NEW MEMBER APPOINTED TO BOARD

Spencer T. Olin, Director of Olin Mathieson Chemical Corporation, prominent St. Louis citizen, leader in community affairs and contributor to hospitals and educational institutions, has been appointed a Trustee of Barnes Hospital, Methodist Bishop Eugene M. Frank announced. He succeeds Mr. E. E. Pershall, who retired from the Board in April, 1961.

Mr. Olin was born in Alton, Illinois, on August 20, 1900, son of Franklin W. and Mary (Moulton) Olin. He was graduated from Alton High School and also attended Cascadilla School in Ithaca, New York. He was graduated from Cornell University in 1921 with an M.E. degree. In June, 1958, he received a Doctor of Science degree (honorary) from Southern Illinois University, Carbondale.

(Continued on Page 17)
NEW PARKING ARRANGEMENTS FOR BARNES PERSONNEL

On or about August 1st., the University will institute a self—parking system on all of the parking lots located east of Euclid Avenue. This system consists of a metering box in which a quarter is placed which permits the occupant of the car to park for a 24 hour period. A ticket is ejected which the driver must show on the dashboard of his car or the steering wheel since a patrolman will be making regular rounds to determine if illegal parking is occurring. This system will be under the supervision of Wayco Garages entirely. We would like to repeat the cost will be 25¢ a day. We understand that monthly stickers for these lots may be purchased from the book store in the Medical School.

After the system goes into effect, any or all stickers which have been issued by the office of Harry E. Panhorst will be invalid.

The two lots west of Euclid Avenue, the Kingshighway Lot, owned by Barnes and Children's Hospitals, and the Courtyard Lot, owned by Barnes Hospital, will be maintained by Barnes and Children's Hospitals guards and will be used to park the members of the medical staff only who fall into the part—time category. This means that Barnes and Children's Hospital will not be able to park our employees working daytime on those lots.

An endeavor will be made to park all hospital personnel working the permanent 3 to 11 p.m. and 11 p.m. to 7 a.m. shifts on these lots if medical staff parking permits us to do so. This is to be carried out on an experimental basis to see if enough room is available. All requests for parking evening and night personnel will be handled by the Personnel Department.

All part—time medical staff members will be issued new stickers, by Dr. Bradley's Office, to replace previous stickers.

DEATH TAKES TWO FORMER BARNES' EMPLOYEES

Condolences of Barnes' personnel go to the relatives of two former employees who passed away recently.

Mrs. Bertha Herbert, 50, Cafeteria Counter Woman since 1958, died June 4 at DePaul Hospital, St. Louis. She had been active in Woman's Clubs and P.T.A. activities in the area for many years. One son, Harry, Jr., is now employed in Barnes Hospital Dispatch Department.

Mrs. Georgia Crockett, 37, Nursing Floor Technician at Barnes, died at St. Mary's Infirmary, St. Louis, on July 9. Death was due to a heart condition. Georgia had been employed in various Barnes jobs since 1950, most recently as Floor Technician.

Sympathy from the personnel of Barnes' group is extended to the relatives of both employees.
CHAPLAIN DANIEL SIMUNDSON
JOINS STAFF AS ASSOCIATE

On June 7, Chaplain Simundson assumed his duties as the associate of this department in the Barnes Hospital Medical Center. He will work through the office of Chaplain George Bowles, who has held the position as head of this department since February 15, 1950.

The new addition to the staff is an ordained minister of The United Lutheran Church in America. His church appointment comes through the Chief of Chaplains of the Social Service Division of the Illinois Synod. The full support of this service is provided by the Board of Social Missions of the denomination. The hospital appointment is made by the board of trustees.

Chaplain Simundson is a native of Seattle. His A.B. degree was received from Stanford University in Palo Alto, California. The three years for his B.D. degree were spent at the Chicago Lutheran Seminary. Following his graduate degree, in 1959, he received his clinical training at Elgin State Hospital, Elgin, Illinois. He has done hospital chaplaincy work in Pittsburg, Pennsylvania.

