ACADEMIC DIVISIONS
OF WASHINGTON UNIVERSITY

ETHAN ALLEN HITCHCOCK SHEPLEY, A.B., LL.B., LL.D.
Chancellor of the University

All schools except Medicine, Dentistry, and Nursing, are located on the Main Campus, at Lindell and Skinker Boulevards, St. Louis 59, Mo.

THE COLLEGE OF LIBERAL ARTS
Thomas H. Eliot, A.B., LL.B., Dean

Courses in the humanities, the social studies, and the natural sciences, leading to a Bachelor of Arts degree; curricula for prospective teachers; curriculum leading to the Bachelor of Music degree; pre-professional studies for students who plan to enter professional schools.

THE SCHOOL OF ENGINEERING
Don A. Fischer, B.S., LL.B., Dean

The Sever Institute of Technology
Gustav Mesner, Ph.D., Director

Four-year programs leading to the degree of Bachelor of Science in Architectural, Chemical, Civil, Electrical, Geological, Industrial, Mechanical, Metallurgical Engineering, Physics, and Engineering Science. Through the Sever Institute of Technology, general study leading to the degrees of Master of Science, Master of Engineering Administration, and Doctor of Science.

THE SCHOOL OF ARCHITECTURE
Joseph R. Passonneau, B.Arch., M.S.C.E., Dean

A six-year curriculum leading to the degree of Bachelor of Science in Architectural Sciences at the end of the fourth year and the professional degree of Bachelor of Architecture at the end of the sixth year. B. Five-year curriculum leading to the professional degree of Bachelor of Architecture.

THE SCHOOL OF BUSINESS AND PUBLIC ADMINISTRATION
The Graduate School of Business Administration
Ross M. Trump, Ph.D., Dean

1. Four-year prescribed program commencing at the freshman level, and a two-year program commencing at the junior level, leading to the degree of Bachelor of Science in Business Administration.
2. Graduate work leading to the degrees of Master of Business Administration, Master of Science in Accounting, and Doctor of Business Administration.

THE GEORGE WARREN BROWN SCHOOL OF SOCIAL WORK
Benjamin E. Youngdahl, A.M., LL.B., Dean

Two-year graduate professional curriculum leading to the degree of Master of Social Work; an additional professional two-year program leading to the degree of Doctor of Social Work.

THE SCHOOL OF LAW
Hiram H. Lesar, A.B., J.D., J.S.D., Dean

Three-year curriculum leading to the degree of Bachelor of Laws.

THE SCHOOL OF MEDICINE
Edward W. Dempsey, Ph.D., Dean

(560 South Kingshighway, St. Louis 10, Mo.)

Four-year curriculum leading to the degree of Bachelor of Medicine; postgraduate courses. Through the Division of Auxiliary Medical Services, instruction leading to the degrees of Master of Hospital Administration, Bachelor of Science in Occupational Therapy, and Bachelor of Science in Physical Therapy; a course in X-ray Technology leading to a certificate; in cooperation with Barnes Hospital, courses for Laboratory Technicians, Medical Dietitians, and Nurse Anesthetists leading to certificates.

THE SCHOOL OF DENTISTRY
Leroy R. Boling, Ph.D., Dean

(4559 Scott Avenue, St. Louis 10, Mo.)

Four-year curriculum leading to the degree of Doctor of Dental Surgery, and courses for graduate students who may or may not be candidates for the degree of Master of Science in one of the dental specialties.

THE SCHOOL OF NURSING
Louise Knapp, R.N., B.S., A.M., Director

(416 South Kingshighway, St. Louis 10, Mo.)

Programs leading to the degrees of Bachelor of Science in Nursing and Master of Science in Nursing.

THE SCHOOL OF FINE ARTS
Kenneth E. Hudson, B.F.A., Dean

Specialized four-year programs leading to the Certificate of Attainment or the degree of Bachelor of Fine Arts in Painting, Sculpture, Illustration, Advertising Design, Fashion Illustration, Dress Design, the Crafts, and Art Teacher Education.

THE HENRY SHAW SCHOOL OF BOTANY
Henry N. Andrews, Jr., Ph.D., Dean

Affiliated with the Missouri Botanical Garden. Graduate work in Botany leading to the degrees of Master of Arts and Doctor of Philosophy administered by the Graduate School of Arts and Sciences.

THE GRADUATE SCHOOL OF ARTS AND SCIENCES
Lewis E. Hahn, Ph.D., Dean

Graduate Institute of Education
Robert J. Schaefler, Ph.D., Director

Work leading to the degrees of Master of Arts and Doctor of Philosophy; graduate professional degrees of Master of Science in Speech and Hearing, Master of Science in Counseling and Personnel, and Master of Music. Through the Graduate Institute of Education, the graduate professional degrees of Master of Arts in Education and Doctor of Education; and the Advanced Graduate Certificate in Education.

UNIVERSITY COLLEGE
Earnest Brandenburg, Ph.D., Dean

An adult education and evening division offering a wide range of classes for students who are unable to attend during the day, including courses which lead to the degrees of Bachelor of Science and Bachelor of Science in Education.

THE SUMMER SCHOOL
Adolph Unruh, Ph.D., Director

Courses from almost every division of the University, under the regular teaching staff, as well as special classes given by instructors who are invited to the campus for this purpose.

</table>
Washington University School of Medicine was formed in 1899 by the union of the first two medical schools established west of the Mississippi River, the Missouri Medical College and the St. Louis Medical College, popularly known as McDowell's College and Pope's College because of the close identification of the two schools with their respective Deans, McDowell of the Missouri Medical College and Pope of the St. Louis Medical College.

These pioneer colleges set high standards for medical education during the heyday of the medical diploma mills, when there were four times as many medical schools operating in the city of St. Louis as there now are in the entire state of Missouri. From their beginnings each school sought university affiliation. The St. Louis Medical College was established as the Medical Department of St. Louis University, became independent in 1855, and affiliated with Washington University in 1891, although it retained its name until the union with the Missouri Medical College in 1899. The Missouri Medical College was established as the Medical Department of Kemper College, was later the medical department of the University of Missouri; it finally became independent in 1857. In 1899, the Missouri Medical College affiliated with the St. Louis Medical College, and thus formed the Medical Department of Washington University.

Both colleges were particularly fortunate in attracting men of energy, integrity, and skill. Members of their faculties were well known at home and abroad. Charles A. Pope at thirty-six became the youngest president in the first hundred years of the American Medical Association, and his successor as professor of surgery at the St. Louis Medical College, E. H. Gregory, was elected president in 1886. John T. Hodgen, a graduate of the Missouri Medical College and later dean and professor of surgical anatomy at the St. Louis Medical College, was president of the American Medical Association in 1880. Hodgen originated the splint for hip fractures. The Hodgen splint is still used today.

Both colleges continued to raise their requirements, so that at the time they became associated in 1899, each required its students to complete satisfactorily a four-year graded course for the M.D. degree.

In 1909 Abraham Flexner began a survey of 155 medical schools in the United States and Canada for the Carnegie Foundation for the Advancement of Teaching. A similar survey by the American Medical Association and Flexner's survey, the famous Bulletin Number Four on the state of medical education in the United States and Canada, created a national sensation. Some schools collapsed, others pooled their resources, while still others reorganized.

The Medical School of Washington University did not escape criticism. In the report Flexner made to Dr. Pritchett, president of the Carnegie Foundation for the Advancement of Teaching and former professor of astronomy at Washington University, he said that one of two courses must be adopted: "the department must be either abolished or reorganized."

Dr. Pritchett mailed the report to Robert S. Brookings, a St. Louis merchant who
was president of the Board of Directors of Washington University. Mr. Brookings was shocked and immediately went to New York to see Flexner, demanding proof that the conditions were as bad as described. Abraham Flexner returned to St. Louis with Mr. Brookings, and the two men went through the School. In less than two hours Mr. Brookings was convinced that drastic action was necessary if the School were to be of highest caliber.

The meeting in 1909 of Robert S. Brookings and Abraham Flexner was of unsurpassed significance in the history of the Washington University School of Medicine, for it led to the complete reorganization of the School and the establishment of the present Medical Center. Abraham Flexner inspired the dream of a model medical school. Robert S. Brookings accepted the challenge, and with the energy and vision which characterized all his enterprises, made the dream a reality.

No time was lost in making changes. The Bulletin of the Medical School for July, 1910, makes the following general statement: "The Corporation of the University, becoming convinced that in no other direction could greater service be rendered than through a great, modern medical school, determined to reorganize the School and to place it in the front rank of American medical institutions. It has called to the heads of a number of the leading departments the ablest men it could secure, who shall give their time to teaching and research, providing each with a staff of permanent assistants, who likewise shall give their time to instruction and research, and has associated with this staff groups of the strongest men in the medical profession in St. Louis."

When Robert A. Barnes died in 1892, he left a will which directed that the trustees of his estate should use $100,000 for the erection and equipment of a hospital "for sick and injured persons, without distinction of creed, under the auspices of the Methodist Episcopal Church, South." Investigation by the trustees into the cost of building a modern hospital convinced them that the sum was not large enough to build an efficient, fireproof building, and they therefore invested the trust. By 1912 the value had increased to two million dollars, a sum which permitted the building of a hospital and left an endowment greater than the original fund. The trustees were studying hospital construction at the time Mr. Brookings was studying medical schools.

It was apparent to everyone concerned that the two projects, the building of a medical school and the construction of a modern hospital, were so interrelated that the purpose of each would be more successfully fulfilled by an affiliation. A medical school would provide a highly trained staff and would assure the most modern methods and superior laboratory facilities for the hospital. A teaching hospital would give the patient superior care and provide the essential clinical experience consistent with modern medical teaching methods.

During the spring of 1912 construction was begun on the medical school and hospital buildings which form the nucleus of the present center. The laboratories were moved from their old quarters in downtown St. Louis into the new buildings on Euclid and Kingshighway during the summer of 1914, and late in the fall of the same year the activities of the Washington University Hospital were transferred to the Barnes
AIMS

Hospital. Concomitantly, the St. Louis Children's Hospital, then located on Jefferson Avenue, became affiliated with the School of Medicine and moved to its new quarters in the medical center.

On April 28, 29, and 30, 1915, exercises were held to celebrate the completion of this group of buildings designed to promote the practice, the teaching, and the progress of medicine. The dedication ceremonies marked what Dr. William H. Welch of the Johns Hopkins University called "one of the most significant events in the history of medical education in America." Robert S. Brookings, the one man most responsible for the reorganization, voiced the hope that "our efforts will contribute, in some measure, to raising the standard of medical education in the West, and that we will add, through research activities, our fair quota to the sum of the world's knowledge of medicine."

These prophetic words of Mr. Brookings have been realized. Local, national, and international recognition has come to the School and to members of the faculty. Three members of the faculty have been given the St. Louis Award, and research done at the School has resulted in five Nobel Prizes. Two of the Nobel Laureates are still on the faculty.

In the ensuing years the medical center has continued to grow, and now its facilities are unexcelled. With the increase in the physical plant there has also occurred a great increase in the size of the faculty; the expansion has been made without compromise in the standards which marked the early development of the medical center. As a result, significant achievements in both research and clinical areas have been recorded steadily.

AIMS AND GENERAL PLAN OF INSTRUCTION

The efforts of the School are directed toward providing able students with a stimulating and challenging milieu in which they may pursue the study of medicine. Because Washington University is a private institution, its School of Medicine is not bound by any arbitrary restrictions in its admissions policy; indeed, the School seeks the most able applicants without reference to geographic, racial, or religious origin. A large scholarship program, which continues to grow, helps to make it possible for the School to lend support to able students whose personal resources might otherwise prevent them from obtaining a medical education. At any given time, the student body includes representatives from most of the fifty states and from the territories and foreign countries as well.

The educational policies are such as to offer the student not only a factual background, but more importantly, the opportunity to acquire a long-term approach to medicine. In a field which is developing as rapidly as is medicine, education only begins in medical school and must be considered a continuing project. It is hoped
that this important concept will be inculcated in each student during his four years in the Medical School.

The educational exposure available makes it possible for students to develop the foundation for a career in medical practice or in medical education and research. The student research program enables any student interested to become acquainted with original laboratory investigation; a significant group avails itself of this opportunity, and a number of original contributions results from student research each year.

The course of study for candidates for the degree of Doctor of Medicine in all medical schools is designed as a basic preparation for the practice of medicine. As interpreted in this School, the basic preparation for a career in any field of medicine must include first of all an introduction to the principles of the medical sciences. There are reasons for strong emphasis on this point of view.

The phenomenal advances that characterize modern medicine and promise its continued progress for human betterment are the outgrowth of systematic experiments rather than merely of individual observation, experience, and skill. A fusion of accumulated systematic knowledge, the medical sciences, with the arts of medical practice constitutes medicine of today and tomorrow. Orderly information in terms of the scientific principles involved, acquired by those having an inclination to apply them to practical problems, furnishes an attitude of mind as well as a factual background that are essential to the study of clinical medicine.

The technical knowledge that has created modern medicine will surely continue to grow. Medical students must, therefore, form the habit of keeping up with new developments, of preparing themselves for the continued study of the medical sciences; without that habit and preparation, the subsequent progress of medicine will bring obsolescence to the individual. These ideas pervade the spirit of the medical science courses given during the first and second years.

Before entering upon the examination and study of patients who exhibit and illustrate the phenomena of health and disease treated by the medical sciences, the student must become acquainted with and acquire practice in techniques of clinical examination. This beginning experience is gained mainly from the conjoint courses given by teachers from several clinical departments during the second year.

With this preparation the student is ready, when he enters the third-year class, to begin the observation and study—first hand—of a variety of manifestations of health and disease as seen and cared for in clinics and hospitals. This clinical instruction occupies the third and fourth years. It consists mainly of a series of clerkships in wards and hospitals and outpatient services, supplemented by systematic courses of lectures and clinical conferences.

It is this planned sequence of scientific and practical training, combined with individual experience of student with patients, under guidance of clinical teachers who are also physicians and surgeons, that characterizes the basic professional course in medicine.

Because every medical student, irrespective of the field or specialty of medicine in
which he may desire or expect to practice, must become first a broadly trained doctor of medicine, nearly all courses of the undergraduate medical curriculum are obligatory. At the same time all students are encouraged to cultivate their individual interests and talents by special study of subjects or topics of their own selection. For this purpose several half days are left free in the class schedules, during which able students may do additional work in subjects of their greatest interest. A large number of student research fellowships are awarded each year to qualified applicants for summer work. Certain junior clerkships are offered during the summer so that students who elect to do so may satisfy course requirements in these subjects during the summer and may then devote an equal amount of time to research or other elective activities in the school year. In the senior year six weeks are set aside for elective courses or for research, and some students who wish to arrange for eighteen weeks of uninterrupted free time for research may do so. The opportunity for special study is afforded in every department of the School.

The academic year is thirty-six weeks in length, except for seniors. The first year is divided into semesters, the second and third years into three twelve-week terms. The senior year consists of four twelve-week terms. The program is an intensive one and demands the full time and best efforts of students. They are discouraged from attempting outside work or employment during the sessions, especially the first two years.

MEDICAL SCHOOL BUILDINGS

The School is located along the eastern edge of Forest Park in the center of the city and is served by convenient public transportation; its site thus combines the advantages of pleasant surroundings and easy accessibility.

The laboratories and lecture rooms of the preclinical departments are housed in two wings of the main building of the School and in the West Building. The North Building contains the Medical School library, an auditorium, and the facilities of the Department of Anatomy. The Cancer Research Wing houses the administrative offices, a student lounge, the bookstore, and numerous research laboratories. In the South Building are the Departments of Biochemistry, Physiology, and Pharmacology. The Departments of Microbiology, Pathology, and Preventive Medicine each occupy a floor in the West Building. The Student Health Service is also located in this building.

THE HOSPITALS AND LABORATORIES

Adjacent to the Medical School building proper are the following hospital facilities: The Barnes Hospital. This unit, which constituted the first hospital structure in the center, has grown from 150 beds to its present total of 444. Included are the medical and surgical wards, representing about half of the total number of beds, as well as
the floors on which are available beds for semiprivate and private patients. In the extensive operating suite, all of the general surgical procedures as well as those relating to neurosurgery, thoracic surgery, urologic surgery, plastic surgery, orthopedic surgery, and gynecologic surgery are performed. A large central diagnostic laboratory, under the direction of the Medical School staff, provides diagnostic service to all of the medical center. In the Barnes Hospital there is also a large cafeteria for the professional staff and the medical students.

The McMillan Hospital, including the Oscar Johnson Institute for Medical Research. This building is owned by the School of Medicine, but like all the hospitals within the medical center proper with the exception of St. Louis Children's Hospital, it is operated by the Director of Barnes Hospital. In it are 156 beds for the treatment of patients whose diseases fall in the fields of ophthalmology or otolaryngology. A small number of general medical patients are also admitted to the McMillan Hospital. The operating rooms and outpatient clinics of both the Departments of Ophthalmology and Otolaryngology are situated in the McMillan Hospital. The Oscar Johnson Institute, occupying the top five floors of the building, provides unexcelled research facilities for the above two departments, and for the Division of Neurology as well.

The St. Louis Maternity Hospital. Now owned by the University, this hospital became affiliated with the University in 1923, and moved to its present quarters in the medical center in 1927. Its 100 beds are devoted to ward, semiprivate, and private obstetrical patients, and there are corresponding facilities for newborns, including a unit for premature infants. There are, in addition, 37 beds for gynecologic patients. The building also houses the research facilities of the Department of Obstetrics and Gynecology.

The St. Louis Children's Hospital. With the newly completed facilities there are now 200 beds for the care of infants and children. Also available are new outpatient facilities and extensive clinical and research laboratories for the Department of Pediatrics.

Edward Mallinckrodt Institute of Radiology. This unit, one of the largest and best equipped in the world, houses the diagnostic, therapeutic, and research activities of the Department of Radiology. The Institute, which is University owned, is connected on most of its floors with the adjoining Barnes and Barnard Hospitals, and through them with the other hospitals of the center, thus providing easy access for all inpatients. Many important advances, including the development of cholecystography by the late Dr. Evarts A. Graham and his associates, have been made at the Mallinckrodt Institute.

David P. Wohl, Jr., Memorial Hospital. The Wohl Hospital contains 71 beds for the care of medical and surgical patients, and also provides excellent new laboratories and offices for the Departments of Medicine and Surgery. Within the building are located a large amphitheatre, several small classrooms, and a student lounge.

Barnard Free Skin and Cancer Hospital. This building provides 40 beds for the treatment of indigent patients suffering from skin diseases and tumors. The Barnard
Hospital has had a long and notable history, and its recent affiliation with the University medical center constitutes an important step in the development of both institutions.

Renard Hospital. The Renard Hospital, opened in 1955, provides 100 beds for patients with psychiatric diseases and also affords new laboratories and offices for the Department of Psychiatry and Neurology.

The Irene Walter Johnson Institute of Rehabilitation provides training for personnel in rehabilitation procedures, facilities for treatment of disabled persons in the St. Louis metropolitan area, and an active research program relating to Chronic Diseases.

The David P. Wohl, Jr. Memorial—Washington University Clinics building was opened in May, 1961. Five floors of the building are used for Washington University Clinics and five floors are devoted to facilities for research. In addition a 225-seat amphitheatre is located on the ground floor.

In addition to the above named facilities which make up the Washington University Medical Center proper, there are available for teaching purposes patients in the various hospitals operated by the city of St. Louis; included are two general hospitals, the St. Louis City Hospital with 1,037 beds, the Homer G. Phillips Hospital with 680 beds, and the Koch Hospital for tuberculosis.

All members of the staffs of the various hospitals in the Washington University Medical Center hold University appointments, and the Medical School nominates members of its faculty to the staffs of the various municipal hospitals.

STUDENT ACTIVITIES

Although the demands of the medical curriculum impose a greater load on students than they usually face in undergraduate colleges, there are opportunities for extracurricular activities, among which the following are of interest:

(a) Student Representative Council. This body is the official student government organization and is composed of the officers of the four classes. The Council works closely with the Associate Dean and has responsibility for such matters as the examination honor system, the student curriculum report (an annual compilation which presents student opinion regarding course material, teaching methods, etc.), and other matters of interest or concern to the students.

(b) Washington University Medical Society. This society, whose membership includes the faculty and all students, holds five meetings yearly, at which members present investigative work being carried on at the Medical School. In addition, in the Spring of each year, the Student Research Assembly is held for the purpose of enabling seniors to report on original research completed at any time during their four years in the School.
(c) **Athletic Facilities.** Excellent facilities for indoor and outdoor sports are available on the main University Campus. Students are furnished tickets free of charge for the many intercollegiate athletic events which take place throughout the year. The gymnasium in the Spencer T. Olin Residence Hall is available for the use of medical students.

(d) **Social Fraternities.** Several national fraternities are represented by chapters at the School. Each year distinguished scientists are invited to present the two guest lectureships sponsored by these organizations.

(e) Within the University community, many excellent concerts, lectures, and other cultural activities take place and are open to students in the School of Medicine. In the city of St. Louis, likewise, are accessible the City Art Museum, the Missouri Botanical Garden, the Museum of the Missouri Historical Society, and others. The St. Louis Symphony Orchestra offers a series of twenty concerts during the season, and tickets at special student rates are available through the Medical School.

**GRADUATE TRAINING**

Although not required by all states for licensure, an internship in an approved hospital is considered essential preparation for the practice of medicine, and most graduates seek additional experience by serving as residents and later as fellows for periods up to five years.

In order to aid students in obtaining desirable intern appointments, an active counseling program is maintained by the Associate Dean. Thus, in their junior year, students are provided with general background information regarding the type of organization of the internships available. Since many more openings exist than there are candidates in any given year, students are able to exert a considerable measure of selection.

An open file is maintained in the Associate Dean's Office wherein are kept brochures and other descriptive data regarding internships throughout the country; included are evaluations of their own appointments, obtained from recent graduates.

The School participates in the National Internship Matching Programs. It represents a valuable advance in this area and offers distinct advantages to applicants.

The class of 1961, as did its predecessors, obtained excellent appointments; more than 70% were placed in leading University Hospitals in the United States, and the remainder accepted positions in other fine civilian and military hospitals.

The School maintains an active interest in its graduates and is pleased to support them in subsequent years as they seek more advanced training or staff appointments in the communities in which they settle.
The Library reading room, air-conditioned and lighted by recessed fluorescent ceiling lights, is located on the second floor of the north building of the Medical School. Two conference rooms are provided for the use of the students. Three levels of stacks, which are open to students and faculty alike, are situated below the reading room. The Library contains (May 1, 1961) approximately 88,000 bound volumes and monographs, and receives currently 1,143 medical periodicals.

The Library has acquired by gifts and by purchase a number of private collections, among them the manuscripts, letters, and other valuable material of the pioneer American physiologist, William Beaumont.

Library hours are 8:30 a.m. to 11:00 p.m. on week days, 8:30 a.m. to 5:00 p.m. on Saturdays, and 1:00 p.m. to 5:00 p.m. on Sundays.

A view of the main floor of the Library. At the far end is one of several conference rooms available for use by small groups of students.

CALENDAR

1961-62

Registration for all new students, Wednesday, September 6, 1961.
Registration for all former students, Friday, September 8, 1961.
First Trimester ends Saturday, December 2, 1961.
Christmas Recess, Saturday, December 16, 1961, at 1:00 p. m., to Tuesday, January 2, 1962, at 8:00 a. m.
Registration for second half-year, Monday, January 29, 1962.
Holidays, Good Friday, April 20, 1962, and Saturday, April 21, 1962.
Senior Research Program, Wednesday, April 11, 1962.
Final Examinations for first- and second-year classes begin Monday, June 4, 1962.
Commencement, Monday, June 4, 1962.

