Free Press Is Issue At Conference

James J. Kilpatrick, nationally syndicated columnist, will speak at an all-day conference on the First Amendment to the U.S. Constitution, beginning at 9:30 a.m. Wednesday, Oct. 8, at Mudd Hall. The conference, entitled “A Free Press: Can We Afford It?” is free and open to the public. Kilpatrick will speak at 3 p.m.

Lunch will be available in Wohl Center for $5.50 per person. Reservations are required in advance. For more information call 993-5505.

The conference is presented by the WU School of Law and the St. Louis Chapter of the American Jewish Congress, with support from the Missouri Committee for the Humanities Inc., the state arm of the National Endowment for the Humanities.

Nobelist Wigner To Lecture In Late WU Physicist’s Honor

Eugene P. Wigner, Nobel Prize-winning scientist and Thomas D. Jones Emeritus Professor of Mathematical Physics at Princeton University, will speak at 11 a.m. Wednesday, Oct. 8, at Graham Chapel. His talk will be on “The Validity of the Causality Principle.”

Wigner also will deliver the Eugene Feenberg Memorial Lecture at 4 p.m. Wednesday, Oct. 8, in 201 Crow Hall. His topic will be “Quantum-Mechanical Distribution Functions Revisited.” The Feenberg lectureship was established last year by the department of physics.

The late Prof. Feenberg, Wayman Crow Professor of Physics and a member of the physics department at WU for almost 30 years, was a distinguished scientist whose research had a profound and far-reaching impact in the field of theoretical nuclear physics.

He was elected to the National Academy of Sciences in 1975. In the same year about 100 physicists came to WU to participate in the two-day Eugene Feenberg Symposium on the “Concepts and Methods in Microscopic Physics.”

Wigner received the Nobel Prize for Physics in 1963 for principles governing mechanics and interaction of protons and neutrons in the atomic nucleus.

Born in 1902 in Budapest, Hungary, Wigner became a U.S. citizen in 1937. He has been visiting lecturer at nine universities and has received honorary degrees from more than 20 universities and colleges.

In addition to the Nobel Prize, Wigner has received the Atoms for Peace Award, the Max Planck Medal for Physics, the National Medal of Science, and the Albert Einstein Award.

Singer Pearl Bailey Headlines Founders Day Festivities Oct. 11

Pearl Bailey, the ebullient entertainer with the jubilant voice and style, will be the principal speaker at the 127th anniversary celebration of WU’s Founders Day to be held in the Khorasan Room, Chase Park Plaza Hotel on Saturday evening, Oct. 11. Betty Henby Sutter, chairwoman of the University’s Alumni Board of Governors, will preside at the event which begins with cocktails at 6:30 p.m. and a banquet at 7:30. The Founders Day festivities are sponsored by the WU Alumni Association.

Four of the University’s faculty will receive special awards “for outstanding commitment to teaching, and dedication to the intellectual and personal growth of students.” The recipients of Faculty Awards are: Stanley Lang, PhD, associate professor of physiology and biophysics, School of Medicine; Mohamed A. Marzouk, DDS, MSD, professor and chairman, department of operative dentistry, School of Dental Medicine; Richard L. Nault, PhD, assistant professor of education, Graduate Institute of Education; and Walter R. Nord, PhD, professor of organizational psychology, School of Business and Public Administration.

The Faculty Awards will be presented by Chancellor William H. Danforth, and Denver Wright III, vice chairman, alumni programs, Alumni Board of Governors.
Anthropologist Examines Causes Of Predicted Third World Famine

Poor land-use planning and clashes of cultural values will be two causes of massive starvation predicted in Third World countries in the next decade, according to John W. Bennett, WU professor of anthropology. Bennett, a specialist in agricultural development in Third World and developed countries, is currently collaborating on a broad-range survey and analysis paper on agricultural development and prospects for food supplies in the Third World for the U.S. Agency for International Development.

Bennett, a program associate of the Land Tenure Center at the University of Wisconsin, Madison, is working with two researchers from that University, James Riddell, professor of anthropology, and Don Kanel, professor of economics. The trio are studying seven African countries whose agricultural development has lagged behind population and urban growth: Senegal, Mali, Niger, Sudan, Kenya, Tanzania, and Botswana.

“Nearly one half of Africa, or at least 14 countries, is situated on predominately arid or semi-arid land,” Bennett said. “Inadequate resources, plus political and economic realities, such as the need to earn foreign exchange by producing export commodities like sugar, have made a rational land-use policy all but impossible.”

