Two Firms Contracted For Housekeeping, Grounds, Food Services

WU has contracted with two professional firms for the operation of its housekeeping and grounds maintenance and for its food services, effective June 1, 1977. The two firms are Allied Maintenance, a New York-based firm with a wide variety of institutional and industrial clients nationwide, and Professional Food Service Management, a Chicago-based firm which specializes in food service management for educational institutions.

Under the terms of the contractual agreements, both firms have been employed to provide complete service in their two areas, including all personnel, materials, supervision and management. According to Joe Evans, associate vice-chancellor for business affairs, the employment of the two professional firms “will let the University maintain the quality of these necessary services while removing itself from the operation of specialized businesses which are not directly related to its primary expertise, that of education and research.”

Evans noted that there is a national trend toward contracting of food services and housekeeping. “Universities have had to get into a lot of activities that are essentially support services for their central function of teaching and discovery,” he said. “Many colleges and universities are finding that running cafeterias or restaurants, for instance, can be done more efficiently by experts in that specialized business.”

Other benefits which Evans cited are the savings available through national purchasing and inventory maintenance, experienced labor relations, and quality control based on experiences at other campuses.

“In some cases,” Evans said, “national organizations and broad professional experience can be beneficial. Volume buying for a large number of cafeterias is particularly important.”

Washington University plans a 125th anniversary celebration. See page 3.

Freshmen Rank High; Class Includes Record Nat’l Merit Scholars

This year, WU’s entering class totals approximately 1020 freshman students. Included in the class are 140 National Merit Scholars, the largest number ever admitted by WU in a single year and one of the largest numbers to be admitted by any university in the country this year.

Director of Admissions William H. Turner reported that the total number of entering students was within the targeted range set for the 1977-78 academic year, and “the quality of this year’s class is the best ever.”

Of the entering students, Turner reported that one in every seven is a National Merit Scholar, 62 percent graduated in the top 10 percent of their high school classes, and the average of their SAT scores was in the 90th percentile of the national distribution of scores.

“The SAT scores of our students were particularly good,” Turner said. “The verbal average continues to climb in relation to the national average, while the math average was the highest we have ever had, directly counter to the decline in math scores nationally.”

Also included in the entering class are 10 freshmen admitted through the University’s new Scholars’ Program in Medicine. “These are really top-flight students,” Turner said, “who have been admitted both to the undergraduate program and provisionally to the University’s School of Medicine. Our Scholars’ Program in Medicine, which identifies students through our own national competition, helps take some of the pressure out of the typical pre-med program. Since their credentials have already been reviewed by the School of Medicine, they will be encouraged to broaden their undergraduate program and not get trapped in a narrow concentration.”

Adding to the quality of the entering class are the 17 freshmen awarded full tuition scholarships through the University’s Honorary Merit Scholarship program. Selected through a national competition, the Scholars have demonstrated high achievement and outstanding...
Edison Lights Up With New Programs of Dance, Theatre and Music

From internationally acclaimed musical artists to widely praised dance companies, from New York’s top repertory company to WU’s own Performing Arts Area productions, Edison Theatre’s 1977-78 playbill promises an exciting season.

Richard Palmer, WU associate professor of drama and director of Edison Theatre, has announced that the slate of 22 productions will be divided into the following four series: the Music at Edison Series; the Edison Dance Series; the Edison Theatre Series; and the Performing Arts Area Drama Series.

The Sunday evening Music at Edison Series, launched last year, will again offer five chamber music concerts with internationally acclaimed soloists and ensembles. The series opens Sun., Sept. 18, with Bolivian-born violinist Jaime Laredo, who has won accolades for his recitals both in this country and abroad.

Following Laredo, season subscribers will hear: The Deller Consort, presenting authentic performances of English and vocal consort music of the Renaissance and Baroque eras, Oct. 30; Anton Kuerti, pianist, Jan. 29; Speculum Musicae, a contemporary chamber music ensemble, Feb. 12; and the renowned Cleveland Quartet, April 9.