1962-63

Summer term for seniors begins June 18, 1962; ends September 8, 1962.
Registration for all new students, Wednesday, September 12, 1962.
Registration for all former students, Friday, September 14, 1962.
First Trimester begins Monday, September 17, 1962; ends Saturday, December 8, 1962.
Christmas Recess, Saturday, December 21, 1962, at 1:00 p. m., to Tuesday, January 26, 1963, at 8:00 a. m.
Third Trimester begins Monday, March 18, 1963; ends Saturday, June 8, 1963.
Entrance requirements to the School of Medicine are:

(1) Character, attitude, and interest suitable to carrying out the duties of a physician.

(2) Intellectual ability and achievement, indicated by satisfactory scholastic work prior to entering medical school.

(3) Completion of at least three years of college courses in an approved college or university, with minimum subject requirements as follows:

- English: 6 semester hours
- Chemistry: 15 semester hours, including quantitative analysis and 4 hours of organic
- Physics: 8 semester hours
- Biology: 8 semester hours, at least 4 hours of which must be in zoology

(4) Applicants are expected to have taken the Medical College Admissions Test of the Association of American Medical Colleges.

Because of the great importance of chemistry in all areas of the medical sciences, applicants are urged to pay special attention to their training in this subject. The requirement of 15 semester hours should be regarded as a bare minimum, and extra work in chemistry would be very profitable.

Although a background in biological subjects is valuable, the student is urged to emphasize courses which will not be repeated in medical school. For example, an undergraduate course in physiology, biochemistry, or bacteriology, if it duplicates material to be given later, would be less valuable than a solid course in zoology or genetics.

It is believed that students pursuing the course in medicine should have a well-rounded general education in addition to the specific requirements indicated above; thus the Committee on Admissions suggests that applicants obtain as much exposure to courses in other fields of knowledge as possible. Students who have majored in nonscientific fields are considered as acceptable as science majors as long as they have acquitted themselves well in the premedical courses.

The rest of the college work should be chosen with the object of developing the intellectual talents of the individual, rather than as required preprofessional preparation. The college work should include courses in language and literature, history, and the social sciences, or other subjects which may afford the foundation for cultural development. Unless that foundation is laid early, there is the danger that later demands of technical and professional training may lead to its neglect.

The interest and earnestness with which any study is done—more than the subject matter itself—may determine its lasting value. The spirit of a course may be more important than its content if it stimulates interest and cultivates an inquiring and thoughtful attitude. Development of an inclination to study and the habit of reasoning is more valuable than an obligatory course taken merely to satisfy entrance requirements.
STANDING AND PROMOTION

Applications should be filed as soon as possible after September 1 of the year preceding that in which admission is sought. Blanks will be furnished upon request, and instructions concerning fees and transcripts will be sent also.

ADMISSION TO ADVANCED STANDING

Applicants who have satisfactorily completed one or two years of study at another approved medical school may be accepted for admission to the second- or third-year class (when vacancies exist), provided:

(1) That they comply with the requirements above stated for admission to the first-year class.
(2) That courses equivalent in general content and duration to those in this School in the years for which credit is asked have been satisfactorily completed.
(3) That at the discretion of the Committee on Admissions, examinations may be required in any subjects already covered.

An applicant for admission to the upper classes must have studied as a matriculated medical student in an acceptable medical school for a period at least equal to that already spent by the class to which admission is sought.

ADMISSION OF GRADUATES IN MEDICINE

Applicants who hold the M.D. degree are not accepted as candidates for that degree except under unusual circumstances.

A program of courses for postgraduate students may be secured from the Director of the Division of Postgraduate Studies.

STANDING AND PROMOTION

The following procedure for action on promotion and graduation has been adopted:

(1) After the completion of a major course each department reports to the dean's office a numerical grade for each student in the class for that course, designating in each case "honors," "pass," or "fail." The grade and designation may be based upon attitude and performance as well as upon examination grades. Final examinations are held at the close of each academic year.

(2) For each class there is a Promotions Committee which periodically reviews the records of all students in that class and acts in accordance with the following rules:

(a) A student having recorded failures in two major subjects (see list below) will be required to withdraw from the class.

Major Subjects.

First Year: Gross Anatomy, Microscopic Anatomy, Biochemistry, Physiology.
Second Year: Microbiology, Pathology, Pharmacology, Medicine, Surgery (½).
Third Year: Medicine, Psychiatry and Neurology, Obstetrics and Gynecology, Surgery, Pediatrics.
Fourth Year: Medicine, Obstetrics and Gynecology, Pediatrics, Surgery, Ophthalmology (½), Otolaryngology (½), Outpatient Clinics.

(b) All students will be promoted to the next class who rank in the upper four-fifths of the class in at least 60% of the scheduled clock hours, provided there are no failures.

(c) Students who at the end of any year have recorded only one failure in a major department will be required to remove this failure as directed by the department concerned. When, and if, the failure is removed, the subcommittee will consider the student's entire record under rules (b) and (c) above. A student who has recorded a second failure in the attempt to remove a first failure will be required to withdraw from his class.

(d) No student shall be promoted to the third year until there is satisfactory credit for all required subjects of the first and second year.

(e) Under exceptional circumstances the promotion committees may suggest to the Dean and to the Committee on Admissions and Scholarships that a student be allowed to repeat certain courses as a special student or to repeat the work of the entire year as a member of the next class.

The registration of a student may be canceled at any time if in the opinion of the faculty his further attendance is deemed undesirable. A prorata refund of the tuition will be made in such cases.

REQUIREMENTS FOR DEGREES

DOCTOR OF MEDICINE

Candidates must be more than twenty-one years of age and of good moral character. They must have attended not less than four courses of instruction as matriculated medical students, the last of which has been in this School. They must have passed all required courses, or their equivalent, and have received satisfactory grades in the work of the entire four classes. They must have discharged all current indebtedness to the University.

At the end of the fourth academic term, students who have fulfilled these requirements will be recommended for the degree of Doctor of Medicine. Candidates must be present when the degrees are conferred. A graduation fee of $5.00 must be paid before Commencement.

BACHELOR OF ARTS (COMBINED PROGRAM)

A student who enters the School of Medicine with three years of work in the College of Liberal Arts of Washington University may become a candidate for the Bachelor of Arts degree at the end of the first year in the School of Medicine. Under this
combined program he must fulfill the premedical requirements and also the following additional requirements:

1. He must have completed at least 90 academic units, with a minimum grade-point average of 1.0, and 4 units in Physical Education.

2. He must have completed all of the specific requirements of the Common Studies Program and at least 15 additional units in advanced courses¹ in not more than 3 departments. These units will satisfy a part of the A.B. requirements relative to advanced courses.

3. To be eligible for the degree of Bachelor of Arts under the combined plan, a student transferring to Washington University must complete at least the last 30 units of A.B. work in the College of Liberal Arts at Washington University and must complete all specific requirements for the A.B. degree, with the exception noted in item 2 above.

4. In addition to completing at least 90 units of work in the College, a student in the combined program must also satisfactorily complete the first year in the Washington University School of Medicine; this work will complete the A.B. requirements for fulfillment of the Individual Studies Program.

5. A candidate for the A.B. degree under the combined program must be recommended by the Dean of the School of Medicine to the Dean of the College of Liberal Arts.

¹ Courses numbered 301-302 and 401-402 in Air or Military Science may not be counted as advanced courses.
FEES AND OTHER EXPENSES

The University reserves the right to change the fees herein stated at any time without notice. Whenever a change is made, it will become effective with the next installment due.

All fees and charges are payable in advance at the Office of the Registrar of the School of Medicine.

Checks should be made payable to Washington University.

TUITION FEE. For undergraduate students the tuition fee is $864.00, payable in two equal installments, at the beginning of the first and second semesters.

HEALTH SERVICE FEE. A health service fee of $30.00 per semester is charged to all students. This fee covers complete medical examination on entering the School and continued medical care including all necessary hospital costs, drugs, and limited dental service during the regular school year. Those students who remain at school during the summer may make arrangements for continuation of health service. The services of one or more physicians are available at designated times for consultation at the Student Health Clinic. A physician is available for emergency care either in the clinic or the student's room when necessary. Hospital care is provided in the services of the Barnes Hospital. It is the aim of the staff to watch and safeguard the health of each student in the School. The responsibility of the Health Service automatically ceases when the student for any reason discontinues his enrollment. A partial refund of the Health Service fee will be made to such individuals.

DIPLOMA FEE. The diploma fee for the degree of Doctor of Medicine is $5.00. This fee is payable before Commencement.

MICROSCOPE AND DIAGNOSTIC INSTRUMENTS

Each student entering the freshman class is required to possess a standard microscope equipped with a substage light. All students are required to provide themselves with stethoscopes, ophthalmoscopes, otoscopes, hemocytometers, percussion hammers, tape measures, flashlights, head mirrors, and skin pencils as the need for them arises.

Supplies and books may be purchased at the bookstore located in the Medical School.

ESTIMATE OF EXPENSES

An estimate of the average annual expenses of a student in the School of Medicine, excluding the cost of clothes, laundry, microscope, and incidentals, is given below. The amounts will vary considerably, according to the individual.

REGISTRATION

Registration for the first half-year 1961-62 is scheduled for Wednesday, September 6 (new students) and Friday, September 8 (former students); for the second half-year, Monday, January 29, 1962.

Previously matriculated students who fail to register on any of the days set aside for that purpose will be charged a fee of $5.00.

WITHDRAWALS AND REFUNDS

A student who withdraws within the first two weeks of classes is charged 20% of the tuition fee; a student who withdraws during the third week is held for 40% of the charges; a student who withdraws during the fourth week is held for 60% of the charges; a student who withdraws during the fifth week is held for 80% of the charges. There is no refund of any portion of the tuition fee after the fifth week. No special fees are refundable after the second week of the term.

THE SPENCER T. OLIN RESIDENCE HALL

The Spencer T. Olin Residence Hall was made possible by generous gifts from Spencer T. Olin, alumni of the School of Medicine, and friends of the School.

This residence, located at 4550 Scott Avenue in the Medical Center, has accommodations for 297 single men and women students. The interior arrangement is much like a modern hotel. The main floor has a mail room, letter boxes, and a large lounge. The ground floor has a snack bar, music rooms, a laundry, and meeting rooms. A two-story gymnasium is available for use of the residents.

A nondenominational chapel, the gift of the Danforth Foundation, a lounge on the second floor for women students, the gift of William S. Bedal in memory of his mother, Dr. Adelheid C. Bedal, and a nonmedical library, a gift from the estate of Mary G. Reber, are available for use by the students.

Each of the upper floors has fifteen single bedrooms, seven double bedrooms, and two two-room suites. The second floor accommodates women students exclusively. A penthouse on the roof has a large room for dances and other social activities.

The rates for rooms will be as follows:

School year: September to June (9 months)

$400 per student in 2-room suite (2 students per suite)
350 for student in a single room
300 per student in double room
STUDENT RESEARCH FELLOWSHIPS

Summer: For Three Months
$137.50 per student in 2-room suite
120.00 per student in single room
100.00 per student in double room

Weekly Rates for Summer
$11.50 per student in 2-room suite
10.00 per student in single room
8.50 per student in double room

Daily Rates for Visitors
$5.00 per person in 2-room suite
4.00 per person in single room
3.00 per person if undergraduate student, prospective student, or graduate student.

VETERANS ADMINISTRATION
The School of Medicine is approved by the Veterans' Administration for full training under Public Laws 346, 16, 550, and 894.

STUDENT RESEARCH FELLOWSHIPS
A considerable number of research fellowships are awarded each year to students who undertake to do research projects under the direction of a faculty member. These fellowships, the number of which varies from year to year, are supported by funds provided by the United States Public Health Service, the National Science Foundation, the Josiah Macy, Jr., Foundation, the Lederle Laboratories, the Foundation's Fund, the Tobacco Industry Research Committee, and others. In addition, the John and Mary Markle Foundation has provided funds for several of the preclinical departments to support additional staff members whose functions are to advise and consult with students interested in special research opportunities. Each year, at the Senior Research Assembly, the results of student research are presented before the Faculty and student body. Each year, also, a number of articles are published in which student research is presented to the scientific public. The Student Research Fellowships carry a stipend of $600, and are awarded for a minimum period of two months. They may be undertaken by any student after admission to the Medical School and during any vacation period. Application should be made to the Committee on Special Awards which supervises this program. The members of the Committee are:

Dr. Carl G. Harford, Dr. Paul E. Lacy, Dr. A. Duncan Chiquoine (Secretary), Dr. Edward W. Dempsey (Chairman).
FELLOWSHIPS AND SCHOLARSHIPS

THE JACKSON JOHNSON FUND. Under the will of Jackson Johnson, the sum of $250,000 was given to the University, the income to be used “to aid worthy and desirable students in acquiring and completing their medical education.” During recent years, the income from this fund has been devoted to Honor Scholarships named for the donor as well as to fellowships for needy students.

These Honor Scholarships are awarded on a regional basis with one or more scholarships being awarded annually to students from each of the following areas:

The Jackson Johnson Regional Scholarships have been established to enable young men and women with superior qualifications and promise for a career in medicine to come to Washington University, without regard to their financial circumstances.

Eligibility. Jackson Johnson Regional Scholarships are open to those who plan to enter the freshman class at Washington University School of Medicine or to transfer from a two-year medical school to the third-year class at Washington University. The
candidate must have resided for three years before application in one of the specified Regions, and have completed premedical work or the first two years of medicine in the same Region.

**Stipend.** Since the Jackson Johnson Regional Scholarships are regarded as prizes to be competed for by all students, the stipends will vary with the financial resources of the students. If there is no financial need, a scholarship without stipend will be awarded. The maximum stipend will be $1,200 a year.

**Selection.** The awards will be made by the Committee on Admissions and Scholarships with the approval of the Chancellor on the basis of the academic record in college or medical school, the score on the medical aptitude and other tests, the recommendations of professors and others concerning ability, character, qualities of leadership, and general all-round development, and the extracurricular activities both in and outside of the School.

**Renewals.** Awards may be renewed with the same or different stipends for the succeeding years of the medical course, provided the achievements of the scholar justify the continuance of the award. The School may withdraw a Jackson Johnson Regional Scholarship if at any time the student's record or his actions in the School or outside prove him unworthy of it.

**Application.** All students accepted for admission are considered for the Jackson Johnson Regional Scholarships, making it unnecessary to file a special application.

**JACKSON JOHNSON FELLOWSHIPS.** In order to provide opportunities for able and promising young men and women, three Jackson Johnson Fellowships in the Preclinical Sciences will be offered annually.

**Eligibility.** All applicants must be graduates of a recognized school of medicine, and acceptable for admission to the Graduate School of Arts and Sciences of Washington University as candidates for a doctoral degree. Preference will be given to those who expect to pursue an academic career in one of the preclinical sciences.

**Stipend.** The stipend will vary with the needs and ability of the individual to a maximum of $2000 a year for the first year.

**Renewal.** Awards may be renewed with the same or different stipends for not to exceed, in all, three years, provided the achievements of the fellow justify continued study.

**Application.** All applications should be completed by March 1 for the period beginning the following July or September. Awards will be announced about April 1.

**THE DANFORTH MEDICAL FUND.** The Danforth Foundation, Inc., and the late William H. Danforth have given the sum of $400,000 to further and promote the acquisition and dissemination of the knowledge of medical science and to support research and new discoveries in basic and clinical medicine and surgery. The principal and income of the Fund shall be used to furnish scholarships, fellowships, outright grants, or other financial assistance to talented and promising young men and women engaged or preparing to engage in such fields of study and endeavor. Mr. Danforth
established a Danforth Medical Fund Committee which consists of Dr. Glover H. Copher, Chairman, Dr. Samuel B. Grant and Dr. James Barrett Brown.

The persons to or for whom funds shall be made available shall be proposed by the Committee on Scholarships and Loans of the School of Medicine and shall be finally selected and determined with the advice and consent of the Danforth Medical Fund Committee. The awards are made by the Chancellor.

The George F. Gill Scholarship, instituted in memory of a former Clinical Professor of Pediatrics, entitles the holder to tuition remission of $100.

The Alumni Scholarship Award of $100 to be applied on the payment of the tuition fee is given for excellence in work during the preceding scholastic year on the recommendation of the Committee on Loans and Scholarships and the President of the Medical Alumni Association.

The Dr. John B. Shapleigh Scholarship. From a bequest of Dr. John B. Shapleigh, supplemented by contributions by Mrs. Shapleigh and Miss Margaret Shapleigh, a fund has been established, the income of which is used to pay the tuition of students in need of assistance.

The T. Griswold Comstock Scholarships. Through the bequest of Marilla E. Comstock, the annual income from $12,000 is used for two scholarships for students who otherwise would be unable to obtain a medical education and who desire and intend to follow the practice of medicine and surgery.

The Robert Allen Roblee Scholarships. Through the gift of Mrs. Joseph H. Roblee, the income from this endowment fund of $15,000 provides one or more scholarships for qualified, worthy, and deserving students.

The Alexander Baldridge Shaw Scholarships. Through the bequest of Roy A. Shaw, the annual income from $10,975 has been given in memory of his father, Dr. Alexander Baldridge Shaw, for scholarships in the School of Medicine.

The Aline Rixman Loan Fund. Provided through the gift of William Rixman, the fund is used to alleviate unexpected financial emergencies that arise among medical students during the academic year. The fund is available to any student who, in the judgment of the Dean, gives promise of becoming a competent physician. It is expected that loans will be repaid within a reasonable time after the student has finished his training.

The W. McKim Marriott Scholarship Award, instituted in memory of Dr. W. McKim Marriott, Dean and Professor of Pediatrics, by Dr. C. V. Mosby for the C. V. Mosby Co., entitles the holder to an award of $500, which provides partial tuition for the recipient in the School of Medicine. The scholarship is awarded annually by the Chancellor on the recommendation of the Dean and the Professor of Pediatrics, preferably to a deserving young man who shows promise in the field of pediatrics.

Beulah B. Strickling Scholarship. Through the bequest of the late Mrs. Beulah B. Strickling, $5000 has been given to the School of Medicine for scholarships.
W. K. Kellogg Foundation Loan Fund. A generous gift has been made to this and other universities by the W. K. Kellogg Foundation to provide financial assistance to well-qualified medical students in need of such aid. A limited number of loans are available from this fund.

The G. H. Reinhardt Memorial Scholarship Fund. Through the bequest of G. H. Reinhardt, an amount of not more than $400 each year is available to deserving students during their second year. No more than $100 shall be loaned to any one student. The loans are granted by the Chancellor on the recommendation of the Dean.

The Teamsters Labor-Management Charitable Foundation Scholarship Fund of $1,500 is available for scholarships in the School of Medicine. The scholarships are awarded by the Chancellor on the recommendation of the Dean.

Joseph H. Scharf Scholarship. Through the bequest of Dr. Joseph H. Scharf, the annual income from $2,418.72 is available for scholarships for worthy and needy students in the School of Medicine. The scholarships are awarded by the Chancellor on the recommendation of the Dean.

A corner of the current reading room of the Library where the most recent numbers of the medical journals received are readily available.
THE THOMAS W. AND ELIZABETH J. RUCKER SCHOLARSHIPS. Through the bequest of Eugenia I. Rucker, the income from the Thomas W. and Elizabeth J. Rucker Scholarship Endowment of $81,234.70 provides scholarships for students in the School of Medicine.

THE ISABEL VALLE BROOKINGS SCHOLARSHIP AND LOAN FUND. Through the gift of Isabel Valle Brookings (Mrs. Robert S.), the income from this fund of $25,500 is available for scholarships and loans in the School of Medicine.

THE ALEXANDER AND GERTRUDE BERG FELLOWSHIP. Through the bequest of the late Mrs. Gertrude Berg, $40,000 has been given to the School of Medicine to establish an endowment fund for a fellowship in the Department of Microbiology.

THE BERTHA REINHARDT GREEN MEMORIAL FUND. Through the bequest of the late Mrs. Bertha Reinhardt Green, $5000 has been given to the School of Medicine for a loan fund in Occupational and Recreational Therapy.

THE GEORGE W. MERCK MEMORIAL LOAN FUND. Through the gift of the Merck Company Foundation, $20,000 is available as a loan fund to encourage deserving interns and residents to seek the best possible postgraduate training.

STUDENT ASSISTANTSHIPS are available in a number of departments in the School. Information may be obtained from the heads of the departments concerned.

Applications for all fellowships, scholarships, and assistantships may be made to the Dean. The awards are made by the Chancellor on the recommendation of the Dean.

PRIZES

GEORGE F. GILL PRIZES:

1. One prize of fifty dollars is awarded at the end of the first year to the member of the class who has demonstrated superior scholarship in anatomical work.

2. One prize of fifty dollars is awarded to a member of the graduating class, of high general standing, who has shown especially good scholarship in the Department of Pediatrics.

THE KEHAR S. CHOUKE PRIZE of fifty dollars is awarded at the end of the first year to a medical student who has demonstrated superior scholarship in anatomical work.

 ALPHA OMEGA ALPHA FRATERNITY PRIZE is awarded at the end of the fourth year to the member of that class who has made the highest average for the entire medical course.

 ALPHA OMEGA ALPHA FRATERNITY PRIZE FOR STUDENT RESEARCH amounting to $25 is awarded to the student who submits the best thesis on a research problem.

 THE ALEXANDER BERG PRIZE of one hundred dollars is awarded to a student of high general standing who presents the best results in research in bacteriology.

 THE BIOCHEMISTRY PRIZE is awarded at the end of the first year to the member of the class who has demonstrated superior scholarship in biochemical work.

 THE JAMES HENRY YALEM PRIZE IN DERMATOLOGY, established through the generosity of Mr. Charles Yalem, is awarded annually to a member of the senior class for outstanding work in dermatology.
LECTURESHPES

THE PRIZE FUND OF THE MEDICAL FUND SOCIETY:

1. One prize of one hundred dollars is awarded annually to the student of the senior class who shall in the opinion of the faculty have excelled in the study of internal medicine, provided, however, that no student shall be eligible for this prize who has not been a bonafide student of medicine in the School of Medicine of Washington University for the full junior and senior years.

2. One prize of one hundred dollars is awarded annually to that student of the senior class who shall in the opinion of the faculty have excelled in the study of surgery, provided, however, that no student shall be eligible for this prize who has not been a bonafide student of medicine in the School of Medicine of Washington University for the full junior and senior years.

It is stipulated that no individual shall be eligible for both prizes.

THE HOWARD A. McCORDOCK BOOK PRIZE is awarded at the end of the second year to a member of that class for general excellence in pathology.

THE SIDNEY I. SCHWAB BOOK PRIZES are awarded at the end of the fourth year to members of that class for general excellence in neurology and psychiatry.

THE NU SIGMA NU AWARDS of twenty-five dollars each are awarded to the outstanding member of the first- and second-year classes.

THE BORDEN UNDERGRADUATE RESEARCH AWARD of five hundred dollars is awarded to that member of the graduating class who, during any year while enrolled in the School, has carried out the most meritorious undergraduate research.

THE MISSOURI STATE MEDICAL ASSOCIATION AWARD of a scroll and a $100 U. S. Savings Bond is presented annually to an honor graduate of the senior class.

THE ROCHE AWARD of a scroll and a gold wrist watch is presented at the end of the second year to the student who best exemplifies the ideals of the modern American physician.

THE C. V. MOSBY COMPANY BOOK AWARDS are made to five members of the graduating class for high general scholastic standing and research achievement.

LECTURESHPES

The Mu Chapter of the Phi Beta Pi fraternity established an annual lectureship in honor of the late Dr. Leo Loeb.

