Roy Curtiss III (left), chairman of the Department of Biology, and George W. Freiberg.

Curtiss named to first Freiberg chair

A gift from George W. Freiberg, PhD, a retired Anheuser-Busch executive, has endowed the George William and Irene Koechig Freiberg Professorship in Biology at WU.

Roy Curtiss III, chairman of the Department of Biology, has been selected to occupy the chair, according to Ralph E. Morrow, dean of the Faculty of Arts and Sciences and provost-designate.

Curtiss, who joined the faculty on July 1, 1983, was previously at the University of Alabama-Birmingham, where he was acting chairman of the Department of Microbiology.

Chancellor William H. Danforth said the Freiberg gift represents a substantial contribution to the Alliance for Washington University, a \$300 million program to provide support for the institution. "We are extremely grateful for Dr. Freiberg's generous contribution, and we have selected one of our most outstanding scientists and scientific leaders to occupy the chair," he said.

When Freiberg retired from Anheuser-Busch, he was coordinator of research and patent information. He is responsible for four patents

which include a process for producing acetone and butyl alcohol.

Freiberg, a native of Minnesota, received his PhD in plant physiology from WU in 1917, where he later also received a certificate in accounting. Freiberg studied law at St. Louis University and graduated from the Benton College of Law in 1933.

The late Mrs. Freiberg, who died eight years ago, received two degrees from WU. She was an instructor for a number of years in the chemistry department of WU's School of Nursing.

Curtiss, whose main area of research is microbial and molecular genetics of bacterial pathogens, is a native of New York City. He received his undergraduate degree from Cornell University in 1956 and his PhD from the University of Chicago in 1962.

He has received a number of national honors and awards, which include: Fellow, American Academy of Microbiology; member, Sigma Xi (national scientific honorary); honorary member, Association Chilena de Microbiologia; and U.S. Public Health Service Predoctoral Fellow.

American medicine's future forecast by Phi Beta Kappa/Sigma Xi lecturer

Rosemary Anne Stevens, chairman of the history and sociology of science department at the University of Pennsylvania, will deliver the ninth annual Phi Beta Kappa/Sigma Xi Lecture at 11 a.m. Wednesday, April 18, in Graham Chapel.

Stevens will speak on "American Medicine: 1984-2001" at the lecture held to honor the newly elected members of Phi Beta Kappa and Sigma Xi. The lecture, which is free and open to the public, is sponsored by the two honor societies and the Assembly Series.

A member of Sigma Xi herself, Stevens has been with the University

of Pennsylvania since 1979 and chairman of her department since 1980.

Her books include *American Medicine and the Public Interest*; *Foreign Trained Physicians and American Medicine*; *Welfare Medicine in America*; and *Alien-Doctors: Foreign Medical Graduates in American Hospitals*.

In addition to Sigma Xi, she also is a member of the National Board of Medical Examiners, the Institute of Medicine, the National Academy of Science, the History of Science Society and the American Association for History of Medicine.

Engineering program builds bridges between desktop jobs and management

WU engineering graduates have relatively little trouble finding their first job. After several years with a company, however, many engineers in technical positions are attracted to management. A WU master's degree program builds a bridge between desktop engineering jobs and the increasingly popular management field.

Part of the Department of Civil Engineering since 1981, the Construction Management Program leads to a professional — not technical — degree. "We're not trying to create traditional engineers," says Phillip Gould, Harold D. Jolley Professor of Civil Engineering, who, with affiliate professor Arthur Monsey, initiated the program.

Many of the students already work in full-time engineering or construction positions. The program was specifically designed to work around the business day; 7:30 a.m. and 5:30 p.m. courses allow professionals to acquire a master's degree as part-time students. About one-third of the curriculum consists of business courses.

The balance of technical and business training is deliberate. "We asked ourselves: Why do so many engineering students choose business as a graduate curriculum, rather than more engineering? They find business more relevant to their careers," says Gould. "With strictly technical training, there's a potential cap on their ability to grow."

After studying similar programs at Stanford, MIT and other universities, Gould and Monsey combined courses in design, planning, finance and management to create the WU curriculum.

