Division News Briefs

- Division faculty member [Mary Politi, PhD](#), and a team at the Comparative Effectiveness Research (CER) Center at Washington University School of Medicine will host their third annual symposium, titled "Comparative Effectiveness Research: From Study Design to Implementation," on April 16 and 17. Keynote speakers will include Joe Selby, MD, MPH, executive director of the Patient-Centered Outcomes Research Institute (PCORI). This free event will be held at the Eric P. Newman Education Center. Online registration can be completed [online here](#) by April 1.
- **Jennifer Ivanovich, MS, MBA**, has joined the division as a research assistant professor of surgery (primary appointment). Jennifer is a clinical cancer genetic counselor who provides genetic counseling, assessment and education to families with any cancer type. Jennifer is the co-founder and director of the Young Women's Breast Cancer Program, a community support and education program for women diagnosed prior to 45 years of age. She has been a co-investigator on several cancer genetic studies, including the research team responsible for the discovery of the DICER1 gene as the basis for the pleuropulmonary blastoma cancer syndrome. Currently, Jennifer serves as co-investigator for two studies focused on the identification of novel genetic risk factors for breast cancer development among young breast cancer survivors and a health communication

ABOUT US

This newsletter provides a select summary of research news from the Division of Public Health Sciences.

We are a team of researchers and clinicians dedicated to preventing disease, improving health outcomes, and promoting quality and access to health care.
