A FEW WORDS OF GREETING TO THE NEW HOUSE STAFF

We welcome you and wish to help you. The procedures here may be different than those you have been accustomed to—ours have been worked out over the years and approved by the chiefs of service. If you have any questions, please see one of the administrative staff if it relates to administration. If it relates to nursing, please see the superintendent of nurses, one of her assistant superintendents or at least one of the supervisors before coming to the conclusion that nothing will be done about your problems.

We also wish to point out that student nurses are similar to medical students, and you can help immeasurably if you understand that they are students in all stages of learning—many just beginning their clinical experience. If necessary, explain and demonstrate to them. It will help you and them. It will do more to help the morale of the nurses here than any other single contribution you can make, and will contribute to better medical care.

Concerning the administration, and this goes for all administrators, the door is always open. Remember that our business is to help, not hinder, you in doing your work and obtaining an educational experience and training.

With all best wishes,

F.R. Bradley, M.D.
Director
CLASS OF '28 REUNION

Members of the Washington University Medical School Class of 1928 celebrated their "Silver Reunion" for three days beginning Wednesday, June 3. Of the original 74 graduates, 66 survive and 36 of them attended the festivities. The Barnes Hospital Medical Center was host to this group on Thursday, June 4. Tours of the various hospitals and the clinics were conducted, followed by the first luncheon ever to be served in the Wohl Hospital Dining Room.

RAE SAMUELS LINDEN SUITE COMPLETED

Because of the generosity of MR. and MRS. J. D. SAMUELS, a suite of rooms on 7200 has been completely redecorated and refurnished. This has been made possible by a fund established by Mr. and Mrs. Samuels in memory of their daughter, RAE SAMUELS LINDEN.

New tile flooring, beautiful draperies, furniture, air conditioning unit, and a television console make this suite one of the most attractive of the patient accommodations in our medical center. On the door is a plaque which reads, "This room was furnished in loving memory of Rae Samuels Linden."

The trustees and administration of Barnes are deeply grateful to Mr. and Mrs. Samuels for their generosity and interest in our hospital.

Pictured below at the dedication of the Rae Samuels Linden Suite are MR. ALBERT M. KELLER, Chairman of the Board of Trustees, and MR. and MRS. J. D. SAMUELS.
THE NEW MEMBERS OF OUR HOUSE STAFF

WARD MEDICINE

Green, David L., Jr.  Asst. Resident
McKinney, Edward J.  Asst. Resident
Teschan, Paul E.  Asst. Resident
Walsh, Thomas J., Jr.  Asst. Resident

Ballard, Fred B., Jr.  Intern
Choppin, Purnell W.  Intern
Erickson, LaVerne S.  Intern
Eubank, William Y.  Intern
Levy, Robert I.  Intern
Michael, James D.  Intern
Miller, Jule, Jr.  Intern
Parker, Charles  Intern
Wenneker, Alvin S.  Intern

PRIVATE MEDICINE

Bunch, Rob B.  Asst. Resident
Davidson, John D.  Asst. Resident
Ley, Dorothy C. H.  Asst. Resident
Norbury, Frank B.  Asst. Resident
Shmerling, Abram C.  Asst. Resident
Delvaux, Thomas Childs, Jr.  Intern
Fuller, Theodore J.  Intern
Medearis, Donald N., Jr.  Intern
Reed, Alexander C.  Intern
Richman, Harold G.  Intern
Roof, A. Carolyn  Intern
Smith, Carl W., Jr.  Intern
Smith, W. Kyle, Jr.  Intern
van Ravenswaay, Theodore  Intern
Wright, Thomas Leo  Intern

Coker, Jimmie Allen  Asst. Resident

PATHOLOGY

Greco, Joseph  Asst. Resident
Osborne, Albert  Asst. Resident
Dierks, Adalbert G.  Intern
Simek, Erna R.  Intern
Simek, Franklin  Intern

HOSPITAL ADMINISTRATION

NURSE RECRUITMENT PROGRAM

by CHAPLAIN BOWLES

The variety of talent that is needed in the process of hospital care is likely greater than can be found in any other service to humanity. Certainly the nurse is one who is a necessary member of this healing team. We do not have an over supply of graduate nurses in our country, nor do we have as many young women in training for the nursing profession as we should have to meet the ever increasing demand. It is said that we are in need of eighty-eight thousand new students for the nursing profession this year. It has been pointed out that we have nine hundred countries without even one graduate nurse in service. It goes without saying more that nurse recruitment is a matter of great concern in any medical center that is related to a school of nursing.

(Continued on page 8)
NURSE RECRUITMENT PROGRAM

(Continued from page 7)

Our Washington University School of Nursing carries on a program of recruitment throughout the year. Faculty members and students make trips to high schools and to organizational meetings to present this need to young people and leaders of young people in local communities. This is a very helpful means of developing an interest in this worthy profession, and it gives opportunity to those who go to such meetings to give information and answer questions of those who are concerned.

