In the summer of 1946, he came to Barnes where he took up his present position. Among numerous honors he has received Dr. Dammin is a member of Sigma XI, holder of the Legion of Merit, and serves as member in many scientific organizations.

When asked about his likes and dislikes, he proved to be not hard to please, although he did express a like for golf (in which he breaks 90), travel books, and musical comedies. He prefers to work late at night and to sleep late in the morning. But what he likes best of all—when he has time—is to stay at home with his wife and little John and Susan Dammin, aged 1 ½ and 4 ½, respectively. However, with all his activities, it doesn't seem as though he would have a chance to do much of the latter.