Both the program's founders emphasize practical experience as an asset for both students and teachers. A summer internship with a local construction firm is mandatory for those not already employed. Most teachers in the program simultaneously hold jobs in the industry. "They're not just teaching construction," reports Monsey. "They're *doing* it."

Graduate students in construc-

tion management span a variety of backgrounds. A significant number are foreign students, sponsored by their governments to learn new technologies abroad. Of the established professionals studying part-time, some seek a management degree on their own. Others are sent from the "owner's side" — corporations that need a trained management pool to handle new construction internally.

Some undergraduates aim directly for a career that combines their talents in working with both people and paperwork. Gene Anderson, a senior in the Three/Two Program, hopes to go on to the Construction Management Program after he graduates.

"I don't want to sit in an office designing girders," he emphasizes. "A construction management professional can deal with engineers, owners, architects and bankers. It's a spectrum, not a specialization."

"Spectrum" is the exact word Monsey uses to describe the range of jobs construction management students can take. In the three years since the program, WU graduates

Phillip Gould

An Easter egg hunt for the children of WU's international faculty and students will be held on Saturday, April 21, from 1-3 p.m. at Stix International House, 6470 Forsyth Blvd. Sponsored by the Women's Society of Washington University and the International Office, the hunt will include prizes, refreshments and a puppet show. Reservations must be made by April 20. Call Diane Hasty at 889-5910 or 889-5991.

Truzzi to discuss science of anomalies

Marcello Truzzi, professor and head of the Department of Sociology at Eastern Michigan University and director of the Center for Scientific Anomalies Research, will speak on "The Emerging Science of Anomalies" at 2 p.m. Friday, April 13, in 117 Eads Hall.

Truzzi's lecture, which is free and open to the public, is sponsored by the McDonnell Laboratory for Psychological Research.

A former co-chairman of the Committee for the Scientific Investigation of Claims of the Paranormal, Truzzi has completed sociological re-

search on the ethnography of occult organizations and the reception and rejection of deviant research efforts in science.

Truzzi has written more than a dozen books and articles about psychology, folklore, anthropology and the history of science. He writes a regular column on the history of mentalism for the newsletter of the Psychic Entertainers Association, and is editor of the Center for Scientific Anomalies Research's journal, the *Zetetic Scholar*, which brings together both advocates and skeptics of alleged anomalous phenomena.

ly to meet the needs of executives at the middle to top corporate level, is held for seven weekends during the fall semester. The sessions are organized to provide coverage of management principles, decision-making tools, and the various functional areas of business.

Kirk heads management study program

Mary V. Kirk has been appointed director of WU's Management Study Program by Robert L. Virgil, dean of the School of Business and Public Administration.

The Management Study Program is a non-degree offering with a 24-year history of serving as an integral part of the management development efforts of many companies in the St. Louis area.

Kirk assumed responsibility for the program earlier this semester. She will continue as administrative assistant to C. William Emory, associate dean and director of the Executive MBA Program.

The program, tailored specifical-

Midwest out-patient cancer facility opened

The first out-patient facility in the Midwest to offer comprehensive care for patients with cancer or blood-related diseases was officially dedicated on Friday, April 6. The Washington University/Barnard Cancer Center is located on the third floor of Barnard and Wohl hospitals.

The dedication lecture, titled "Bone Marrow Transplantation for Malignant Disease," was delivered by E. Donnell Thomas, head of the Division of Oncology at WU's School of Medicine and director of Medical Oncology at the Fred Hutchinson Cancer Research Center in Seattle, Wash.

All physicians associated with the Barnard Cancer Center are specialists in hematology or oncology. The staff includes medical doctors, surgeons, radiation therapists and nurses trained in treating cancer patients, as well as clinical research physicians studying new treatments for advanced or untreatable forms of the disease. Because the staff is multidisciplinary, patients can benefit from several professional opinions in a single visit, and from the center staff's interaction with referring physicians.

Women's basketball team plays best season in five years

The women's basketball team played their best season in five years with an 11-8 record. The team shattered 35 individual and club records, and four of the top scorers in double figures will return to play next season.

The 11-8 record for the season was the best percentage and the highest number of victories since the sport was started in 1979, according to Coach Gaye Kinnett. Both of those marks were among the 35 rewritten in the school's record book.

