NEW POWER PLANT IN OPERATION

HAROLD THOMPSON, Stationary Engineer, and WILLIAM CONRAD, Chief Engineer, at one of the three boilers of the new power plant, looking at a gauge which shows the number of pounds of gas pressure needed to operate the burner. Oil burning section of the boiler is overhead at left; the electronics control panel which controls the sequence of the firing operation is on the right.

HOLIDAY HARVEST FAIR—
November 19 and 20

COME TO THE FAIR! The Jewish Hospital Women's Auxiliary HOLIDAY HARVEST FAIR—Saturday evening from seven to midnight and Sunday from noon to midnight at the Nurses' Residence, 306 South Kingshighway. Support this important fund-raising affair for the redecoration and refurbishing of the Nurses' Residence. There will be lots of parking space in Forest Park on the Park-Ride lot, above and behind the Municipal Opera, where shuttle buses will be waiting to whisk you to the FAIR.

In a "Greatest Show on Earth" atmosphere—eat, drink and be merry! And bring the children—there'll be hamburgers, hot dogs, popcorn, cotton candy and soda pop!

We'll have game booths for the teenagers on Saturday ... and cartoon movies for the kids—young and old—every 20 minutes on Sunday.

There will be a fortune teller who will predict your future ... and you'll have fun trying to guess the identity of this strange and mysterious person.

Greenwich Village has nothing on us! Outstanding St. Louis artists Dorothy Dubinsky, Skippy Gillerman, Stella Pearlmutter, Rose Propper, May Schwartz and Florence Shupack will be on hand to do sketches and silhouettes.

Sixteen beautiful booths will be overflowing with wonderful things to buy—homemade goodies and handmade novelties. And don't forget your holiday gift list—here's a chance to shop early for the unusual gift ... and you can have it handsomely wrapped while you wait. Here are a few of the gifts: a lovely nurse doll with hand-knitted cap and mittens—in all the school colors; exquisite table centerpieces; choice cookies and cakes for your deepfreeze ... and many, many more.

Bring your family and friends to the FAIR. Treat yourselves to wonderful fun—and you'll be treating our nurses to the kind of lovely home they deserve.

STORY ON PAGE 3
AN AVERAGE DAY THIS MONTH

- 800 Employees
- 50 Volunteers
- 15 Operations
- 4 Deliveries
- 68 X-Ray Examinations and Treatments
- 384 Laboratory Tests
- 73 Chronic Disease Patients
- 241 Acute Patients
- 20 Rehabilitation Patients
- 28 Social Service Interviews
- 32 Patients Admitted
- 71 Outpatient Visits
- 95,400 Pounds of Steam
- 3,285 Pounds of Laundry
- 1,700 Meals Served
- 9 Home Care Visits

PAST PRESIDENT OF STAFF HONORED

Dr. Paul S. Lowenstein, President of Staff from April 1953 to April 1955, was honored by the Medical Staff at its meeting on October 3 with a scroll for outstanding leadership during his tenure of office. From left to right are: Dr. Samuel D. Soule, President of Staff; Dr. Lowenstein, and Dr. Morris Alex, Secretary. The inscription reads: "This testimonial from the Medical Staff is given in appreciation of his services to the Hospital. During a difficult period of reconstruction, staff reorganization, and reorientation, he has given of his time and energy without stint in maintaining and advancing the medical services and standards of the Hospital, thereby enhancing its position as an asset to the community; for which we extend to him our thanks and good wishes."

Staff Doctors-Officers
In MSHA

The Medical Staff of the Hospital is well represented in the Missouri Social Hygiene Association. The president of this organization is Dr. M. Norman Orgel, the vice presidents include Drs. Jules H. Kopp and B. Y. Glassberg, and the honorary presidents are Drs. Richard S. Weiss and Paul J. Zentay. In addition, Drs. Irwin Levy, Ellen Loeffel and John O. McNeel are members of the Board of Directors. The Missouri Social Hygiene Association performs marriage counseling, child guidance and other social-medical functions.