During the summer months we find another fruitful field in which to work with youth in this connection. Many youth camps and assemblies are promoted and conducted by the churches of the state, and in nearly all of these a special time is designated for an emphasis upon Christian Vocations. Nursing is given an important place in the program. The chaplain of our medical center, in cooperation with church leaders of these enterprises, has been given the privilege of supplying leadership for the nursing emphasis. In each enterprise, student nurses are given a place in the program. They appear in the uniform of our school, speak to the assembled group and conduct informal question periods with those who are interested. The process results in students for our school and, in addition, there are those who find it convenient or necessary to attend other schools of nursing. The total emphasis is on the need for nurses - not simply on enrollment for our school.

Last week the chaplain and one student nurse spent a day at a camp in which there was an enrollment of 411 young people, along with many public school teachers and other leaders who may help in months to come. Other enterprises scheduled for the summer will have a total enrollment of near two thousand.
MISS ANN VOSE is our choice for the staff member of the month. She is the Nursing Supervisor of Washington University Clinics. Along with her administrative duties you can also find her making rounds - checking equipment and the nursing personnel - to see that everything is running smoothly.

Miss Vose was born in Salt Lake City, Utah, but a short while later her family moved to Leadville, Colorado, a little mining town, where her father worked as an engineer. This is where she spent the greater part of her childhood. Again her parents moved - this time to Alton, Illinois - just in time for young Ann to attend the local high school where she spent all four years. After graduation she enrolled at Washington University for two years, then entered the University's School of Nursing where she received her B. S. in Nursing in 1950. After graduation, she worked for a year at Passavant Memorial Hospital in Chicago, was camp nurse that summer at a camp in southern Wisconsin, and then returned to the Clinics in September of 1951 as a general duty nurse.

(Continued on page 11)

BARNES PERSONALITY

Back in 1936 the Laundry Department needed an extra person to work just one day and REBECCA MOSBY was employed. She states that she had never worked anywhere except in private homes and knew very little about working in a laundry, but apparently she made a good impression for she is still holding forth there today as a tumbler operator.

Rebecca was born in a small town in Mississippi where she lived with her parents and one sister until 1917, when she moved to St. Louis.

Fishing is Rebecca's favorite sport and she goes as often as possible, but she has little time for outside activities since her work and home duties keep her quite busy. She still doesn't like television but is an avid radio fan. If any of you want to make her happy, just ask her out to eat fried chicken sometime.

A secretary that is always late for work was quite upset recently when her cuckoo clock went out of order and cuckooed twenty-seven times. Jumping out of bed she cried, 'My Gosh, this is the latest I've ever been.'
CHAPLAIN'S CORNER

by

GEORGE BOWLES

In the upper corner of the second page of our HOSPITAL RECORD, since June, 1951, we have noted the name of the editor to be MARTHA SCHWERMIN. For some two years before that the editor was Martha Williams, but the same person. After some acquaintance with one of our fine hospital administration students, two very fine people decided to make the change in the name of the editor. The student husband has now become a hospital administrator in the east, so we have lost our editor.

Life has a way of moving along even though important posts become vacant. We appreciate the fact that we have human contacts that are important enough to be missed when they are broken. Martha, as so many of us knew her, was a friend to all with whom she came in contact. She likely knew as many employees as any other person here, unless her knowledge was equalled by two other members of the very efficient team in the Personnel Office. Our best wishes go with Frank and Martha Schwermin.

Our new editor, beginning this month, is JANE PRESSON. We know she is one who can accept this and other responsibilities that have been left for her. Mrs. Martha Spencer, the Director of Personnel, has a way of selecting efficient members of her staff. Jane has also made many friends who will stand by to give encouragement. In fact, we need to make friends with the editor, for we never know what might appear on these pages.

The writer of this column has often used this space to say something about human relationships. It seems appropriate to use the space this month to say something in a way of appreciation to those with whom we have been and are related. Then there is an additional word of appreciation that should go to our hospital for providing the monthly publication through which we learn about other fellow workers and happenings of common interest.

OATH OF THE FACULTY OF MEDICINE AT MONTPELLIER (1289)

"In the presence of the masters of this school, and of my dear fellow-students, and before the image of Hippocrates, I promise and I swear, in the name of the supreme Being, to be faithful to the laws of man and of honour in the exercise of medicine. I will give my services without fee to the needy, and I will never exact a higher fee than my work deserves. When I am admitted inside houses, my eyes shall not see what goes on there, and my tongue shall be silent about the secrets which shall be entrusted to me, and I will not abuse my position to corrupt morals or to encourage crime. Respectful and grateful towards my masters, I will give back to their children the instruction that I have received from their fathers. May men grant me their esteem if I am faithful to my promises. May I be covered with shame and despised by my fellows if I fall short."
No doubt the young lady in the picture above is seen by more people per day than any other person in the entire hospital. She started her career at Barnes in 1944, and today you will find her answering her three ever-ringing telephones and giving the same informative answers as she has done for the last nine years. Another hint—her nickname is something that we all like to eat.