The leading scorers were Jacquie Welkener, 20.1; Deborah Braun, 15.6; Laura Vrlenich, 10.5; and Anita Holtz, 10.4. Welkener's average very possibly will be among the top 25 in the nation when the final NCCA Division III statistics are released.

The team's two longest winning streaks were of three- and four-game durations, and they never lost more than two in a row. Other season team records broken include: highest score average, 71.6 for 19 games; most field goals made, 562; highest field goal percentage, .423; most free throws made, 237; highest free throw percentage, .627; most rebounds, 754; highest rebounding average, 39.6; most assists, 221; most steals, 247; and most points, 1,361.

Among the single game team records shattered were: most points in a game, 102 (against MacMurray College); most field goals made in a game, 42 (against MacMurray and Fontbonne colleges); most free throws made, 24 (against McKendree College); and most steals, 23 (against Lindenwood and MacMurray colleges).

Welkener and Braun both surpassed the single season scoring record of 274 which Vrlenich posted in 1982-83. Welkener had 381 this past season and Braun netted 297.

Special award winners on the team were: Braun as Most Valuable Player; Cathy Stier as Most Improved Player; and Miriam Bleaden as Most Dedicated Player.

The Lady Bears shattered 35 individual and club records this season. Above is Laura Vrlenich (#53), one of the team's leading scorers.

Lung disease topic of Flance lecture

David Vincent Bates, professor of medicine and physiology at the University of British Columbia School of Medicine in Vancouver, Canada, will deliver the Eighth Annual I. Jerome Flance Lecture at 9:30 a.m. Thursday, April 12, in Clopton Aud., Wohl Clinic Building, 4950 Audubon.

Bates' lecture, which is free and

open to the public, is titled "Complex Problems in Occupational Lung Disease." The lecture is sponsored by the Department of Internal Medicine at WU's School of Medicine.

Bates has studied occupational lung disease and the effects of various noxious inhalants. He co-authored one of the most successful textbooks in the field of lung diseases. Bates will participate in a series of teaching conferences at the School of Medicine, which are open to the medical public.

Engineers—

continued from p. 1

have gone to work in Asia, the Middle East, and in all parts of the United States. "Construction management people are called for at sites from apartment complexes to nuclear power plants," says Monsey. "Graduates of Washington University are equipped to go to any of them."

NOTABLES

Felton J. Earls, Blanche F. Ittleson Professor and director of the Division of Child Psychology, and **Lee N. Robins**, professor of sociology in psychiatry, both at the School of Medicine, have received a three-year, \$800,000 grant from the Robert Wood Johnson Foundation. The grant was awarded to evaluate a program started three years ago by the foundation to improve health care for young people and training in the new discipline of adolescent medicine.

Annelise Mertz, artistic director of the St. Louis Repertory Dancers and WU professor of dance, and **Gale Ormiston**, WU guest artist, were interviewed Monday, April 2, on KPLR-TV's "St. Louis Skyline." The program aired a preview of "The Facade Suite," performed by the **St. Louis Repertory Dancers**, company-in-residence at WU, which is the centerpiece of the company's spring concert April 13-15 in Edison.

Stamos Metzidakis, assistant professor of French, will present a paper, titled "Two Readings of the World — Two Worlds of Reading," May 10-13 at the International Bilingual Symposium on Post-Structuralism in Ot-

tawa, Canada. His paper involves a theory of repetition as it relates to the acts of reading, and especially interpreting literature.

Howard Nemerov, Edward Mallinckrodt Distinguished Professor of English, has written a new book of poems recently published by the University of Chicago Press. Titled "Inside the Onion," the volume is Nemerov's twelfth book of poetry.

Susan M. Schepker was appointed director of admissions of the School of Law beginning March 22. She joined the law school staff in 1982 as director of special projects. **Georgia Starr**, former admissions coordinator for the law school, was named administrative assistant to the provost.

Robert C. Williams, dean of University College and professor of history, delivered the annual Phi Beta Kappa Lecture at Depauw University on March 9 and at the University of Texas, Austin, on April 3. The topic was "Science, Secrecy, and Security in the Nuclear Age." Williams also has been named to the 1984-1985 Program Committee of the American Historical Association.