Consulting Engineer
Appointed

Gerald Nadler, Ph.D., Professor of Industrial Engineering, Sever Institute of Technology, Washington University, has been engaged by the Hospital as the Consulting Industrial Engineer. Dr. Nadler will work closely with Kenneth P. Cohen, the staff Industrial Engineer in the various studies now going on in the Hospital, to determine the most effective utilization of personnel, materials and equipment.

Earlier this year, Dr. Nadler participated in a series of orientation lectures on industrial engineering techniques given to head nurses and others here at Jewish Hospital.
OUR POWER PLANT — BRAND NEW!

William Conrad, Chief Engineer, and David A. Gee, Associate Director

If we told you that Jewish Hospital, for the first time in its history, finally has its own power plant — you couldn’t be blamed for raising an eyebrow or two.

What did we use up to now? A good question — and raising it is what makes this story top-drawer news!

Though the original Jewish Hospital, constructed in 1926, was equipped with boilers, they were used for a short time only. It was found more economical to purchase steam from Washington University’s plant on Euclid Avenue — and we’ve been doing this for the past 20 years.

The new power plant, which cost nearly $500,000, contains many impressive-looking tanks, boilers, compressors, pumps, fans, electric panels, electronic devices, filters, and a maze of pipe and conduit. This very complicated operation must be understood, operated, and maintained by a skilled engineering staff. The boiler room itself is contained in a large two-story area which houses three boilers and burners capable of generating about 525,000 pounds of steam per hour; actual usage by the Hospital is nearly four million pounds a month — and that’s a lot of steam.

The boilers are equipped to burn either gas or oil. This enables the operators to switch from gas to oil during the cold season, when gas, being in great demand, is in short supply. The switch from gas to oil is made by changing the burners when the outside temperature falls below 25 degrees. This insures constancy of steam service regardless of weather conditions.

It gets pretty hot in these boilers — to boil water, it takes only 212 degrees (Fahrenheit), but the new boilers generate temperatures of about 2,000 degrees, and the gases alone, which are exhausted through the smoke stack, are about 550 degrees.

Many operations take place before the water in the boilers turns to steam. First, the water is softened in large tanks containing sodium zeolite; this removes minerals which may be damaging to the boilers or pipes. The water then travels to storage tanks, and, as it is used, passes through a deaerating heater, where the air and other gases are removed from the water. Now, the water is ready to be heated in the large tubes of the boilers. Steam generated from the boilers is at about 105 pounds pressure, and to make it suitable for different uses, must go through a series of pressure-reducing valves, depending on the amount of pressure required. For example, the laundry requires 100 pounds of pressure, while the kitchen, only 30. After steam has been used, it is condensed back into water, and then back into steam, again and again.

Producing steam is only one of many activities of the engine room. Numerous pumps are used to circulate cooling water through the air-conditioning system.

Air-conditioning and air-circulating operations require several areas equipped with fans, filters, compressors and other equipment. The main compressor, operated by a 350-horsepower motor, handles three hundred and seventy-five tons of refrigerated air per hour. Water is pumped through the air-conditioning system at the rate of 1,050 gallons per minute.

Complicated electrical panels, which are a part of the engine-room family, provide the Hospital with light and power; a system employing electronics operates the boiler controls, as well as the paging device for doctors.

How much steam, power and electricity is produced at Jewish Hospital? A great deal — enough to service the houses and all public buildings of a town of about 1,000 inhabitants.

Though of tremendous importance, we often know too little about our engine room and the work of the skilled men who operate it. Should just one little thing in this complicated operation go wrong and prevent its operating at top performance — and it must always be thus — all activities of the Hospital would be seriously handicapped. Pretty important, these boilers! And we’re proud and glad Jewish Hospital has just about the newest and the best.

Women’s Auxiliary Board Has New Members

The Board of the Women’s Auxiliary of the Jewish Hospital has three new members, elected at its September meeting. Mrs. Alfred Gelfand, for a term of three years; Mrs. Sydney Shoenberg, Jr., for a term of two years, and Mrs. David Biederman, to fill an unexpired term of one year.