The Alumni of the School have established a Robert J. Terry Lectureship Fund "for the purpose of fostering greater appreciation of the study of human anatomy in relation to the teaching and practice of medicine" in honor of Dr. Robert J. Terry, Professor Emeritus of Anatomy.

Friends of the late Dr. Major G. Seelig and Mrs. Seelig have established an annual lectureship or fellowship in their honor.

A lectureship honoring Dr. George H. Bishop has been established by his friends.

Friends of the late Dr. Philip A. Shaffer have established a lectureship in his honor.
The Spencer T. Olin Residence Hall for medical students

Surgery
A panoramic view of the Washington University Medical Center showing the buildings of the school and the affiliated hospitals. The view is from adjacent Forest Park.
The anatomical sciences are presented in two required courses (gross anatomy, microscopic anatomy). These are supplemented by clinical demonstrations supervised by members of other departments. Emphasis is placed upon the biological relationships of morphology to other disciplines of medical science. Lectures, demonstrations, and laboratory teaching are all used to call attention to the results of recent investigations and to acquaint students with the current literature. There are facilities for special work in gross anatomy, physical anthropology, embryology, neuroanatomy, cytology, histochemistry and electron microscopy.

Professor and Head of Department
ANATOMY

Professors
Walter Page Covell, B.S., Oregon State College, 1922; M.S., 1923; Ph.D., University of Minnesota, 1926; M.D., University of Chicago, 1933. (See Department of Otolaryngology.)
Jack Davies, B.Sc., Leeds University Medical School, 1941; M.B.Ch.B., 1944; M.D., 1948; M.D., University of Iowa, 1943; M.A. (hon.), Cambridge University, 1947.
Mildred Trotter, A.B., Mt. Holyoke College, 1920; M.S., Washington University, 1921; Ph.D., 1924; Sc.D. (hon.), Western College, 1956. (See Department of Radiology.)

Professors Emeriti
Edmund Vincent Cowdry, A.B., University of Toronto, 1909; Ph.D., University of Chicago, 1912.
Robert James Terry, M.D., Missouri Medical College, 1895; A.B., Washington University, 1901; LL.D. (Hon.), 1956.

Associate Professors
Estelle Brodman (Medical History in Anatomy), A.B., Cornell University, 1935; B.S., Columbia University, 1936; M.S., 1943; Ph.D., 1953.
Cecil Marvin Charles, A.B., University of Kentucky, 1926; M.S., 1927; Ph.D., Washington University, 1929; M.D., 1933. (See Department of Medicine.)
Sarah A. Luse, A.B., Rockford College, 1940; M.D., Western Reserve University, 1949. (See Department of Pathology.)
Keith C. Richardson, B.Sc., University of Western Australia, 1926; M.Sc., 1927.

Associate Professor Emeritus
Valentina Suntzeff, M.D., Women’s Medical Institute (Petrograd, Russia), 1917. (Also holds title of Lecturer.)

Assistant Professors
A. Duncan Chiquoine, A.B., Swarthmore College, 1947; Ph.D., Cornell University, 1952.
Sam L. Clark, Jr., M.D., Harvard University, 1949. (Also U.S.P.H.S. Senior Research Fellow.)
Lorraine Lake, B.S., Washington University, 1950; M.A., 1954. (See Department of Physical Therapy and Preventive Medicine.)
Roy Reed Peterson, A.B., University of Kansas, 1948; Ph.D., 1952.

Instructor
Bryce L. Munger, M.D., Washington University, 1958.

Consultant
Hugh Monroe Wilson (Radiology), B.A., Illinois College, 1924; M.D., Washington University, 1927; M.A. (hon.), Yale University, 1945. (See Department of Radiology.)

Research Assistants
Oliver H. Duggins, B.S., Northwestern University, 1934; M.S., 1936; Ph.D., Washington University, 1953.
Helen B. Ferguson, A.B., Ohio State University, 1940.
Lydia E. Thomas, B.S. in Nursing, Simmons College, 1957.

First Year
10 (501 and 502). Gross Anatomy. Each student shares a cadaver with one partner and so dissects one-half of the human body. An extensive collection of dissected specimens is housed in the dissecting rooms so that students may easily compare their dissections with museum specimens. X-ray equipment and films are used to comple-

Note—The numbers in parentheses indicate that the course carries credit in the Graduate School of Arts and Sciences and may be found under that number in the Bulletin of that school.

47
moment the current dissections; cine-radiographs are presented regularly; and a collection of radiographs is loaned to each student. Fresh organs are provided for demonstration and dissection at approximate times. Special attention is given to surface anatomy. Students examine each other and are encouraged to learn as much as possible from the living subjects. Occasional attendance at autopsies is recommended. Frequent discussions are held with small groups of students. 336 hours.

(Drs. Trotter, Charles, Chiquoine, Davies)

11 (506 and 507). Microscopic Anatomy. Each student is required to have his own microscope, and is loaned a collection of prepared slides which he can study either at home or in the laboratory. He is also loaned a collection of electron micrographs which supplements the histological preparations. Fresh tissues are frequently used in the laboratory, and are especially valuable for determining some of the histochemical reactions of cells. Demonstrations are regularly presented, in which material involving complex techniques can be made available. Frequent and extemporaneous conferences are made possible by the use of laboratories seating about twenty students.

The latter part of the course is devoted to a study of the central nervous system. The principal tracts and nuclei are discussed in lectures, studied in the laboratory by means of dissections, prepared slides, and photographs, and related to the functions of the nervous system by lectures, discussions, and demonstrations. As in histology, morphological structure is related to growth, development, chemical composition, and physiological functions. 282 hours.

(Drs. Dempsey, Richardson, Clark, Cohen, Peterson, Munger)

ELECTIVE COURSES

50. Topographical Anatomy. Laboratory study of topographical anatomy may be undertaken at any time during the year. Sections, museum preparations, and models are used as material. Hours to be arranged.

51. Dissection. Opportunities are offered at any time except August and September for students and physicians desiring to review the subject. Any of the following parts may be elected for study: head and neck, thorax and upper limb, abdomen and pelvis, lower limb. A fee will be charged, except for medical students who elect this for credit.

52. Advanced Work in Gross Anatomy, Histology, Cytology, Embryology, Neurology and Physical Anthropology. A study of the literature on certain selected problems accompanied by individual laboratory work. Hours to be arranged.

53. Research. Properly qualified individuals are encouraged to carry on research in the anatomical sciences. (See Bulletin of The Graduate School of Arts and Sciences.)

Note—The numbers in parentheses indicate that the course carries credit in the Graduate School of Arts and Sciences and may be found under that number in the Bulletin of that school.
Dr. Carl F. Cori, Nobel Laureate in Medicine discussing a problem with members of his staff in the Department of Biological Chemistry

DEPARTMENT OF BIOLOGICAL CHEMISTRY

The department offers a first-year course in biological chemistry for students of medicine and for students in the Graduate School of Arts and Sciences. Students of medicine, as well as graduate students, are afforded the opportunity to pursue research work under the direction of the staff. Facilities are provided for research on the preparation and properties of enzymes, the mechanism of their action, and on the metabolism of carbohydrates and proteins. Some summer research fellowships are offered to students of medicine.

Professor and Head of Department
Carl F. Cori, M.D., University of Prague, 1920; Sc.D., Yale University, 1946; Sc.D., Western Reserve University, 1946; Sc.D., Boston University, 1948; Sc.D., Cambridge University (England), 1949.

Professor
Sidney F. Velick, A.B., Wayne University, 1935; Ph.D., University of Michigan, 1938.
Associate Professors

David H. Brown, B.S., California Institute of Technology, 1942; Ph.D., 1948.
Robert K. Crane, B.S., Washington College, 1942; Ph.D., Harvard University, 1950.
George R. Drysdale, B.S., Birmingham-Southern College, 1948; M.S., University of Wisconsin, 1950; Ph.D., 1952.
Philipp Strittmatter, B.S., Juniata College, 1949; Ph.D., Harvard University, 1954.

Assistant Professors

Carl Frieden, B.A., Carleton College, 1951; Ph.D., University of Wisconsin, 1955.
Luis Glaser, B.A., University of Toronto, 1953; Ph.D., Washington University, 1956.
Ernst Helmreich, M.B., University of Munich, 1945; M.D., University of Erlangen, 1949.

Research Assistant Professors

Barbara Illingworth Brown, B.A., Smith College, 1946; Ph.D., Yale University, 1950.
Paul W. Preisler, B.S.Chem.E., Washington University, 1923; M.S., 1925; Ph.D., 1927; LL.B., St. Louis University, 1954.

Research Assistants

Kenneth A. Hawkins, B.S., State University of Iowa, 1943; M.S., 1944.
Carmelita Lowry, B.S., University of Illinois, 1944.

Fellow

Pinar Ozand, M.D., Ankara Medical School, 1956.

First Year

10 (503). Biological Chemistry. Lectures, conferences and laboratory work covering those portions of the subject which are of especial importance to the student of medicine. First year; first semester. 306 hours. Graduate student credit: 10 units; lectures only: 4 units.

Elective Courses

50 (504). Advanced Work. For graduate students. Hours and credit to be arranged.
51 (515). Research. For graduate students. Hours and credit to be arranged.
Dr. Sol Sherry, Professor of Medicine, demonstrates significant physical findings on a patient who is being presented to a clinical conference attended by junior and senior medical students, house staff and members of the medical faculty.

THE JOHN MILLIKEN DEPARTMENT OF MEDICINE

(The Department of Medicine includes Internal Medicine and Dermatology)

For the purposes of both teaching and research the Department of Medicine is divided into specialty divisions, under the following directors:

Arthritic Disease ........................................ Dr. Hagemann
Cardiovascular Disease ................................. Dr. J. Smith
Dermatology .............................................. Dr. Lane
Gastroenterology ........................................ Dr. M. Peterson
Hematology ................................................ Dr. Harrington
Hypertension ............................................. Dr. H. M. Perry
Immunology ................................................ Dr. Noah
Infectious Diseases ..................................... Dr. Harford
Malignant Disease ....................................... Dr. Reinhard
Metabolic Disease ....................................... Dr. Daughaday
Instruction in Medicine commences with the second trimester of the second year and continues throughout the third and fourth years of the curriculum. The teaching of the second year has two main objectives: first, the correlation of the basic sciences with the clinical aspects of disease, and second, training in the technical methods of physical examination and laboratory diagnosis. By the beginning of the third year the student is prepared for supervised clinical study of individual patients in the wards. The emphasis in the junior year is placed upon clinical diagnosis. In the final year each student acts for six weeks as clinical clerk in the wards of Barnes Hospital and also participates for twelve weeks in the co-ordinated outpatient clerkship under the supervision of the Department of Preventive Medicine. During his senior clinical clerkship he receives formal instruction in medical therapeutics.

Summer clerkships for which students may receive full credit are offered to juniors. Students electing these summer clerkships may complete in advance their required work in Medicine and thus gain additional elective or vacation time during the regular academic year.

**Busch Professor and Head of the Department**

**Professors**

Edward Humphrey Reinhard, A.B., Washington University, 1935; M.D., 1939. (See Department of Radiology.)

Robert Ely Shank (Preventive Medicine), A.B., Westminster College, 1935; M.D., Washington University, 1939. (See Department of Preventive Medicine.)

Sol Sherry, A.B., New York University, 1935; M.D., 1939.

**Professor (Clinical)**

Clinton Welsh Lane (Dermatology), A.B., St. Mary's College (Kansas), 1916; M.D., St. Louis University, 1921.

**Professors Emeriti (Clinical)**

Harry Louis Alexander, A.B., Williams College, 1910; M.D., Columbia University, 1914.

Richard S. Weiss (Dermatology), M.D., Washington University, 1909.

**Associate Professors**

William Hamilton Daughaday, A.B., Harvard University, 1940; M.D., 1943.

Albert B. Eisenstein, A.B., University of Missouri, 1941; M.D., Washington University, 1944. (See Department of Preventive Medicine.)

Carl Gayler Harford, A.B., Amherst College, 1928; M.D., Washington University, 1933.

William J. Harrington, M.D., Tufts Medical College, 1947.

B. V. Jager, A.B., Harvard University, 1934; M.D., 1938.

John Esben Kirk, M.D., University of Copenhagen, 1929. (See Gerontology.)

Lillian Recant, A.B., Hunter College, 1941; M.D., Columbia University, 1946. (See Department of Preventive Medicine.)

**Associate Professors (Clinical)**

Alfred Goldman, A.B., Washington University, 1916; M.D., 1920; M.S., 1922.
Cyril M. MacBryde, A.B., Washington University, 1926; M.D., Harvard University, 1930.
Edward Massie, A.B., Washington University, 1931; M.D., 1935.

Associate Professors Emeriti (Clinical)
Joseph W. Larimore, A.B., DePauw University, 1908; M.D., Washington University, 1913.
Drew W. Luten, A.B., University of Kentucky, 1901; M.D., Johns Hopkins University, 1911.
William H. Olmsted, B.S., Coe College, 1909; M.D., Johns Hopkins University, 1913.
Llewellyn Sale, M.D., Washington University, 1907.

Lecturer
Mary M. Lewis, A.B., University of Iowa, 1933; M.S.W., Washington University, 1946.

Assistant Professors
Neal S. Bricker (Established Investigator of the American Heart Association), A.B., University of Colorado, 1945; M.D., 1949.
Thomas Brittingham (National Institute of Arthritis and Metabolic Diseases Trainee) (Hematology), M.D., Harvard University, 1950.
Elmer B. Brown, Jr. (National Institute of Arthritis and Metabolic Diseases Trainee) (Hematology), A.B., Oberlin College, 1946; M.D., Washington University, 1950.

Eugene P. Weber (Dermatology), M.D., Northwestern University, 1940.
Alvin S. Wenneker, A.B., Washington University, 1949; M.D., 1953.
Herbert C. Wiegner, A.B., Washington University, 1940; M.D., 1943.
Harry W. Wiese, B.S., Washington University, 1920; M.D., 1922.
Edward B. Williams, Jr., M.D., Meharry Medical College, 1944.
Dorothy Windhorst (Dermatology), M.D., University of Chicago, 1954.
Herbert B. Zimmerman, M.D., Washington University, 1951.

Instructors Emeriti (Clinical)
Anthony B. Day, B.S., Harvard University, 1913; M.D., Washington University, 1919.
George Manting (Dermatology), M.D., University of Michigan, 1915.

Assistants
Werner Barth, B.A., Columbia University, 1956; M.D., Yeshiva University, 1960.
James H. Blair, Jr., M.D., University of North Carolina, 1961.
Floyd E. Bloom, B.S., Southern Methodist University, 1956; M.D., Washington University, 1960.
Arlan P. Cohn, M.D., University of Iowa, 1956.
Josephine Davis, R.N.
Kenneth Ferguson, M.D., University of Florida, 1961.
Marjorie E. Fisher, B.S., Wake Forest College, 1957; M.D., Bowman Gray School of Medicine, 1961.
Marvin A. Freid, B.A., Southern Methodist University, 1957; M.D., University of Texas, 1961.
Anthony A. Gottlieb, M.D., University of Chicago, 1961.
Rodolfo Guillen, M.D., Far Eastern University, 1957.
Patrick J. Hardy, M.D., St. Louis University, 1960.
Henry Kamenacka, M.D., Albert Einstein University, 1960.
Charles M. Kantrow, Jr., M.D., Louisiana State University, 1961.
Joseph H. Keffer, B.S., Villanova University, 1957; M.D., Georgetown University, 1961.
Robert E. Kleiger, B.A., Yale University, 1956; M.D., Harvard University, 1960.
Leslie N. Klevay, M.D., University of Wisconsin, 1960.
Curtis J. Kroek, B.A., Stanford University, 1957; M.D., Johns Hopkins University, 1961.
George Bruce Lemmon, A.B., Dartmouth College, 1938; M.D., Washington University, 1941.
Douglas Lilly, A.B., Princeton University, 1952; M.D., Washington University, 1956.
J. Russell Little, Jr., A.B., Cornell University, 1952; M.D., University of Rochester, 1956.

57
John Maesaka, B.A., Harvard University, 1957; M.D., Boston University, 1961.
Hiroshi Matsuo, M.D., University of Tokyo, 1960.
Read F. McGehee, Jr., B.S., Davidson College, 1957; M.D., Medical College of Virginia, 1961.
John L. Montgomery, Jr., M.D., University of Tennessee, 1960.
John A. Nickell, Jr., A.B., Oklahoma Baptist University, 1957; M.D., Baylor University, 1961.
Margaret O'Connell, R.N.
Robert Packman, A.B., Washington University, 1953; B.S. in Medicine, University of Missouri, 1954; M.D., Washington University, 1956.
Gerald F. Peppers, B.S., South Dakota State College, 1953; B.S. in Medicine, University of South Dakota, 1957; M.D., Washington University, 1959.
Herbert Rakatansky, A.B., Brown University, 1956; M.D., Tufts University, 1960.
Max Robinowitz, B.S., Georgetown University, 1957; M.D., 1961.
Martin C. Robinson, B.S., McGill University, 1953; M.D., University of Manitoba, 1958.
James A. Rose, A.B., Dartmouth College, 1953; M.D., Harvard University, 1956.
Ellisore Tabbert, R.N.
Marjorie Tittsworth, R.N.
Myrtle Tooley, R.N.
Robert VanCleve, A.B., Princeton University, 1951; M.D., Columbia University, 1958.
Morris Weiss, M.D., University of Louisville, 1958.
Rae Ziern, R.N.

Research Assistants
Mary Chapman Johnson, A.B., Washington University, 1938.
Victoria Kirchoff.
Jasper P. Lewis, B.A., University of Virginia, 1946; M.S., University of Louisville, 1958.
Ida Kozak Mariz, A.B., Washington University, 1940.
Anicee A. Yunice, B.A., American University of Beirut, 1948; M.S., Wayne State University, 1958.

Assistants (Clinical)
Jean Chapman, B.S., Southeast Missouri State College, 1950; A.M., University of Missouri, 1951; M.D., Washington University, 1953.
Irwin H. Eakeles (Dermatology), B.S., Washington University 1920; M.D., 1922.
Albert F. Fricke, S.B., University of Chicago, 1939; M.D., 1941.
Austin F. Montgomery, M.D., University of Pittsburgh, 1954.
Robert F. Owen, B.A., Princeton University, 1948; M.D., Yale University, 1952.

Fellows and Trainees

Umit T. Aker (U.S. Public Health Service Trainee), M.D., University of Istanbul, 1954.
Michiyasu Awai (U.S. Public Health Service Trainee), B.S., Osaka College, 1948; M.D., Okayama University, 1953; Ph.D., 1959.
Fedor Bachmann (U.S. Public Health Service Trainee), M.D., University of Zurich, 1953.
Angelos Caloyeropoulos (U.S. Public Health Service Trainee), M.D., University of Salonika, 1955.
George Wesley Campbell, B.S., Wofford College, 1954; M.D., Medical College of South Carolina, 1958.
Duane E. Cozart (St. Louis Heart Association Fellow), A.B., Washington University, 1949; M.D., Medical College of Virginia, 1959.
Alinaaghi Farrokh (U.S. Public Health Service Trainee), M.D., University of Tehran, 1956.
Harry A. Fozzard (U.S. Public Health Service Trainee), M.D., Washington University, 1956.
Mark J. Halloran (American Cancer Society Clinical Fellow), M.D., Marquette University, 1959.
Samuel Hardy, M.D., St. Louis University, 1958.
Robert Hume (U.S. Public Health Service Trainee), M.B., Ch.B., Glasgow University, 1953.
Dominic Moore-Jones (U.S. Public Health Service Trainee), M.D., National University of Ireland, 1957.
Simon Karpatkin (U.S. Public Health Service Trainee), B.S., Brooklyn College, 1954; M.D., New York University, 1958.
Philip Dib Khuri (Hematology), B.A., American University of Beirut, 1952; M.D., 1956.
Gordon Newton (National Cancer Institute Trainee), M.D., University of Arkansas, 1958.
Zbigniew Benedykt Olsowski (U.S. Public Health Service Trainee), M.D., University of Lodz, 1951.
Faruk L. Ozer (U.S. Public Health Service Trainee), M.D., University of Istanbul, 1947.
James Edward Parrish (U.S. Public Health Service Trainee), B.S., Duquesne University, 1953; M.D., St. Louis University, 1957.
Reginald P. Pugh (U.S. Public Health Service Trainee), M.D., University of Michigan, 1955.
Dorothy Clara Rasinski (U.S. Public Health Service Trainee), A.B. Cornell University, 1949; LL.B., 1951; M.D., University of Buffalo, 1959.
Venugopala Reddy (U.S. Public Health Service Trainee), B.S., Central College of Bangalore, India, 1947; M.B.B.S., Mysore Medical College, 1953; M.S., St. Louis University, 1959.
Alberto Francisco Restrepo (American College of Physicians and Kellogg Foundation Fellow), M.D., University of Antioquis, 1956.
Lee Chadwick Shine (St. Louis Heart Association Fellow), B.A., University of Kentucky, 1955; M.D., Vanderbilt University, 1959.
Martin Francis Stein (U.S. Public Health Service Trainee), M.D., St. Louis University, 1959.
Cornelis L. Voute (U.S. Public Health Service Trainee), M.D., University of Basel, 1956.
William E. C. Wilson (National Cancer Institute Trainee), M.D., C.M., Queen's University, 1958.
SECOND YEAR

CONJOINT MEDICINE

The several courses given by the clinical departments during the sophomore year have been placed under the supervision of a Committee on Conjoint Medicine in order that teaching might be co-ordinated effectively. Even though individual courses are listed in the catalogue under departmental headings, representatives of several departments participate in the presentation of material. For instance, clinical diagnosis (see under Medicine) is taught jointly by the Departments of Medicine, Psychiatry and Neurology, Obstetrics and Gynecology, Ophthalmology, Otolaryngology, Pediatrics, and Surgery. The number of hours allotted to each department in the conjoint courses is included in the listing of courses under the respective departmental headings. The following courses are included in this arrangement:

Medicine: Clinical Diagnosis
Applied Pathologic Physiology
Laboratory Methods of Diagnosis
Psychiatry and Neurology: Introductory Course on the Patient-Physician Relationship; Neurological Examination in Clinical Diagnosis
Obstetrics and Gynecology: Introduction to Obstetrics
Ophthalmology: Introduction to Ophthalmology
Otolaryngology and Clinical Diagnosis
Pediatrics: Introduction to Pediatrics
Surgery: Introduction to Surgery

William J. Harrington

(a) Pathologic Physiology. Observation and interpretation of the symptoms and signs of disease, with special reference to pathologic physiology. Part of Conjoint Medicine. 30 hours.
(Dr. Moore and Staff)
(b) Clinical Diagnosis. Lectures, demonstrations, and practical exercises in the technique of clinical diagnosis. Part of Conjoint Medicine. 144 hours.
(Drs. Garfinkel, Smith, and Staff)
(c) Laboratory Methods of Diagnosis. Lectures and laboratory course in microscopic, bacteriological, serological, and chemical methods of diagnosis. Part of Conjoint Medicine. 144 hours.
(Dr. Harrington and Staff)
(d) Parasitology. Lectures, demonstrations, and laboratory exercises. 36 hours.
(Dr. H. Tsuchiya)

THIRD YEAR

30. General Medicine. Supervised Study of Patients on the Semi-Private Medical Service of the Barnes Hospital and on the Wards of St. Louis City Hospital and the Veterans Administration Hospital. Students are assigned in rotation as clinical clerks.
to the patients admitted to these services. Teaching exercises include ward rounds, clinics, and afternoon work in the wards and laboratories. Students serve for six weeks on each of the two services. 408 hours. (Drs. Reinhard, Jager, Lange, Brittingham, Danforth, Paine, W. Perry, J. Berry, and Staff)

