More than 400 freshmen attend first "Reunion for the Class of 1999"

Coming together as a group for the first time since freshman orientation, the Arts and Sciences Class of 1999 passed briefly in Edison Theatre on March 25 to celebrate the accomplishments of the past seven months and to consider the many choices ahead.

Billied as the "Reunion for the Class of 1999," the first-ever event drew more than 400 freshmen for a one-hour get-together. Entertainment included a slide show of student photos from orientation week and a series of skits on freshman angst performed by the student acting groups MaMa's Pot Roast and Kaktabiilz.

"You have gone through a good deal of the first year together — you now have a shared experience," said Delores Kennedy, Ph.D., associate dean for freshmen in the College of Arts and Sciences. "Freshman year in a time of transition, a time of excitement. But it is also time to begin shaping the rest of your experiences here at Washington University."

The reunion, sponsored in part by the Council of Students of Arts and Sciences, was meant to provide both encouragement and guidance to freshmen who soon will make important decisions about summer employment, sophomore course schedules and academic majors. Freshmen were allowed to pick up their individual fall 1996 registration materials following the reunion — a week earlier than these packets are available to other students.

Organizers plan to hold a reunion annually to help build a sense of common experience and community among Arts and Sciences students.

"We want you to know that we are very proud of you," said James E. McLeod, vice chancellor for students and dean of the College of Arts and Sciences. "We are now part of us."

Chancellor Mark S. Wrighton, Ph.D., to deliver Phi Beta Kappa/Phi Gamma xi Lecture in Assembly Series
School of Medicine investigators are seeking volunteers for a new study on screening tests for prostate cancer, which may be done from home. The researchers are looking for men older than 50 who drink no more than one alcoholic beverage per day and who have been free of prostate cancer. Volunteers will be randomly assigned to either the home screening or the office screening group. The research will help determine if screening at home is as effective as screening in the office.

To participate in the study, contact Rebecca Smider at 576-2576 or 800-4967. For more information, call 935-4780.

The lecture will be an annual event featuring nationally prominent leaders in dentistry and medicine. Earl Shepard was chairman and professor in the Department of Orthodontics at Washington University School of Dental Medicine and was a nationally recognized leader in the field of orthodontics. For more information, call 935-4780.
John Vincent C. Nye, Ph.D., associate professor of economics in Arts and Sciences, is the subject of much discussion this year, especially in Africa," Ensminger said. "Nye is an economic historian who studies how, when and why some countries take off while others remain on the fringes. It's clear that developing countries have quite a lot to learn from the economic mistakes of others.

Nye's multidisciplinary interests span the Hilltop Economy; the Business, Law and Economics Center; and the Committee on Social Thought and Analysis. "It has always been very rewarding for me to get together informally to discuss their work," Ensminger said. "Nye is a leader in his field and a force in economic history.

John Nye spent most of his life acquiring the very broad knowledge that he now brings to his work. For much of the last decade, he has been Nye's mentor at Washington University.

"I'm very interested in using the power of the economic way of thinking to address historical questions," Nye said. "It's important that we pay attention to the development of new ideas in economics and how they affect policy.

"North with equal pride is a critical sounding board for the Nobel laureate's more mundane economic theory. It was all very inspiring, very pointed and aggressive question-and-answer..." Nye described. "John is an excellent student who always asks very pointed and aggressive questions.

"John sat in on one of my presentations at Northwestern. He played an active and unobtrusive role, objecting to an idea and suggesting that I refine it in a way that I hadn't thought of," North said. "It was a great experience for me."

"The best way to present your work and see if it holds up for me is to present it in class," Nye said. "I'm very interested in using the power of the economic way of thinking to address historical questions."
April 4—13

Exhibitions
“Currents 68.” Paintings and collages by Michael Byrom, visiting artist in the School of Fine Arts. Hours: 9 a.m.-5 p.m. Mary and James Slaton Art Museum. 721-0072.

First-year M.F.A. Student Exhibit.” (1973), starring Linda Blair. (Also April 6, 8, 9 and 11, 4 p.m. in Filmboard.)

Baseball team's record improves to 17-4
Savoring its best season since 1957, the Washington University baseball team won four of five games last week to up its spring mark to 17-4. Sophomore pitcher Thor Larsen remained unbeaten at 5-0 as he allowed two hits in six innings in a 17-4 Invitational. Freshman Emily Rich and junior Jerilyn Jordan both earned automatic tickets to May's NCAA Divi- sion III Outdoor Championships with standout performances in the 3,000-meter steeplechase and the second-fastest 800-meter run in WU history, while Jordan's 17-4.34 is now third-best. Also securing a national berth was freshman Monica Lewis, who earned a provisional ticket with a 58.10-second outing in the 400-meter dash. This week: 11 a.m. Saturday, April 6, WU Open, Buschhead Track and Francis Field

Women's tennis nets win against ranked foe
Netting its third win over a nationally ranked team this spring, the women's tennis team defeated 16th-ranked Saint Mary's College (South Bend, Ind.) by a 7-1 count on Saturday, March 30. The victory highlighted a 3-0 weekend that also included a 9-0 win over Augustana College (Rock Island, Ill.) and a 7-0 decision over the University of Chicago. Current record: 6-5
This week: idle

