80th birthday celebration for Beckett includes play, lecture

The 80th birthday of the Nobel prize-winning author Samuel Beckett will be recognized on campus this month with several events, including a student production of Beckett's one-act play, "Endgame," and a lecture by Professor Thomas Bishop, a noted Beckett scholar.

The play will be presented by the student drama group, Thyrus, at 8 p.m. Friday, Saturday and Sunday Oct. 17, 18 and 19, with a matinee performance at 2 p.m. Sunday in the Drama Studio of the Mallinckrodt Center.

Halle Eichen, a senior drama major and director of the play, suggests that the tone of the play may be summed up by the line, "Nothing is funnier than unhappiness."

"The role of Hamm is portrayed by Trip Bates; Clov is played by Winston Bull; Nagg, by Paul Gaolola; and Nell, by Maria Cavallini. Other students participating in the production are: Michael Oliveras, scenic designer; Michael Cohen, lighting; Traci Dorman, costumes; Kathryn Conrad, stage manager; Elise Scheffer, assistant stage manager; and Justin Kleinman, technical director.

Tickets for the play are $3 to the general public, and $2 for senior citizens. Washington University students, faculty and staff.

For more information on the play, call 889-5858.

Wednesday, Oct. 15, in January Hall, 2 p.m.

Fall enrollment increases by 55

Washington University's daytime enrollment size for fall 1986 is 10,523 students, including 2,074 evening and 79 certificate and 21 transfer students. The number of freshmen remains constant for fall 1986, compared to 1,019 for the previous year. The number of transfer students is up by 14 over 1985 figures.

Applications for enrollment set an all-time record of 4,920, an increase of 1,043 or 25 percent over the previous year when 4,877 applications were received.

Members of the freshman class rank high in their high schools — 41 percent of the new students are from the top 5 percent of their graduating classes. In addition, 60 percent are from the top 10 percent, 81 percent from the top fifth, and 98 percent from the top half.

Freshman student scores in the verbal and mathematical sections of the Scholastic Aptitude Test averaged 1,198. Average SAT verbal scores were 563, average mathematical scores were 655. For those students submitting the American College Testing test results, average scores were 27, according to Robert M. Hedrick, dean of Admissions.

In the five schools with under-graduate programs, the freshman class sizes were as follows: Architecture, 47; Arts & Sciences, 595; Business, 121; Engineering, 231; and Fine Arts, 54.

Washington University has intentionally maintained a consistent enrollment size for daytime students over the past decade.

story writer and dramatist, is consid-
ered one of the most influential writ-
ers of the last half of the 20th-cen-
tury. "Waiting for Godot," the play
for which he is probably best known,
received worldwide recognition
when it was first produced in Paris
in 1953.

Born in Dublin, Ireland, in 1906, Beckett was educated at Trinity Col-
lege. Upon graduation he moved to
Paris where he met James Joyce and
began a long association with his fellow expatriate.

Beckett's works, written for the
most part in French, have been char-
acterized as abstract, avant-garde, bio-
 graphical and symbolic.

In 1969 he was awarded the
Nobel Prize in literature in recogni-
tion of "a body of work that, in new
forms of fiction and the theatre, has
transmuted the destitution of modern
man into his exultation." Beckett re-

tides in Paris where he continues to

eminent of biochemical chemistry; Don
Finkel, poet-in-residence in English
with rank of professor; and Patty Jo Watson, Ph.D., professor of

Andersen has been named
"Teacher of the Year" by five dif-
ferent classes in each of the last
five years. He has taken a broad role in
the University community as a
leader of the Missouri Senate Council. He has been a
member of the faculty since 1974. He
carried his bachelor's degree in
economics from DePauw University
and his doctorate in accounting
from Washington University. He
has published numerous articles in ac-
counting and financial journals, with
special interest in market efficiency.
He was a member of the
revised the construction of the
McDonnell Medical Sciences Building on
the medical campus. He received his
bachelor's and doctoral degrees
from the California Institute of
Technology, where he spent most of
World War II as a research assistant
on contract with the National
Defense Research Committee. After
completing a postdoctoral fellowship
in plant biochemistry there in 1948,
he came to the University as a Merck
Postdoctoral Fellow in Biological
Chemistry. He joined the faculty as
instructor in 1950 and achieved the
status of professor emeritus earlier
this year.