Subscription passes for the five events in the Music at Edison Series are available for the WU faculty and staff at $13. Individual tickets are $3.75 each. WU students may obtain passes for $8 and individual tickets for $2.

Dance devotees have a treat in store when the Dan Wagoner Dance Troupe of New York City opens the Edison Dance Series Fri. and Sat., Sept. 16 and 17. Following Wagoner, who has been hailed by Clive Barnes of The New York Times as “one of the best dancers on the modern dance scene,” season subscribers will see: The Gus Solomons Dance Company, one of America’s leading interpreters of modern and post-modern dance, Dec. 2 and 3; Meredith Monk and The House, a widely praised interactive artist, Jan. 20 and 21; the Washington University Dance Theatre faculty-choreographed concert, March 31, April 1 and 2; and the Pilobolus Dance Theatre, an unconventional company skilled in acrobatics, April 27, 28 and 29.

The Edison Theatre Series opens with a return engagement of the Edison Summer Stock Company’s spirited production of Noel Coward’s comedy classic, Blithe Spirit, Sept. 9 and 10. It will be followed with performances by seven professional touring companies which are: The Acting Company of New York, presenting Chapeau, a new musical based on the rollicking French farce, The Italian Straw Hat, Sept. 24; the Richard Morse Mime Theatre, presenting the mime artist and former pupil of the celebrated mime Marcel Marceau, Oct. 28 and 29; the Oxford-Cambridge Shakespeare Company, one of the most noted troupes producing the works of the Bard of Avon, presenting Midsummer Night’s Dream, Nov. 18 and 19; the Organic Theatre Company of Chicago, presenting Ray Bradbury’s science-fiction-fantasy play The Wonderful Ice Cream Suit, Feb. 4; the Dallas Theatre Center, a prominent professional resident theatre company, presenting Scapino, adapted from a Moliere comedy, Feb. 10, and The Oldest Living Graduate, the third part of Preston Jones’s Texas Trilogy, Feb. 11; Vinie Burrows, an accomplished actress, in a one-woman tour-de-force, March 17 and 18; and The Next Move Theatre Company of Boston presenting two evenings of improvisation, April 7 and 8.

WU’s Performing Arts Drama Series will offer four powerful dramas that rank as theatre favorites. Herbert Metz, WU associate professor of drama, will direct Robert Bolt’s A Man For All Seasons, Friday, Saturday and Sunday, Oct. 7-9; Richard Palmer will direct John Millington Synge’s Playboy of the Western World, Friday, Saturday and Sunday, Nov. 11-13; Sidney J. Friedman, WU associate professor of drama and chairman of the Performing Arts Area, will direct Arthur Miller’s Pulitzer-prize winning Death of a Salesman, Friday, Saturday and Sunday, Feb. 24-26; and Clyde Ruffin, WU associate professor of drama and black studies, will direct Alice Childress’s The Wedding Band, Friday, Saturday and Sunday, April 21-23.

Faculty and staff passes for the 17 events in the Dance, Theatre and Performing Arts Area series are $35, and $20 for WU students. Individual tickets for the touring companies in the Music, Dance and Theatre Series are $3.75 each for faculty and staff, and $2 for WU students. Tickets for the WU Dance Theatre and the Performing Arts Drama Series productions are $1.75 each for faculty, staff and students.

Curtain time for all events is 8 p.m. Sunday matinees begin at 2:30 p.m. There will be a special children’s matinee of Vinie Burrows at 1 p.m., March 17.

WU’s 1977 ARTS, HUMANITIES, AND SCIENCES SERIES of short courses is again being offered by the School of Continuing Education, beginning the week of Sept. 19. The eight morning, afternoon and evening courses include “Human Rights: Who Decides?”, taught by WU professors Victor T. LeVine, political science; A. Peter Mutharika, law; Thomas Sandel, psychology; and Karl E. Wilson, psychology. For further information, call Jean Pennington, ext. 4261.
Kenneth Chilton has been appointed assistant director of WU's Center for the Study of American Business. He succeeds Linda Rockwood who has moved to Richland, Washington.