Policies intended to increase food supply through agricultural development have had the opposite effect of reducing traditional means of food production. Land that had been used for pasture for livestock of migratory peoples who have historically populated these semi-arid areas was reserved for crops and for wildlife refuges. The crops failed, and as a result, whole nations that traditionally had depended on the food output of these tribes now face serious protein shortages.

“The reality of the situation is that agricultural development is tied to economic and political issues as well as to physical resources,” Bennett explained. “Tribal rebellions, corrupt governments and a dearth of skilled people in government positions in some Third World countries contribute to the problem.”

Because of the pressure within the U.S. government to support Third World agricultural development programs, poorly conceived projects are being approved and funded by U.S. development agencies, he added.

The three researchers may include personal recommendations in their report. The team has visited Africa twice and plans to return in 1980 and 1981 with other researchers.

In addition to his African studies, Bennett’s expertise in land use has involved him in many diverse projects. He recently finished a three-year study for the National Research Council’s Committee on Soil as a Resource in Surface Mining. He also will publish his third book on a 12-year study of agrarian development in Western Canada. Bennett is a member of the Committee on Arid Lands, American Association for the Advancement of Science (AAAS), and helped direct the AAAS Advisory Committee on Desertification in 1976 and 1977.

PAA Holds Open House for High Schoolers

Over 600 St. Louis area high school students will attend WU’s “Performing Arts Day,” a day-long program on drama and dance to be held Wednesday, Oct. 8 at Mallinckrodt Center.

Sponsored by the University’s Performing Arts Area (PAA), the program will feature a wide range of workshops conducted by faculty members on such topics as auditioning, make-up, relaxation and warm-up techniques, costume design, improvisation and dance technique. A full-scale presentation of The Diary of Anne Frank, a PAA production, will be given, and a slide showing of the WU Dance Theatre in Concert will be presented.

Anthropologist Examines Causes Of Predicted Third World Famine

Poor land-use planning and clashes of cultural values will be two causes of massive starvation predicted in Third World countries in the next decade, according to John W. PAA Holds Open House for High Schoolers

Over 600 St. Louis area high school students will attend WU’s “Performing Arts Day,” a day-long program on drama and dance to be held Wednesday, Oct. 8 at Mallinckrodt Center.

Sponsored by the University’s Performing Arts Area (PAA), the program will feature a wide range of workshops conducted by faculty members on such topics as auditioning, make-up, relaxation and warm-up techniques, costume design, improvisation and dance technique. A full-scale presentation of The Diary of Anne Frank, a PAA production, will be given, and a slide showing of the WU Dance Theatre in Concert will be presented.

Festivities—continued from p. 1

Both the Chancellor and George H. Capps, chairman of the University’s Board of Trustees, will speak briefly at the Founders Day banquet, one of the University’s most important ceremonial occasions.

Lang, a dedicated scholar who has published more than 60 scholarly articles, has long been a favorite of WU students. Elected “Teacher of the Year” at the University’s School of Medicine in 1974, he has been described as an outstanding teacher who shows a genuine concern and understanding for his students.

Marzouk has been named “The Outstanding Clinical Instructor” four times during his seven-year tenure at the School of Dental Medicine. Previously, he received a similar award twice while on the Loyola University faculty, and once while he was on the Temple University faculty. Meharry Medical College granted him a comparable award.

Nault is also highly regarded by his students. In 1978-79, he received a Faculty Award from the Council of Students of Arts and Sciences at WU. He has also earned recognition for his imaginative and creative leadership.

Nord is a scholar of national repute and a teacher of exceptional ability. A prolific writer, he has published more than 30 articles in professional publications, and serves regularly as a consultant to numerous organizations, including the Danforth Leadership Program.

All members of the WU community are welcome to attend the Founders Day banquet. Tickets are $20 per person for faculty and staff; $10 each for WU students. Call Julie Kohn, associate director, alumni programs, at Ext. 5208 for more information or to make reservations.

New Campus Mail Drop Box in Mallinckrodt

The Campus Post Office has placed a campus mail drop box inside the entrance of the Campus Bookstore. Pick-ups will be made daily, Monday through Friday. Large bulk mailings should continue to be delivered directly to the Post Office in S. Brooking Hall. U.S. mail may be posted in the box at the western end of Mallinckrodt Center.
Women's Soccer Club Begins Second Season with High Spirit

The WU Women's Soccer Club, established last year, has a "tremendous spirit which should make for an exciting season," according to Coach George Salamon.