31. Clinical Pathological Conference. 36 hours. (See under Fourth Year—Medicine 42.)

32. Medical Clinics. 36 hours. (See under Fourth Year—Medicine 41.)

FOURTH YEAR

40. Medicine.

(a) Clinical Clerkship in Hospital Wards. For six weeks the entire day is spent in the medical wards at Barnes Hospital. Patients are assigned for complete study and are followed throughout their stay in the hospital. Cases are presented by the student before the attending physician at ward rounds on the General Medical Wards three times a week, and on the Neurology Service once a week. Special therapeutic conferences are held three times a week with the Medical Resident. The students also attend weekly Staff Rounds, X-ray conferences, and Clinicopathological conferences. 198 hours. (Drs. Moore, Sherry, and Staff)

(b) Clinical Clerkship in Washington University Clinics. Part of Co-ordinated Clerkship in Outpatient Medicine under supervision of Department of Preventive Medicine. Students act as clinic physicians for twelve weeks under the supervision of consultants from the Department of Medicine in the following outpatient clinics:

General Medical Clinics (Medicine A and B). Three mornings a week for six weeks and two mornings a week for six weeks. 90 hours. (Drs. Shank, Reichlin, Brooks, and Staff)

Dermatology Clinic. One afternoon a week for six weeks. 18 hours. (Dr. Lane and Staff)

41. Medical Clinics. Cases which have been studied by students working in the wards of the Barnes Hospital are presented before the third- and fourth-year classes to illustrate medical problems of particular interest. One hour a week throughout the year. 36 hours. (Dr. Moore and Staff)

42. Clinical Pathological Conferences. Abstracts of the clinical records of patients upon whom post-mortem examinations have been performed are presented in advance to members of the third- and fourth-year classes and to members of the medical staff. At each conference the diagnosis is discussed in detail by the clinical staff before the anatomical findings are presented by the pathologists. 36 hours. (Dr. Reinhard and Medical Staff; Dr. Hartroft and Pathology Staff)
**ELECTIVE COURSES**

50. **Student Internship, Private Medical Service, Barnes Hospital.** One senior student. Six or twelve weeks. Student will serve as substitute intern on Private Medical Service.  
   (Drs. Reinhard, W. Perry, and Staff)

51. **Student Internship, Ward Medical Service, Barnes Hospital.** One senior student. Six or twelve weeks. Student will serve as substitute intern on Ward Medical Service.  
   (Drs. C. Moore, S. Sherry, and Staff)

52. **Student Internship, Washington University Service of the St. Louis City Hospital.** Two senior students. Six or twelve weeks. Students will serve as interns on the Unit I Medical Service.  
   (Drs. Brittingham, Paine, Berry, and Staff)

53. **Student Internship at the St. Louis Veterans Hospital—Washington University Service.** Six students. Six or twelve weeks, morning and afternoon. The medical service has been divided equally between the two medical schools in St. Louis to provide about 80 beds each. The full-time and part-time staff members plus the consultants and attending men on the Washington University service are prepared to offer highly individualized instruction.  
   (Drs. Jager, Lange, Danforth, O. Abel, and Staff)

54. **Student Internship, Medical Service of the Jewish Hospital.** Two students. Six or twelve weeks. Students will serve as substitute interns on the Ward Service. Time will be provided for attendance at Medical School conferences.  
   (Dr. Eisenstein and Staff)

55. **Medical Clerkships at Homer Phillips Hospital.** Six students. Morning only for six weeks. Attendance at ward rounds and conferences. Students will be given an opportunity to study selected patients admitted to the medical wards.  
   (Drs. Williams, Rosecan, and Staff)

56. **Medical Specialty Clinics.** Four students. Afternoons, six weeks. Gastrointestinal (Monday), Allergy (Tuesday), Arthritic or Rheumatic (Wednesday), and Endocrine (Thursday).  
   (Drs. Brooks, Daughaday, Hagemann, Hampton, Harrington, Scheff)

Work in other medical specialty clinics, including cardiovascular (cardiac, hypertension, peripheral vascular), chest, endocrine (a.m.), hematology, and liver may be arranged individually with the physician in charge of each clinic.

57. **Diseases of the Chest. Koch Hospital.** Four students. All day for six weeks. Individual training in the clinical examination of patients suffering from thoracic disease. Assignment of selected cases. Discussion and demonstration of therapeutic procedures. Attendance at staff conferences and Clinical Pathological Conferences at Koch Hospital.  
   (Dr. Friedman)

58. **Metabolic Diseases.** Two students. All day for six weeks. Rounds with metabolism consultant on the wards of the Barnes Hospital and attendance at Diabetic and
Endocrine Clinics in the Washington University Clinics. Training in special diagnostic tests applicable to the study of metabolic and endocrine diseases. (Dr. Daughaday)

59. Infectious Diseases. Two students. Six or twelve weeks. Study of infectious diseases both from clinical and from basic points of view. Participation in rounds, conferences, and seminars. (Drs. Harford, King)

60. Hematology. One or two senior students may be accepted each trimester for special work in the Hematology Laboratory. Time is divided between study of patients with hematologic dyscrasias and training in special diagnostic procedure. (Drs. Harford, King)

61. Cardiology. Seven students. All day for six weeks. The elective course in cardiovascular disease is offered every six weeks of each trimester. The course includes intensive training in the diagnosis and treatment of cardiovascular disorders, demonstrations in cardiovascular physiology, and instruction in electrocardiographic and roentgenographic diagnosis. The clinical instruction is carried out at the Homer G. Phillips Hospital and is supplemented by conferences and round table discussions. (Dr. J. Smith and Staff)

62. Rotating Student Internship, St. Luke's Hospital. One senior student. Six weeks. Students will serve as interns on medical, surgical, or obstetrical service. For medical service, apply to Dr. Paul O. Hagemann.

63. Pulmonary Diseases. One or two senior students may be accepted for special training in technics applied to study of pulmonary function and disease. (Dr. Kilburn and Staff)

64. Research. Interested senior students are encouraged to participate in the clinical and laboratory research programs of the Department of Medicine. Each applicant should arrange his schedule so that he can devote at least twelve consecutive weeks to his research elective. Positions available will include the following:
- Cardiovascular Disease—Drs. J. Smith, B. Parker
- Clinical Investigation—Drs. S. Sherry, A. Fletcher
- Gastroenterology—Dr. M. Peterson (after January 1, 1962)
- Hematology—Drs. Harrington, Brown, Chaplin, Brittingham, C. Moore, Reinhard
- Hypertension—Dr. H. M. Perry
- Infectious Diseases—Drs. Harford, King
- Malignant Disease—Drs. Loeb, Reinhard
- Metabolic Disease—Drs. Daughaday, Recant, Eisenstein, Kipnis, E. Reiss
- Neuroendocrinology—Dr. Reichlin
- Nutrition—Drs. Shank, Eisenstein
- Psychosomatic Disease—Dr. Guze
- Pulmonary Diseases—Dr. K. Kilburn
- Renal Disease—Dr. Bricker

Arrangements for these research electives should be made directly with the faculty member with whom the student wishes to work.

63
Professor and Head of Department
Herman Nathaniel Eisen, A.B., New York University, 1939; M.D., 1943.

Professor
Jack Strominger, A.B., Harvard University, 1946; M.D., Yale University, 1948. (See Department of Pharmacology.)

Assistant Professor
Milton Kern, B.S., Brooklyn College, 1949; Ph.D., Yale University, 1954.

Instructor
David Epperson Kennell, A.B., University of California, 1955; Ph.D., 1959.

Research Instructors
Kengo Horibata, M.C.E., Hiroshima Technical College (Japan), 1945; Ph.D., Kyoto University (Japan), 1961.
Ernest S. Simms.
**Research Fellows**

Natalie Aronson, A.B., Hunter College, 1942; M.D., New York University, 1947. (See Department of Pediatrics.)

Cynthia Lark, B.S., Mt. Holyoke College, 1950; Ph.D., St. Louis University, 1961.

P. Franklin Mullinax, Jr. (Helen Hay Whitney Foundation Fellow), A.B., Duke University, 1951; M.D., Medical College of Virginia, 1955.

Charles Ward Parker (U.S. Public Health Service Special Research Fellow), M.D., Washington University, 1953. (See Department of Medicine.)

**Second Year**

20 (531). *Microbiology*. Lectures and laboratory. This course will present the basic principles relating to the metabolism, growth, and reproduction of microorganisms and to the immune responses of the host to pathogenic microorganisms and their metabolic products. The organization of the course is as follows: pure culture methodology, biochemical mechanisms of nutrition and intermediary metabolism, physiology of growth, fundamental genetics (with special emphasis on microbial aspects), immunology. In terms of the above concepts, specific groups of pathogenic organisms will then be considered: viruses, rickettsia, bacteria and fungi. The interaction between host and parasite will be studied by analyzing the biochemical basis for the pathogenicity of the microbe and for the immune reaction of man. The factors which make microorganisms vulnerable or resistant to chemotherapeutic agents will also be examined. 252 hours.
Dr. Willard M. Allen, Professor of Obstetrics and Gynecology, and a fourth year student observe the induction of anesthesia in a patient being prepared for gynecologic surgery.

DEPARTMENT OF OBSTETRICS AND GYNECOLOGY

Students are given practical instruction in obstetrics and gynecology in the St. Louis Maternity Hospital, the Barnes Hospital, the Washington University Clinics, and also at the St. Louis City and Homer G. Phillips Hospitals. There are approximately 6,000 confinements annually which are available for the teaching of obstetrics on the ward services of the St. Louis Maternity, the St. Louis City, and the Homer G. Phillips Hospitals. Instruction in the care of ambulatory obstetrical and gynecological patients is carried out in the University Clinics, where about 1800 new patients are seen and about 20,000 follow-up visits are made annually. Instruction in gynecology is given in the University Clinics and on the wards of the St. Louis Maternity, the Barnes, and the Barnard Hospitals. There are approximately 2,000 admissions annually to the gynecological service, of which about one-fifth have malignant disease.
OBSTETRICS AND GYNECOLOGY

Professor and Head of the Department
Willard Myron Allen, B.S., Hobart College, 1926; M.S., University of Rochester, 1929; M.D., 1932; Sc.D. (hon.) Hobart College, 1940; Sc.D. (hon.) University of Rochester, 1957.

Professors (Clinical)
A. Norman Arneson, B.S., Texas Christian University, 1924; M.D., Washington University, 1928. (See Department of Radiology.)
John E. Hobbs, A.B., Southwest Missouri State Teachers College, 1923; M.D., Washington University, 1927.

Professor Emeritus (Clinical)
Grandison D. Royston, M.D., Washington University, 1907.

Associate Professors
William H. Masters, B.S., Hamilton College, 1938; M.D., University of Rochester, 1943.
Alfred I. Sherman, M.D., University of Toronto, 1944. (See Department of Radiology.)
Ralph B. Woolf, B.S., Massachusetts Institute of Technology, 1935; M.D., University of Rochester, 1939.

Associate Professors (Clinical)
F. P. McNalley, B.S., Washington University, 1915; M.D., 1917.
Melvin A. Roblee, B.S., Washington University, 1923; M.D., 1925.
Samuel D. Soule, M.D., Washington University, 1928.
Carl Reinhard Wegner, A.B., North Central College, 1922; M.D., University of Nebraska, 1926.

Research Assistant Professor
Matthew W. Noall (Biochemistry), B.A., University of Utah, 1948; M.A., 1949; Ph.D., 1952.

Assistant Professors (Clinical)
H. Marvin Camel, M.D., Creighton University, 1950.
Arthur T. Esslinger, M.D., Washington University, 1940.

Seymour Monat, A.B., University of Pennsylvania, 1935; M.D., Long Island College of Medicine, 1939.
Kevin Charles Morrin, M.B., B.Ch., National University of Ireland, 1921.
Richard S. Paddock, M.D., Washington University, 1921.
David Rothman, B.S., Washington University, 1935; M.D., 1935.
Willard C. Scrivner, B.S., Washington University, 1926; M.D., 1930.
William L. Smiley, A.B., Ohio State University, 1933; M.D., 1937.
Helman C. Wasserman, A.B., Johns Hopkins University, 1928; M.D., Washington University, 1932.
Seth E. Wissner, A.B., Washington University, 1942; M.D., 1945.
George J. L. Wulff Jr., A.B., Washington University, 1929; M.D., 1933.

Instructor

Instructors (Clinical)
Hubert L. Allen, A.B., University of Kansas, 1932; M.D., Tulane University, 1936.
Bryce H. Bondurant, A.B., Northeast Missouri State Teachers College, 1936; D.O., Kirksville College of Osteopathy and Surgery, 1940; M.D., Washington University, 1943.
Francis J. Canepa, M.D., Washington University, 1921.
Myron W. Davis, M.D., Washington University, 1925.
Leon Foster, M.D., University of Georgia, 1933.
Ira Clyde Gall, B.S., University of Cincinnati, 1948; M.D., 1951.
Charles R. Gulick, A.B., Central College, 1910; M.D., St. Louis University, 1913.
Herman Hutto, A.B., University of Alabama, 1932; M.D., Washington University, 1935.
Justin F. Kraner, M.D., University of Michigan, 1949.
Frank B. Long, Jr., M.D., Washington University, 1947.
Paul F. Max, B.S., Washington University, 1932; M.D., 1932.
Laurence E. Maze, M.D., Washington University, 1948.
Milton H. Meyerhardt, A.B., University of Missouri, 1925; M.D., St. Louis University, 1927.
Frank Andrew Morrison, B.S., University of Nebraska, 1935; M.D., 1936.
John B. O'Neill, B.S., St. Louis University, 1923; M.D., 1927.
James Pennoyer, B.S., Hobart College, 1933; M.D., University of Rochester, 1939.
Frances Helen Stewart, M.D., Washington University, 1927.
Alva C. Trueblood, Jr., A.B., Washington University, 1940; M.D., 1943.
Sol Weisman, A.B., Washington University, 1928; M.D., 1932.
Mitchell Yanow, M.D., Washington University, 1941.

Instructor Emeritus (Clinical)
Grover Bernard Liese, A.B., Real-Gymnasium, Cassel, Germany, 1910; M.D., University of Heidelberg (Germany), 1918.

Assistants
Lee M. Adams, A.B., Stanford University, 1953; M.D., 1956.
Volker Brandt, B.A., Upsala College, 1953; M.D., Cornell University, 1957.
Charles Morell Cargille, B.A., Bucknell University, 1956; M.D., Johns Hopkins University, 1961.

Robert H. Duemler, A.B., Washington University, 1952; M.D., 1956. (National Cancer Society Fellow.) (On leave of absence.)
Bill G. Floyd, M.D., University of Arkansas, 1956.
Jack S. Galloway, B.A., Cornell College, 1953; M.D., University of Iowa, 1957. (On leave of absence.)
Phillip Jan Goldstein, A.B., Washington University, 1956; M.D., St. Louis University, 1960.
Donald L. Grieme, M.D., University of Illinois, 1949.
Manzar Jabbari, M.D., University of Tehran (Iran), 1956.
Frederico G. Mariona, M.D., Buenos Aires Medical School, 1956.
John D. Moore, Jr., M.D., University of Tennessee, 1956.
Harry A. Raybuck, Jr., M.D., Medical College of Georgia, 1959.
Eugene Renzi, B.A., Cornell University, 1953; M.D., 1957. (On leave of absence.)
Alicia B. Rivera, M.D., University of the Philippines, 1958.
Mahfouz H. Rizk, M.B.B., Faculty of Medicine, Cairo University, 1955.
Abe G. Rodriguez, B.S., University of Houston, 1955; M.D., University of Texas, 1959.
James M. Sloan, A.B., Vanderbilt University, 1951; M.D., University of Arkansas, 1955.
Thomas Jefferson Whitaker, Jr., M.D., University of Arkansas, 1960.
Assistants (Clinical)

Ernest R. Friedrich, M.D., University of Heidelberg (Germany), 1954.
Gerald Newport, A.B., Washington University, 1948; M.D., 1953.
Grady W. Phillips, B.S., Howard College, 1939; M.D., Emory University, 1944.
Marvin Rennard, A.B., Washington University, 1947; M.D., 1952; B.S., University of Missouri, 1950; M.S., 1950.
Alexander Max Roter, A.B., University of Illinois, 1948; M.D., 1951.
James Sawyer, A.B., Ohio State University, 1949; M.D., 1951.
Melvin M. Schwartz, A.B., University of Nebraska, 1945; M.D., 1947.
Herman Taute, M.D., Philippus University (Marburg/Lahn, West Germany), 1954.

Willfred B. Weisbrod, M.D., University of Toronto, 1947.

Research Assistants

Samuel J. Hayward.
Virginia F. Johnson. (July 1 to Dec. 31, 1961.)

Fellows

France Alexander, A.B., Indiana University, 1950; M.D., 1953.
Seymour M. Freiman, A.B., Montana State University, 1951; M.D., Washington University, 1955. (Clinical Fellow.)
Girgis Mikhail, M.D., Alexandria University (Egypt), 1955. (On leave of absence.)
Dan C. Mills, B.S., La Sierra College, 1947; M.D., College of Medical Evangelists, 1951. (Clinical Fellow.) (Jan. 1 to Dec. 30, 1961.)
Carol F. Williams, B.A., University of Tennessee, 1952; M.D., 1955. (American Cancer Society Advanced Clinical Fellow.)

SECOND YEAR

20. Introduction to Obstetrics. Instruction is given to small groups of students in the University Clinics. (Part of Conjoint Medicine. See page 60.)

(Doctor Woolf and Staff)

THIRD YEAR

30. Obstetrical and Gynecological Pathology. One session of three hours each is used for lectures and study of representative slides (in sections of one-third of the class). 36 hours.

31. Clinical Clerkship. Students spend six weeks on the obstetrical and gynecological wards of the St. Louis Maternity, Barnes, and Barnard Hospitals, where they become an integral part of the organization studying cases in detail and assisting at operations and deliveries. During this period they are also given instruction in abdominal palpation, pelvic examination, and measurement of the pelvis. Numerous informal lectures are given by various members of the attending staff.
FOURTH YEAR

40. Clinics and Lectures. Entire class each second week throughout the year. (Dr. Allen and Staff)

18 hours.

41. Co-ordinated Outpatient Clerkship. During this period of twelve weeks students divide their time between various outpatient departments. New obstetrical and gynecological patients in the clinics are examined by the students and the diagnosis and treatment discussed by members of the attending staff. (Dr. Woolf and Staff)

42. Obstetrical Service. One-twelfth of the class spends three weeks on obstetrical call. Some students work at the St. Louis Maternity Hospital and others at the St. Louis City and Homer G. Phillips Hospitals. During this period normal multiparous patients are delivered by the students under the supervision of the house staff.

43. Tumor Service. Instruction in the diagnosis and treatment of neoplastic disease is given three hours once weekly in the tumor clinic for a period of six weeks. Informal lectures covering the use of X-ray, radium, and radio isotopes are given. (Dr. Sherman and Staff)

ELECTIVE COURSES

50. Gynecological Pathology. Two students at a time may serve as assistants in the laboratory. Six weeks, full time, all trimesters. (Dr. Hobbs)

51. University Clinics. Three students at a time may serve as clinical clerks, all day for six weeks.

52. Obstetrical Services. One or two students may serve as clinical clerks, living in the hospital for six weeks.

53. Maternal Health. All students are urged to attend the Planned Parenthood Clinic, where practical instruction is given in the practical aspects of family planning. This course is given in the evening at the local offices of the Planned Parenthood Association.
DEPARTMENT OF OPHTHALMOLOGY

The instruction in the Department of Ophthalmology begins in the second year with methods of examination of the eye. Emphasis is placed on the use of the ophthalmoscope in the first three-hour session. Three additional two-hour sessions are devoted to other methods of examination.

During the junior year a series of twelve didactic lectures is given as an introduction to various aspects of ocular disease.

During the fourth year, students are assigned to the Eye Clinic once a week for six weeks. This affords opportunity for work with patients under supervision.

Professor and Head of the Department
Bernard Becker, A.B., Princeton University, 1941; M.D., Harvard University, 1944.

Professors Emeriti (Clinical)
Martin Hayward Post, A.B., Amherst College, 1908; M.D., Johns Hopkins University, 1912.
Meyer Wiener, M.D., Missouri Medical College, 1896.

Associate Professor
Marguerite A. Constant (Biochemistry), B.S., George Washington University, 1947; Ph.D., University of Wisconsin, 1951.
Associate Professors (Clinical)

Paul A. Cibis, M.D., University of Berlin, 1936; M.D., University of Heidelberg, 1944.
Howard Rommel Hildreth, M.D., Washington University, 1928.
William Mahlon James, B.S., Drury College, 1923; M.D., Washington University, 1926.
Theodore Eugene Sanders, B.S., University of Nebraska, 1931; M.D., 1933.

Associate Professors Emeriti (Clinical)

Bennett Young Alvis, B.S., St. Louis University, 1916; M.D., 1918.
Frederick Oscar Schwartz, M.D., Washington University, 1910.
Frederick Eno Woodruff, M.D., Missouri Medical College, 1897; A.B., Washington University, 1923.

Research Assistant Professors

Jay M. Enoch, B.S., Columbia University, 1950; Ph.D., Ohio State University, 1956.
Bernard Wortman, A.B., Syracuse University, 1948; Ph.D., Ohio State University, 1955.

Assistant Professors

James E. Miller, M.D., Medical College of Alabama, 1949.
Robert A. Moses, A.B., Johns Hopkins University; M.D., University of Maryland School of Medicine, 1942.

Assistant Professors (Clinical)

Edmund B. Alvis, M.D., Washington University, 1934.
Leslie C. Drews, A.B., Washington University, 1927; M.D., 1929.
Adolph Charles Lange, B.S., Washington University, 1928; M.D., 1930.
Benjamin Milder, M.D., Washington University, 1939.
Harry David Rosenbaum, M.D., Washington University, 1934.

Instructors

Samuel A. Canaan, Jr. (National Institutes of Health Special Fellow), A.B., University of Iowa, 1942; M.A., Columbia University, 1948; M.D., Meharry Medical College, 1954. (Effective until March 31, 1962.)
Max Forbes (National Institute of Neurological Diseases and Blindness Special Fellow), A.B., Cornell University, 1951; M.D., University of Chicago, 1957.
Andrew J. Gay, B.S., University of Alabama, 1950; M.A., 1954; M.D., Medical College of Alabama, 1955. (Also Neurology.)
Kurt Hahn, M.D., University of Kiel (Germany), 1950.
Thomas H. Pettit (National Institute of Neurological Diseases and Blindness Special Fellow), M.D., University of Pennsylvania, 1956.

Instructors (Clinical)

Daniel Bisno, B.A., University of Wisconsin, 1927; M.D., Johns Hopkins University, 1931.
James Howard Bryan, A.B., Washington University, 1932; M.D., 1936.
Ruth Schreiber Freedman, A.B., Washington University, 1938; M.D., 1942.
David Merrill Freeman, A.B., University of Missouri, 1940; B.S. in Medicine, 1941; M.D., Washington University, 1943.
S. Albert Hanser, B.S., St. Louis University, 1933; M.D., 1937.
Jack Hartstein, B.S., University of Missouri, 1953; M.D., University of Cincinnati, 1955.
Lawrence T. Post, Jr., M.D., Washington University, 1948.
Maxwell Rachlin, M.D., University of Ontario, 1942.
Philip T. Shahan, A.B., Harvard University, 1938; M.D., Washington University, 1942.
Arthur W. Stickle, Jr., M.D., University of Oklahoma, 1943.

Howard P. Venable, B.S., Wayne State University, 1935; M.D., 1940.

