Text and Tradition leads students on cultural journey

Herb Weitman’s photographic legacy exhibited at Gallery of Art

Photographs of campus, students and professors are featured in an exhibit of renowned photographer Herb Weitman’s work. Weitman, director of Photographic Services, has been affiliated with Washington University since 1947. Crick visited campus and delivered three lectures on DNA in March 1980.

Author Tom Wolfe opens fall Assembly Series

Tom Wolfe, distinguished journalist and author of The Bonfire of the Vanities, will open the 55th Assembly Series, announced Sue Graham, director of major events and special projects. His lecture, titled “The End of the Century and the Spirit of the Age,” is scheduled for 11 a.m. Wednesday, Aug. 31, in Graham Chapel.

For more than two decades Wolfe has championed and analyzed American mass culture. He received a doctorate in American studies from Yale University in 1957 and began his journalism career at The New York Herald Tribune. He received the American Book Award for his 1979 best seller, The Right Stuff, and in 1980 was named the recipient of the Harold L. Vines Memorial Award by the American Academy and Institute of Arts and Letters. Distinguished for his role in the new journalism for his innovative mixing of observational reporting with the techniques of fiction, he also received the Columbia Journalism Award in 1980.

His latest book, The Underglass War Against American Women, will address the question “Is the Backlash Over?” in the Woman’s Club/Mortar Board Lecture Sept. 14. Faludi formerly worked for the Wall Street Journal where she won a Pulitzer Prize for her reporting. She is working on another book, The Second Stage: Log on to the 21st Century, which will focus on the rise of feminism and its relationship to technology.

Continuing education

A $10 million medical center facility currently under construction will house an auditorium, classrooms, meeting rooms and offices.

Model teacher

Robert H. McDowell is dedicated to enhancing teaching effectiveness at the University.

Active alumni

Four of the five newly elected members of the Board of Trustees are Washington University graduates.
Medical Update

Building for the future

Medical center constructs $10 million continuing education facility

Washington University Medical Center will build a $10 million continuing education facility as a focal point for the continuing education programs. Medical center institutions include the School of Medicine, Barnes-Jewish and St. Louis Children’s hospitals and the Central Institute for the Deaf.

Called the Eric P. Newman Education Center, the building is being made possible, in part, by a $2.2 million gift from the Harry E. Elston Foundation and Andrew E. Newman. Eric P. Newman, a graduate of Washington University’s School of Law who serves on the National Library Council for the University, is Newman’s father.

Andrew Newman, who is chair of Edison Brothers Stores Inc., also has close ties to the University and medical center institutions: During the past decade, he has served as chair of the board of St. Louis Children’s Hospital and chairman of the University Medical Center. He serves on Washington University’s Board of Trustees.

“I am pleased that this important new facility is being constructed,” said William A. Peck, executive vice chancellor for medical affairs, dean of the School of Medicine and chief executive officer.

American Diabetes Association’s highest scientific award presented to researcher

Phil E. Cryer, M.D., professor of medicine and director of the Division of Endocrinology, Diabetes and Metabolism, has received the 1994 Banting Medal for Scientific Achievement.

The award honors highly meritorious career achievement in the field of diabetes research. It is the highest scientific award given by the American Diabetes Association. The Banting Medal is presented annually to an individual who has made significant, long-term contributions to understanding diabetes, its treatment and prevention.

Cryer, who also is director of Washington University’s General Clinical Research Center, has concentrated his research on the mechanisms that prevent or correct hypoglycemia in patients with insulin-dependent diabetes. Hypoglycemia, or low blood sugar, can occur when patients take too much insulin or eat too little food. It can result in blackouts and other problems associated with insulin-dependent diabetes.

Cryer has focused on the actions of the hormones epinephrine and its role in glucose counter-regulation.

Cryer has conducted all of his research in a clinical setting. "I am especially honored to receive an award like this," he said. "It is unusual for the Banting Medal to go to an investigator who has worked only in humans, but I believe it is important that we ask basic questions in people."