Chilton will assist Murray Weidenbaum, Mallinckrodt Distinguished University Professor and Director of the Center, with all administrative matters and Center activities. Mr. Chilton has a varied background in industry ranging from engineering assignments in the aircraft industry to his most recent experience as treasurer and director of business planning in the home furnishings industry.

He became a member of Tau Beta Pi (national engineering honorary), Pi Mu Epsilon (national mathematics honorary) and Alpha Pi Mu (national industrial engineering honorary) while an undergraduate at Northwestern University and graduated with distinction in June, 1967, with a bachelor of science degree in management science. He was an NDEA Title IV Fellow and earned his master of science degree in management science at Northwestern University in September, 1968.

Immediately after graduation, Mr. Chilton joined McDonnell Aircraft Corporation as an operations analyst. Four years later, in 1972, he became a management scientist consultant for McDonnell Douglas Automation Company. In 1974, he joined Permeen Corporation, manufacturers of furniture and wood paneling, in Maryland Heights, Mo., as a senior financial analyst in business planning. Subsequently, he was appointed assistant to the treasurer and ultimately treasurer-director of business planning in 1976.

Olin Library Notices: All identification cards for faculty, staff and students must be validated at Olin before they can be used at any of the departmental libraries. Also, tours of Olin will be given for those individuals who are new to the campus during the week beginning September 6. The schedule is: Tues., Sept. 6, 10 a.m. and 2 p.m.; Wed., Sept. 7, 11 a.m. and 3 p.m.; Thurs., Sept. 8, 11 a.m. and 2 p.m.; Fri., Sept. 9, 10 a.m. and 2 p.m.

A huge plant sale, sponsored by the Student Union Concert Committee, will be held Thurs., Sept. 1, and Fri., Sept. 2, on the lower level of Mallinckrodt Center from 10 a.m. to 6 p.m. Cacti, houseplants, and herbs will be among the greenery on sale.

How Does One Celebrate a 125th Birthday?

Since its founding in 1853, WU has grown from a single building downtown to its present multi-halled complex and from a primarily regional institution to a nationally recognized one.

Next year, when WU reaches the venerable old age of 125, a four-week long celebration will be held to honor the University's growth and continuing commitment to academic ideals.

A special birthday committee, headed by Edward T. Foote, dean of the WU Law School, is currently soliciting suggestions from all divisions of the University on how to best celebrate this occasion. The committee was appointed by Chancellor William H. Danforth to plan and coordinate the activities for the celebration.

"The official celebration will begin with Founders' Day, Oct. 7, 1978, and we will try to schedule other events during the following four weeks," Foote said. "The committee has no preconceptions about what these events should be. We are open to all suggestions—whether special programs, performances, creations, exhibits, lectures, symposia, or important faculty and departmental achievements."

In order for the committee to have time to coordinate events, Foote has requested that all plans be sent to him at the Law School, Box 1120, by the end of October, 1977. A tentative calendar of events will be made by Christmas.

Since the Committee has no special funds for the celebration, plans should be developed, Foote said, that can either be supported through departmental budgets or by outside funding.

Other committee members are: Donald Anderson, director of public relations; W. Maxwell Cowan, professor of anatomy; Kitty Drescher, assistant for special projects; Michael Friedlander, professor of physics; William Gass, professor of philosophy; Robert Salisbury, professor of political science.

BARRY COMMONER, director of the Center for the Biology of Natural Systems, was awarded the rank of Commendatore in the Ordine "Al Merito della Republica Italiana" by the Italian government. Commoner was so honored for his contributions to the study and research in the field of ecology and for his cooperation in trying to solve the problem of Sebeso—a town in northern Italy that has been evacuated because of dioxin poison released in its vicinity by an industrial firm.