Assistants

Stan Coleman (National Institute of Neurological Diseases and Blindness Fellow), B.A., University of Virginia, 1954; M.D., 1958.

Harry Eason (National Institute of Neurological Diseases and Blindness Fellow), B.A., University of Michigan, 1954; M.D., 1958.

Melvin Freeman, B.S., University of Washington, 1957; M.D., 1960.

Thomas Hansen, B.A., University of Chicago, 1956; M.D., Harvard University, 1960.

Donald Konicoff, M.D., New York Medical College, 1958.

William A. Moor, A.B., Washington University, 1935.

Edward Okun (National Institute of Neurological Diseases and Blindness Special Fellow), M.D., University of Vermont, 1956.

Allen Parelman (National Institute of Neurological Diseases and Blindness Fellow), A.B., Washington University, 1955; M.D., 1959.

Rufus Roberts, M.D., Baylor University, 1955.

Kenneth A. Simon, M.S., Yale University, 1955; M.D., 1957. (On leave of absence.)

Richard Srebro (National Institute of Neurological Diseases and Blindness Fellow), M.D., Washington University, 1959.

Larry Weiss, B.A., Wooster College, 1951; M.D., Ohio State University, 1958.

Charles Windsor, A.B., Carleton College, 1956; M.D., University of Rochester, 1960.

Fellows

Richard Gillis (National Institute of Neurological Diseases and Blindness Special Fellow), B.S., Union College, 1950; M.D., University of Geneva, 1957.

Edwin U. Keates (National Institute of Neurological Diseases and Blindness Special Fellow), B.S., Trinity College, 1952; M.D., Jefferson Medical College, 1957.

Jack Pincus, B.S., Yale University, 1956; M.D., Tufts University, 1960.

Harry Revels, B.S., St. Louis University, 1952; M.D., 1956.

Joseph Ritch, M.D., University of Tennessee, 1955.

Morton Smith, B.S., University of Maryland, 1956; M.D., 1960.

SECOND YEAR

20. Ophthalmology. Lectures and demonstrations are given as a part of the course in Conjoint Medicine as well as additional lectures. 7 hours.

(Drs. Becker, Cibis, L. T. Post, Jr., and Resident Staff)

THIRD YEAR

30. Ophthalmology. Twelve didactic lectures are given in each trimester to one-third of the class.

(Drs. Becker, Cibis, Freeman, James, Miller, Moses, L. T. Post, Jr., Sanders and Resident Staff)

FOURTH YEAR

40. Clinical Ophthalmology. Practical instruction in diagnosis and treatment of eye diseases is given to small sections of the class. Three hours a week for six weeks. 18 hours.

(Drs. Becker, Miller, Moses, L. T. Post, Jr., P. T. Shahan, Stickle, and Resident Staff)
DEPARTMENT OF OTOLARYNGOLOGY

Otolaryngology is presented to the students during the sophomore, junior, and senior years. In the sophomore year the importance of careful examination of the ear, nose, and throat is emphasized, and the students are taught the use of instruments peculiar to the specialty. In the junior year lectures are given which are intended to supplement the information obtainable in textbooks. In the senior year the student examines patients in the outpatient clinics. Those students who have a particular interest in the specialty are accepted for an elective period during their senior year.

Professor and Head of Department

Professors
Walter Page Covell, B.S., Oregon State College, 1921; M.S., 1923; Ph.D., University of Minnesota, 1926; M.D., University of Chicago, 1933. (See Department of Anatomy.)
Hallowell Davis (Research), A.B., Harvard University, 1918; M.D., 1922. (See Department of Physiology.)
Joseph H. Ogura, A.B., University of California, 1937; M.D., 1941.
Sol Richard Silverman (Audiology), A.B., Cornell University, 1953; M.S., Washington University, 1938; Ph.D., 1942.

Professor (Clinical)
James B. Costen, A.B., University of Arkansas, 1917; M.D., Washington University, 1922.

Professor Emeritus (Clinical)

Research Associate Professors
Donald H. Eldredge, S.B., Harvard University, 1943; M.D., 1946.
Ira J. Hirsh (Audiology), A.B., New York State College for Teachers (Albany), 1942; M.A., Northwestern University, 1943; M.A., Harvard University, 1947; Ph.D., 1948.
Catherine A. Smith, A.B., Washington University, 1935; M.S., 1948; Ph.D., 1951. (On leave of absence.)

Associate Professor (Clinical)

Associate Professors Emeriti (Clinical)
Arthur M. Alden, A.B., University of Oklahoma, 1907; A.M., 1909; M.D., St. Louis University, 1915.
Isaac Dee Kelley, Jr., B.A., St. Louis University, 1903; M.D., 1908.

Assistant Professors
Robert Goldstein (Audiology), B.S., Pennsylvania State University, 1948; Ph.D., Washington University, 1952.
Allan Goodman (Audiology), A.B., Brooklyn College, 1941; M.S., University of Michigan, 1949; Ph.D., 1952.

Assistant Professors (Clinical)
William T. K. Bryan, A.B., Washington University, 1929; M.D., 1933.
Alfred J. Cone, B.S., State University of Iowa, 1921; M.D., 1923; M.S., 1927.
Harry N. Glick, A.B., Cornell University, 1916; M.D., St. Louis University, 1922.
Edward H. Lyman, B.S., Washington University, 1937; M.D., 1937.
Robert E. Votaw, B.S., State University of Iowa, 1927; M.D., 1929.

Research Instructors
Marian Pingsten Bryan, A.B., Washington University, 1931.

Instructors (Clinical)
Benard Adler, B.S., Washington University, 1937; M.D., 1937.
Harold M. Cutler, A.B., University of Maine, 1930; M.D., Tufts College, 1937.
Morris Davidson, B.S., Indiana University, 1936; M.D., 1938.
Guerdan Hardy, M.D., Washington University, 1929.
Daniel D. Klaff, B.S., University of Virginia, 1933; M.D., 1936.
Allen B. Potter, A.B., William Jewell College, 1916; M.D., St. Louis University, 1924.
Herbert M. Smit, M.D., St. Louis University, 1933.
A. Chesterfield Stutsman, B.S., Roanoke College, 1927; M.D., University of Virginia, 1931.
Joseph Warren West, M.D., Duke University, 1944.

Assistants
Marvin C. Beil, A.B., University of South Dakota, 1954; M.D., University of California, 1958.
SECOND YEAR

20. Otolaryngology and Physical Diagnosis. The class is divided into small groups with individual instructors for a total of six hours for instruction in the methods of otolaryngological diagnosis and the use of instruments peculiar to this field. (Part of Conjoint Medicine. See page 60.)

THIRD YEAR

30. Otolaryngology. Twelve lectures are given in each trimester to one-third of the class. (Drs. Stroud, Walsh, Ogura)

FOURTH YEAR

40. Otolaryngology. Practical instruction in diagnosis and treatment is given to small sections of the class. Three hours a week for 6 weeks. 18 hours. (Drs. Votaw, West, Cutler, Davidson, Cone, Lyman)

ELECTIVE COURSE

50. Clerkship in Otolaryngology. Two students may serve as externs in the clinics for six weeks. Permission of the Head of the Department is necessary before registration for this elective. Full time. (Dr. Walsh and Staff)
A member of the resident staff demonstrates a gross specimen to students in the second year course in pathology.

DEPARTMENT OF PATHOLOGY

Pathology for medical students is given during the second, third, and fourth years. In the second year the course covers General and Special Pathology, and in the third and fourth years the students attend the Clinical and Pathological Conferences conducted in collaboration with the Clinical Departments.

Properly qualified students may register in the School of Medicine or Graduate School of Arts and Sciences for any of the courses. Pathology 501 is a prerequisite for all other courses.

The staff in pathology of several hospitals in and about St. Louis are members of the faculty of the department: Missouri Baptist Hospital (Dr. W. Platt), DePaul Hospital (Dr. J. Bauer), St. Louis City Hospital (Drs. D. Johnson, V. Bleisch, G. Sierra), Lutheran Hospital (Dr. L. Yuan), Alton Memorial Hospital (Dr. P. Capurro), Jewish Hospital (Drs. J. Hasson, R. Ahlvin, D. Edwards), St. Luke's Hospital (Dr. R.
Ogilvie), Homer G. Phillips Hospital (Drs. J. Blache, U. Sclafford, T. Nishi), State Hospital (Dr. K. Palmer), and Veterans Hospital (Dr. R. Schaefer).

For the purpose of both teaching and research, the Department of Pathology is divided into specialties under the following directors:

Diseases of Bone and Joint
Drs. M. and R. Silberberg

Hematopoietic Pathology...Dr. Sorenson
Clinical Pathology.........Dr. V. Loeb, Jr.
Dentistry..................Dr. Burstone
(on leave of absence)

Hepatic Pathology...........Dr. Grisham
Infectious Diseases.........Dr. M. G. Smith

Edward Mallinckrodt Professor and Head of Department
*Walter Stanley Hartroft, B.Sc. in Medicine, University of Alberta, 1941; M.D., 1941; Ph.D., University of Toronto, 1950.

Professors
Lauren V. Ackerman, A.B., Hamilton College, 1927; M.D., University of Rochester, 1932. (See Department of Surgery.)
Margaret Gladys Smith, A.B., Mount Holyoke College, 1918; M.D., Johns Hopkins University, 1922.

Visiting Professor

Associate Professors
Paul E. Lacy, B.A., Ohio State University, 1945; M.D., 1948; M.Sc. 1948; Ph.D., University of Minnesota, 1955.
Sarah A. Luse, A.B., Rockford College, 1940; M.D., Western Reserve University, 1949. (See Department of Anatomy.)

SECOND YEAR

20 (501). Pathology. General and special pathology are covered by lectures, gross and microscopic demonstrations, and laboratory work. In general pathology, degenerations, inflammations, infectious diseases, and tumors are considered. The diseases of each organ system are studied during the time devoted to special pathology. Small groups are given instruction in post-mortem technique, and in gross pathology. 336 hours. (Drs. M. Smith, Luse, Sorenson, O'Neal, Grisham, Lacy, Kissane, and Staff)

THIRD AND FOURTH YEARS

30 and 40. Clinical and Pathological Conference.
The clinical history and treatment of patients who have died are discussed before the class by the physicians and surgeons of the departments concerned. These conferences afford the students an opportunity to interpret the clinical observations in the light of the post-mortem findings. One hour a week during the third and fourth years. (Drs. M. and R. Silberberg, M. Smith, O'Neal, Luse, Sorenson, Grisham, Heptinstall, Still, Lacy, Kissane)

ELECTIVE COURSES

50 (502). Major Research. The laboratory offers facilities for research in pathology. Specialists and students with adequate training who desire to extend their knowledge of pathology will be admitted. (Drs. M. Smith, Luse, Heptinstall, Still, Sorenson, O'Neal, Grisham, Lacy, Kissane)

51 (595). Journal Club. The current journals concerned with morphological and experimental pathology and oncology are reviewed by the members of the staff. Properly prepared students may attend or participate.

52 (596). Seminar in Gross Pathology. The autopsies for the affiliated hospitals are performed by the junior members of the staff. The entire Department meets, and the cases are evaluated by the senior staff at this conference. Two hours once a week throughout the year.

53 (597). Seminar in Microscopic Pathology. The microscopic sections from each autopsy are presented by the prosecutor at a conference.

53 (598). Elective Course in Experimental Pathology. Conducted during the third trimester one afternoon a week. General Pathology portion of 501 is the prerequisite. The course consists of the production of experimental lesions in small animals, using a variety of techniques. Only a limited number of students can be accepted.

54. Clerkship in Pathology at Washington University. Students may serve as clerks in the Department of Pathology. The students will assist at autopsies and prepare reports for presentation at a seminar once a week. Six half-days a week, or full-time throughout the year.

55. Research. Those students who during a preceding summer or school year have initiated a research problem in Pathology may continue the work during the elective trimester of the fourth year. Full time for six weeks. All trimesters.

The Department offers facilities for fulfilling requirements for the degree of Ph.D. in Pathology.
In its undergraduate teaching program, the primary aim of the Department of Pediatrics is to enable the graduate to practice a good brand of pediatrics as a general practitioner. The training of the pediatric specialist is through the residency program at the St. Louis Children’s Hospital. It is also expected that as a result of the combined undergraduate and postgraduate programs, a liberal number of top-ranking students will be encouraged to embark upon an academic pediatric career.

The major clinical facilities are in the St. Louis Children’s Hospital and the St. Louis Maternity Hospital. The former has a bed capacity of 196, and accepts all types of problems in children under 15 years of age, averaging about 5,000 yearly admittances. The pediatric outpatient department is conducted in the hospital and averages about 50,000 yearly visits. In the St. Louis Maternity Hospital the yearly number of newborn infants averages more than 4,000.
Professor and Head of Department
Alexis F. Hartmann, B.S., Washington University, 1919; M.S., 1921; M.D., 1921.

Professor
David Goldring, A.B., Washington University, 1936; M.D., 1940.

Professor Emeritus (Clinical)
Borden Smith Veeder, M.D., University of Pennsylvania, 1907; Sc.D., Colgate University, 1929.

Associate Professors
M. Remsen Behrer, A.B., Williams College, 1942; M.D., Long Island College of Medicine, 1945.

Research Fellow
Agyrios A. Tsifutis, M.D., University of Salonica (Greece), 1955.
SECOND YEAR

20. In the course on Applied Pathologic Physiology the student is introduced to pediatrics and the full-time staff through the medium of eleven lectures designed to acquaint him with the nature of human growth and development, and the relationship of age to reaction to injury and disease. In the course on Conjoint Medicine the student is taken to the wards and given instruction in physical diagnosis. (See page 60.)

(Entire full-time Staff)

THIRD YEAR

30. Twelve lectures on nutritional requirements, infant feeding, and contagious diseases are given to the entire class. One-sixth of the class works as clinical clerks for six weeks. This work consists of the following: (1) Assignment to intern or resident with joint responsibility of caring for inpatients; (2) Daily ward rounds and bedside conferences with house staff and their full-time supervisor; (3) Weekly conference on infectious diseases; (4) Weekly clinical conference; (5) Weekly clinical conference primarily designed for fourth-year students; (6) Weekly Thursday morning session in the Metabolic Clinic; (7) Special demonstrations in common nursing procedures, which include the preparation of artificial formulae and special diets.

(Entire full-time Staff)

FOURTH YEAR

40. One-twelfth of the class works for three weeks in the pediatric outpatient department.

(Entire Staff)

ELECTIVE COURSE

50. Six weeks of elective time may be spent according to the individual desires of the student—as intern substitute, in the research laboratory, or by combining clinical and laboratory work.
Dr. Oliver H. Lowry, Professor of Pharmacology, observes two students as they carry out an experiment as part of their research project in the Pharmacology course in the second year.

THE EDWARD MALLINCKRODT DEPARTMENT OF PHARMACOLOGY

The number of useful drugs is steadily increasing. It is the purpose of the pharmacology course, through discussions of existing drugs, to develop general principles which will be applicable as well to drugs of the future. Pharmacology draws heavily on biochemistry, physiology, and bacteriology for an understanding of drug action. It looks toward pathology, medicine, and surgery for its uses. For this reason the course is constructed as a part of the continuum of medicine rather than a separate discipline. Since many drugs are harmful in excessive amounts, toxicology is included in the course as a logical part of pharmacology.

The laboratory portion of the course is divided roughly in half. The first part consists of selected animal experiments designed to illustrate and give reality to the action of drugs; the second part, of a small research project for each group of four students. The problems are of student choice, and the results of the research are reported to the class.
Professor and Head of the Department
Oliver Howe Lowry, B.S., Northwestern University, 1932; Ph.D., University of Chicago, 1937; M.D., 1937.

Professors
Francis Edmund Hunter, Jr., B.S., Mount Union College, 1938; Ph.D., University of Rochester, 1941.
Jack Strominger, A.B., Harvard University, 1946; M.D., Yale University, 1948.

Professor Emeritus
Helen Tredway Graham, B.A., Bryn Mawr College, 1911; M.A., 1912; Ph.D., University of Chicago, 1915.

Associate Professor
Helen B. Burch, B.S., Texas State College for Women, 1926; M.S., Iowa State College, 1928; Ph.D., 1935.

Assistant Professors
Bruce Breckenridge (Markle Scholar), B.S., Iowa State College, 1948; Ph.D., University of Rochester, 1952; M.D., University of Rochester, 1956.
Robert M. Burton, B.S., University of Maryland, 1950; M.S., Georgetown University, 1952; Ph.D., The Johns Hopkins University, 1955.
Stephen C. Kinsky, A.B., University of Chicago, 1951; Ph.D., Johns Hopkins University, 1957.
David B. McDougal, Jr. (Kenny Scholar), A.B., Princeton University, 1945; M.D., University of Chicago, 1947.

Research Assistant Professor
Janet V. Passonneau, B.A., University of Minnesota, 1945; M.A., Radcliffe College, 1946; Ph.D., Harvard University, 1949.

Instructor
David M. Geller, B.A., Amherst College, 1952; Ph.D., Harvard University, 1957.

Research Instructor
Ellen E. Smith, B.S., University of Pittsburgh, 1939; M.S., 1942; Ph.D., 1948.

Research Assistant
Tuneko Okazaki, B.S., Nagoya University, 1956; M.S., 1958.

Fellows
Marie C. Fleming, A.B., Radcliffe College, 1950; M.D., Tufts University, 1954. (National Institute of Neurological Diseases and Blindness Trainee in Pharmacology.)
Paul D. Gatfield, M.D., C.M., Queen’s University, 1957.
Nobutoshi Ishimoto, M.S., Hokkaido University, 1953; Ph.D., 1960.
Reiji Okazaki, B.S., Nagoya University, 1953; Ph.D., 1960.
Leon Prosky, B.S., Brooklyn College, 1954; M.S., Rutgers University, 1955; Ph.D., 1958. (Division of General Medical Sciences Trainee in Pharmacology to Oct. 31, 1961.)
Ulgan I. Sila, M.D., Istanbul University, 1956.
Richard Lawrence Young, A.B., Catholic University of America, 1949; Ph.D., St. Louis University, 1956. (National Institute of Neurological Diseases and Blindness Trainee in Pharmacology to Nov. 1, 1961.)

Predoctoral Fellows
David N. Dietzler, A.B., Washington University, 1957.
Uldis Roze, B.S., University of Chicago, 1959.

Second Year
20 (501 and 502). (a) Lectures, conferences, panel discussions. 70 hours.
(b) Laboratory course. 146 hours.

Elective Course
51 (590) Research. The facilities of the laboratory are available to those who wish to carry on original investigation on problems of their own or on those the department is prepared to suggest.

87
The department occupies one-and-a-half floors of the South Building and one-half floor of the Cancer Research Building. The student laboratories are shared with the Department of Pharmacology, whose student laboratory work is done in the first trimester of the second year. The course is given in the second semester of the first year. Three blocks of seven full-day experiments are performed, one block in each of the six-week periods of the second semester. The principal research interests of the department at present are the peripheral and central nervous systems, circulation, smooth and striated muscle, respiration, kidney, exchanges through cell membranes, and protein structure.

Professor and Head of Department
Harvey Lester White, B.S., Washington University, 1918; M.D., 1920.

Professor
Hallowell Davis, A.B., Harvard University, 1918; M.D., 1922; Sc.D. (hon.), Colby College, 1954. (See Department of Otolaryngology.)
FIRST YEAR

The lectures cover systematically the field of human physiology. The laboratory experiments are selected with the twofold objective of (a) supplying a basis for the understanding of the more important physical methods employed in physiology and in clinical medicine, and (b) elucidating certain fundamental physiological principles essential to the intelligent practice of medicine as well as to the further pursuit of physiology. The student serves as the subject in many of the experiments. The course is designed primarily to meet the needs of medical students.

Small groups of students meet with instructors in scheduled conferences throughout the course to discuss principles concerned with laboratory experiments, results of and conclusions drawn from experiments, and correlations of laboratory with lecture material.
Open to students who have completed or have begun the study of anatomy and biological chemistry.

10 (502). Lectures in second semester of first year. 104 hours.  
(Staff)

11 (503). Laboratory and conferences. Second semester of first year. Laboratory 140 hours, conferences 40 hours.  
(Staff)

ELECTIVE

50 (590). Research. The facilities of the laboratory are offered to qualified students for the investigation of their own problems or of those which the department is prepared to suggest. The most appropriate time for student research is the summer months or free time in the senior year.
Dr. Robert E. Shank, Professor of Preventive Medicine, other members of his department, and fourth year students assigned to the co-ordinated out-patient clerkship photographed during an informal seminar at which the problems presented by a patient recently seen in the Clinic are discussed.

DEPARTMENT OF PREVENTIVE MEDICINE AND PUBLIC HEALTH

Instruction in preventive medicine and public health is given in the first, second, and fourth years of the undergraduate medical curriculum. In the first trimester of the first year the staff of the Student Health Service, which is a part of the department organization, presents a course in health and health management applied most specifically to health problems peculiar to the medical student and physician. Throughout the four years the Health Service attempts to teach by precept as students appear for health counsel or treatment of illness. Later in the first year, a course in statistical methods in medicine is given and is introductory to the later use of statistical procedures in courses of other departments. The principles of epidemiology and the concepts of the natural history of disease are presented in a second-year course. From these are deduced the opportunities for individual and community action in the prevention and control of disease. The teaching of the department in the fourth year is included in the Co-ordinated Outpatient Clerkship. At this time emphasis is placed upon the
opportunities for health promotion and disease prevention in the contacts of physician with patients in office practice. In addition, as suitable opportunities present, the student visits certain patients at home and contacts community agencies for assistance for the patient and family.

Danforth Professor and Head of the Department
Robert Ely Shank, A.B., Westminster College, 1935; M.D., Washington University, 1939. (See Department of Medicine.)

Professor
C. Howe Eller (Public Health), A.B., Stanford University, 1927; M.D., University of Colorado, 1930; Ph.D., Johns Hopkins University, 1934.

Associate Professors
Albert Eisenstein, A.B., University of Missouri, 1941; M.D., Washington University, 1944. (See Department of Medicine.)
Lillian Recant, A.B., Hunter College, 1941; M.D., Columbia University, 1946. (See Department of Medicine.)

Assistant Professors
Hugh Chaplin, Jr., A.B., Princeton University, 1943; M.D., Columbia University, 1947. (See Department of Medicine.)
M. Kenton King, B.A., University of Oklahoma, 1947; M.D., Vanderbilt University, 1951. (See Department of Medicine.)
Seymour Reichlin, A.B., Antioch College, 1945; M.D., Washington University, 1948; Ph.D., University of London, 1954. (See Departments of Medicine and Psychiatry and Neurology.)

Eric Reiss, B.S., Randolph-Macon College, 1943; M.D., Medical College of Virginia, 1948. (See Department of Medicine.)

Instructors
E. M. Jean Cooper (Social Work), Certificate, Institute of Almoners, 1944.
Rose A. Meyer (Social Work), B.A., Louisiana State University, 1947; M.S.W., Washington University, 1950.
M. Frances Watson (Social and Environmental Studies), B.S., Northeast Missouri State Teachers College, 1932; M.S.W., Washington University, 1949.