Cryer is the fourth Washington University researcher to receive the Banting Medal. His predecessors and the years they received the award are the late Nobel laureate Carl F. Cori, M.D., former head of pharmacology and biological chemistry, 1955; Paul E. Lacy, M.D., Robert L. Kroc Professor and former head of pathology, 1970; and David M. Kipnis, M.D., Distinguished University Professor and former head of medicine, 1977.

Cryer has written more than 250 scientific articles. He is the editor of the journal Diabetes, and he sits on the editorial boards of several other publications.

He earned undergraduate and medical degrees from Northwestern University. Cryer completed his residency at Barnes Hospital, a fellowship at Washington University, and also served a tour of duty in the Medical Corps of the U.S. Navy.

Purkerson named associate dean, academic projects

Mabel L. Purkerson, M.D., professor of medicine, has been named associate dean for academic projects.

Purkerson’s appointment was announced by William A. Peck, executive vice chancellor for medical affairs and dean of the School of Medicine.

"We are fortunate to have someone with Dr. Purkerson’s talent, interest and experience to collaborate in these very important activities," said Peck.

In her new position, Purkerson will help develop new programs that research and communicate the history of the School of Medicine and will serve as a resource to the alumni affairs and fund-raising programs.

Purkerson received her bachelor’s degree in science from Erskine College in 1951 and her medical degree from the Medical College of South Carolina in Charleston in 1956. She completed her residency in pediatrics at St. Louis Children’s Hospital and her training in nephrology in the Renal Division of the Department of Medicine at the School of Medicine. She had additional training at a U.S. Public Health Service Special Fellowship in the Department of Anatomy at Columbia University College of Physicians and Surgeons in New York.

Purkerson joined the faculty of the School of Medicine in 1961 and served previously on the school’s associate dean for curriculum.

Volunteers needed

Volunteers are needed for a study of ocular hypertension. The study is designed to determine whether use of eye drops that lower pressure inside the eye can prevent or delay the onset of glaucoma.

Volunteers should have mild to moderate ocular hypertension. They also should have relatively good vision and be at least 18 years of age.

For more information, call 362-4175.
The teaching program inspires faculty

McDowell remains involved in innovative teaching. Drawing on the week that mathematics Professor Uri Treiman did at the University of California, Berkeley, last year McDowell created a workshop designed to help first-year students achieve success in learning calculus. In addition, he has participated in seminar courses, another area in which there is much experimentation nationwide. During the calculus workshop, the students were divided into small groups. They met twice a week to work on problems that encouraged them to think, rather than just calculate answers. The results were highly encouraging. According to a study done by Edward Spitznagel, Ph.D., professor of mathematics, the students performed significantly better in their calculus courses than students who had not participated in a campus in 1985. McDowell came to Washington University in 1960. Throughout his tenure, he has held an appointment of approximately 60% teaching and 40% administrating from chair of the Senate Council, a position he held twice, to membership on the Committee on Cooperation with The People's Republic of China.

McDowell "has been involved in all facets of university service. In 1989, I served as chair of the Committee on Mathematics. I do not believe that any aspect of university service should be. He is one of the most humanistically inclined scholars on campus." His experience at the University of Chicago has led to "a broad understanding of culture is essential to making students more involved in the evaluation process. The task force has recommended requiring self-evaluation from students and by peers, as well as self-evaluation."

"What gives me the most satisfaction is bringing what excites me about the subject to the student."
Exhibitions

"A Gallery of Modern Art." Features 85 19th- and 20th-century masterpieces from the Gallery of Art's permanent collection, considered one of the finest university collections in the country. It is the first time the paintings have been shown together. Through Oct. 16. Gallery of Art, Steinberg Hall. Hours: 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. 935-3490.

"Herb Weitman: Quintessential Campus Photographer." Features the work of renowned Washington University photographer Herb Weitman, including 50 black-and-white and color photographs of the University's campus, students and professors. Through Sept. 11. Gallery of Art, Steinberg Hall. Hours: 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. 935-3490.