Finkel has written 10 volumes of poetry, has published widely in
literary magazines and is represented in
a number of anthologies. His book-length poem, Adept, Eade
Earth, a result of his visit to Antarctica
for the invitation of the National Science
Foundation, won the Theodore
Roche考核 Memorial Award in 1974.
Other books have been nominated
for the National Book Award and the
National Book Critics Circle Award.
The American Academy and Institute
of Arts and Letters presented him
its Morton Dauwen Zabel Award in
1980. He joined the University facul-

in 1864. The keynote address, "The Cor-
poration of Medicine: The Final
Conflict," will be delivered at
a.m. Saturday, Oct. 11, by Quentin
Young, M.D., president of the Health
and Medicine Policy Research Group and
former chief of medicine at

Medical students from throughout
the Midwest will gather for regional conference

Medical students from throughout
the Midwest will gather in St. Louis
Oct. 10-12, as Washington University
School of Medicine hosts the 1986
Region VIII fall conference of the
American Medical Students Associa-
tion (AMSA).

The theme of the conference is
"Access to Health Care: Reaching for
Solutions." Regional and national au-
thorities will speak on topics such as
health care for the indigent and aged,
decision-making and the terminally ill pa-

teent, recent developments in health
care payment plans, and minority ac-
cess to medical education.

Founders Day —

continued from p. 1

Watson has been a leader in the
effort to develop a scientific ap-
proach to archaeology, changing the
ways that archaeological data are col-
clected, analyzed and interpreted. She
has been immersed in the study of
the precursors of modern civilization
for more than 30 years. She received
both her master's and doctoral
degrees in anthropology from the
University of Chicago. She began her
long career of field work as an assist-
ent with that university's Oriental Institute. She has been a
director of the Cave Research Foun-
dational Archaeological Project, cen-
tered at Mammoth Cave, since
1963, and co-director of the Shell-
mound Archaeological Project since
1972. Among her honors are grants
from the National Science Founda-
tion, the National Geographic Society and the National Endowment for
the Humanities.

Founders Day is sponsored by the Washington University Alumni
Association. The event begins at
6 p.m. with cocktails, followed by din-
ner, the program and dancing.

Tickets are $30. Reservations
must be received by Friday, Oct. 17.
For more information, call
889-5122.

Shi'ite clergy topic of lecture

Roy P. Mottahedeh, Harvard Univer-
sity professor of history, will deliver
the fourth annual Alice Hahn Good-
man Lecture, titled "The World's Last
Scholastics: The Shi'ite Clergy," at 11
a.m. Wednesday, Oct. 15, in Graham
Chapel.

His lecture will focus on the
intellectual approach of Shi'ite men of
religious learning and the relevance
of their training to the history of
Iran and the revolution.

The lecture, which is part of the
Assembly Series, is free and open
to the public.

An authority on Islamic civiliza-
tion and history, Mottahedeh is the

Steve Rettinger at 832-6076.
Patricia A. Adler, Ph.D., visiting assistant professor of sociology, and Peter Adler, Ph.D., visiting associate professor of sociology, were named editors of the Journal of American Sociological Research. In addition, their research on the application of Sociological Studies of Child Development, was also prised. Their positions were a transfer at Washington University from 1969-1973.

Michael Beckerman, Ph.D., assistant professor of music, received a Carnegie Mellon University International Research and Exchanges Board (IREX) grant to consult with the Czechs on the ongoing project of the complete edition of Janacek's (Czech composer, 1854-1928) works. An interview with Beckerman on this subject will be published in the Czech music periodical, Opera Musica. Beckerman's book, "Symphonic Suite," released its premiere in 1995. The work, based on 18 prints by the artist Jim Moon, was choreographed by Ralph Hepworth of the North Carolina Dance Theater, and premiered by the Dance exchange from North Carolina Arts Council. Beckerman attended the fourth annual American Bar Association Section of Administrative Law on August 28-31. In addition, their research on the associate section for the American Political Science Association will be published in the August issue of the Video Journal of Political Science.

