

## Data Sharing Statement

Matei D, Filiaci V, Randall ME, et al. Adjuvant Chemotherapy plus Radiation for Locally Advanced Endometrial Cancer. N Engl J Med. DOI: 10.1056/NEJMoa1813181.

| Question  | Authors' Response  |
|---|--|
| Will the data collected for your study be made available to others? | Yes  |
| Would you like to offer context for your decision?                  | —  |
| Which data?   | Other (eg, partial data sets) — please describe  |
| Additional information about data                                   | All data elements of the individual participants that are required to reproduce results reported in this article (text, tables, figures, supplemental material) after de-identification. Data must comply with rules and regulations of the NCTN Data Archive. |
| How or where can the data be obtained?                              | National Institutes of Health, National Cancer Institute, NCTN/NCORP Data Archive  |
| When will data availability begin?                                  | Data and documents will be submitted to the NCTN/NCORP Data Archive within 6 months of publication   |
| When will data availability end?                                    | NA   |
| Will any supporting documents be available?                         | —  |
| Which supporting documents?   | Other  |
| Additional information about supporting documents                   | Protocol document, data dictionary   |
| How or where can supporting documents be obtained?                  | <a href="https://nctn-data-archive.nci.nih.gov/">https://nctn-data-archive.nci.nih.gov/</a>  |
| When will supporting documents availability begin?                  | Data and documents will be submitted to the NCTN/NCORP Data Archive within 6 months of publication   |
| When will supporting documents availability end?                    | NA   |
| To whom will data be available?                                     | Data will be made available to researchers with an approved Data Use Agreement.  |
| For what type of analysis or purpose?                               | From the NCTN/NCORP Data Archive website: Researchers who wish to analyze the data in secondary studies to enhance the public health benefit of the original work.   |

|                         |  |
|-------------------------|--|
| By what mechanism?      | Data requesters must sign a Data Use Agreement before being able to download data for a given data request.  |
| Any other restrictions? | Researchers must adhere to all terms of access in the Data Use Agreement. The Data Use Agreement is in effect for up to 3 years. An extension can be pursued or the data in all forms must be destroyed. |
| Additional information  | No   |