RICHARD POPKIN, WU professor of philosophy, was awarded the Nicholas Murray Butler Medal in Silver by Columbia University in New York. The medal is given annually to a graduate of Columbia who has made a major contribution to the field of philosophy. Columbia President William J. McGill stated that Popkin's work in the history of skepticism, especially from the 16th to the 18th century, had clarified the significance of skepticism as one of the major currents of Western thought.
Alumni Gifts Hit Record High

In 1976-77 Annual Giving Program

Alumni of WU gave a record $750,000 in gifts to the University last year through its 1976-77 Annual Alumni Giving Program.

Proceeds of the drive, which apply to the University's general budget, increased $50,000 over the amount raised the previous year. More than 22 percent, or some 12,800 alumni participated in the program. The average alumni participation in similar drives among colleges and universities nationally is 17 percent.

Allen Martin, Jr., director of alumni relations, said that alumni were contacted through phonathons, direct mail and personal solicitation. “Twenty-six phonathons were held in metropolitan areas throughout the country and some 45 were held in St. Louis,” he said. “The credit for this year's highly successful drive must be given to all our alumni and student volunteers.”

Martin also noted that a 2.5 percent increase in alumni participation last year is indicative of growing support of the University on the part of its alumni. “Both the number of donors and the amount of money given to Washington University has been increasing continually over the past several years,” he said.

An additional $647,283 in designated funds, those intended for specific purposes such as scholarships and buildings, was also given to the University by alumni last year. Alumni support of both kinds totalled $1,405,000.

Freshmen

(continued from page 1)

ing potential in their chosen fields. The 17 students were selected from among 700 applicants and 27 finalists for the scholarships in the natural sciences or mathematics, the social sciences, the humanities, engineering and fine arts.

WU's entering class comprises 581 men and 439 women from 48 states and 10 foreign countries. About 20 percent are from metropolitan St. Louis, 41 percent from the Midwest, 17 percent from the South and Southwest, 27 percent from the East, and 15 percent from the West and Northwest.

Preliminary figures show that the breakdown of freshman enrollment by school is: Architecture, 55; Arts and Sciences, 620; Business, 55; Engineering, 190; and Fine Arts, 100.

Enrollment in the graduate programs and in the University's professional Schools of Dental Medicine, Law, Medicine and Social Work is expected to equal last year's total.

The estimated total enrollment for Washington University has been set at approximately 8500 students, with 4400 undergraduates and 4100 graduate and professional students.

Faculty Promotions

Faculty promotions in all divisions of the Hilltop and Medical School campuses as of May 15, 1977, are:

**Arts and Sciences:** Richard L. Admussen to professor of French; Barry Ames to associate professor of political science; Margaret G. Berg to assistant professor of dance; Dorothy J. Echols to associate professor of English; Derek Hirst to associate professor of biology; Tamie Kamiyama to associate professor of Japanese language; Ronald A. Lovett to professor of chemistry; Paul M. Lutzeler to associate professor of German; James G. Miller to professor of physics; Stephen Molnar to professor of anthropology; Max Okenfuss to associate professor of history; Robert P. Parks to associate professor of economics; Frank A. Podosek to associate professor of planetary sciences; Carter Revard to professor of English; Demetrios G. Sarantites to professor of chemistry; Paul S. G. Stein to associate professor of biology; Sarantis Symeonoglou to associate professor of art and archaeology; Joyce Trebilcot to associate professor of philosophy; Richard J. Walter to professor of history; Robert C. Williams to professor of history; Edward N. Wilson to associate professor of mathematics; Richard Yang to professor of Chinese language.

**School of Social Work:** William H. Butterfield to associate dean of administration.

**School of Engineering:** Lester F. Eastwood, Jr., to associate professor of Technology and Human Affairs; Mark Ros sow to associate professor of civil engineering.