Salamon, husband of Linda Salamon, dean of the WU College of Arts and Sciences, has been coaching soccer teams for several years. He was born in Europe where he played soccer as a youngster.

The club's first home game is scheduled for 3:30 p.m. Friday, Oct. 3, at the intramural field adjacent to Mudd Hall. The team lost its first away game to Maryville College, 2-0.

"We hope to play other games but they are not scheduled yet," Salamon said. "The club's performance in practice has been delightful." He hopes to arrange women's games to precede men's varsity soccer games at Francis Field.

The lack of formal "team" status for the club should pose no problem, Salamon said. "It allows really first-class play without the pressure and restrictions of varsity. Club status offers opportunities to people with all kinds of abilities without keeping those who are good from improving."

Conference - continued from p. 1

Spector and Kirby Discuss China

Stanley Spector, professor of Chinese studies and director of the Office of International Studies, and William C. Kirby, assistant professor of history, are the discussants on a five-program series on KMOX-TV's "The People Speak," moderated by Parker Wheatley. Entitled "Matur- ing of the Chinese Revolution," the series is being broadcast Sept. 29 through Oct. 5 following the CBS late movie on Channel 4. The five 18-minute discussions will be repeated on Sept. 30 through Oct. 4 at 5:40 a.m. On Oct. 5, at 6:30 a.m., the entire series will be rebroadcast.
Calendar
October 3-9

Friday, Oct. 3
12 noon. Department of Microbiology-Immunology Lecture, "Host Genes Affecting Phage 77 Replication in E. coli," by Robert Buchstein, MD, U. of Rochester, N.Y. Rm. 509, McDonnell Medical Sciences Bldg., 4750 McKinley.

1:30 p.m. School of Architecture Symposium, "Building in the City," by William MacDonald; A. P. Brown prof. of the history of art, Smith College; Trudi Spigel, WU director of project development, public relations; and Steve Peterson, asst. prof. of architecture, Columbia U. Steinberg Hall Auditorium.

2 p.m. Department of Technology and Human Affairs Seminar, "Contemporary Medical Research: Public Policy Implications," by Luther S. Williams, dean, WU Graduate School of Arts and Sciences, 307 Urbana.

4 p.m. Immunology Research Seminar, "Antiprofile Properties of a T Cell-Derived Factor," by Tom Aune, MD, dept. prof. of pathology, St. Louis Jewish Hospital. Rm. 509, McDonnell Medical Sciences Bldg., 4750 McKinley.

4 p.m. Third Annual Carl A. Moyer Visiting Professor of Surgery Lecture, "Nutritional Requirements in Surgical Patients," by Lloyd D. MacLean, MD, Surgeon-in-Chief, Royal Victoria Hospital, Montreal, and chairman, dept. of surgery, McGill U., Montreal. Scarpehelf Auditorium, Mallinckrodt Institute of Technology, 510 S. Kingshighway.

Saturday, Oct. 4
9 a.m. Neural Science Program, "Development of Insect Sensory Systems," by Josh Sanes, MD, prof. of pathology, University of Calif.-Riverside. 311 McMillen Lab.

9:30 a.m. School of Architecture Symposium, "Building in the City," by Bill Sudmeier, dept. prof. of architecture and director of WU's Community Design Workshop; Gerhard Kallmann, of Kallmann, McKinnell and Wohl; and George E. Hartman, Hartman-Cox. Steinberg Hall Auditorium.

2 p.m. School of Architecture Symposium, "Building in the City," by panel discussion with Hartman, Kallmann, Peterson and Weber. Steinberg Hall Auditorium.

3 p.m. WU Homecoming Parade. Begins at First Congregational Church parking lot. 6501 Wydown. Parade will proceed west on Wydown to Big Bend, north to Delmar, east to Skinker, south to Forsyth and west to Francis Field. Picnic outside the field gates will follow.

Tuesday, Oct. 7

4 p.m. Division of Cellular and Molecular Programs, "The Kinetic Pathway of Folding Ribonuclease A," by R. L. Baldwin, dept. of biochemistry, Stanford U. Medical School. Ehringer Auditorium, McDonnell Medical Sciences Bldg., 4750 McKinley.

Wednesday, Oct. 8

7:30 p.m. Latin American Studies Committee Discussion, "U.S. Foreign Policy and Revolutionary Social Change in Central America." Phillip Berryman, American Friends Service Committee representative in Central America. Cosponsored by the American Friends Service Committee and Greater St. Louis Latin American Solidarity Committee. Mrs. W. E. Olin Women's Building Lounge.