Ronald M. Levin, J.D., professor of law, was elected to a three-year term on the 12-member Council of the American Bar Association's Section of Administrative Law. The section makes all major policy decisions for the section. At 56, Levin is considered the youngest law professor to be elected to the Council. In addition, he has also written an article titled "Scope-of-Review Doctrine Revisited: An Analysis of the 1984 Circular," published in Vol. 38 of the 1986 Administrative Law Review.

Walter H. Lewis, Ph.D., professor of biology, stepped down from his post as president of the International Association for Aerobiology at the association's annual conference held in August in Basel, Switzerland. Lewis, who served as president of the organization since 1982, will remain on the association's Council and Executive Committee for an additional four years. At the annual conference, Lewis also presented a paper with James H. Wedner, M.D., associate professor of internal medicine, and Vincent E. Zenger, Ph.D., a fellow in the Division of Allergy and Immunology at Washington University, on "Parthenium Hystero- phorus" (Santa Maria Feverfew), the source of a new allergen in the southern United States. Lewis also participated in a poster session with Prashabha Vinay, of University of Minnesota, on "Pollen Morphology, Aerobiology and the Legitimacy of the Oleaceae (olive family)."

Linda Lindsey, Ph.D., visiting assistant professor in the Department of Sociology, spent the summer in Pakistan as a Fulbright Scholar examining the history and culture of the country with emphasis on the Afghan refugee situation.

Annelise Merz, professor of dance in the Performing Arts Area, was invited by the University of Tubingen in West Germany to give a seminar on American modern dance during a five-week study tour. The skip taught technique, theory, improvisation and composition to the university dance students and faculty.

Murray L. Weidenbaum, Ph.D., Edward Mallinckrodt Distinguished University Professor and director of the Center for the Study of American Business, has been elected to the board of directors of Comet Corp. Comet, a company with $2.6 billion in sales and revenues, provides a broad range of telecommunications and information processing products and services through four business sectors: telephone operations, business systems, federal systems and information systems.

Have you done something noteworthy?

Have you: Presented a paper? Won an award? Started a committee or elected an officer of a professional organization? The Washington University Record will help spread the good news. Contributions from faculty and staff scholars or professional activitides are gladly accepted and encouraged. Send a brief note with your full name, highest degree earned, current title and department along with a description of your noteworthy activity to Notables, Campus Box 1070. Please include a phone number.

Institute for the deaf honored for excellence

A representative from the U.S. Department of Education was in St. Louis recently to present a plaque for outstanding work to the Central Institute for the Deaf (CID) at the Washington University Medical Center. The institute was one of 270 public and private schools selected in the first nationwide Elementary and Secondary School Recognition Program, announced by William J. Bennett, U.S. Secretary of Education.

The school, a 72-year-old independent, not-for-profit private school, was among 60 private schools honored and one of 11 overnight in Missouri. It was the only school for deaf children to be recognized.

At a White House ceremony held Sept. 12, President Ronald Reagan and Bennett spoke to representatives of the honored schools. Jean S. Sprague, principal of CID for four years, attended the Rose Garden ceremony, where she was presented with a medallion commemorating the dedication. Muog received a master's degree in speech and hearing at Washington University.

At the ceremony held at CID, Donald R. Calveri, Ph.D., director of the institute and chairman of the Department of Speech and Hearing at Washington University, presented a plaque for "Excellence in Education" to the teachers on the school staff during the years 1985-86. Most of the teachers were trained through the teacher preparation program of the University's speech and hearing department.

CID has been affiliated with Washington University since 1931, a relationship that involves university faculty supervision of the program that prepares teachers, audiologists and research scientists of the institutions.

"The selection of the institute recognizes three things — first, the quality of the school and its relationship with Washington University and the Medical Center; second, the dedicated work of the principal, Jean Moog;" Calveri said. "You have exhibited strong leadership and steadfast dedication to achieving excellence. Your school demonstrates an ethos that shows you are serious about learning. It is my privilege to salute you and your school for these splendid achievements."