**School of Law:** Arthur Peter Mutharika to professor of law.

**School of Dental Medicine:** Dr. John G. Boggiano to associate professor of clinical oral surgery; Dr. M. Lyle Calton to associate professor of clinical endodontics; Dr. Ronald D. Gross to assistant professor of clinical operative dentistry; Dr. Suleyman Gulmen to assistant professor of pathology in the School of Dental Medicine; Dr. Michael Matloff to associate professor of clinical orthodontics; Dr. Carl E. McAllister to associate professor of clinical endodontics; Dr. J. Brian O'Loughlin to associate professor of clinical orthodontics; Dr. John R. Reel to associate professor of clinical orthodontics; Dr. Thomas Schiff to assistant professor of clinical operative dentistry; Dr. William L. Schwartz to associate professor of clinical orthodontics; Dr. Michael E. Sunden to associate professor of clinical oral surgery; Dr.
Two Firms (continued from page 1)

more economical than buying for one or two, and professional experience in identifying and supervising the particular skills needed in each function is preferable to a do-it-yourself operation."

Evans noted that the University's experience with White Wing as contractor for housekeeping services last year supported the University's decision to expand its contractual services. "In general," Evans said, "we were satisfied with the service White Wing provided. They showed that an outside firm can do the job. However, we felt improvements were possible if a single firm could provide a wider service than simply housekeeping. In our opinion, Allied Building Maintenance was the best contractor for full service in housekeeping and grounds maintenance. We also felt confident that an outside firm could be just as effective handling our food services requirements."

Under the present agreements, the two firms are responsible for providing their own staffs to perform their services. All housekeeping and grounds personnel are employees of Allied Maintenance, and all food services personnel are employees of Professional Food Service Management.

Any individual who was previously employed by the University in these areas and who wished to remain at the University was guaranteed employment either with the contractors or elsewhere within the University, commensurate with their qualifications.

"In selecting contractors," Evans said, "we wanted to make sure that our former employees would not lose out because of the change. Although all policies involving salaries, benefits, and working conditions are now the responsibility of our contractors, those employees who used to be on the University's payroll have been employed by the contractors at wages at least as high as their University salaries and have not lost any of the pension benefits they might have accrued to date, and they will accrue additional pension benefits in accordance with their negotiated agreement. The employees of both contractors ratified a new contract on August 21. All future negotiations, of course, will take place between the firms and their own employees."

Evans stated that Assistant Vice Chancellor Robert Reinhardt will supervise the contract with Allied Building Maintenance, and Director of Housing and Food Service, George Burris, will supervise the contract with Professional Food Service Management.

AUDITIONS for WU's Galant Ensemble, directed by Peter Chow, will be held Sunday, Sept. 4, from 1-6 p.m., in Tietjens Hall on campus. Chairs are open in all sections and all players are invited to audition. To schedule an audition time, call ext. 4582.

FALL TRANSITION PROGRAMS FOR WOMEN will again be offered by the School of Continuing Education, beginning the week of Sept. 19. The series of workshops, seminars and training courses are designed for women at a transition point in their life styles. One category of courses includes "Life Planning" seminars and assertive training workshops. A second category of courses includes practical workshops in writing, watercolor techniques and interior design to enable women to update skills and discover new abilities. For further information, call Jean Pennington, ext. 4261.

Two Firms (continued from page 1)

NEWS BRIEFS

Six WU Artists were selected by Missouri art critics to have their works exhibited at the official opening of the St. Louis Convention Center in late July. They were: John Foster, part-time instructor of art; Bill Kohn, associate professor of art; Lucian Krukowsky, professor of art; Peter Marcus, associate professor of art; Jim Nickel, part-time instructor of art; Arthur Osver, professor of art. Three graduates of WU's School of Fine Arts—Laura Foster, Jennifer Harroun and Fred Nelson—were also selected to exhibit their works. Donald Hoffman, art critic for the Kansas City Star, Joan Lipkin, arts editor of the Saint Louis Literary Supplement, and John Brod Peters, art editor of the St. Louis Globe-Democrat chose a total of 20 artists who they thought best represented serious artistic achievement in the Kansas City and St. Louis areas for the opening celebration of the Convention Center.