"Posters of Leonetto Cappiello." Features works of Cappiello, an artist who was renowned for his ability to produce image association. He has been described as the father of modern advertising. Through Sept. 11. The opening reception will be held 5-7 p.m. Aug. 26. Some posters will be for sale. Bixby Gallery, Bixby Hall. Hours: 10 a.m.-4 p.m. weekdays; 1-5 p.m. weekends. 935-4463.

Lectures

Friday, Aug. 26

Tuesday, Aug. 30

Wednesday, Aug. 31

Thursday, Sept. 1
Noon. Genetics seminar. "The Behavior of Trinucleotide Repeats in Fragile X Syndrome (FRAXA) and FRAXF," David Nelson, asst. prof., Dept. of Molecular and Human Genetics, Baylor College of Medicine, Houston, Texas. Erlanger Aud. 935-4926.

2:30 p.m. Mechanical engineering seminar. "Electric and Magnetic Detection of Electrical Activity in the Heart and Brain," Jannik Malimivo, prof. and director, Ragnar Granit Institute, Tampere U. of Technology, Tampere, Finland. Room 100 Cupples II Hall. 935-6055

Music

Thursday, Aug. 25
1 p.m. Dept. of Music vocal auditions. Vocal Jazz Choir, 1-4 p.m., Room B-10 Blewett Hall; Chamber Choir, 4-7 p.m., Tietjens Hall. Auditions continue Aug. 26 for University Chorus, Vocal Jazz and Black Composer Repertory Chorus from 1-4 p.m. in Room B-10 Blewett Hall. Call 935-7405 to schedule specific times.

Saturday, Aug. 27
1 p.m. Dept. of Music instrumental auditions. Wind Ensemble, 1-4 p.m., Tietjens Hall. There are openings for all sections, however, trumpet, trombone, tuba, percussion and bassoon players are especially needed. Orchestra winds should audition during wind ensemble auditions. Open to all qualified musicians in the St. Louis area. Call 935-7405 to schedule specific times.

Sunday, Aug. 28
1 p.m. Dept. of Music symphony orchestra auditions. String players, 1-4 p.m., Tietjens Hall. Violin, viola, cello and bass players are especially needed. Open to all qualified musicians in the St. Louis area. Call 935-7405 to schedule specific times.

This 1967 photograph of three dogs in Brookings Quadrangle is included in an ongoing exhibit of Herb Weitman's work. The exhibit runs through Sept. 11 in the Gallery of Art.

Weitman — from page 1
Community Centers Association. That award is given annually to a nationally recognized senior artist who has made contributions to the artistic life of St. Louis.

In addition to his thousands of photographs in Washington University Magazine and the Record, Weitman has contributed to numerous national publications, such as Newsweek, Time, Life, Sports Illustrated, Picture Magazine, a prestigious photographic art periodical, and CASE Currents. Weitman's photographs of St. Louis and regional landmarks appear in two popular area guides — Seeing St. Louis and Seeing Beyond St. Louis, both published by Washington University. The Saint Louis Art Museum and the Gallery of Art have acquired Weitman's work, which also is in a number of museums and private collections across the country.

In addition to his portraits of campus life, Weitman also was the official photographer of the St. Louis Football Cardinals and was an official NFL photographer, covering Super Bowls V to XXIII.

The gallery is open 10 a.m.-5 p.m. weekdays and 1-5 p.m. weekends. For more information, call 935-4523.

Herb Weitman captured this image of two students on a rainy day in 1980.

Calendar guidelines

Events sponsored by the University — its departments, schools, centers, organizations and its recognized student organizations — are published in the Calendar. All events are free and open to the public, unless otherwise noted.

Calendar submissions should state time, date, place, sponsor, title of event, nature of speaker(s) and affiliation, and admission cost. Quality promotional photographs with descriptions are welcome. Send items to Judy Rhuland at Box 1070 (or via fax: 935-4296). Submission forms are available by calling 935-4926.

