the latest creations and we invite your inspection. Highest quality apparel at moderate prices insure full value.

Use the New H & R Plan of Deferred Payments to Provide Your Clothing Requirements
An H & R account enables you to dress in the height of fashion while paying a small sum out of your allowance—confidential.

606 NO. BROADWAY
JUST TWO DOORS NORTH OF WASHINGTON AVE.
1. The most beautiful and effective bit of landscape plantings on the entire campus is the work of the master hand given Fraternity Row. (The name "Fraternity Row" comes from Glo Linn Horn, who received the inspiration while tilling vigorously at the side of his rowboat, bound for an 18:30.)

2. A view of nature abandoned along the Great Jackboat. Our resilient gardener in each following through the week end came, almost like a Tuckerton Beman.

3. A winter scene on Lake Union, with three winter months in full swing.

4. A bird's-eye view of one of the beautiful waterways laces which typifies the famous pergaming effects for which Rentland is renowned.

5. The latest and most durable materials used in modern boat building construction. It has not deteriorated a bit in two years of hard usage. (It couldn't.) It is rumored that the lock and their machine will be sold here next year.

Travel to Worldly Wisdom

Travel is the only open door to worldly wisdom. It is not what we dream, but what we have seen, felt and assimilated that imparts knowledge, grace and culture to our lives. Travel is a necessity of Life, not its luxury. It should be popular for its own sake—Cunard makes it available to all.

The New CUNARD CABIN and TOURIST THIRD CABIN SERVICE, from New York to Plymouth, Havre and London—the only weekly service of its kind on the Atlantic—makes a trip to Europe attractive at all times. Cabin Round Trip—$290.00 and up. Tourist Third Cabin Round Trip—$170.00 to $190.00.

Comprehensive programs of attractive, inclusive tours of varying durations and rates sent on request.