Men's basketball coach happy with team's progress

Coach Mark Edwards is happy with the progress his 1983-84 Basketball Bears made this past season. The team's 8-18 record is misleading, however, as to the success of the team, because almost two-thirds of the losses, 11 to be exact, were by nine points or less.

The Bears lost twice each by two, four and seven points; dropped three games by five points; and one each by three and nine. The pattern of close defeats backs-up Edwards' observation that "we found ourselves in the position to win frequently in the last two minutes of play. Now we have to learn to win those games."

This completed the third year of the revitalization of the sport on the Hilltop Campus, following a 10-year

hiatus. Each year has seen an improvement. The Bears won three games the first season, six the second and eight this past campaign.

Only three players are still on the team from the first year. They are Tom Weeks, John Steffen and Joe Mayberger. Weeks has a 6.3 average for that span, Steffen hit at a 5.4 clip, and Mayberger at 4.1.

Mark Sparrow, Joe Polizzi, Rich Becker and Mike Pfluger each has played two years, with Sparrow the leading scorer with 624 points for a 12.2 average.

The team set an all-time field goal percentage figure this past season with .454. The old record was 44.6 in the 1964-65 year.

Team highlights this past season were: most points in one game, 81, and most field goals in one game, 35 (both against Concordia Seminary); most free throws, 33 (against Illinois College); highest field goal percentage, 61 (against Millikin); highest free throw percentage, 87.5 (against Case-Western); most rebounds, 40 (against Wabash); most assists, 22 (against Rose-Hulman); most blocks, 7 (against Kenyon), and most steals, 16 (against Principia).

Sparrow was the only player to finish in double figures for the past season, hitting at 12.3. The other regulars were Scott Allen, 8.4; Weeks, 8.3; Anders Onarheim, 7.0; Brent Rueter, 6.4; Steffen, 5.4; and Mayberger, 4.1.

Individual game highlights include: most points, 25, and most field goals, 12 (both by Sparrow, in the contest against Kenyon); most free throws, 11 (by Rueter, against Illinois College); most rebounds, 13 (by Onarheim, against Southwestern and Case Western); most assists (9 by Allen, against Westminster); and most steals, (4 by Weeks, against Southwestern and Illinois College).

The Wind Ensemble concert will feature works by Stravinsky, Persichetti, and Orff.

Wind Ensemble performs final concert

The WU Wind Ensemble will present its final concert of the season at 6:30 p.m. Sunday, April 15, in the St. Louis Art Museum's auditorium in Forest Park.

The ensemble will perform under the direction of Dan Presgrave, director of bands in the Department of Music.

The concert will feature guest pianist Seth A. Carlin, WU associate professor of music, in a performance of Igor Stravinsky's "Concerto for Piano and Wind Instruments."

Other works to be performed are by composers Dmitri Kabalevsky,

teacher of composition at the Moscow Conservatory; Vincent Persichetti, faculty member at the Juilliard School of Music; and Carl Orff (1895-1982), German music educator who explored the relationship between music and movement. Orff's "Carmina Burana," a monumental work inspired by 12th- and 13th-century songs and poems, will conclude the concert.

Tickets are \$2 for general admission at the door; \$1 for students and senior citizens. For more information, call 889-5581.

Soltan to deliver Ranft lecture

Jerzy Soltan, professor emeritus at the Harvard Graduate School of Design, will present a lecture titled "Contemporary . . . Modernistic . . . Postmodern?" at 8 p.m. Monday, April 16, in Steinberg Hall.

The event, co-sponsored by WU's School of Architecture and the St. Louis Chapter of the American Institute of Architects, is the Ralph P. Ranft Memorial Lecture. The talk is free and open to the public.

Soltan first traveled to Harvard

in 1959 as a visiting critic in architecture. In 1961 he was appointed professor of architecture, and from 1967-74 he was chairman of the department. Prior to serving on the Harvard faculty, Soltan was dean of the architectural program at the Academy of Fine Arts in Warsaw, Poland.

Soltan, who was born in Latvia, studied at the Polytechnic Institute of Warsaw. After serving in the Polish army during WWII, Soltan traveled to France where he worked for four years in Le Corbusier's studio. For information, call 889-6200.