NEWSMAKERS

Washington University faculty and staff make news around the globe. Following is a digest of media coverage they have received during recent weeks for their scholarly activities, research and general expertise.

Little Dixie Brewing Co. in New Orleans struggles against large competitors, such as Anheuser-Busch and Miller, says a two-page article in the July 27 edition of the Times-Picayune. In the story, Robert S. Weinberg, Ph.D., distinguished visiting professor of marketing and management, comments on the brewing company's marketing efforts.

Certain foods, such as fiber, inhibit the absorption of calcium, says an article in the August issue of Vogue magazine. William A. Peck, M.D., John E. and Adaline Simon Professor of Medicine and associate chairman of medicine, disagrees, saying it would take a large amount of fiber to significantly compete with calcium absorption. "And unless you're a protein abuser, that probably won't be necessary," he said.

Home: A Short History of an Idea

Billed as "bible" in its field, the Handbook of Psychotherapy has been released in its third edition, says an Aug. 7 story from the Salt Lake City Desert News. Soll L. Garfield has been named to a committee or elected an officer of a professional organization.

A vaccine to prevent meningitis in infants is being tested at the Washington University Medical Center. In an Aug. 9 article used in the Chicago Tribune, San Diego Union and Rocky Mountain News, Dan Grinnell, M.D., professor of pediatrics, explained he is being made against HIB, a bacteria that can cause meningitis, resulting in permanent brain damage and acquired deafness among children under 18 months old. The story also was aired Aug. 14 on the CBS Morning News.

Cutting wages doesn't always save jobs, claims Arthur T. Demuz, Ph.D., professor of economics. An article in the Aug. 25 Business Week indicates USW (United Steel Workers) cuts labor costs in half, it might save a few jobs, but the industry is going to shrink anyway because of non-union minimills and plastics that are replacing steel in many key industries.

Social stress is creating more female alcoholics, according to a University of Chicago research that finds stress of unemployment, urbanization and financial crisis of the 1980s is more harmful to women than men, says professors of psychiatry Robert Clopper, M.D., and Agnes Reich, M.D., in an Aug. 27 national wire story from United Press International. They are also finding women more at risk in drinking-related diseases, such as cirrhosis of the liver and severe depression.

**CALENDAR**

Oct. 9-18

**LECTURES**

**Thursday, Oct. 9**
- 2:30 p.m. Dept. of Mechanical Engineering Colloquium, "TurtleNavier-Stokes Simulations of Flow Fields About Fitted and Rotated Wing Configurations." Ramesh K. Agarwal, senior scientist, McDonnell Douglas Wright Research Laboratories. 100 Cupples II.
- 4 p.m. German Dept. and Goethe Institute of St. Louis Poetry Reading, "Readings From Her Works: Dialogs with Art." Margret Mendes. German poet. 210 Ridgely.

**Friday, Oct. 10**
- 6 and 8:30-9:30 p.m. WU Association Film Travel Lecture Series, "Poland: The Enduring Dream," Matthew and Sheryl Mine, filmmakers. Graham Chapel. For ticket info., call 889-5122.

**Tuesday, Oct. 14**
- 4 p.m. Dept. of Chemistry Seminar, "A New Look at Copper Isosynthesis." Kenneth Kelton, WU assoc. prof. of chemistry, 311 McMillen.
- 4 p.m. WU Department of the Humanities Lecture Series on Alzheimer's Disease, "Legal Issues," William Higley. For ticket info., call 889-5122.

**Wednesday, Oct. 15**
- 4 p.m. Division of Cardiovascular Diseases Visiting Professor Lecture, "A Simple Approach to the Clinical Diagnosis of Congenital Heart Disease." Joseph K. Perloff, prof. of medicine and pediatrics, U. of California, Los Angeles. Eareckson Auditorium, 1st floor, Barnes Hospital.
- 4 p.m. Dept. of Physics Colloquium, "Mass Loss From Red Giant Stars." Michael Jura, prof. of astronomy, UCLA. 204 Crow.

**Thursday, Oct. 16**
- 4 p.m. Dept. of Biology Seminar, "Clonal Analysis of Shoot Development." Ian Sussex, biology dept., Yale U. 322 Reinhock.