The deadline for all entries is noon Tuesday one week prior to publication. Late entries will not be printed. The Record is printed every Thursday during the school year, except holidays, and monthly during the summer. If you are uncertain about a deadline, holiday schedule, or any other information, please call 935-4026.

Assembly Series lectures are planned by a student/faculty committee. Funding for this fall's Assembly Series lectures is available to academic departments, the Assembly Series, College Democrats, Congress of the South Forty, Edison Theatre, the Thomas Hall lecture fund, the International Writers Center, the Rabbi Ferdinand M. Isserman Memorial Lecture fund, Orientation Committee, the Program for the Humanities in Medicine at Washington University Student Union, Washington University Political Society and the Woman's Club of Washington University.

Sports

The following is compiled by Mike Wolf, director of sports information, and David Moessner, associate director.

Women's soccer

After rolling to a three-year record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops — the wheels fell off in 1993 for the Washington University women's soccer team.

The Bears return seven players who were on second-team all-UAA and all-Midwest picks. Only one key returner, sophomore Jennifer Donahoe, Piano, Texas, is two years away from graduating. The Bears return junior attacker David Moessner, assistant director.

The team is also returning all four of Washington's 1993 NCAA tournament victories. Secure 20-4 record in Washington's 1993 season and a record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops.

Defensively, the Bears return seven players who were on second-team all-UAA and all-Midwest picks. Only one key returner, sophomore Jennifer Donahoe, Piano, Texas. Scoring all four of Washington's 1993 NCAA tournament victories. Secure 20-4 record in Washington's 1993 season and a record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops.

Men's Soccer

Under the guidance of eighth-year head coach Ty Keough, Washington University is hoping to duplicate its numbers from last fall. The Bears have scored 13 goals in seven games and are tied for the second most goals scored in seven games.

The Bears return seven players who were on second-team all-UAA and all-Midwest goal-keeper Jennifer Donahoe, Piano, Texas. Scoring all four of Washington's 1993 NCAA tournament victories. Secure 20-4 record in Washington's 1993 season and a record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops.

Offensively, the Bears return seven players who were on second-team all-UAA and all-Midwest goal-keeper Jennifer Donahoe, Piano, Texas. Scoring all four of Washington's 1993 NCAA tournament victories. Secure 20-4 record in Washington's 1993 season and a record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops.

Defensively, the Bears return seven players who were on second-team all-UAA and all-Midwest goal-keeper Jennifer Donahoe, Piano, Texas. Scoring all four of Washington's 1993 NCAA tournament victories. Secure 20-4 record in Washington's 1993 season and a record of 34-13-5 and nearly taking a pair of NCAA tournament pit stops.

The Bears open their season against Division II rival Washington University at 7:30 p.m. Sept. 8 on Francis Field.
Citation:

"The professors don't let you agree to very radical propositions. In a way, the classroom discussion is one of her favorite parts of the program. "The professors don't let you agree to very radical propositions. In a way, the classroom discussion is one of her favorite parts of the program."

— Naomi Lebowitz

**Program links ancient, modern thought**

"We wanted students to read these major texts, not just the jazzy, career-oriented texts. Our texts are rich carriers of morality, philosophy, religion and psychology." — Naomí Lebowitz

**Five elected to Board of Trustees, one re-elected**

Five new members have been elected to the University's Board of Trustee, composed of 35 members: three of whom graduated in 1976.

Hernreich, received a bachelor's degree in liberal arts and a master's degree in business administration from the Washington University. A friend of President Bill Clinton, he was one of the 11 original members of the Bill Clinton for President National Advisory Board.

Hernreich built Sigma Broadcasting, a television, cable and internet company, father, eventually owning television and radio stations. In 1982, Hernreich became the youngest vice president of the Washington University. A friend of President Bill Clinton, he was one of the 11 original members of the Bill Clinton for President National Advisory Committee.