Promotions (continued from page 4)

Richard W. Weber to associate professor of clinical oral surgery; Dr. Gary Weinstein to assistant professor of clinical fixed prosthodontics; Dr. George R. Wiseheart to associate professor of clinical endodontics.

School of Medicine: Dr. Gale G. Ahumada to assistant professor of medicine; Dr. Edward T. Barker to assistant professor of clinical pediatrics; Dr. Morton A. Binder to associate professor of clinical medicine; Dr. Stanley J. Biringer to associate professor of medicine; Dr. Barbara Ann Boime to associate professor of otolaryngology; Dr. Irving Boime to associate professor of reproductive biology in obstetrics and gynecology; Dr. Peter B. Corr to assistant professor of pharmacology in medicine; Dr. Philip E. Cryer to associate professor of medicine; Dr. William B. Currie to research assistant professor of obstetrics and gynecology; Dr. Nigel W. Daw to research assistant professor of ophthalmology and professor of physiology and biophysics; Dr. Vincent R. DeMello to assistant professor of medicine; Dr. Katherine DeSclherry to assistant professor of pathology; Dr. Helen M. Aff-Drum to associate professor of clinical pediatrics; Dr. Gerald J. Duling to assistant professor of clinical pediatrics; Dr. James A. Ferrendelli to professor of pharmacology and Seay Professor of Clinical Neuropharmacology in Neurology; Dr. Philip M. Fishman to assistant professor of computer science in psychiatry; Dr. Israel J. Flance to professor of clinical medicine; Dr. Robert H. Friedman to associate professor of clinical pediatrics; Dr. Arthur H. Gale to assistant professor of clinical medicine; Dr. Wilbur H. Gearhart to assistant professor of clinical psychiatry; Dr. Doris C. Gilpin to assistant professor of child psychiatry; Dr. Benjamin M. Goldstein to assistant professor of clinical medicine; Dr. K. S. Gowda to assistant professor of medicine; Dr. Gene H. Grabau to associate professor of clinical pediatrics; Dr. Marshall B. Greenman to associate professor of clinical pediatrics; Dr. Robert L. Grubb to associate professor of neurological surgery; Dr. Norman M. Hankin to associate professor of clinical pediatrics; Dr. James R. Heersma to assistant professor of clinical pediatrics; Dr. Antonio Hernandez, Jr. to associate professor of pediatrics; Dr. Thomas E. Hewitt to assistant professor of pathology; Dr. Barrett K. Holder to assistant professor of surgery (orthopedic surgery); Dr. William H. Holland to research assistant professor of electronics in psychiatry; Dr. Craig M. Jackson to professor of biological chemistry; Dr. Mary J. Johnson to assistant professor of anatomy and neurobiology and of neurology and research assistant professor of pediatrics;
Report on WU Pension, Welfare Programs

The following summaries are from WU’s annual reports to the United States Department of Labor on various pension and welfare programs offered to employees by the University. The law requires employees be notified of them through their publication.

Employees may obtain copies of the full annual reports or any parts of the reports for a reasonable charge, or inspect them without charge at the University’s Personnel Office by making an appointment. To obtain a copy of any of the information listed, write to Gloria White, administrator and assistant vice chancellor for personnel, Box 1184.

TIAA/CREF BASIC RETIREMENT PROGRAM: The University offers to eligible employees the opportunity to participate in a retirement annuity program administered by TIAA/CREF. An employee is eligible to participate immediately upon employment. Deductions as requested by the employee are deducted from the employee’s check and applied toward the annuity premiums. The University also contributes toward the annuity premiums. Income tax on the amounts so contributed is deferred until retirement or the payment of the benefits under the annuity.