Men's tennis falls to Saint Louis University
The men's tennis team is facing a tough week, with just an exhibition match on tap vs. Jefferson College, a two-year institution. In their only outing last week, the men's team dropped a 6-3 verdict to the NCAA Division I Saint Louis University. Current record: 2-3
This week: 7 p.m. Wednesday, April 3, vs. Jefferson College, Tau Tennis Com
Mark Wrighton to deliver Assembly Series lecture

Chancellor Mark S. Wrighton, Ph.D., will deliver the Phi Beta Kappa/Sigma Xi Lecture at 11 a.m. Wednesday, April 10, in Graham Room 162 McDonnell Hall. The event is part of the Assembly Series and is free and open to the public. Wrighton became Washington University’s 14th chancellor in July 1995. He serves on numerous scientific advisory boards and on the editorial boards of several professional journals. In 1989, a Business Week special issue on “Innovation in America” included Wrighton as one of 10 innovators in science.

Wrighton received his doctorate in chemistry in 1972 from the California Institute of Technology. Wrighton immediately began his MIT career as an assistant professor of chemistry. In 1976, he became associate professor, and he rose to full professor one year later. While at MIT, he held two chaired professorships. He was named the Frederick G. Kayes Professor of Chemistry in 1981 and held that until becoming the first Ciba-Geigy Professor of Chemistry in 1989. From 1987 to 1990, he was head of MIT’s Department of Chemistry.

For more information on the lecture, call 935-5285.

Campus Watch

Mark Carpenito to read from her works

African American writer Mary Carpenito will read from her works at 8 p.m. Tuesday, April 9, at the West Campus Center. Carpenito’s collection is a part of a series sponsored by the International Writers Center in Arts and Sciences.

Carpenito’s other works include “Addressing the Negative” (1981), a chapbook, and “Metamorphosis” (1982), a limited edition art book with a retelling of the Daphne and Apollo myth.

She is an associate professor of English at Hofart & William Smith Colleges in Geneva, N.Y.

A book signing will follow the reading. Admission is $5. Students with valid identification and senior citizens will be admitted free. Arts and Education Council of Greater St. Louis cardholders will be admitted free. Arts and Education Council of Greater St. Louis cardholders will be admitted free. Arts and Education Council of Greater St. Louis cardholders will be admitted free. Arts and Education Council of Greater St. Louis cardholders will be admitted free.
Three faculty members delivered presentations at the National Jewish Community Relations Advisory Council's 1996 national convention in St. Louis. Ahmed T. Karamustafa, M.D., associate professor of Islamic thought and Turkish language and director of the Center for the Study of Islamic Science and Culture at Arts and Sciences, spoke on "An Assessment of Islamic Motorcycles, chair of the Middle East." Stephen H. Legomsy, J.D., Ph.D., the Charles F. Nagel Professor of International and Comparative Law, spoke on "Transformations in U.S. Policy Toward Jerusalem: How Do We Respond?" Andrew C. Nobel, Ph.D., assistant professor of political science in Arts and Sciences, delivered a presentation titled "Leading or Retreating: What Is the U.S. International Role?"...

Lev N. Robins, Ph.D., the Professor of Social Science in Psychology and the Founding Director of Social Science in Arts and Sciences, presented a paper titled "Childhood Symptoms and Adult Disorder" at the 125th anniversary congress of the Netherlands' Association of Psychology in Amsterdam.

On assignment
Gregorio A. Sicard, M.D., professor of surgery, has been named to the Mid-America Transplant Services' board of directors. Mid-America Transplant Services is a private, non-profit corporation that coordinates the procurement of vital organs, bone/soft tissue and eyes for transplants in Missouri, southern Illinois and northeastern Arkansas. It is located in St. Louis.

For The Record contains news about a wide variety of faculty, staff and student scholarly and professional activities.

Of note
During the International Micro Robot Meeting in Nagoya, Japan, Professor M. Gatsinika, a senior in systems science and mathematics, won third place for the design and performance of a miniature robot. Teyl-Jong Tan, D.Sc., professor of systems science and mathematics, and Ming Xi, D.Sc., research assistant professor, served as advisers. In addition, the project was awarded the speed for the robot of the part of the Sixth International Symposium on Micro Machine and Human Science. The main contest was part of the symposium as well.

Paul T. Kotzbauer, a doctoral student in the laboratory of Jeffrey D. Millhauser, M.D. Ph.D., professor of pathology and of medicine, was the prizewinning recipient of the 1996 James L. O'Leary Prize for Research in Neuroscience at Washington University. His project was titled "Purification of a Peptide Molecule from Cloning of Neuritruin: A Novel Neuritrophic Factor for Skeletal Muscle, and to researchers in the field of neuroscience at Washington University. The lists offer an open forum for faculty and students, researchers and visitors at the first Graduate Student Research Symposium, held March 23 in McDonnell Hall. The title of Hoffmann's award-winning project was "Purification and Characterization of a Novel Neurotrophic Factor That Coordinates the Procurement and Placement of Neurons." A portion of the award was $50,000. The other recipients were Douglas E. Wright, M.D., Ph.D., associate professor of medicine and of anatomy and neurobiology, the late James L. O'Leary, M.D., Ph.D., a faculty member at the School of Medicine from 1928 to 1975 and was head of the Department of Neurology from 1963 to 1970.