Lecturers
Harry L. Acker (Physical Medicine and Rehabilitation), B.S., Clemson College, 1940; M.D., Medical College of South Carolina, 1950. (See Department of Physical Therapy.)
Barbara Hixon (Biostatistics), B.S., University of Illinois, 1941.
D. Mattarella (Physical Medicine and Rehabilitation), B.S., Brooklyn College, 1934; M.D., University of Bologna (Italy), 1939. (See Department of Physical Therapy.)
FIRST YEAR

10. *Health and Health Maintenance*. The purpose of this course of twelve lectures is to introduce considerations of health and health planning, relating these particularly to the medical student and physician in practice. The environment and conditions in which the student is to spend the next four years are considered in detail. How the student may plan to adapt his habits of living, work, and recreation so that a state of health may be most readily assured and disease prevented is discussed. In addition students are introduced to the services available through the Health Service. First trimester, 1 hour a week, 12 hours. (Dr. King and Staff)

11. *Statistical Methods in Medicine*. Twelve two-hour periods are devoted to an introduction to statistical methods important in the study of medicine. Lectures and exercises are concerned with collection of data, descriptive statistics, common theoretical distributions, tests of significance, correlation, and regression. A knowledge of these is presented as essential in the design of experiments and in the interpretation of data recorded in the medical literature. The material in the course affords background material for later use of statistics in courses of the Departments of Pharmacology, Physiology, and Preventive Medicine. Third trimester, 2 hours a week, 24 hours. (Mrs. Barbara Hixon)

SECOND YEAR

20. *Prevention and Control of Disease*. This is a series of lectures reviewing the principles of epidemiology and the utilization of epidemiologic data in arriving at description of the natural history of disease. The course is concerned with multiple rather than the specific causes of disease and demonstrates how a knowledge of the natural history of a disease is of assistance in diagnosis, prognosis, and prevention of that disease. Each student is required to submit a treatise on the natural history of a selected disease. Third trimester, 1 hour a week, 12 hours. (Drs. Shank, Eller, Eisenstein, Recant, King, Chaplin, Reiss)

FOURTH YEAR

40. *Co-ordinated Outpatient Clerkship*. The purpose of this clerkship is to afford experience in dealing with the problems of ambulatory patients. Each student is assigned for the period of one trimester. He cares for patients in the following clinics: Medicine, Surgery, Obstetrics and Gynecology, Psychiatry, Neurology, Ophthalmology, Otolaryngology, and Dermatology. The student becomes the physician for the patient, and his instructors are his consultants. Patients who are seen on initial visits in the Medicine Clinic by the student but who require examination in other specialty clinics are given appointments in the second clinic at times corresponding to the periods in which the student is also assigned to that clinic. The opportunity is available for the student to observe and follow each patient for as long as desirable in each of the participating clinics. In addition, the student is responsible for maintaining contact
with patients during periods of hospitalization and for visiting certain patients in
the home.

The clerkship is under the general direction of the Department of Preventive
Medicine. The teaching of the department is directed at opportunities for institution
of preventive measures and for health management in the office practice of medicine.
In addition, the student is taught to evaluate the social and environmental factors
which pertain in the individual case and to take account of these in planning programs
of therapy. He is given information about and encouraged to utilize the facilities of
a variety of health and welfare agencies in dealing with his patients' problems. The
teaching of the department is carried out through weekly seminars, student interviews
with assigned instructors, and socio-medical case studies. By assignment, 31 hours
a week, 372 hours.

ELECTIVE

50. Public Health Elective. Junior or senior students are afforded an opportunity
to participate in epidemiologic and public health programs for a period of six weeks
in the St. Louis County Health Department. The activities to be undertaken are
determined after consultation with the staff but will ordinarily include participation
in selected public health programs and special projects which relate to the particular
interests of the student. Full time, six weeks.

(Dr. Eller)
Dr. Edwin Francis Gildea, Wallace Renard Professor of Psychiatry, moderates a teaching conference in the third year clinical clerkship.

DEPARTMENT OF PSYCHIATRY AND NEUROLOGY

Instruction in psychiatry and neurology is given in all four years of the medical course. In the third trimester of the first year a course is given which is basic to the understanding of human behavior. Major emphasis is given to a presentation of psychological research in the field of early development, learning, emotion, and similar topics.

In the second year, the student is introduced to psychiatric interviewing, to the evaluation of emotional and behavioral symptoms, to clinical psychiatric disorders—their diagnosis and natural history, and to the conceptual problems involved in psychiatry and psychology. These subjects are taken up in lectures, demonstration interviews, and discussion. The emphasis is upon critical thinking, the evaluation of data, and the methodologic problems arising in the study of behavioral, emotional, and thinking disturbances.
In the third year, supervised clinical study of patients admitted to the Renard Hospital is emphasized. An introduction is given to various therapeutic procedures in psychiatry.

In the fourth year, psychiatric and neurologic teaching are carried out in the concurrent outpatient clerkship. Neurological clinics are presented in alternate weeks. Students may select electives of special interest from a variety of opportunities. In the psychiatric teaching, whether regular course or elective, major emphasis is upon interviewing techniques, diagnosis, and psychotherapy.

Neurological instruction commences in the first year with a series of case demonstrations designed to acquaint the freshman student with the applicability of anatomical and physiological knowledge of the nervous system in the localization of neurological lesions. In the second year the neurological part of physical diagnosis is covered by lectures and exercises. Third and fourth year work centers upon in- and outpatient clerkship studies in clinics and on hospital wards. Systematic lecture series are provided for both third and fourth years. Electroencephalography is available as a fourth-year elective.

**Wallace Renard Professor of Psychiatry and Head of Department**

Edwin Francis Gildea, A.B., Colorado College, 1920; M.D., Harvard University, 1924.

**Professors**

James Lee O'Leary (Neurology), B.S., University of Chicago, 1925; Ph.D., 1931.

Eli Robins (Psychiatry), A.B., Rice Institute, 1940; M.D., Harvard University, 1943.

Saul Rosenzweig (Medical Psychology), A.B., Harvard University, 1929; M.A., 1930; Ph.D., 1932. (Also Department of Psychology.)

John A. Stern (Medical Psychology), A.B., Hunter College, 1949; M.S., University of Illinois, 1951; Ph.D., 1953.

George Andrew Ulett (Psychiatry), B.A., Stanford University, 1940; M.S., University of Oregon, 1943; Ph.D., 1944; M.D., 1944.

**Blanche Ittleson Professor of Child Psychiatry**

**Professor Emeritus**

George Holman Bishop (Neurophysiology), A.B., University of Michigan, 1912; Ph.D., University of Wisconsin, 1920. (Also holds title of Lecturer.)

**Associate Professors**

Samuel B. Guze (Psychiatry), M.D., Washington University, 1945. (See Department of Medicine.)

Patricia L. O'Neal (Psychiatry), A.B., Washington University, 1944; M.D., 1948.

Kathleen Smith (Psychiatry), B.S., University of Arkansas, 1944; M.D., Washington University, 1949.

George Winokur (Psychiatry), A.B., Johns Hopkins University, 1944; M.D., University of Maryland, 1947.

**Associate Professor Emeritus and Lecturer**

Ethel Renzoni Bishop (Biochemistry), B.S., Mills College, 1913; A.M., Columbia University, 1914; Ph.D., University of Wisconsin, 1922. (Also holds title of Lecturer.)

**Research Associate Professors**

David J. Pittman (Sociology), A.B., University of North Carolina, 1949; M.A., 1950; Ph.D., University of Chicago, 1956. (Also De-
department of Sociology-Anthropology and Social Science Institute.)

Jane Loewinger Weissman (Medical Psychology), B.A., University of Minnesota, 1937; M.S., 1938; Ph.D., University of California, 1944.

Associate Professors (Clinical)

Bernard A. Cruvant (Psychiatry), A.B., Washington University, 1932; M.D., 1937.
Margaret C.-L. Gildea (Psychiatry), B.S., University of Chicago, 1923; M.D., Yale University, 1936.
Irwin Levy (Neurology), A.B., Cornell University, 1927; M.D., St. Louis University, 1931; Med.Sci.D., Columbia University, 1935.

Associate Professor Emeritus (Clinical)

Andrew B. Jones (Neurology), M.D., Vanderbilt University, 1916.

Lecturer

Assistant Professors

Loretta Cass (Medical Psychology), B.A., Colorado, 1934; M.A., 1942; Ph.D., Ohio State University, 1950.
Patricia S. Fingert (Psychiatric Social Work), A.B., Washington University, 1934; M.S.W., 1950.
Luciano L'Abate (Medical Psychology), A.B., Tabor College, 1950; M.A., University of Wichita, 1953; Ph.D., Duke University, 1956.
Roy M. Mendelsohn (Child Psychiatry), B.S., University of Illinois, 1950; M.D., 1952.
George E. Murphy (Psychiatry), B.S., Oregon State College, 1949; M.D., Washington University, 1952.
Seymour Reichlin (Psychiatry), A.B., Antioch College, 1945; M.D., Washington University, 1948; Ph.D., University of London, 1954. (See Departments of Medicine and Preventive Medicine.)

Albert F. Wessen (Sociology), B.A., Yale University, 1948; M.A., 1949; Ph.D., 1951. (Also Social Science Institute.)

Research Assistant Professors

Margaret H. Clare (Neurophysiology), B.S. in Ed., Southeast Missouri State Teachers College, 1940; M.A., Washington University, 1951.
Raymond G. Hunt (Medical Psychology), B.A., University of Buffalo, 1952; Ph.D., 1958.
Blake W. Moore, B.S., University of Akron, 1948; Ph.D., Northwestern University, 1952. (USPHS Senior Research Fellow in Biochemistry and Psychiatry and Neurology.)
Lee N. Robins (Sociology), A.B., Radcliffe College, 1942; M.A., 1943; Ph.D., 1951.
Jacob O. Sines (Medical Psychology), B.A., University of Minnesota, 1949; M.A., 1950; Ph.D., Michigan State University, 1955.

Assistant Professors (Clinical)

Nathan Blackman (Psychiatry), B.S., University of Rhode Island, 1929; M.D., University of Paris, 1936.
Anthony K. Busch (Psychiatry), M.D., St. Louis University, 1937.
Archie D. Carr (Neurology), B.S., Washington University, 1918; M.D., 1921.
Hyman H. Fingert (Psychiatry), B.A., State University of Iowa, 1931; M.D., 1934.
Joseph J. Gitt (Neurology), M.D., Washington University, 1930.
Alex H. Kaplan (Psychiatry), B.S., College of City of New York, 1932; M.D., St. Louis University, 1936.
Robert L. Lam (Psychiatry), A.B., University of Michigan, 1941; M.D., 1944.
Paul H. Painter (Child Psychiatry), M.D., St. Louis University, 1947. (See Department of Pediatrics.)

Ernest Holden Parsons (Psychiatry), B.A., Vanderbilt University, 1927; M.D., 1930.
Val B. Satterfield (Psychiatry), B.S., Washington University, 1922; M.D., 1924.

Conrad Sommer (Psychiatry), B.S., University of Illinois, 1929; M.S., 1931; M.D., 1932.

Instructors

Louetta Berger (Psychiatric Social Work), B.S., University of Wichita, 1941; M.S.W., Washington University, 1946.

Mary McFayden Bishop (Psychiatry), A.B., Washington University, 1936; M.S.W., Washington University, 1948.

Marguerite Cannon (Psychiatric Social Work), B.S., St. Louis University, 1936; M.S.W., Washington University, 1948.

Daniel V. Caputo (Medical Psychology), A.B., Brooklyn College, 1954.

Gabrielle Casehier (Speech Correction), B.S., University of Illinois, 1942; M.A., 1942; Ph.D., University of Wisconsin, 1959.

Lawrence A. Cohen (Neurology), B.S., Western Reserve University, 1948; M.D., 1954; M.A., Northwestern University, 1951. (Also National Institute of Neurological Diseases and Blindness Trainee in Neurology.)

William Cone (Psychiatry), B.A., Yale University, 1949; M.D., 1954.

William E. Edmonston, Jr. (Medical Psychology), B.A., Johns Hopkins University, 1952; M.A., University of Alabama, 1956; Ph.D., University of Kentucky, 1960.

Andrew J. Gay (Neurology), B.S., University of Alabama, 1950; M.A., 1954; M.D., Medical College of Alabama, 1955. (National Institute of Neurological Diseases and Blindness Trainee in Neurology.) (Also Ophthalmology.)

Naomi I. Rae Grant (Child Psychiatry), D.P.M., University of London, 1957.

Lucy M. Harrabill (Psychiatric Social Work), M.S.W., Fordham University, 1948.

Lucile Healy (Psychiatric Social Work), A.B., College of St. Catherine, 1922; M.A., University of Minnesota, 1927; M.S.W., Washington University, 1949.

Franz E. Hornung (Psychiatry), M.D., University of Heidelberg, 1915.

Beulah Morris (Psychiatric Social Work), B.A., Southwestern College, 1944; M.S.W., Washington University, 1952.

Marie Mower (Psychiatry), A.B., Southern Illinois University, 1947; B.S., University of Illinois, 1949; M.D., 1951.

Fernando Tapia (Psychiatry), B.A., State University of Iowa, 1943; M.D., 1947.

Research Instructors

Norman L. Corah (Medical Psychology), B.A., University of Buffalo, 1955; Ph.D., 1960.

Adele B. Croninger (Psychiatry), A.B., Washington University, 1943; M.A., 1948.

John C. Glidewell (Medical Psychology), A.B., University of Chicago, 1949; Ph.D., 1953.

Hilde E. Hirsch (Psychiatry), M.S., Hebrew University (Israel), 1955; Ph.D., University of California, 1948.

David G. McDonald (Medical Psychology), A.B., University of Missouri; 1955. (July 1 to December 31, 1960.)

Instructors (Clinical)

Libby G. Bass (Medical Psychology), B.A., University of Illinois, 1928; M.A., Northwestern University, 1929.

Robert M. Bell (Psychiatry), M.D., St. Louis University, 1928.

Thomas T. Bennett (Psychiatry), B.S., University of Oregon, 1950; M.D., 1952.

Thaworn Rathana-Nakintara (Psychiatry), B.M., Chulalongkorn University (Thailand), 1957.

Yael Nissan (Psychiatric Social Work), M.S.W., Washington University, 1954. (On leave of absence.)

Jeannine Owen (Medical Psychology), B.S., Washington University, 1954. (USPHS Trainee in Clinical Psychology, July 1 to Sept. 14, 1961.) (Also Department of Psychology.)

Ferris N. Pitts, Jr. (Psychiatry), A.B., Washington University, 1952; M.D., 1955. (Also National Institute of Mental Health Trainee in Psychiatry.)

Dolores H. Scott (Psychiatry), B.A., Fisk University, 1953; M.D., Meharry Medical College, 1960. (Also National Institute of Mental Health Trainee in Psychiatry.)

Donald R. Seidal (Psychiatry), M.D., St. Louis University, 1956.

Wendell K. Stewart (Psychiatry), B.A., Washington University, 1955; M.D., Baylor University, 1959. (Also National Institute of Mental Health Trainee in Psychiatry.)

William Surpplis (Psychiatry), M.D., C.M., Queen’s University (Canada), 1958.

Willy Joseph Weinstein (Neurology), A.B., Columbia University, 1951; M.D., Washington University, 1956. (Also National Institute of Neurological Diseases and Blindness Fellow in Neurology.)

John C. Wohltabe (Psychiatry), B.A., University of Minnesota, 1948; M.B., 1952; M.D., 1953. (Also National Institute of Mental Health Trainee in Psychiatry.)

Edwin D. Wolfgram (Psychiatry), B.A., State University of Iowa, 1954; M.D., 1959. (Also National Institute of Mental Health Trainee in Psychiatry.)

Robert A. Woodruff, Jr. (Psychiatry), A.B., Harvard University, 1956; M.D., 1960. (Also National Institute of Mental Health Trainee in Psychiatry.)

Research Assistants

Susan S. Emmons (Psychiatry), B.A., Earlham College, 1957; M.S., Cornell University, 1959.

Mary Grohmann (Medical Psychology), M.S., St. Louis University, 1959.

Margaret Johnson (Psychiatry), R.N., Baylor University Hospital School of Nursing, 1940; B.S., University of Chicago, 1948.

Muriel W. Pumphrey (Social Work), A.B., Oberlin College, 1931; D.S.W., New York School of Social Work, Columbia University, 1956.

Eugene L. Zwilling (Medical Psychology), A.B., New York University, 1956.

Consultant

Dorothy M. Stauffer (Social Work), A.B., Eureka College, 1934; M.S.W., Washington University, 1949.
Assistants (Clinical)
Edmund V. Cowdry, Jr. (Psychiatry), A.B., Princeton University, 1942; M.D., Washington University, 1945.
Anthony Ferro (Psychiatry), M.D., Havana University, 1949.
Joseph Shuman (Psychiatry), B.S., Middlesex University, 1943; M.D., University of Lausanne, 1952.

Fellows
John D. Loeffler (Neurology), B.S., University of Wisconsin, 1954; M.D., 1958. (National Institute of Neurological Diseases and Blindness Fellow in Neurology.)

FIRST YEAR
Determinants of Behavior. Through lectures, discussion, and patient presentations, a framework for understanding human behavior (both in illness and in health) is presented. Four hours are given to the discussion of childhood behavior and development, which discussion is augmented by observing four children at different age levels. Such subjects as ethology, depression, anxiety, learning, hostility, and sexuality are presented to the class. These determinants are illustrated by the interviewing of adult patients from the hospital. The last 5 hours of the program are devoted to social factors in disease and personality development. 18 hours. (Dr. Winokur and Associates)

Integrative Neurology (Given as part of Anatomy 11). A series of four clinics is held in the second semester to acquaint students of neuroanatomy and neurophysiology with the applicability of these subjects in localizing lesions of the central and peripheral nervous system. The series commences with spinal and cranial nerve deficits and proceeds systematically through spinal cord, brain stem, basal ganglia, cerebellum and cerebral cortex, utilizing currently available cases from the neurological and neurosurgical services. (Dr. O'Leary and Staff)

SECOND YEAR
20. Psychiatry.
The Pathology of Behavior. (Part of Conjoint Medicine. See page 60.) Emphasis is upon (a) effective interviewing in preparation for medical history taking; (b) evaluation of behavioral and emotional factors in patients with various kinds of illnesses; (c) the diagnosis and natural history of the major psychiatric disorders; (d) critical evaluation of conceptual and methodologic problems in psychiatry and psychology. Lectures, demonstration interviews, discussions. 60 hours. (Drs. Murphy, Guze, Kaplan, Painter, Robins, Winokur)

Neurological Examination in Clinical Diagnosis. (Part of Conjoint Medicine. See page 60.) Lectures, demonstrations, and exercises in the neurological examination of the patient. 6 hours. (Dr. London in conjunction with Neurology Staff)
THIRD YEAR

30. Psychiatry.

Students in groups of seven spend 3 weeks full time on the inpatient service of Renard Hospital. Each new admission is studied by an individual student. This study includes a history from the relatives and from the patient, physical and neurological examinations, and a mental status examination. The progress of the patient is also followed by the student. Psychiatric emergencies are also seen when the student is on emergency call with a member of the house staff. Teaching exercises include ward rounds three times weekly on the students' patients; a seminar in which original articles from the literature are read and discussed; an introduction to psychotherapy, drug therapy, and the various shock therapies; and clinical conferences with the resident house staff. 120 hours. (Drs. Eli Robins, O'Neal, Murphy, and associates)

The third-year neurology inpatient clerkship is offered as a part of the larger medicine clerkship. This is divided between Barnes and City Hospitals and emphasizes the pathophysiologic approach to neurological disorders. A series of six lectures, repeated for each clerkship group throughout the year, emphasizes the practical considerations in early neurological diagnosis. (Dr. Landau and Staff)

FOURTH YEAR

40. Psychiatry.

(a) Senior students obtain experience in the recognition, diagnosis, and management of outpatient psychiatric disorders in that part of the co-ordinated outpatient clerkship conducted by the staff of the Psychiatry Clinic. The emphasis in this part of the clerkship is on the development of interviewing and psychotherapeutic skills. 54 hours. (Drs. Guze, Murphy, and associates)

(b) Psychiatric Aspects of Clinical Medicine. (See Medicine—Drs. Guze and Reichlin.)

(c) Pediatric Psychiatry. The staff of the Child Guidance Clinic participates in consultation and informal instruction when the students are in their clerkship in Pediatrics. (Dr. Painter)

41. Neurology.

Fourth-year neurological training continues to emphasize early diagnosis and the treatment of the commoner neurological conditions. Each student passes through an inpatient clerkship which is a part of the larger senior medicine clerkship, and an outpatient clerkship where acute and chronic ambulatory cases are worked up by the students under staff supervision. A series of 18 lectures is given on alternate weeks through the academic year, covering in systematic fashion the field of clinical neurology. (Dr. O'Leary and Staff)
ELECTIVE COURSES

51. *Psychiatry.* Work may be elected for six weeks. Student's preference as to type of experience desired will be met so far as possible. Students may work in Renard Hospital, the Bliss Institute, the St. Louis State Hospital, the Barnes Hospital, or the University Clinics. Each student must make his wishes known to Dr. E. F. Gildea and must then obtain the approval of the staff member who will supervise the work.

   (Drs. E. Gildea, Guze, Winokur)

52. *Research in Neurology, Psychology, and Psychiatry.* Facilities are available for qualified students to undertake original research in the laboratories of the department or in the clinics or wards.

   (Drs. E. Gildea, O'Leary, Stern)

53. *Staff Conferences.* Students are invited to attend certain of the psychiatric and neurological staff conferences. These are as follows: a psychiatric staff conference held weekly at Bliss Institute; neurological staff conferences held weekly at Barnes Hospital; conferences of the neurological and neurosurgical staffs held weekly at Barnes Hospital.

54. *Psychoanalysis.* Introduction to psychoanalysis is presented at weekly seminars lasting one trimester. Some didactic material is given, but most of the session is devoted to discussion.

   (Drs. Cruvant, Fingert, Kaplan, Sommer)

55. *Barnes Hospital Clerkship.* Neurology outpatient clinics, ward rounds, Neurology-Neurosurgery-Neuropathology Conferences, EEG. Full time for three or six weeks.

   (Dr. Landau)

56. *City Hospital Externship.* Ward care for neurological patients; opportunity to see consultation and outpatient material, ward rounds, Neuropathology Conferences. Full time for three or six weeks.

   (Dr. Landau)
The Department of Radiology of Washington University is housed in the Edward Mallinckrodt Institute of Radiology and connects by corridor or tunnel with all of the hospitals and clinics constituting the Medical Center. The Department provides both diagnostic and therapeutic radiological services for the patients of Barnes, St. Louis Children’s, St. Louis Maternity, McMillan, Wohl, Barnard, and Renard Hospitals, and the Washington University Clinics. In addition, laboratory facilities for research in radiochemistry, radiation physics, and radiobiology are housed in the Institute.

Four floors of the Institute building are devoted to diagnostic roentgenographic facilities. The first floor houses a business office, film library, and consultation viewing room. The radiation therapy section is located on the ground floor of the
Institute and Barnard Hospital. Its facilities include low and high voltage X-ray, cobalt, and a 24 Mev. betatron in addition to radium and other radioactive isotope therapy. Two floors of the Institute provide research laboratories for the staff and experimental diagnostic and therapeutic service for other departments of the School.

The undergraduate teaching program is designed to present both diagnostic and therapeutic radiology to students as part of their clinical clerkship experience. One introductory course in the third year provides an opportunity to present the principles of roentgenological interpretation and radiation therapy during the surgical clerkship. Every effort is made to provide an opportunity to correlate roentgen and clinical findings through interdepartmental conferences, consultations, and group discussions.

**Professor and Head of the Department and Director of the Mallinckrodt Institute of Radiology**

Hugh Monroe Wilson, A.B., Illinois College, 1924; M.D., Washington University, 1927; M.A. (hon.) Yale University, 1945. (See Department of Anatomy.)

**Professors**

Alexander R. Margulis, M.D., Harvard University, 1950.

Michel M. Ter-Pogossian (Radiophysics), B.A., University of Paris, 1942; M.S., Washington University, 1948; Ph.D., 1950.