Career conference for dentists slated

A Midwest conference titled "Career Options for the Dental Graduate" will be held on Saturday, April 14, at the Carl V. Moore Auditorium in the WU Medical School Building, 4580 Scott Ave. The conference is hosted by the WU School of Dental Medicine.

Among the 11 nationally recognized authorities slated to speak at the conference are Enid A. Neidle, president-elect of the American Association of Dental Schools and John L. Bomba, president-elect of the American Dental Association.

The conference is free and open to members of the dental community. Call Harriet Steuernagel 454-0347 for details.

Thurtene Carnival will be held April 13 & 14 on the corner of Skinker and Millbrook blvds. Special parking arrangements for WU employees have been made by the WU Department of Transportation. For details, call 889-5601.

CALENDAR

April 12-21

Thursday, April 12

9:30 p.m. **The Gargoyle Committee** presents the "Good Question" in concert at the Gargoyle, Mallinckrodt Center. Free.

Friday, April 13

6-11 p.m. **Thurteene Carnival**. (Also Sat., April 14, noon to 11 p.m.) In case of rain, the carnival will resume on Sunday, April 15. Campus parking lot on corner of Millbrook and Skinker blvds.

6 p.m. **Inter-Varsity Christian Fellowship Spring Conference**, "The Holy Spirit," Rev. Carl F. Ellis Jr., pastor, New City Fellowship, Chattanooga, Tenn. (Also Sat., April 14, and Sun., April 15, until noon.) Lake of the Ozarks State Park. Call 862-2288.

Saturday, April 14

9 a.m. **Hillel Foundation Shabbat Services**. Hillel House, 6300 Forsyth.

Sunday, April 15

6 p.m. **Interdenominational Vesper Service** with Paul MacVittie, dir., Protestant Center. Graham Chapel.

Monday, April 16

1 p.m. **Personal Computing Education Center Short Course**, "Doing Word Processing with DCF 111." (Also April 17, 18, 19 and 20, same time.) Free to WU community. For registration and location, call 889-5813.

4 p.m. **Personal Computing Education Center Short Course**, "Doing Statistics with SAS Graph." (Also April 17, 18, 19 and 20, same time.) Free to WU community. For registration and location, call 889-5813.

Tuesday, April 17

7 p.m. **Confessional/Communal Penance Service** with Msgr. Gerald N. Glynn, presiding. Newman Chapel, 6352 Forsyth Blvd.

Thursday, April 19

9 a.m. **Personal Computing Education Center Short Course**, "Introduction to Computing Facilities." Free to WU community. For registration and location, call 889-5813.

4 p.m. **Mass of the Lord's Supper for Holy Thursday**. Newman Chapel, 6352 Forsyth.

Friday, April 20

2:30 p.m. **Stations of the Cross and Good Friday Liturgy**. Newman Chapel, 6352 Forsyth.

7:30 p.m. **Inter-Varsity Christian Fellowship Easter Vespers**, led by a group of student missionaries serving in the Far East. Green Stuffs Line, Wohl Center.

Saturday, April 21

8 p.m. **Liturgy of the Easter Vigil**. Newman Chapel, 6352 Forsyth.

1-3 p.m. **Easter Egg Hunt** for children of WU's international students and faculty. Includes prizes, refreshments and puppet show. Stix International House, 6470 Forsyth Blvd. Reservation deadline is April 20. Call Diane Hasty at 889-5910 or 889-5991. Sponsored by the Women's Society of Wash. Univ. and the International Office.

LECTURES

Thursday, April 12

9:30 a.m. **Eighth Annual I. Jerome Flance Lecture**, "Complex Problems in Occupational Lung Disease," David V. Bates, prof. of med. and physiology, U. of British Columbia, Canada. Clopton Aud., Wohl Clinic Bldg., 4950 Audubon.

Noon. **Pfizer Clinical Pharmacology Lecture**, "New Roles for Kallikreins and Kinins," Harry S. Margolius, prof. of pharmacology and medicine, Medical U. of S. Carolina. Pharmacology Lib., South Bldg., 4577 McKinley.