Hernreich received a bachelor's degree in business administration from Washington University in 1976, and a law degree from the University of Washington in 1982. He joined another Washington University alumnus, Charles Bennett, to form a public accounting and management advisory services firm. Hernreich served as chair of the Washington University Alumni Club of Baltimore; chair of the Baltimore-Washington chapter of the Black Alumni Council of Washington University; and also as a member of the National Advisory Board on the Recruitment of African-American students.

Taylor received a bachelor's degree in business administration from the University of St. Louis in 1970. He joined Enterprise Rent-A-Car Co. in 1973. One of the largest rental vehicle suppliers in the United States, Enterprise is expected to generate approximately $2.25 billion in revenue for fiscal year 1994. Taylor serves as a director of Commerce Bancshares Inc. and General American Life Insurance Co., as well as a trustee for the St. Louis Science Center and Missouri Botanical Garden. He is vice chairman of the United Way campaign of St. Louis.

Thomas received a bachelor's degree in drama from Washington University in 1976. She has extensive theatre experience, acting in some 20 off-off-Broadway shows and university productions. In addition to acting, singing sopranos and playing classical piano, she is a certified public accountant.

Tisch served as an NBC news correspondent from 1981 to 1991, at various points filing in for Jane Pauley on the "Today" show. From 1979-1984 she was an anchor-reporter for WCCO-TV, CBS station in St. Paul-Minneapolis. She began her successful media career as a student intern at KMSP-TV in Minneapolis. Tisch received a bachelor's degree in sociology and psychology, with a minor in education from the University of Wisconsin in 1976. Trusheim joined General American Life Insurance Co. in 1964 as treasurer. He serves on the boards of the Argus Corporation, Laclede Gas Co. Inc., RebCare Inc. and National Churches. He is also a member of the Kiel Society, graduated from the Board of Trustees of St. Louis University.

H. Edwin Trusheim re-elected a bachelor's degree in education from Concordia College in 1948, and a master's degree in political science from Northwestern University in 1950. He taught at Concordia College from 1948-1950 and at Lutheran High School from 1955-56.

**Campus Watch**

The following criminal incidents were reported to the Hilltop Campus Police Department Aug. 1-3. Readers with information that could assist the investigation of these incidents are urged to call WPD-5555. The release is provided as a public service to prevent unsafe activity on campus.

**Aug. 2**

9:21 a.m. — A tool box and tools belonging to a faculty member were reported stolen from a vehicle parked in the lot at Millbrook and Kirkwood sometime between 7:19 a.m. and 8:15 a.m.

**Aug. 3**

7:41 p.m. — A student's bicycle was reported stolen from the rack at the Rec Center sometime between 4:30 a.m. and 5:30 a.m.

9:21 a.m. — A student's bicycle was reported stolen from the rack at the northwest side of Lee Residence Hall sometime between 9 a.m. and noon.

**Aug. 18**

8:45 p.m. — A student's bicycle was reported stolen from the rack on the south side of Lee Residence Hall sometime between 7 p.m. and noon.

**Aug. 19**

7:07 p.m. — A student's bicycle was reported stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and 7 p.m. Aug. 18.

**Aug. 21**

5:12 p.m. — A student's bicycle was reported stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and 7 p.m. Aug. 18.

**Aug. 22**

12:21 p.m. — Someone reportedly entered the Office of Residential Life with a key sometime between 10 and 12:45 p.m. Aug. 19 and stole eight videocassette recorders from a student's room.

1:17 p.m. — A student's bicycle was reported stolen from the rack on the northwest side of Ridgely Residence Hall sometime between 9 a.m. and noon.

**Aug. 25**

3:30 a.m. — A television was stolen sometime between 2:30 a.m. Aug. 5 and 8:15 a.m. Aug. 6.

**Aug. 27**

4:29 p.m. — A student's bicycle was stolen from the rack on the northwest side of Lee Residence Hall sometime between 3:30 p.m. Aug. 4 and 8:15 a.m. Aug. 5.