**Professor Emeritus**

Sherwood Moore, M.D., Washington University, 1905. (Also Lecturer in Radiology and Consultant in Radiology to the Division of Tumor Services.)

**Professor (Clinical)**

**Consultants**

Arthur L. Hughes (Physicist), B.Sc., Liverpool University, 1906; M.Sc., 1908; D.Sc., 1912; B.A., Cambridge University, 1910.

Edward H. Reinhard (Hematology and Oncology), A.B., Washington University, 1935; M.D., 1939. (See Department of Medicine.)

Alfred I. Sherman (Gynecology), M.D., University of Toronto, 1944. (See Department of Obstetrics and Gynecology.)

Harlan J. Spjut (Pathology), B.A., University of Utah, 1943; M.D., 1946. (See Department of Surgery.)

Mildred Trotter (Anatomy), A.B., Mount Holyoke College, 1920; M.S., Washington University, 1921; Ph.D., 1924; Sc.D. (hon.), Western College, 1956. (See Department of Anatomy.)

**Associate Professor**

Leonard J. Tolmach (Chemistry), B.S., University of Michigan, 1943; Ph.D., University of Chicago, 1951.

**Associate Professor (Clinical)**

A. Norman Arneson, B.S., Texas Christian University, 1924; M.D., Washington University, 1928. (See Department of Obstetrics and Gynecology.)

**Assistant Professors**

Erik Carlsson, M.D., Karolinska Institute (Sweden), 1952. (On leave of absence.)

Fred J. Hodges III, B.A., University of Wisconsin, 1944; M.D., 1946.

Sumner Holtz, M.D., St. Louis University, 1948.

**Visiting Assistant Professor**

Haken Arvidsson, M.D., Karolinska Institute (Sweden), 1951.
Assistant Professors (Clinical)
Wayne A. Simril, A.B., Culver Stockton College, 1941; M.D., Washington University, 1944.
Oscar C. Zink, M.D., Washington University, 1921.

Instructors
William H. McAlister, B.S., Wayne State University, 1950; M.D., 1954.

Instructors (Clinical)
Donald Bottom, A.B., Washington University, 1932; M.D., 1940.
Mark D. Eagleton, Jr., A.B., Amherst College, 1947; M.D., Washington University, 1950.

Assistants
William N. Cohen, M.D., University of Maryland, 1959.
Howard L. Hudson, B.S., Pennsylvania State University, 1953; M.D., University of Pittsburgh, 1957.
Anthony E. Lang, B.S., Union College, 1953; M.D., New York Medical College, 1957.
Henry A. Lee, B.S., University of Arkansas, 1955; M.D., University of Missouri, 1958.
Neill B. Longley, M.D., Southwestern Medical School, 1956.
Delmar H. Mahrt, B.S., University of Nebraska, 1957; M.D., 1960.
Anastacio C. Ng, M.D., University of Santo Tomas (Philippines), 1958.
Carlos A. Perez, B.S., University of Antioquia (Colombia, S.A.), 1952; M.D., 1960.
Donald F. Rayl, B.A., Sioux Falls College, 1939; M.A., University of South Dakota, 1941; M.D., Johns Hopkins University, 1943.
Joseph Vincent Scrivani, B.S., Niagara University, 1956; M.D., State University of New York, 1960.
Tom W. Staple, B.S., University of Illinois, 1953; M.D., 1955.
Thomas Bruce Vest, M.D., University of Pennsylvania, 1952.
Irwin D. Zim, A.B., Colgate University, 1955; M.D., Cornell University, 1959.

Fellows
Toyozo Terasima (Research), M.S., Chiba University (Japan), 1947; M.D., 1950.

THIRD YEAR
30. Introduction to Diagnostic and Therapeutic Radiology. The principles of roentgenological interpretation of diagnostic X-ray examinations in the major fields of clinical application are presented for group discussions. Radiophysics and the principles of radiation therapy are discussed. One trimester, 18 hours.
(Drs. Wilson, Arvidsson, Hodges, Holtz, Margulis, McAlister, Powers, Ter-Pogossian, Tolmach)
ELECTIVE COURSES

50. Clerkships in Diagnostic or Therapeutic Radiology. Electives may be chosen in any section of the Department. Students will serve as externs working under the supervision of the residents and senior staff in that section. Limited to one student per section. Six weeks, full time.

a. Roentgenology of the Chest .................................................. Dr. Wilson
b. Cardiovascular Roentgenology ............................................... Dr. Arvidsson
c. Gastrointestinal Roentgenology ............................................ Dr. Margulis
d. Pediatric Roentgenology ..................................................... Dr. McAlister
e. Therapeutic Radiology ....................................................... Dr. Powers

51. Rotating Diagnostic Roentgenologic Clerkships. Students will serve as externs on chest, gastrointestinal, orthopedic, neurological, and pediatric services. Two students. Six weeks, full time.

52. Special Elective Courses. By special arrangements students in groups of six or more may arrange for supervised group study of any diagnostic or therapeutic radiologic field of interest. Hours to be arranged.

53. Research Electives. Opportunity is available to carry out supervised research in the fields of diagnostic and therapeutic radiology, radiation physics, and radiocarbon chemistry under the direction and supervision of the heads of these sections.
A professor performs an operation in Barnes Hospital. He is assisted by members of the resident staff and fourth year students.

THE MARY CULVER DEPARTMENT OF SURGERY

(The Department of Surgery includes General Surgery, Orthopedic Surgery, Neurological Surgery, Genitourinary Surgery, and Thoracic Surgery)

The instruction in the Department of Surgery begins with an introduction to surgical principles at the end of the second year. These surgical principles for the most part are derived from fundamental concepts in the preclinical sciences which have been occupying the student since the beginning of the freshman year. Although in this course a few patients are used for the demonstration of lesions which illustrate the principles of surgery, it is really in the junior year that the first actual contact with patients occurs. Each student then is assigned to a clinical clerkship in the hospital wards and in that way is given an opportunity to study the more common and important kinds of surgical diseases. The junior clerkship in surgery lasts for one trimester and is divided between the surgical services at Barnes and St. Louis.
Children's Hospitals and at St. Louis City Hospital. Instruction during the clerkship in the junior year covers the field of general surgery and the major specialties excepting neurosurgery and urology, and the broad general principles of pathology, pathologic physiology, diagnosis, and treatment are extensively discussed. At St. Louis City Hospital special attention is given to the study of trauma and acute surgical emergencies. Students are given the opportunity of seeing all operations on patients assigned to them. Special instruction in history writing, in the examination of the patient, and in various diagnostic and therapeutic techniques is given to small groups of students by the resident and assistant resident house officers. These small groups are in the nature of tutorial classes.

During the junior year also the students attend a course in surgical pathology, and a weekly surgical clinic lasting throughout the year. During the latter part of the year there are various symposia on surgical subjects held in conjunction with other departments for the entire class.

In the senior year the students spend one-half of a trimester on a surgical clerkship, dividing the time between Neurological Surgery and Urology.

Bixby Professor and Head of the Department

Carl Alfred Moyer, A.B., Northern State Teachers College, 1930; M.S., University of Michigan, 1934; M.D., 1937.

Henry E. Mallinckrodt Professor of Anesthesiology and Chief of the Division of Anesthesiology

Robert B. Dodd, M.D., University of Nebraska, 1945.

Professors

Lauren V. Ackerman (Surgical Pathology), A.B., Hamilton College, 1927; M.D., University of Rochester, 1932. (See Department of Pathology.)

Thomas H. Burford (Thoracic Surgery), A.B., University of Missouri, 1931; B.S. in Medicine, 1933; M.D., Yale University, 1936.

Justin J. Cordonnier (Urology), B.S., Washington University, 1926; M.D., 1928.

Fred C. Reynolds (Orthopedic Surgery), A.B., Washington University, 1931; M.D., 1934.

Henry Gerard Schwartz (Neurological Surgery), A.B., Princeton University, 1928; M.D., Johns Hopkins University, 1932.

Professors (Clinical)

James Barrett Brown, M.D., Washington University, 1923.

Glover H. Copher, A.B., University of Missouri, 1916; M.D., Washington University, 1918.

Peter Heinbecker, B.S., McGill University, 1918; M.D., 1921.

Professor Emeritus (Clinical)

Lecturer

Henry W. Crouch (Clinical Anesthesiology), B.S., Military College of South Carolina, 1922; M.D., Medical College of South Carolina, 1927.

Associate Professors

Harvey R. Bernard, M.D., Washington University, 1947.

Harvey R. Butcher, A.B., Central College, 1941; M.D., Harvard University, 1944. (Also Markle Fellow.)

Sidney Goldring (Neurological Surgery), M.D., Washington University, 1947.

Morton Donald Pareira, A.B., Washington University, 1933; M.D., 1937.

Albert Ross (Physiology), M.D., University of Groningen (Holland), 1940. (See Department of Physiology.)
John R. Shields (Anesthesiology), M.B., University of Birmingham (England), 1941.

Harlan J. Spjut (Surgical Pathology), B.A., University of Utah, 1943; M.D., 1946. (See Department of Radiology.)

Theodore E. Weichselbaum (Experimental Surgery) (Biochemistry), B.S., Emory University, 1930; Ph.D., University of Edinburgh (Scotland), 1935.

Associate Professors (Clinical)

Robert Wilson Bartlett, B.S., University of Michigan, 1926; M.D., 1930.

Eugene Myron Bricker, M.D., Washington University, 1934.

Louis T. Byars, B.S., University of Arkansas, 1928; M.D., Washington University, 1932.

Clarence Harrison Crego, Jr. (Orthopedic Surgery), B.S., Union University, 1926; M.D., University of Michigan, 1926.

Rogers Deakin (G.U. Surgery), M.D., Washington University, 1922.

Minot P. Fryer, A.B., Brown University, 1936; M.D., Johns Hopkins University, 1940.

Leonard Thompson Furlow (Neurological Surgery), B.S., Emory University, 1923; M.D., 1925.

Falls Bacon Hershey, B.S., University of Illinois, 1939; M.D., Harvard University, 1943.

H. Relton McCarrolI (Orthopedic Surgery), A.B., Ouachita College, 1927; M.D., Washington University, 1931.

Frank McDowell, A.B., Drury College, 1932; M.D., Washington University, 1936.

J. G. Proebstein, M.D., Loyola University, 1917.

Assistant Professors

William S. Coxe (Neurological Surgery), M.D., Johns Hopkins Medical School, 1948.

Donald J. Dickler (Anesthesiology), B.A., New York University, 1942; M.D., New York University College of Medicine, 1945.

Felix G. Freund (Anesthesiology), M.D., Universidad Nacional de Buenos Aires, 1948.

Howard S. Liang (Anesthesiology), M.D., National Sun Yat-sen University, College of Medicine (China), 1940.

Harry C. Morgan (Orthopedic Surgery), M.D., Harvard University, 1953.

William T. Newton, M.D., Yale University, 1950.

Charles L. Roper (Thoracic Surgery), M.D., University of Colorado, 1953.

James M. Stokes, M.D., Washington University, 1948.

Assistant Professors (Clinical)

Morris Abrams (G.U. Surgery), B.S., University of Illinois, 1936; M.D., 1937.

Cyril J. Costello, B.S., University of Texas, 1935; M.D., 1939.

Heinz Haffner, B.S., University of Arizona, 1931; M.D., Washington University, 1935.

Oscar Perry Hampton, Jr. (Orthopedic Surgery), M.D., University of Tennessee, 1928.

Carl J. Heifetz, B.S., Washington University, 1927; M.D., 1929.

Carl Edward Lischer, A.B., University of California, 1933; M.D., Washington University, 1937.

James Otto Lottes (Orthopedic Surgery), Ph.B., St. Louis College of Pharmacy, 1926; Ph.G., 1928; A.B., University of Missouri, 1934; B.S., 1935; M.D., University of Louisville, 1937.

C. Alan McAfee, B.S., Washington State College, 1938; M.D., Washington University, 1942.

Robert Killian Royce (G.U. Surgery), B.S., University of Mississippi, 1939; M.D., Washington University, 1942.

Leo Aaron Sachar, A.B., Washington University, 1936; M.D., 1940.

Carl A. Wattenberg (G.U. Surgery), A.B., University of Kansas, 1934; M.D., 1937.
Instructors

Walter C. Bauer (Surgical Pathology), B.S., Ohio State University, 1946; M.D., Washington University, 1954. (See Department of Pathology.) (On leave of absence for service in the Armed Forces.)

Robert C. Donaldson, A.B., University of Missouri, 1941; M.D., Washington University, 1944.

Francis Gerard Duffy (Anesthesiology), M.B., National University of Ireland, 1951.

Alex E. Fairshter (Anesthesiology), B.A., University of Pennsylvania, 1929; M.D., Chicago Medical School, 1937.

Marcy Allen Goldstein, M.D., Washington University, 1951.

Bela I. Hatfalvi (Anesthesiology), M.D., M. Kir. Tisza Istvan Tudomanyegyetem (Hungary), 1938.

Thomas Hornibein (Anesthesiology), B.A., University of Colorado, 1942; M.D., Washington University, 1956. (On leave of absence for service in the Armed Forces.)

Frederick T. Kraus (Surgical Pathology), B.A., College of William and Mary, 1951; M.D., Washington University, 1955. (See Department of Pathology.)

Malcolm McGavran (Surgical Pathology), B.A., Bethany College, 1951; M.D., Washington University, 1954. (See Department of Pathology.) (On leave of absence for service in the Armed Forces.)

Robert W. Ogilvie (Surgical Pathology), B.A., University of Utah, 1943; M.D., 1946. (See Department of Pathology.)

Sidney Saltstein (Surgical Pathology), B.S., Yale University, 1950; M.D., Johns Hopkins University, 1954. (See Department of Pathology.)

Kenneth D. Serkes, B.S., Yale University, 1950; M.D., Washington University, 1951.

William A. Sims, Jr. (Anesthesiology), A.B., University of Missouri, 1954; B.S. in Medicine, 1955; M.D., Washington University, 1957.

John S. Spratt, Jr., M.D., Southwestern Medical School of the University of Texas, 1952. (Division of General Medical Sciences Trainee in Surgery. Also American Cancer Society Advanced Clinical Fellow in Surgery.)

Ned Stanfield, Jr. (Anesthesiology), A.B., Miami University, 1930; M.D., Meharry Medical College, 1934.

Herbert Sunshine (Urology), A.B., Washington University, 1950; M.D., 1954.

Irvin C. Susman (Anesthesiology), M.D., University of Illinois, 1949.

Jessie L. Turnberg (Division of General Medical Services Trainee, A.B., Grinnell College, 1946; Ph.D., University of Texas, 1950; M.D., Washington University, 1953.

Instructors (Clinical)

Robert Anschuetz, M.D., Washington University, 1940.

J. Byron Beare (G.U. Surgery), B.S., St. Louis University, 1935; M.D., 1939; M.S., University of Minnesota, 1947.

F. Gary Bivings, A.B., Princeton University, 1948; M.D., Columbia University College of Physicians and Surgeons, 1952.

Vilray P. Blair, Jr. (Orthopedic Surgery), M.D., Washington University, 1939.

Arthur R. Dalton, B.S., University of Missouri, 1938; B.S. in Medicine, Northwestern University, 1940; M.D., 1941.

Clarence Eckert, M.D., St. Louis University, 1927.

Virgil Otto Fish, M.D., Washington University, 1930.

Lee T. Ford, Jr. (Orthopedic Surgery), M.D., University of Tennessee, 1940.

George L. Hawkins, Jr. (Neurological Surgery), A.B., University of Missouri, 1937; M.D., Columbia University, 1941.
Edward C. Holscher (Orthopedic Surgery), A.B., University of Missouri, 1931; B.S., 1933; M.D., Harvard University, 1935.

Earl P. Holt, Jr. (Orthopedic Surgery), A.B., Duke University, 1942; M.D., 1945.

Stanley M. Leydig (Orthopedic Surgery), A.B., Montana State University, 1930; M.D., Washington University, 1934.

Joseph C. Peden, Jr., B.S., Harvard University, 1940; M.D., 1943.

Mather Pfeiffenberger, Jr., A.B., Yale University, 1941; M.D., Harvard University, 1944.

Daniel W. Platt (Anesthesiology), M.D., Chicago Medical School, 1949.

George Scheer (Orthopedic Surgery), A.B., Municipal University of Wichita, 1940; M.D., Washington University, 1943.

Sam F. Schneider, A.B., Washington University, 1932; M.D., 1936.

Richard H. Fallon, B.S., Boston College, 1952; M.D., Harvard University, 1956. (July 1 to December 31, 1960.)

Loy E. Cramer (Orthopedic Surgery), M.D., University of Oregon, 1956.

Burl M. Dillard, M.D., University of Texas, Southwestern Medical School, 1958.

John S. Dillon, B.S., Georgetown University, 1952; M.D., 1956.

David D. Dobrow (Orthopedic Surgery), B.A., University of California at Los Angeles, 1948; M.D., University of California, 1953.

Harry L. Ellis (G.U. Surgery), B.S., Southwest Missouri State College; M.D., Baylor College of Medicine, 1958.

Richard H. Fallon, B.S., Boston College, 1952; M.D., Harvard University, 1956. (July 1 to December 31, 1960.)

Tanous D. Faris, A.B., Providence College, 1955; M.D., Tufts University, 1959.

Patrick G. Graham, A.B., Williams College, 1951; M.D., Medical College of Virginia, 1958.

John Griz (Orthopedic Surgery), B.S., Wayne State University, 1955; M.D., 1959.

A. Basil Harris (Neurological Surgery), A.B., Birmingham-Southern College, 1950; M.D., Medical College of Alabama, 1954.

Hugh F. Harris, Jr., B.S., University of Mississippi, 1955; M.D., Harvard University, 1958.

Lawrence S. Robinson (Orthopedic Surgery), A.B., University of Missouri, 1938; M.D., Washington University, 1942.

James M. Giffin, B.A., Amherst College, 1957; M.D., Yale University, 1961.

Patrick G. Graham, A.B., Williams College, 1951; M.D., Medical College of Virginia, 1958.

A. Basil Harris (Neurological Surgery). A.B., Birmingham-Southern College, 1950; M.D., Medical College of Alabama, 1954.
(On leave of absence for service in the Armed Forces.)

Alfred B. Hathcock (Orthopedic Surgery), M.D., Washington University, 1956.

Thomas G. Holmes (Neurological Surgery), B.S., University of Alabama, 1953; M.D., Medical College of Alabama, 1957.

Lanny L. Johnson (Orthopedic Surgery), B.S., Michigan State University, 1955; M.D., Wayne State University, 1959.

Haskins K. Kashima, A.B., Stanford University, 1954; M.D., Yale University, 1958. (On leave of absence with USPHS.)

Saul Klein (Genitourinary Surgery), B.S., Syracuse University; M.D., State University of New York.

Robert T. L. Long, M.D., Medical College of Alabama, 1955. (On leave of absence.)

Zoltan J. Lucas, M.D., Johns Hopkins University, 1957.

Doran D. Maupin (Anesthesiology), B.S., University of Texas, 1950; M.A., 1957.

Henry N. Meiers, Jr., M.D., Vanderbilt University, 1955.

Roger H. Michael (Orthopedic Surgery), B.A., Oberlin College, 1953; M.D., Western Reserve University, 1957.

William W. Monafo, Jr., M.D., Tufts University, 1957.

Sam E. Myrick, Jr., B.S., Davidson College, 1953; M.D., Duke University, 1957.

Thomas M. Nall, B.A., Wesleyan University, 1955; M.D., Cornell University, 1959.

Harold G. Norman, Jr., B.S., University of Alabama, 1957; M.D., Medical College of Alabama, 1961.

Howard L. Nudelmen, B.A., Ohio State University, 1956; M.D., 1960.

Margaret M. F. Oakley (Anesthesiology), B.S., University of Illinois, 1955; M.D., St. Louis University, 1959.

Henry D. Onken, M.D., Harvard University, 1957.

Franklin Pfeifferberger, B.A., Yale University, 1951; M.D., Cornell University, 1955.

Gordon W. Philpott, B.S., Yale University, 1957; M.D., Washington University, 1961.

Hiram C. Polk, Jr., B.S., Millsaps College, 1956; M.D., Harvard University, 1960.

Richard Quintiliani, A.B., Harvard University, 1957; M.D., Boston University, 1961.

John R. Reynolds (Plastic Surgery).

William F. Sasser, Jr., A.B., Vanderbilt University, 1956; M.D., Emory University, 1960.
Mary Shannon, R.N.
Bobby Gene Smith (Genitourinary Surgery), B.S., M.D., University of Oklahoma.
Kenneth Smith (Neurological Surgery), M.D., Washington University, 1957.
Lawrence S. Steinberg, A.B., Washington University, 1956; M.D., 1960.
Howard S. Sturim, M.D., University of Rochester, 1957.
Winfred L. Sugg, M.D., University of North Carolina, 1957.
Lewis J. Thomas, Jr. (Anesthesiology), M.D., Washington University, 1957.
Flora Limcaco-Tolentino (Anesthesiology), M.D., University of Santo Tomas, 1957.
James M. Toomey, B.S., Holy Cross College, 1951; D.M.D., Harvard School of Dental Medicine, 1953; M.D., Boston University, 1958.
Joe Roy Utley, B.A., Oklahoma City University, 1957; M.D., Washington University, 1960. (On leave of absence for service in the Armed Forces.)
Sanford Wolfson, A.B., Williams College, 1954; M.D., Harvard University, 1958.

Assistants (Clinical)
Donald T. Behrens, M.D., Washington University, 1948.
Leslie F. Bond, A.B., University of Illinois, 1948; M.D., Meharry Medical College, 1952.
Richard V. Bradley, M.D., Washington University, 1952.
Carl H. Calman, M.D., St. Louis University, 1950.
James T. Channess, M.D., University of Pennsylvania, 1944.
Katherine Jean Crawford, B.S., Michigan State College, 1942; M.D., Woman's Medical College of Pennsylvania, 1946.
Gerhard E. Gruenfeld, M.D., Friedrich-Wilhelms University (Germany), 1923.
Fleming B. Harper, M.D., Medical College of Virginia, 1950.
Frederick W. Klinge, A.B., University of Missouri, 1938; M.D., Washington University, 1942. (See Department of Physiology.)
Allen P. Klippel, A.B., Amherst College, 1944; M.D., St. Louis University, 1946.
Jules H. Kopp (G.U. Surgery), M.D., University of Arkansas, 1931.
Rhondal S. Mason (Orthopedic Surgery), A.B., Lincoln University, 1948; M.D., Meharry Medical College, 1953.
Lester J. Nathan, B.A., University of Omaha, 1949; M.D., University of Nebraska, 1952.
George A. Oliver, A.B., Washington University, 1948; M.D., 1952.
Lawrence W. O'Neal, M.D., Washington University, 1946.
George R. Rader, M.D., Washington University, 1951.
Robert Rainey, B.S., Yale University, 1944; M.D., Washington University, 1947.
Frank O. Richards, A.B., Talladega College, 1944; M.D., Howard University, 1947.
William Shieber, M.D., Washington University, 1953.

Fellows
Lyndon U. Anthony (Neurological Surgery), M.D., University of North Carolina, 1957.
LaVerne Erickson (Neurological Surgery), B.S., University of Idaho, 1949; M.D., Washington University, 1953.
Carl Hartrampf (Plastic Surgery), M.D., Medical College of Georgia, 1956.
Peter K. Kollias (Plastic Surgery), M.D., Athens University (Greece), 1953.
William G. Krech (Plastic Surgery), A.B., Columbia University, 1944; M.D., New York University, 1946.