Noon. **Non-Academic Personnel Advisory Committee's Brown Bag Luncheon Program**, "Recruitment Strategies and Ethics," Sheila Lewis, WU asst. dir. of admissions. Women's Bldg. Lounge.

1 p.m. **Child Abuse Symposium**, with Helen Swan, sexual abuse consultant, Region VII Child Abuse and Neglect Resource Center. (Swan's lecture is preceded at 12:30 p.m. with a reception and followed by a second lecture on sexual abuse and incest at 2 p.m., both in Hurst Lounge.) Sponsored by the Campus Y. For information, call 889-5010. Hurst Lounge, Duncker Hall.

1:10 p.m. **George Warren Brown School of Social Work Lecture Series**, "Epilepsy Update," Jane Hornby, education coordinator, Epilepsy Federation of Greater St. Louis. Brown Hall Lounge.

4 p.m. **Dept. of Philosophy Colloquium**, "Godel's Work on General Relativity and the Structure of Space Time," David Malament, assoc. prof. of philosophy, U. of Chicago. Hurst Lounge, Duncker Hall.

4 p.m. **Plant Biology Program Lecture**, "Cloning Virulence Genes from Pathovars of *Pseudomonas syringae*," Dallice Mills, Dept. of Botany and Plant Pathology, Oregon State U. 322 Rebstock.

4 p.m. **Career Connections Panel Discussion**, "Where Do I Go from Here? Choices and Directions for the Undecided," Ann Whitney Olin Women's Bldg. Lounge. Call 889-5930.

7 p.m. **Benjamin E. Youngdahl Lecture**, with Richard A. Cloward, prof. at the Columbia U. School of Social Work. Brown Hall Aud.

7 p.m. **Lewin Visiting Professorship Lecture**, "A Military Historian's View of World War II," Michael E. Howard, Regius Professor of Modern History at Oxford U. Graham Chapel.

7 p.m. **Child Abuse Symposium Information Session** on volunteering opportunities to prevent child abuse. Friedman Lounge, Wohl Center. For information, call the Campus Y at 889-5010.

8 p.m. **Dept. of History Lecture**, "Jose Lezama Lima and the Baroque Novel," Carlos Fuentes, WU Visiting Professor in Literature and History. Steinberg Aud.

Friday, April 13

12:30 p.m. **WU Woman's Club Mini-Luncheon**, "History and Current Projects of the Sculpture Conservation Laboratory of WU Technology Associates," Phoebe Dent Weil, arts conservator. Cost is \$2 a person. For reservations, call Ruth Drake, 721-4829, or Correen Motard, 645-2022. Ann Whitney Olin Women's Bldg. Lounge.

2 p.m. **McDonnell Lab. for Psychical Research Seminar Series**, "The Emerging Science of Anomalies," Marcello Truzzi, editor of *Zetetic Scholar*, Eastern Michigan U. 117 Eads

3 p.m. **Dept. of Music Lecture Series**, "Update on Ethnomusicology," Bruno Nettl, prof. of ethnomusicology, U. of Ill. Blewett B-8.

4 p.m. **Dept. of Chemistry Seminar**, "Models for Electron Transfer Reactions of Metal Complexes in Solution," Norman Sutin, Brookhaven National Lab. 311 McMillan Lab.

4 p.m. **Dept. of Biological Chemistry Seminar**, with Jonathan Cohen, WU prof. of neurobiology. Biological Chemistry Lib., 660 S. Euclid.

Saturday, April 14

9 a.m. **Neural Sciences Lecture Series**, "Axoplasmic Transport of Growth Associated Proteins," Mark Willard, WU Dept. of Anatomy and Neurobiology. 928 McDonnell Medical Sciences Bldg., 4565 McKinley.

Sunday, April 15

10:30 a.m. **Newman Chapel Lecture**, "The Passion Narrative in the Gospel of Mark," Rev. Benedict T. Viviano, prof. of the New Testament, Aquinas Inst. of Theology, St. Louis. Newman Chapel, 6352 Forsyth Blvd.

5 p.m. **New York Art Directors Club Exhibition Lecture**, "The Design of Herman Miller," Stephen Frykholm, creative director of Herman Miller Inc. Steinberg Aud. (Exhibition to run through April 22 in Bixby Hall Gallery.)