All three women have been actively engaged in Auxiliary affairs and are well qualified to serve in a policy-making capacity. Mrs. Gelfand has served as Co-chairman of the Library Committee; Mrs. Shoenberg has served in many capacities, and Mrs. Biederman has been a buyer for Gift Gallery, and Treasurer of the Life Membership Committee.

X-RAY HAS NEW STUDENTS

Now, students, learning to be X-ray technicians in a course given by the Radiology Department, examine two films on a viewing screen. From left to right, Pat Austin, Barbara White and Betty Holloway, who began their studies on September 1.
NEW RESEARCH EQUIPMENT

Dr. Fotios Smyrniotis, Resident in Internal Medicine, adjusts a dial on the Perkin Elmer Spectrophotometer, which measures the amounts of sodium and potassium in the blood and urine. This instrument was purchased with funds from the Women’s Auxiliary Tribute Fund. It is used primarily in work on cardiac and kidney diseases, in the laboratories of the Division of Medical Services.

NEW INFANT SCALE DONATED

One of the younger patients in the Hospital is weighed by Head Nurse Jo Thompson on an infant scale donated by Mrs. Ralph Well. This specially designed scale gives immediate, accurate readings of the baby’s weight.

Operating-room lights are needed to replace some of the obsolete ones currently in use in the Hospital. These lights may be presented as memorial gifts to the Hospital; the cost is approximately $1,400. Anyone interested in such a memorial donation may call David A. Gee for further information at Forest 7-8080.

TRACTOLATOR AT MIRIAM

abert Hickok, phsyiotherapist, adjusts the chin straps on the new tractolator, donated by the Miriam Lodge of the United Order of True Sisters. The device applies measured tension for the treatment of certain disturbances of the neck and back.

November 1955
Dietary Gets Food-Service Supervisor

Mrs. Martha Johns, new Food-Service Supervisor, checks a meal being readied for delivery to a patient.

Mrs. Martha Johns, formerly Personnel Dining-Room Supervisor, has been appointed Food-Service Supervisor in the Dietary Department. This post has been created in an attempt to improve the food service to patients, and to visitors and employees using the Hospital's dining-room.

Mrs. Johns will first review the problem of transportation of foods from the kitchens to the patients, to find, better, more efficient and more appetizing methods of handling foods. Particular attention will be given to the manner in which food is served. Of course, this means that all hot foods will be hot and all cold foods, cold, when served.

Food purchasing, preparation, and control of environmental sanitation will be included in Mrs. Johns' responsibilities. An important result of this organizational change is that it will relieve the dietitians for counseling with patients and physicians on dietetic problems. Now under study, also, is a plan to make a dietitian available to the Outpatient Clinic.

Mrs. Johns, who has been with Jewish Hospital for more than a year, is a graduate of Harding College, Searcy, Arkansas, with a Bachelor of Science degree in Home Economics. She has had experience in hotels, colleges and industrial food-service operations.

You'll have a circus at

THE HOLIDAY HARVEST FAIR!

And we hope you'll bring the children! Saturday and Sunday — November 19 and 20.

Jewish Hospital Nurses' Residence.
**DIVISIONAL PATTER . . .**

**The Women’s Auxiliary . . .**

We’re having growing pains! According to the last count of the Membership Committee, the Auxiliary tips in at 2,558 members — and 535 are new this year. But there’s room for more, and there’s a big welcome mat out for all newcomers.

Do you have a friend or friends who would like to join our forces? If so, please call Parkview 5-0549 and give us their names.

Most celebrated of our members is the group of 143 Life Members. They are the proud possessors of the knowledge that their contribution of $100 goes directly to the community. The Auxiliary’s program of service to the Hospital.

The terms are easy — a minimum of $100, payable in two or four installments over a period of two years. The reward in satisfaction is never-ending. Mrs. Major England at FOrest 7-8080, will be happy to enroll you in this Century Club of service.

Have any white elephants? The women who are manning the White Elephant Booth at your Holiday Harvest Fair on November 19 and 20, are in need of white elephants . . . household items other than dishes, either new or used . . . ornaments, pictures on the tree or the like. Check your attic or basement and call Mrs. Arthur Scharff at STIwill 1-9756, and she will arrange to have your white elephants picked up.