An annual report was filed with the United States Department of Labor in May, 1977, detailing the experience of the plan in the period of July 1, 1975 through June 30, 1976. Approximately 1672 employees were participating in the plan during that period, and premiums were paid by them and the University totaling $5,005,617.72.

SUPPLEMENTAL RETIREMENT ANNUITY PROGRAM: The University offers to eligible employees the opportunity to participate in a supplemental retirement annuity program administered by TIAA/CREF. An employee is eligible to participate immediately upon employment. Deductions as requested by the employee are deducted from the employee’s check and applied toward the annuity premiums. Income tax on the amounts so contributed is deferred until retirement or the payment of the benefits under the annuity.

An annual report was filed with the United States Department of Labor in May, 1977, detailing the experience of the plan in the period of July 1, 1975 through June 30, 1976. Approximately 2310 (active) employees were participating in the plan during that period, claims in the amount of $271,000 were paid to policy holders.

TUITION ASSISTANCE PROGRAM: The University maintains a tuition assistance program for its full-time employees, their spouses, and children. The employee or spouse is eligible for assistance immediately upon employment in all cases. The child of an employee is eligible for assistance immediately upon employment, in the case of a faculty or administrative staff member, or after the parent has had five continuous years of service, in the case of a staff member.

The non-academic employee, the faculty member or administrative employee and his/her spouse may enroll in courses in the University’s School of Continuing Education at one-half the current tuition rate. The spouse of a faculty or administrative employee may enroll in regular undergraduate courses at the University at one-half the current tuition rate. A child under the age of 25 may attend undergraduate classes at the University at one-half the current tuition rate and may receive cash payments toward tuition at other undergraduate schools.

During fiscal year 1976, 325 children of 307 parents attended Washington University or other colleges or universities under the tuition assistance program for children of employees. During that same period, 407 employees and 80 spouses attended classes (during the regular school year and the summer session) in the School of Continuing Education at the reduced tuition rate. One employee and three spouses were enrolled in regular undergraduate school. Twenty-two spouses attended regular undergraduate classes at the University at the reduced tuition rate.

The tuition benefits are paid solely from the University’s assets; employees do not contribute toward these benefits.

An annual report was filed with the United States

Football, Track

(continued from page 1)

heading our track and cross-country programs,” he continued.

The first WU graduate to serve in the head football coaching position in some thirty years, Gianoulakis received both a bachelor of science degree in physical education (1966) and a master of arts degree in teaching (1967) from WU.

He joined WU’s athletic staff in 1967 as a teaching assistant in charge of linebackers and ends and moved to coach the offensive line in 1972. He has also coached wrestling and golf at WU. As an undergraduate football player, Gianoulakis was selected to the All-Conference second team as an offensive guard, and, in his senior year, to the first string team.

Assistant football coach and head track coach Ken Henderson received his bachelor of arts degree from Southeast Missouri State University in Cape Girardeau in 1970.

For the past three years, he was an assistant football and track coach at Normandy High School, where he also worked briefly following his graduation from college. Previously, he coached football, track and basketball at University City High School.

While a senior at Cape Girardeau, he was chosen the Most Valuable Player on his team. His football responsibilities at WU will include coaching defensive linebackers and offensive backs. In addition, he will also be in charge of the work-study program in Athletics.

Gatti, who worked with WU’s cross-country team last year as a graduate assistant, will assume the head coaching position this fall and will assist Henderson in coaching the track team. A recent WU graduate with a master of arts in teaching, Gatti received his undergraduate degree in physical education from Westminster College in Fulton, Mo.

TWO AWARDS have been established at the WU School of Medicine in memory of Dr. James L. O'Leary, an eminent neuroscientist. They are the James L. O'Leary Neuroscience Prize and the James L. O'Leary Prize for Research in Neuroscience. Funds for the permanent endowment of these prizes were provided by gifts from family, friends, colleagues and former students. The first prizes will be awarded during the 1977-78 academic year. O’Leary’s career at WU extended from 1928 until his death in 1975. In 1963 he became the first head of the Department of Neurology, where he served until 1971, continuing productive research in basic science and clinical areas.