**Thursday, Oct. 9**
- 7:30 p.m. Washington University Wind Ensemble Concert, Parkway Central High School Theatre.

**Friday, Oct. 10**
- 8 p.m. Music Center Concert with pianist Morton Festin. General admission is $10; WU faculty/staff, $8; students, $5. Edition Theater.

**Saturday, Oct. 11**
- 2 p.m. Dept. of Music Master Class with pianist Morton Festin. 101 Blewer A Hall.

**Saturday, Oct. 18**
- 8 p.m. Lieutenants sponsored by the Dept. of Germanic Languages and Literatures, Dept. of Music and Goethe Institute of St. Louis. Performers: Mary Henderson, soprano; Carol Giesar, soprano; and Kirt Pavitt, piano. Steinbach Hall.

**Thursday, Oct. 17**
- 7 p.m. Thyrus and Student Union present Samuel Beckett's "Endgame." Drama Studio. 208 Mallinckrodt. (Also Fri., Oct. 18 and at 9 p.m., and Sat., Oct. 19 at 2 p.m. Drama Studio.) General admission is $5; students, faculty and staff and senior citizens, $2. For ticket info., call 889-1586.

**FRIDAYS**

**Friday, Oct. 17**

**Sunday, Oct. 12**
- 3 p.m. Asian Art Society of Washington University holds a Japanese wood demonstration at Stix International House. 6470 Forsyth Blvd. Cost is $20 a person. For more info., call WU Asian co-president Steve Rettinger at 852-6076.

**Saturday, Oct. 11**
- 9 a.m.-4 p.m. Personal Computing Educational Center, "MicroFair '86." Holmes Lounge.

**Sunday, Oct. 12**
- 3 p.m. Asian Art Society of Washington University holds a Japanese wood demonstration at Stix International House. 6470 Forsyth Blvd. Cost is $20 a person. For more info., call WU Asian co-president Steve Rettinger at 852-6076.

**MISCELLANEOUS**

**Thursday, Oct. 9**

**Friday, Oct. 10**
- 5 p.m. American Medical Students Association (AMSA) Region VIII Fall Conference. (Also Sat., Oct. 11, and Sun., Oct. 12.) McDonnell Sciences Bldg., 660 S. Euclid Ave. For more info., call WU AMSA co-president Steve Rettinger at 852-6076.

**Saturday, Oct. 11**

**FILMS**

**Thursday, Oct. 9**
- 7 and 9 p.m. WU Filmboard Series, "Alexander Nevsky." 82 Brown Hall.

**Friday, Oct. 10**
- 7 and 10:30 p.m. WU Filmboard Series, "The Zirovics." 82 Brown Hall. (Also Sat., Oct. 11, same times, and Sun., Oct. 12, at 7 p.m., Brown.)

**Monday, Oct. 13**
- 7 and 9:30 p.m. WU Filmboard Series, "Chariots." 82 Brown Hall. (Also Fri., Oct. 17, same times, Brown.)

**Wednesday, Oct. 15**
- 7:30 and 9-15 p.m. WU Filmboard Series, "Jagged Edge." 82 Brown Hall. (Also Sat., Oct. 18, same times, and Sun., Oct. 19, at 7 p.m., Brown.)

**SUNDAY**

**Sunday, Oct. 12**
- 11 a.m. WU Men's and Women's Cross Country Invitational. Forest Park.

**Thursday, Oct. 14**
- 7:30 p.m. Soccer, WU vs. MacMurray College. Francis Field.

**Wednesday, Oct. 15**
- 3:30 p.m. Women's Tennis, WU vs. Quincy College. Francis Field.

**Saturday, Oct. 18**
- 7 p.m. Football, WU vs. MacMurray College. Francis Field.

**CALENDAR DEADLINE**

The deadline to submit items for the Oct. 23-Nov. 1 calendar of the Washington University Record is Oct. 16. Items must be typed and state time, date, place, nature of event, sponsor and admission cost. Incomplete items will not be printed. If available, include speaker's name and identification and the title of the event, as well as your name and telephone number. Address items to King McInelly, calendar editor, Box 1070.