Monday, April 16

2:30 p.m. **Dept. of Mechanical Engineering Colloquium**, "Adiabatic Film Cooling Effectiveness from Isothermal Surface Heat — Transfer Measurements in Compressible Flow," P. M. Ligrani, visiting senior research fellow, Imperial College, London. 101 Lopata.

4 p.m. **Dept. of Biology Seminar**, "Assembly of Cellulose Microfibrils," Malcolm Brown, Dept. of Botany, U. of Texas, Austin. 322 Rebstock.

4 p.m. **Dept. of Psychology Colloquium**, "Thousand-Mile Outreach: Child Psychiatry in the Australian Outback," William Shumate, Judge Baker Guidance Center, Harvard Medical School. 102 Eads.

4:30 p.m. **Literature and History Lecture**, "Born Guilty: Original Sin in Post-Christian Literature," Rudolph Binion, prof. of history, Brandeis U. Cohen Lounge, Busch Hall.

8 p.m. **Ralph P. Ranft Memorial Lecture**, "Contemporary . . . Modernistic . . . Post Modern?" Jerzy Soltan, prof. emeritus at Harvard U. Steinberg Aud.

Tuesday, April 17

4 p.m. **Lewin Visiting Professorship Lecture**, "The Road to the Somme: The Making of the Great War, Part II," Michael E. Howard, Regius Professor of Modern History at Oxford U. Graham Chapel.

Wednesday, April 18

11 a.m. **Phi Beta Kappa/Sigma Xi Lecture**, "American Medicine: 1984-2001," Rosemary Stevens, chair., Dept. of History and Sociology of Science, U. of Penn. Graham Chapel.

4 p.m. **Dept. of Education Colloquium**, "Schools, Classrooms and Teachers: A British Perspective," Ivor Goodson and Stephen Ball, senior lecturers in education, U. of Sussex, England. 217 McMillan.

7:30 p.m. **Hillel Foundation Poetry Reading and Lecture** with Ada Aharoni, poet and dir., Israeli-Arab Women's Organization for Peaceful Coexistence. Hillel House, 6300 Forsyth Blvd.

8 p.m. **Dept. of English Poetry Reading** with Diane Ackerman reading her own poetry. Hurst Lounge, Duncker Hall.

8 p.m. **School of Architecture Charles Eames Lecture**, "Architecture and the Social Contract: Utopias of the Public Realm from Rousseau to the Revolution," Anthony Vidler, prof. of architecture, Princeton U. Steinberg Aud.

Thursday, April 19

1:10 p.m. **George Warren Brown School of Social Work Panel Discussion**, "Pre-Menstrual Syndrome," Ginny Shoemaker, dir., Reproductive Health Services, and Peggy Louck, program dir., Pre-Menstrual Syndrome Center. Brown Hall Lounge.

4 p.m. **Public Affairs Thursdays Lecture Series**, "The Workload of the Supreme Court: Crisis or a Case of Chicken Little?" H. W. Perry Jr., WU instructor in political science. 200 C & D 200 Eliot.

8 p.m. **Dept. of History Lecture**, "Cortazar and Goyisolo: Humor and Language," Carlos Fuentes, WU Visiting Professor in Literature and History. Steinberg Aud.

PERFORMANCES

Friday, April 13

8 p.m. **Edison Theatre** presents the St. Louis Repertory Dancers. (Also Sat., April 14, and Sun., April 15, same time, Edison.) General admission \$8; WU faculty, staff and area students, \$5; WU students, \$4. Call Edison Theatre box office at 889-6543.

Wednesday, April 18

8 p.m. **WU Asian Art Society** presents Lao Traditional Music and Dance Troupe at Edison Theatre. Commentary by Patricia Shehan, WU asst. prof. of music.

Thursday, April 19

7:30 p.m. **Performing Arts Area** presents a play "The Cauldron." (Also April 26, 7:30 p.m., April 20, 21, 27 and 28 at 7:30 and 9:30 p.m.) Drama Studio, Mallinckrodt Center. Admission is \$2. For more info., call 889-5858.