8:15 p.m. Department of History Lecture, "Camouflage and Cubism," by Carl Nordenfalk, Mellon Senior Fellow, National Humanities Center, N. Carolina. Hurst Lounge, Duncker Hall.

Thursday, Oct. 9
3 p.m. George Warren Brown School of Social Work Colloquium, "Desegregation in St. Louis Schools—An Interim Report," by Edward T. Foote, WU special advisor to the Chancellor and chairman, Desegregation Monitoring and Advisory Committee, St. Louis; Lyn Bradley, executive director, committee; and Robert F. Wintersmith, WU asst. prof. of social work. Brown Hall Lounge.

4 p.m. Department of Chemistry Seminar, "NMR of Insulin and other Zinc and Calcium Proteins," by James L. Sudmeier, dept. of chemistry, U. of Calif.—Riverside. 311 McMillen Lab.

4:30 p.m. Department of Sociology Lecture, "Black Personality: Myths and Realities," by Robert L. Williams, WU prof. of psychology. 219 McMillan.

Friday, Oct. 9
8 p.m. Department of English Poetry Reading, F. T. Prince, WU Visiting Professor of English, reading from his work. Hurst Lounge, Duncker Hall.

Films
Friday, Oct. 3
8 and 10:15 p.m. WU Filmboard Series, "Halloween." Brown. $1.75. (Also Sat., Oct. 4, same time, Brown.)

8 p.m. Classic American Cinema Film Series, "The White Sister," and "Waterloo Bridge." Rebstock. $2.

Saturday, Oct. 4
8 p.m. Classic American Cinema Film Series, "Seventh Heaven" and "The Dark Angel." Rebstock. $2.

Sunday, Oct. 5
7:30 p.m. WU Filmboard and American Express Halloween Film Festival, "Invasion of the Body Snatchers" (1956). Brown $1.50.

Monday, Oct. 6
7:30 and 9:45 p.m. WU Filmboard Series, "Citizen Kane." Brown. $1.75. (Also Thurs., Oct. 9, same time, Brown.)

Wednesday, Oct. 8
7:30 and 9:15 p.m. WU Filmboard Series, "The Story of Adele H." Brown. $1.75. (Also Thurs., Oct. 9, same time, Brown.)

Performing Arts
Friday, Oct. 3
8 p.m. Performing Arts Area Production, "The Diary of Anne Frank," directed by Diana Lee, WU asst. prof. of drama. Edison Theatre. General admission $4.50; $2.75 for WU faculty, staff and all students. Tickets available at Edison Theatre Box Office. (Also Sat., Oct. 4 and Fri. and Sat., Oct. 10 and 11.)

Exhibitions
"Old and Modern Master Drawings from the WU Collection." Print Gallery, WU Gallery of Art, Steinberg Hall, 10 a.m.-5 p.m., weekdays, 1-5 p.m., weekends. Through Oct. 6.

"Cubist, Expressionist and Surrealist Paintings and Sculptures." Upper Gallery. WU Gallery of Art, Steinberg Hall, 10 a.m.-5 p.m., weekdays, 1-5 p.m., weekends. Through Nov. 2.

"Soft Paintings," recent works by Hyaline McMahon, WU assoc. prof. of art. Bixby Gallery, Bixby Hall. 10 a.m.-noon and 1-4 p.m., weekdays, 1-4 p.m., weekends. Through Oct. 10.

"American Art." Lower Gallery, WU Gallery of Art, Steinberg Hall, 10 a.m.-5 p.m., weekdays; 1-5 p.m., weekends. Through Feb. 1.

Art Historian Speaks on Cubism
Carl Nordenfalk, a leading art historian, will lecture at 8:15 p.m. Wednesday, Oct. 8, in Hurst Lounge, Duncker Hall. He will speak on "Camouflage and Cubism."

Educated in Sweden at the universities of Uppsala, Stockholm and Gothenburg, Nordenfalk began his career in the Swedish museum system. He served as director-general of the National Museum from 1958 to 1969. Since then he has held professorships at major institutions on both sides of the Atlantic, including Cambridge University, the University of Pittsburgh, and the National Gallery. Currently he is Mellon Senior Fellow at the National Humanities Center in North Carolina.

Nordenfalk's scholarly interests range from Vincent van Gogh to late Roman and early Medieval art, the field in which he is best known.
