

Data Sharing Statement

Skoulidis F, Li BT, Dy GK, et al. Sotorasib for Lung Cancers with *KRAS* p.G12C Mutation. *N Engl J Med*. DOI: 10.1056/NEJMoa2103695.

Question	Authors' Response
Will the data collected for your study be made available to others?	Yes
Would you like to offer context for your decision?	—
Which data?	Other (eg, partial data sets) — please describe
Additional information about data	“de-identified individual patient data for variables necessary to address the specific research question in an approved data-sharing request”
How or where can the data be obtained?	datasharing@amgen.com See request process details at http://www.amgen.com/datasharing
When will data availability begin?	“After publication and marketing authorization in US & Europe (or development discontinued)”
When will data availability end?	“There is no end date for eligibility to submit a data sharing request for these data”
Will any supporting documents be available?	—
Which supporting documents?	Informed Consent Form. Other
Additional information about supporting documents	“ related data dictionaries, clinical study report”.
How or where can supporting documents be obtained?	datasharing@amgen.com See request process details at http://www.amgen.com/datasharing
When will supporting documents availability begin?	“After publication and marketing authorization in US & Europe (or development discontinued)”
When will supporting documents availability end?	“There is no end date for eligibility to submit a data sharing request for these data”
To whom will data be available?	“qualified researchers whose proposed use of the data has been approved”
For what type of analysis or purpose?	“Planned analyses in an approved data sharing request”
By what mechanism?	“Upon approval of a data sharing request, information necessary to address the research question will be provided under the terms of a signed data sharing agreement.”
Any other restrictions?	—
Additional information	Further details are available at http://www.amgen.com/datasharing