**Aug. 29**

1:25 p.m. — Someone reportedly entered the Office of Residential Life with a key sometime between 10 and 12:45 p.m. Aug. 19 and stole eight videocassette recorders from a student's room.

1:17 p.m. — A student's bicycle was reported stolen from the rack on the northwest side of Ridgely Residence Hall sometime between 9 a.m. and noon.

**Aug. 31**

3:55 p.m. — A student's bicycle was reported stolen from the rack on the northwest side of Lee Residence Hall sometime between 9 a.m. and noon.

**Sept. 2**

9:52 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

10:41 p.m. — A television was stolen from the rack on the south side of Lee Residence Hall sometime between 9 a.m. and noon.

11:30 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

**Sept. 3**

2:31 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

5:12 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

**Sept. 5**

7:16 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

7:16 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.

**Sept. 7**

7:16 p.m. — A television was stolen from the rack on the north side of Lee Residence Hall sometime between 9 a.m. and noon.
The following is a list of new faculty members on the Hilltop for The Record.

**Professor Donald C. Shreffler dies at 61**

Donald C. Shreffler, M.D., professor of genetics, died Aug. 8 after having a heart attack while driving his car in St. Clair County, Ill. He was 61.

Shreffler, who had been professor of genetics at the School of Medicine since 1975. From 1977 to 1984, he was the James S. McElroy Professor of life sciences and associate professor of genetics. He was elected to the National Academy of Sciences in 1989.

Shreffler received a bachelor's degree in agriculture in 1954 and a master's degree in dairy science in 1955 from the University of Illinois at Urbana-Champaign. He received a doctorate in molecular and chemical genetics in 1962 from the California Institute of Technology in Pasadena, Calif. Donald and the matriarch of the family were his wife, Dorothy Shreffler of Ladd; two sons, Douglas Shreffler of Edwardsville, Ill., and Donald Shreffler of Ladd; two daughters, Okla., and Dr. Dorothy Shreffler of Ladd; and three sisters, Dorothy Shreffler of Ladd, and Phyllis Hercher of Kanakakee, Ill.

**Professor Donald C. Shreffler dies at 61**

For The Record contains news about a wide variety of faculty, student and staff scholarly and professional activities.

**Note:** The next issue of The Record will contain a list of the faculty members who have been promoted or promoted with tenure.

**On assignment**

William W. Clark, Ph.D., professor of physiological acoustics in the Department of Speech and Hearing at the Central Institute for the Deaf (CID) and senior research scientist at CID's Noise Lab, served as vice president and program chair for the National Hearing Conservation Association's conference held in Atlanta. He also presented talks on "School-related Noise Exposure in Children" and "Hearing Loss and Cochlear Damage From a Working Lifetime in Noise."

**To press**

The Review of Financial Studies picked an article written by Eryk E. Back, Ph.D.

**Obituaries**

The following Hilltop faculty received promotions effectively July 1, 1994. These promotions were on record as of July 1. The faculty members have been promoted with tenure: (Note: the next issue of the Record will contain a list of the faculty members who have been promoted or promoted with tenure at the School of Medicine.)

*Richard A. Abramo* to associate professor of psychology; *James J. Berens* to associate professor of physics; *Iver Bernstein* to associate professor of molecular biology; *Karen L. Brock* to associate professor of art history and archaeology; *Suzanne Craft* to associate professor of music; *Mary Ann Drabek* to associate professor of economics (also associate professor of history); *Michael Finke* to associate professor of Russian; *Francis H. Foster* to associate professor of English; *Carol A. Frost* to associate professor of social work; *Sally Grady* to associate professor of computer science; *Dawn Guernsey* to associate professor of art (drawing); *Amett T. Karamustafa* to associate professor of Islamic thought and Turkish language (also director, Islamic studies); *Kenneth Kelso* to professor of physics; *Ronald R. King* to professor of accounting; *Theodosios Korakianitis* to associate professor of mechanical engineering; *Ronald Loui* to associate professor of computer science; *Adrian Luchini* to associate professor of architecture; *Fiona Mar-