During Orientation, campus tours helped parents and new students learn their way around WU.
Arthur Katz, Social Work Leader, To Speak on Welfare Proposal

Arthur Katz, president of the 75,000-member National Association of Social Workers (NASW) and a nationally-known leader in the social welfare reform field, will deliver an address entitled "Social Work Practice in the Current Political Scene," Thurs., Sept. 8, at 7 p.m., in Steinberg Auditorium.

During the 1976 Presidential election, Katz, who is chairperson of the Board of Trustees for Political Action for Candidate Election (PACE), consulted with both President Carter and Vice-President Mondale. An arm of NASW, PACE seeks to elect candidates to public office who support policies consistent with the aims of the social work profession.

Currently professor of social work at the School of Social Work, University of Kansas, Lawrence, Kan., Katz will respond to President Carter's recently-proposed welfare reform program in his address at Steinberg.

JACK FORD, son of former President Gerald Ford, will speak at 11 a.m. Wed., Sept. 7, in Graham Chapel as part of the WU Assembly Series. Ford recently joined the staff of Outside, a magazine devoted to nature and its preservation. He is assistant to the publisher. W. Randolph Hearst III, heir to the publishing empire, who is the managing editor. The new monthly is published by Rolling Stone magazine.

WU AREA ALUMNI can mark their calendar for a series of five short fall weekend trips sponsored by the Alumni Association and the School of Continuing Education. Donald C. Royse, WU associate professor of architecture, will conduct a tour to Columbus, Indiana, a town rich in modern architecture, Sept. 30-Oct. 2; David L. Brown, WU associate professor of anthropology, will head a tour to the Koster, Ill., Archeological site, Fri., Oct. 7-Sat., Oct. 8; Stephen Banton, president of the Ozark Area Council American Youth Hostels, Inc., will lead a Meramec River Float Trip, Sat., Oct. 15; Walter H. Lewis, WU professor of biology, will conduct a nature walk at Pere Marquette State Park, Sun., Oct. 16; Robert Brandhorst, Landmarks board member and past president of Soulard Neighborhood Improvement Association, will guide a tour through the Soulard area, Sat., Oct. 22. Call ext. 4261 for details.

The WU Record is published weekly during the academic year by the Information Office. Editor, Janet Kelley; calendar editor, Charlotte Boman. Address communications to Box 1142.

Report (continued from page 6)

Department of Labor in May, 1977, detailing the experience of the plan in the period of July 1, 1975 through June 30, 1976.

DEATH BENEFIT PROGRAM

The University provides to the families of its full time employees a benefit in case of the employee's death while employed here. The amount of the benefit paid depends upon the length of service at the University, as shown on the following schedule:

The first numbers are of years of service, the second the number of months salary paid as benefit: 1-2 years, 1 month's salary; 2-4 years, 2 months'; 4-6 years, 3 months'; 6-8 years, 4 months'; 8-10 years, 5 months'; over 10 years, 6 months'.

The benefit is normally payable to the surviving spouse or dependent minor children of the deceased employee. In other situations, payment may be made to adult children, parents, brothers or sisters.

During fiscal year 1976 (July 1, 1975-June 30, 1976), death benefits of $62,742.42 were paid by the University to families of 25 employees who died during the period.

An annual report was filed with the United States Department of Labor in May, 1977, detailing the experience of the plan in the period of July 1, 1975 through June 30, 1976.

Promotions (continued from page 5)

Dr. Alex H. Kaplan to professor of clinical psychiatry; Dr. Michael A. Kass to associate professor of ophthalmology; Dr. Anna-Luise A. Katzenstein to assistant professor of pathology; Dr. Maurice J. Keller to associate professor of clinical pediatrics; Dr. Barry F. King to associate professor of anatomy; Dr. Henry L. Knock to assistant professor of clinical pediatrics; Dr. George S.