Second Year
20. Introduction to Surgery. A lecture course in which are studied certain fundamental principles of physiology, biochemistry, and pathology as applied to surgery. Recitations, demonstrations, and clinics to amplify the lectures are included. Three hours weekly during the second trimester. (Part of Conjoint Medicine. See page 60.)

(Dr. Moyer)
THIRD YEAR

30. Surgical Clinic. A weekly exercise throughout two trimesters. Patients presenting the more usual general surgical conditions are demonstrated and their diagnostic and therapeutic problems are discussed. 24 hours. (Surgical Staff)

31. (a) Surgical Wards. For nine weeks the student serves as a clerk in the surgical wards of Barnes, St. Louis Children's, and St. Louis City Hospitals. The time is divided between the Barnes Hospital service and that at City Hospital. While on the City Hospital service the student spends two weeks on emergency call at the hospital and sees all emergencies admitted. Ward conferences are held regularly both at City Hospital and at Barnes Hospital, and fundamental subject matter is systematically covered. The students take the case histories and make the physical examinations and the usual laboratory examinations on the patients assigned them. They assist at the operations and do some of the surgical dressings. Surgical pathological material is followed as an integral part of the case study. The students attend autopsies performed in the cases studied by them and are encouraged to be present at the pathological conference at which these cases are discussed. The student is encouraged to consult the library frequently in the solution of problems concerning his patients. Both at Barnes and St. Louis City Hospitals the students are met at regular intervals by the residents and assistant residents in informal conferences, at which times various questions which have arisen during the day are discussed and various aspects of the care of the patient considered. Particular effort is made to see that the student comes in contact with the more frequent and important surgical lesions and that the cases assigned to him are sufficiently diversified to afford him an accurate perspective of surgery. 126 hours. (Various members of the staff)

(b) Fractures. All students are assigned to the fracture service of the City Hospital for two weeks (full time). In addition, a co-ordinated series of lectures and demonstrations on fractures is given to the entire clerkship group each Wednesday morning at City Hospital. The fundamentals of the diagnosis, treatment, and healing of common fractures are covered at this time. 12 hours. (Orthopedic Staff)

(c) Outpatient Service. In the junior year each student attends rectal clinic one morning a week for 4 weeks. He is assigned referred patients for examination and diagnosis and helps in carrying out simple procedures under the supervision of an instructor and members of the surgical house staff.

32. Surgical Pathology. Weekly exercises of two hours for three trimesters, at which time both early and late pathological changes are considered from the standpoint of their clinical manifestations. Pathological material from the operating room and the museum is studied both in the gross and microscopically. 72 hours. (Dr. Ackerman)
FOURTH YEAR

40. Surgical Clinic. A weekly exercise throughout the year. 36 hours.  
(Surgical Staff)

41. Surgical Clerkship. Six weeks. (Three weeks in Neurological Surgery and three weeks in Urology.)

Urology

Complete history, physical examination, and urologic work-up on all ward and semi-private patients, including assisting in cystoscopic study and surgery. These patients are assigned in rotation. Case presentations, three hours weekly, Dr. Cordonnier and House Staff. Grand rounds, two hours weekly, Dr. Cordonnier and Staff. Pyelogram Conference, five hours weekly, Drs. Cordonnier and Zink. Didactic study of special urologic subjects, two hours weekly, Dr. Cordonnier. Surgical Pathology Conference, one hour every other week, Drs. Cordonnier and Spjut.

Neurological Surgery

1. Admission history and physical examination on all new patients (ward and private) in rotation.
2. Progress notes on all patients (except Infants Ward, Children’s Hospital).
3. All clinical microscopy and laboratory work on ward patients (except Infants Ward, Children’s Hospital).
4. Perform minor diagnostic procedures on ward patients (lumbar punctures, visual fields, etc.), with supervision.
5. Attend Neurosurgery Clinics (Monday and Thursday afternoon and Saturday morning), and work up all patients.
6. *Attend morning rounds (8:00 to 9:30 a. m.), five days a week.
7. *Attend lectures and clinical demonstrations on Tuesday, 9:00 to 10:00 a. m., and 10:00 to 11:00 a. m., in 1200 Classroom.
8. Attend Neuropathology and Neurology-Neurosurgery Conferences, Wednesday afternoon, 2:00 to 5:00 p. m.
9. *Attend (optional) grand rounds Friday, 3:45 to 5:30 p. m.
10. At the end of each three-week period a written or oral quiz is given, and the results are then reviewed with the students. On rare occasions (three times) the quiz has not been given, when the students’ performance as a group, during the clerkship, has been outstanding.

42. Outpatient Service. In the senior year the outpatient service in general surgery is part of a co-ordinated clinical clerkship shared with the other departments in the Washington University Clinics. One-third of the class is divided into four groups of

*Students present their own cases.
about eight students each. Each group attends all clinics concurrently for one trimester of 12 weeks, one morning session each week being assigned to surgery. The student is able to follow a patient for this entire period and in most cases through any other clinic he attends for subsequent diagnosis and treatment. The student is the first to see the patient, take the initial history and examination, and to make his own diagnosis, following which he calls on one of the instructors for consultation and final disposition. In addition to instructors, advanced members of the surgical house staff are assigned to the surgical clinic for supervision and assistance. The student may also carry out or assist in carrying out the relatively simple surgical procedures done in the operating room of the clinic. Attendance at the urological clinic for 6 weekly afternoon sessions is part of this course. For other surgical specialties such as plastic, orthopedic, thoracic, and neurosurgery, time for outpatient service is provided during the senior clerkship.

43. **Tumor Clinic.** As part of the conjoint clinic program each student attends the general surgery tumor clinic one afternoon each week for half the trimester. During this time an attempt is made to integrate patient visits with other clinics to allow the student to follow patients whom he may have referred to this outpatient division. 18 hours.

44. **Tumor Conference.** One hour each week for twelve weeks during the surgery, pediatric, and gynecology trimester. Problem cases are presented for illustration and discussion of all aspects of neoplastic disease. 12 hours.

**ELECTIVE COURSES**

50. **Surgical Pathology.** Two students full time for six weeks, all trimesters. The elective will consist of a correlation of the clinical records of hospital patients with the pathological findings. Time will be devoted to current surgical journals as related to surgical pathology, as well as a brief review of pathological techniques.

51. **Washington University Clinics.** General Surgery, six weeks for four students, mornings. The students will serve as clerks to outpatients, the time being spent in the study and care of the patients with special attention to minor surgical procedures.

52 (511). **Research in Surgery.** Six weeks, full time. This elective is for those students who have been carrying on surgical research in their spare time the previous year and who wish to devote their entire time toward the completion of their problems.

53. **State Cancer Hospital.** Four students to serve as clinical clerks at the State Cancer Hospital, Columbia, Missouri, full time for six weeks. The duties assigned the student will be the routine duties required of any clinical clerk, consisting of both in and outpatient work, particularly related to malignant disease.
54. *Anesthesia.* One or two students. Six weeks, full time. Since the surgical operative schedules begin early each morning, the hour to report will be 7 o'clock. This will enable the student to inspect and test mechanical equipment prior to its use. The student will be assigned to certain nights on call duty with the supervisor to take emergency cases which arise. The course embraces a special training in the practical administration of anesthetics by approved modern techniques, this instruction taking place daily, except Sundays, during the weekly schedules in which the student participates in the operating room. The theoretical aspects are covered by specific periods of classroom instruction followed by examination at stated intervals. The administration of ether, nitrous oxide-oxygen, ethylene, cyclopropane, and basal anesthetics is taught and practiced.

55. *Urology Clerkship in Barnes Hospital.* One student, mornings for six weeks.

57. *Advanced Clerkships.* Four students will be given advanced clerkships on the general surgery service at Barnes Hospital for periods of six weeks. Arrangements should be made with Dr. Moyer.

58. *Surgical Clerkship at Homer Phillips Hospital.* Full time for six weeks. Students will be given an opportunity to study selected patients admitted to the surgical wards.

59. *Advanced Surgery Clerkships.* Two students will be given an advanced surgical clerkship on the general surgery service at the Veterans Hospital for a minimum period of six weeks. (Dr. Falls Hershey)

**MEDICAL JURISPRUDENCE**

William W. Crowdus, LL.B. .........................Lecturer in Medical Jurisprudence

*Medical Jurisprudence.* A course given in the fourth year embracing medical evidence and testimony, expert testimony; dying declarations; rights of medical witnesses; establishing identity from living and dead bodies, sudden death from natural causes and by violence; criminal acts determined by medical knowledge; the legal relation of physician to patients and the public; insanity, and malpractice. 12 hours.
DIVISION OF GERONTOLOGY

The Division of Gerontology is located at the St. Louis Chronic Hospital, 5600 Arsenal Street. The Division conducts a research laboratory at the Hospital.

Through a bequest from the late Mrs. Ina Champ Urbauer, a fund has been established for research in gerontology and allied fields.

**Director of Research**
John Eben Kirk, M.D., University of Copenhagen, 1929. (See Department of Medicine.)

**Research Assistant Professor**
Philip G. Ackermann, B.S., Oregon State College, 1931; Ph.D., Johns Hopkins University, 1936.

**Research Assistants**
Nathaniel C. Johnson, B.S., University of Illinois, 1951.
Teofil Kheim, M.D., University of Budapest, 1934.
Gelson Toro, B.S., National University of Mexico, 1955.

INSTITUTE OF NEUROLOGY

The Beaumont-May Institute of Neurology was established in 1955 by gifts from the Louis D. Beaumont Foundation, Mr. Morton J. May, and the late Mrs. Charles M. Rice. It is the purpose of the Institute to foster basic and clinical research in Neurology with special reference to defects in the structuring of the nerve cell which occasion important neurological disorders having a high incidence of prolonged disability.

**Consultant in Radiology**
Sherwood Moore, M.D., Washington University, 1905.

DIVISION OF TUMOR SERVICES

**Cancer Co-ordinator and Director of Division of Tumor Services**
Harvey R. Butcher, Jr., A.B., Central College, 1941; M.D., Harvard University, 1944.

The Division of Tumor Services was organized as a co-ordinating committee for the Cancer Teaching Program. Inasmuch as cancer, as other subjects in the medical curriculum, is given in a departmental manner, the Tumor Clinic is the principal site on which this Service functions. An attempt is made in this center to give a supplementary picture of the cancer problem as it exists today. In the senior year, time is allotted from the period on gynecology and surgery for work in this clinic. The Tumor Conference, which is held for one-third of the senior class, postgraduate students, and visitors each week, serves the purpose of demonstrating some of the more complex problems in diagnosis and therapy which arise in patients with malignant disease.

Jack A. Raines (Child Psychiatry), M.D., University of Tennessee, 1950.

Emel A. Suner (Child Psychiatry), M.D., University of Istanbul, 1957.

Research Assistants

Barbara Bass (Child Psychiatry).

Calvin W. Burnett (Child Psychiatry), B.S., St. Louis University, 1959.

Helen Grogan (Medical Psychology), B.S., St. Louis University, 1953; M.S., 1959.

Marie Kaplan (Child Psychiatry), A.B., Washington University, 1935.

Betty Levitzsky (Medical Psychology), A.B., Washington University, 1953.

Shirley A. Platt (Child Psychiatry), B.S., University of North Carolina, 1946.

Fellow

James R. Harte (Child Psychiatry), B.S., Central Missouri State College, 1952; M.D., Washington University, 1954.

The Division of Child Psychiatry offers a varied teaching program for residents in psychiatry and Fellows in Child Psychiatry through its Child Psychiatry Clinics and school for emotionally disturbed children at 369 North Taylor Avenue, the Steinberg Inpatient Department of Child Psychiatry at the Jewish Hospital, the Special Study Unit for psychosomatic disorders at the Children's Hospital, and the St. Louis County Child Guidance Clinic. Trainees are assigned to these various units where they participate in complete diagnostic evaluations and see patients in psychotherapy under the supervision of the unit director and the Professor of Child Psychiatry. Seminars in individual and group psychotherapy, psychology, social work, and research are held weekly at the Division building on Taylor Avenue, and opportunity is provided for observation through a one-way screen of psychological testing and group and individual psychotherapy. Fellows are encouraged to participate in small research projects.
DIVISION OF AUXILIARY MEDICAL SERVICES

The Division of Auxiliary Medical Services of the School of Medicine provides instruction and training in professions associated with medicine and necessary to the physician in providing modern health care.

As with the educational program of the medical student, the Division of Auxiliary Medical Services is a joint enterprise of the School of Medicine and the affiliated hospitals—Barnes, Children’s, McMillan, and Maternity Hospitals. As a matter of convenience some departments are administered by the School and others by the Barnes Hospital.

Departments conducted by the School of Medicine include Hospital Administration, Occupational Therapy, and Physical Therapy. Schools operated by the Barnes Hospital include Laboratory Technology, Medical Dietetics, and Anesthesiology. All of the courses are approved by the American Medical Association or other certifying agencies and graduates are admitted to examinations. For further information write the Director of the Department or School, Washington University School of Medicine, St. Louis 10, Missouri.

THE IRENE WALTER JOHNSON INSTITUTE OF REHABILITATION

The Irene Walter Johnson Institute of Rehabilitation provides facilities for disabled persons in the St. Louis metropolitan area and an active research program relating to chronic diseases. Personnel will be trained in rehabilitation procedures and new methods of treatment will be developed.

Director
Eric Reiss, B.S., Randolph-Macon College, 1943; M.D., Medical College of Virginia, 1948.
(See Department of Medicine and Department of Preventive Medicine and Public Health.)

Assistant Director
Lorraine Lake, B.S., Washington University, 1950; M.A., 1954. (See Department of Anatomy and Department of Physical Therapy.)

DEPARTMENT OF HOSPITAL ADMINISTRATION

Professor and Director of the Course
Frank R. Bradley, M.D., Washington University, 1928; LL.D., Central College, 1943.

Associate Professor and Associate Director

Assistant Professor
Donald J. Horsh, B.S., University of Nebraska, 1941; M.H.A., Washington University, 1951; LL.B., St. Louis University, 1953.

Lecturers
Gerald Aldridge (Financial Control), B.A., University of Denver, 1949; M.H.A., Washington University, 1951.

John Warner, B.S., St. Louis University, 1948; M.H.A., 1954.
A two-year course leading to a certificate or the degree of Master of Hospital Administration. The first year is given on the main campus of the University and at the School of Medicine, and includes courses in accounting and statistics, social work, public health, and hospital administration. The second year is spent in field work in an approved hospital. A degree is conferred on completion of a satisfactory thesis.

Applicants must hold a bachelor's degree or be graduates of an approved school of medicine.

DEPARTMENT OF OCCUPATIONAL THERAPY

Assistant Professor and Elias Michael Director of the Department
Martha E. Matthews, A.B., Winthrop College, 1933.

Instructor and Associate Director of the Department in Charge of Clinical Training
Elizabeth Withers, B.S., Memphis State University, 1957; M.A., 1959.

Lecturer Emeritus

Instructors
Ada Wells Ford.
Garth D. Tubbs, B.S., Wisconsin State College, 1953.

Assistants
Marie Miller, B.A., Bryn Mawr College, 1938.
Marion A. Stumpf, B.S., Mount Mary College, 1950.

Fellow
Elizabeth Gladstones (to September 15, 1961).

The degree of Bachelor of Science in Occupational Therapy is conferred upon the completion of three academic semesters at the School of Medicine and nine months of supervised clinical application. During the academic and clinical programs, emphasis is placed on the patient’s physical and psychological problems resulting from disease and trauma. Basic understanding of the techniques of creative, manual, and prevocational activities and how these are correlated therapeutically to provide desired treatment are stressed.

The role of occupational therapy as it functions with various medical and social resources within the broad concepts of patient rehabilitation is an important part of the course.

The curriculum includes: sciences such as anatomy, physiology, psychology, and neurology; clinical subjects such as general medicine, orthopedics, and psychiatry; interpretation of principles and practices of occupational therapy; technical instruction in manual, creative, and prevocational activities. The period of supervised clinical application is spent in approved affiliation centers.
Applicants must present sixty semester hours of college credit, including a specified number of units in biology, physical science, psychology, and sociology.

The program of instruction in physical therapy in the School of Medicine consists of the Junior and Senior years of a four-year college curriculum leading to the degree of Bachelor of Science in Physical Therapy.

Students entering this program must have satisfactorily completed sixty semester hours in an accredited college or university. Required are courses in English composition, literature, psychology, and the physical, biological, and social sciences.

The program in the School of Medicine includes courses in the basic medical sciences, medical and surgical lectures as applied to the practice of physical therapy, theory and application of physical therapy procedures, and a minimum of 800 hours of clinical experience.

127
THE AIMS OF THE PROGRAM

The aim of the program is the development of competent physical therapists whose broad cultural background and thorough professional training prepare them to accept the appropriate responsibilities in the comprehensive care program of modern medicine.

DEPARTMENT OF SOCIAL WORK

Lecturer and Director
Mary M. Lewis, A.B., University of Iowa, 1933; M.S.W., Washington University, 1946.

SCHOOL OF X-RAY TECHNOLOGY

A course for X-ray technicians is offered by the Edward Mallinckrodt Institute of Radiology. The course will cover by lectures and group discussions the following subjects: Anatomy and Physiology; Radiographic Technic; Radiation Physics; Darkroom Processing Procedures; Nursing Procedures; Administration; Radiation Therapy; Professional Ethics.

The course is two years in length. On satisfactory completion of the first year's work, the student will be assigned to tours of duty in the various sections of diagnostic and therapeutic disciplines for practical experience, and during the second year will be paid a small monthly stipend of $50.00.

Candidates for admission must present evidence of successful completion of four years' education in an accredited high school. Special consideration will be given to graduates of Schools of Nursing which are recognized by the State Board of Nurse Examiners and to students who have passed college entrance examinations for admission to an accredited college or university. The fees for the course are as follows:

<table>

SCHOOL OF DIETETICS

Henrietta Becker, B.S. Director
Helen Starch, B.S. Educational Director

A twelve-months course for the training of dietitians leading to a certificate, and eligibility for membership in The American Dietetic Association.

The course includes theoretical and practical training in food service and personnel administration, food service cost and control, diet therapy, teaching nutrition, outpatient instruction, and affiliation with the St. Louis Children's Hospital.

A bachelor's degree from an accredited college or university is required for admis-
sion. Certain courses in chemistry, biology, social science, education, food, nutrition and dietetics, and institutional management are essential.

There is no tuition fee, but a matriculation fee of $10.00 must be deposited as soon as an application is accepted. Maintenance is provided. A monthly stipend of $35.00 is paid.

BARNES HOSPITAL SCHOOL OF MEDICAL TECHNOLOGY

Virgil Loeb, Jr., M.D.
Director of Laboratories and of the School of Medical Technology
Marian Rohrer, M.T. (A.S.C.P.)………Assistant Director (Medical Technology)

A twelve-months course for the training of medical technologists leading to a certificate given by Barnes Hospital. Graduates are eligible to take the examination given by the American Society of Clinical Pathologists in order to become certified as Registered Medical Technologists. The course includes theoretical and practical training in blood banking, clinical microscopy, tissue pathology, parasitology, bacteriology and serology, clinical chemistry, electrocardiography, and basal metabolism.

Applicants must present at least two years of college training approved by the Registry of Medical Technologists, Muncie, Indiana. Effective January 1, 1962, the pre-technical educational requirements will be increased to three years of college background. The tuition is $100 for the entire course.

SCHOOL OF ANESTHESIA FOR NURSE ANESTHETISTS

Robert B. Dodd, M.D……………………………………………………………………….Director
Mrs. Dean E. Hayden, R.N………………………………………………………….Associate Director
Miss Helen Vos, R.N., B.S………………………………………..…….Educational Director

An eighteen-months course for comprehensive special training in the practical administration of anesthetics by approved medical techniques, and the theory underlying their skilled administration. Upon satisfactory completion of the course, a certificate is awarded.

The theoretical aspect of the subject is covered by specific periods of organized instruction. Instruction in the practical administration of anesthetics takes place in the operating rooms, where at first the student observes, then administers anesthetics under an instructor’s supervision, and eventually conducts complete anesthesias upon her own responsibility.

The course is open to graduates of accredited schools of nursing. The tuition is $100.00. Full maintenance is provided. A stipend of $50.00 per month is paid after six months, $150 per month after twelve months.
The Alumni Association, whose membership is made up of all graduates of the School of Medicine and all members of the faculty, is active in its support of the School and of the student body. Each year the President of the Association participates in the exercises welcoming the incoming class, and prior to commencement, the Association sponsors the annual Alumni dinner, at which the graduating seniors are guests. On the day of the dinner, a reunion is held. Feature events of the reunion include a scientific program presented by graduates and faculty members, and a buffet luncheon at which members of the alumni and senior students are guests of the School of Medicine and its faculty.

The Association maintains a loan fund for students, and through the contribution to the Class Endowment Fund made by the class celebrating its twenty-fifth reunion each year, provides a source of important financial aid for the School.

The School of Medicine and its Alumni Association also maintain, in the David P. Wohl, Jr., Memorial Hospital, the Medical Center Alumni Lounge. A full-time receptionist, Miss Gwen Hixson, presides over this comfortable and convenient lounge, handling all Medical Alumni activities, contacting staff and students, and greeting visitors.

The Corporation of the University includes one representative elected by the Medical Alumni Association.

For the year 1960-61, the following alumni served as officers of the Washington University Medical Alumni Association:

President: Frank McDowell, '36
President-Elect: Ernest T. Rouse, '43
Vice-President: John L. Horner, '36
Secretary-Treasurer: Mark D. Eagleton, Jr., '50

Members of the Board of Alumni Association meeting in the Medical Center Alumni Lounge to discuss the activities of the Association. Left to right—Dr. Mark Eagleton, Secretary-Treasurer; Dr. Ernest T. Rouse, President-Elect; Dr. Frank McDowell, President.

William Sherman Medart, Jr., A.B.  
Eugene Joe Sayfe, A.B.  
Joseph Andrew Sisson, A.B.  
Raymond Dean Wochner, A.B.

Scholarships, 1960-61

Jackson Johnson Regional Scholarships

Harvey Edward Cantor  
David Danoff, A.B.  
William Bradford DeLong  
James Curtis Elsasser  
Marshall Gollub, A.B.  
John Mark Grollmns  
Wylie Casto Hembree III, B.A.  
Noel McKinley Johnson, A.B.  
James Philip Kase, A.B.  
John Loren Kiser, B.S.  
Stuart Arthur Kornfeld, A.B.  
Marvin Ernest Kuehner, B.S.  
Charles Duwain Leonard, B.S.  
Christine Mackert  
Paul Robert Manske, B.A.  
Robert Cameron McKnight  
Laurence Walter Muench, B.S.  
Stanley Jay Nudelman, A.B.  
Barbara Lee Shaw, B.A.  
Taylor Archie Prewitt, A.B.  
Hugh Hanna Tilson  
James Findlay Wallace, A.B.

Honors, 1960

Magna Cum Laude

Karl Hugo Muench, A.B.

Cum Laude

Floyd Elliott Bloom, B.A.  
David Todd Hammond, A.B.  
Ben Calvin Harmon, B.A.  
Eric Armin Pfeiffer, A.B.  
Eli Ronald Sluter, A.B.  
Joseph Andrew Sisson, A.B.  
Carolyn White Terry, A.B.  
Winston Andrew Tustison, B.A.  
Raymond Dean Wochner, A.B.

Special Honors, 1960

William Sherman Medart, Jr., A.B., Special Honors in the Field of Pathology  
Martin L. Rubenberg, Special Honors in the Field of Physiology

The David P. Wohl, Jr., Memorial Hospital, which houses the administrative offices and laboratories of the Departments of Internal Medicine and Surgery; in addition, it provides three floors for the care of patients.