KNOW YOUR STAFF
(Continued from page 9)

Miss Vose has a great number of diversified interests which include politics, swimming, bowling, and cooking (especially pies and cakes). Heading the list of her many likes is camping which, of course, includes fishing, hiking, and canoe trips. As a matter of fact, she informs us that she has been camping as early as April of this year. Along with this rigid schedule, she also finds time to be co-leader of a Senior Girl Scout Troop, go to aquatic school, and to play an occasional game of bridge.

A woman when launching her first ship was a bit nervous. She turned to the shipyard manager, standing beside her, and asked: “How hard do I have to hit it to knock it into the water?”

5 YEARS AGO IN THE RECORD
June, 1948

June was quite an important month around Barnes Hospital back in 1948. MR. PANKHURST had just been appointed as an Assistant Administrator and was finishing the necessary requirements for his Master's degree in the Course of Hospital Administration. The department heads saw films on fire prevention which were provided by the National Safety Council. This was also the month that the famous “Freedom Train” made its stop in St. Louis. GENERAL JONATHAN WAINWRIGHT visited Barnes to consult with DR. COSTON. IBM, Credit, and the Accounting Departments were still talking about the wonderful steak fry that was given in Forest Park the latter part of May. There was also quite a bit of talk about the spectacular one-handed catch that MR. ANDERSON made in the softball game that followed the steak fry. MISS GRACE HUEY had just been elected treasurer of the Hospital Council of St. Louis. DR. CLARENCE CRAWFORD, professor of surgery at the University of Stockholm, was at Barnes for a visit with DR. EVARTS A. GRAHAM.

CLASS OF ’28 REUNION
(Continued from page 2)

Among the distinguished members of the class who were present are: Dr. F. B. Bradley, Director of Barnes Hospital; Dr. A. N. Arneson, Maternity Hospital Staff; Dr. Sam Soule, General Chairman of the Reunion and Maternity Hospital Staff; Brig. Gen. Wilford Hall, Air Surgeon at Andrews Air Base, Washington, D. C.; Brig. Gen. Paul Robinson, Director of Fitzsimmons General Hospital, Denver, Colorado; Brig. Gen. Earl Maxwell, attached to the office of the Surgeon General, Washington, D. C.; and Col. John Patton of Fitzsimmons.
Congratulations to DR. and MRS. MEARL STANTON on the birth of a 6 lb. 1 oz. girl on June 11. The young lady was named HOPE. Mrs. Stanton is the former Main Kitchen Dietitian. — PAT THOMAS, Clinical Mic. technician, announced her engagement to DR. JAMES ALLAIN on June 2. — Our deepest sympathy goes to MARGARET BRISSEY, Cafeteria Counterwoman, upon the death of her husband on June 10 and also to HELEN LYONS, of the Clinic Lunch Counter, whose husband died on April 28. — Congratulations to RUBY CONLEY, Dietary Maid, for ranking third in her senior class and winning an Honor Society award at Kinloch High School. — ELNORA TUCKER, Lab. Technician, sailed for Europe on May 26. She was in London for the Coronation and will visit several other countries before returning home. — AUDREY CLEVER, Clinic Dietitian, left June 13 to spend her vacation visiting in Arkansas and California. — CATHERINE JONES, of Social Service, is spending a two week vacation in Mexico. — We are hoping that BETTY GROSS, Clinical Clerk, will be back with us soon after her recent stay in the hospital. — DOROTHY WOODS, Barnes Admitting Office, recently returned from a vacation in California. — DR. FRANK BRADLEY was in Knoxville, Tennessee, on May 25 where he visited JAMES ARNHART, a former Hospital Administration student, at East Tennessee Baptist Hospital. From there he went to Charlottesville, Virginia, to visit DR. TOM HUNTER, formerly of Washington University Medical School, and ALBERT OSBORN, a former Hospital Administration student. — BERNICE KOSTER and MARIWAYNE PAGE attended the National Convention of Medical Technologists in Louisville, Kentucky from June 14-18. — CLARICE ROOT, MARY LEWIS, MARY BRAZELL, of Social Service, attended the National Convention of Social Work in Cleveland, the first week in June. — MARY LANGDON, Head Nurse in Maternity, is vacationing in Washington. — We extend our sympathy to CHAPLAIN BOWLES upon the death of his father-in-law. — Our best wishes go to FRANK and MARTIE SCHWERMIN who have moved to Englewood, New Jersey. Frank will be Assistant Administrator at The Community Hospital of the Northern Valley. — A surprise bridal shower was given for MARGIE CHARDINE, by the Accounts Payable Department, on June 10. She left our staff to be married on June 20. — FRANCES NELSON GILYARD, Maternity Nurse Assistant, became the proud mother of a bouncing baby girl on June 19.

JOE: "I say, old man, why on earth are you washing your spoon in your finger bowl?"

JIM: "Do you think I am going to get egg all over my pocket?"