“We’re all set to roll,” the Coffee Shop Committee reports. And it will be a dream come true when the construction work is completed, and the beautiful, new Coffee Shop is open for business. This is not too far in the distance . . . but there are many details yet to be worked out. Said a representative of the Committee, “We’ve planned the decor, and the house; we’re on the lookout for a professional manager, and we’re ready for names of volunteers who want to serve as cashiers and waitresses.”

A glamorous job, this being a waitress — want to serve as cashiers and waitresses.

**Nursing Services . . .**

Many of our nurses have enrolled in courses on a part-time basis at Washington University. Included in this group are Virginia Reisinger, Assistant Director of Nursing Services; Claire Holter, Instructor; Helen Wohleter, Supervisor and Instructor; Carrie Lee and Betty Ferrare, Head Nurses; and Joan Davis and Helen Long, Staff Nurses. To mention a few of the subjects being taken: Ward Management, English Composition and Rhetoric, English Literature, Ecology, Social Psychology, Planning and Evaluating the Teaching-Learning Process, and Study of Nursing Problems.

Carrie Lee, who completed her course in the Hospital’s School of Nursing in 1954, has been appointed Head Nurse on 2 Center.

Rosalie Sieburg resigned her position as a general duty nurse on 4 Center to enter the Air Force Nursing Corps.

Bety Brun and Marian Carroll have left to take positions in New Orleans.

**Nursing Education . . .**

The annual initiation of freshman students, “Probie Day,” was carried out this year with more than the usual fervor. “Probies” were routed from their beds in the wee hours of the morning to obey the commands of upperclassmen. They retaliated by singing songs specially prepared in honor of the day while carrying out their orders. It was a rare moment when the freshmen could forget that they were “probies,” and they were completely overwhelmed when the dreaded “Kangaroo Court” turned out to be a party in their honor.

Officers of the Student Council for the year 1955-56 are: President, Marva Dean Mitchell; Vice President, Avis Winningham; Secretary, Cecil Davis.

**Social Service . . .**

Rosaline Adelberg and Shirley Bindursky, social workers, are teaching courses in Social Problems to the student nurses. The aim of these courses is to help the nurses to better understand the patient and his overall problems.

Mary F. McKeever, Director of the Department of Social Work, served as Chairman of the Arrangements for a meeting of the Medical Social Work Section of the National Association of Social Workers held in St. Louis on October 14 and 15.

**Miriam Rehabilitation Division . . .**

Carmelita Amann has replaced Rosalie Adelberg as the Social Service Worker at Miriam. Mrs. Amann is not a stranger to us, having spent her field training at Miriam last year while a student at the School of Social Work, St. Louis University. Mrs. Adelberg is now at the main Hospital building.

Dr. John Dayton, Medical Director, bagged an elk, an antelope and a mule deer on his recent hunting trip to the wilds of Wyoming.

The fall meeting of the Jewish Hospital Women’s Auxiliary, on October 7 at the Chase Hotel, was a huge success. An audience of 700 was treated to a fashion revue “From Wards to Wardrobes,” featuring residents, student nurses in their traditional uniforms of blue and white, and volunteers in their cherry-red smocks. In song and skit, they told the story of the Hospital’s needs, and the role the Auxiliary plays in filling those needs.

Mr. Melvin Kirstein, Program Chairman, and Mrs. Alan Buell Lewin, Co-chairman, worked closely with Famous-Barr Company in producing this seriously-humorous production.

At a short business session preceding the fashion show, Mrs. Harry Milton, President, told of the accomplishments of the Auxiliary in aiding the Hospital both financially and service-wise, during its short existence of three years.

Mr. John Shoenberg, Vice President of the Board of Directors, praised the group, stating, “It’s hard to imagine our Medical Center’s fast development without the support of the 2,400 members of the Auxiliary.”

The cast included: Jewish Hospital Residents, Drs. Irwin Schulte and Herman Shyken in a skit. Student Nurses Patricia Parker, Avis Winningham, Wanda Myers, Helen Pink, Sharon Lent, who contributed with song; Virginia Sachan, Marilyn Hughes, Jean Keller, Edwina Baker, and, from Missouri University, Lisa Baker and Benit Simons, were models in the fashion show.

Volunteers participating were: Louis Cohen, Audrey Frager, Florence Zucker, Mrs. Anna Shievel, Mrs. Gilbert Seidel, Mrs. Jack Smith, Mrs. Gordon Scherck, Mrs. Millard Waldheim, and Singers, Mrs. Walter Hauptman and Mrs. Eugene Newport. Songs were written by Mrs. Harold Cook; Auxiliary Hostess was Mrs. Alan Buell Lewin; Famous-Barr, Clayton, Commentator, Mrs. Lee Duncan, music was by Jack Fields Orchestra.

**“Wards To Wardrobes!”**

November 1955
AUXILIARY TEA FOR NURSES

Mrs. Harry Franc, Chairman, Committee on Nursing Service and Education, pouring at tea given in honor of the faculty of the School of Nursing, Supervisors of Nursing Services, and head and staff nurses, by the Woman’s Auxiliary of Jewish Hospital, in the new Nurses’ Lounge on October 4. Left to right are: Mrs. Franc; Miss Vera Klingsick, Supervisor, Nursing Services; Miss Marie Kuppinger, Supervisor, Obstetric Division; Miss Edna Peterson, Director, School of Nursing and Nursing Services, and Miss Mary Caffrey, Head Nurse, Medical Division.

Medical Staff...

Dr. Jacob Probstein spoke on surgery of the pancreas at the Southwestern Surgical Congress in Kansas City on September 5.

Dr. Harry Agress received a blue ribbon award, a medal and a scroll for exhibits on bone marrow from the Mississippi Valley Medical Association at its annual meeting here in September.

Dr. Sol Sherry, Director of the Division of Medical Services, has been invited to give a paper on the fibrinolytic enzyme of blood at the Annual Symposium on Blood, Wayne University, Detroit, January 21.

Dr. Murray Chinsky will give a paper on serum transaminase at the Midwestern Sectional Meeting of the American Federation of Clinical Research in Chicago on November 3.

Dr. Herman T. Blumenthal has been invited to participate in a Symposium on Transplantation to be conducted by the New York Academy of Sciences in New York City in February.

Dr. I. C. Middleman, Thomas H. Burford, A. C. Stutsman and Clinton W. Lane have published articles in the September issue of Postgraduate Medicine, official journal of the Interstate Postgraduate Medical Association. The entire issue was devoted to articles written by St. Louis physicians.

Outpatient Department...

Dorothy Howard, staff nurse, is back at work, fully recovered from her recent illness. Glad to have you back, Dorothy!

Leatrice Collins, who has been the stenographer in the Clinic for over a year, has replaced Helen Burkes at the Cashier’s desk. Helen is now clerking in the Housekeeping Department.

Volunteers...

We thank you! All of you who have volunteered your time so willingly and generously in response to the terrific need. Since September, 115 new volunteers have registered and have been working at the Hospital. Also, 299 volunteers and 82 Gift Gallery saleswomen gave a total of 2,817 hours during this period. However, we must be alert to the situation that will prevail in the next two months or so, because of the holidays. And we hope that our volunteers will come through with flying colors, so that we may maintain an even keel in our services to the Hospital.

An hour’s time ... a car ... a devoted volunteer! The Motor Corps needs drivers to transport patients to the Jewish Hospital Clinic and back home again. So, if you have a car at your disposal, you can really give a lift to someone who is ill. Just one hour of your time each month would do it — or more if you can spare it. Just call Mrs. Lester Munchweiler at Parkview 7-5987.

Chronic Disease Division...

Fashion prevails at the Jewish Sanatorium! And Schiaparelli, Dior or Jacques Fath have nothing on the new creations being worn by the patients. Through the ingenuity and generosity of a sewing group at United Hebrew Temple, the traditional patient gown has been replaced by a chic, new one of gay-colored striped and patterned fabrics.

Fun for all ... and funds for the Nurses’ Residence.

Come to the FAIR — THE HOLIDAY HARVEST FAIR!
Saturday and Sunday — November 19 and 20.
Jewish Hospital Nurses’ Residence.