About hospital work, Chaplain Simundson feels that "In the hospital, the need for a minister is obvious. Patients are going through an experience about which the ordinary person can avoid thinking. The healing of a person often involves the complete human being. The physician who is credited with the present-day chaplaincy program believed that the minister should be a part of the healing team."

The new chaplain lists golf, bowling, and music as his hobbies.

Anniversaries

20 YEARS

After having been on her job with Barnes Diagnostic Laboratories for 20 years, Miss Dorothy Blanchard, Secretary, Gyn. Pathology, still finds her work challenging and interesting. A graduate of Soldan High School in St. Louis, she was employed first in a clerical job with the Surgery Department of the Washington University Medical School and, when Barnes Hospital took over the administration of the Diagnostic Laboratories, Dorothy transferred to the Laboratories. Yes, she has seen many things come and go in the last 20 years and, all has been interesting, she says.

Miss Blanchard’s hobbies are many. She likes ice skating, baseball, and concert music. But above all, she enjoys traveling—and has done a good lot of it. She has visited Alaska, Mexico, and Europe so far. Of these three, she would like to return to Europe when she finds it possible. However, she plans to do a good job on her work at Barnes first. Maybe for the next 20 years!

(Continued on Page 18)
BOYER JOINS BARNES ADMINISTRATIVE STAFF

Mr. John M. Boyer recently has joined the Barnes Hospital administrative staff as Assistant Director.

He comes to us directly from Lincoln Engineering Company, St. Louis, where for some years he had served as Director of Industrial Relations. His industrial administrative work there followed more than ten years' experience with several hospitals in Illinois, Florida, and Ohio. Among these were the Research and Educational Hospitals of the University of Illinois, Wesley Memorial in Chicago, as well as Aultman Hospital in Canton, Ohio.

Boyer received his Bachelor's and Master's Degrees from the University of Illinois, and has done further work toward the Doctorate. He has taught courses in Personnel and Supervision on the faculties of the University of Illinois and of Washington University, and will continue to teach at Washington this fall. He has written many articles on Supervision and Personnel Management for publication in national Hospital and Management journals. He is a World War II veteran, having served in the Naval Reserve. He and his wife and thirteen year old son, Jay, live in Ferguson.

Wedding vows were exchanged on June 7 by Pat Wall, Lab Office, Barnes, and Mr. Don Manning... Dorothy Seckman, Nursing and S/Sgt. Lawrence E. Tanksley, U.S. Marine Corps, were married June 16 at Jennings Church of Christ, Jennings, Mo... Sharon Spraul, Nursing, and Mr. Roy L. Kassebaum repeated their nuptial vows in a morning ceremony June 3 at Salem Lutheran Church... Rollie Williams, Laundry, and Mr. Eddie Evans Jr. were married July 5... Congratulations to Mrs. Helen Starch, Educational Director, who was elected chairman of the nominating committee at the St. Louis Dietetic Association meeting on June 5, and Mrs. Doris Cook, Administrative Dietitian, who was selected as the new chairman of the Food Administration Section.

Posies to Nina Soderlind, Nutrition Clinic Dietitian, who received recognition for her effective diet-control help to two well known St. Louis businessmen whose successful weight losses were written up in the Post Dispatch, June 30, in a feature article, 'Big Time Losers in the Heavyweight Class', by Clarissa Start.

Boyer's administrative responsibilities here will center around the over-all personnel and supervisory-management operation of the Barnes Hospital Group. He will also serve on the faculty of the Washington University School of Hospital Administration.

Shown at the entrance to Wohl Hospital are Dietetic Interns soon to complete their one year internships at Barnes. During this period they have been provided opportunities to observe and apply in actual practice many of the things they have learned in their professional Dietetic Education. When they complete their internship, they are recognized as fully qualified to enter the work of their chosen profession.

They are, from left to right, back row: Judith Robertson, Kansas State University; Marilyn Cordier, Iowa State University; Vera Wierenga, Kansas State University; Thelma Sue Arnold, Louisiana Polytechnic Institute; and Mrs. Frances Lemley, University of Wyoming. Front row: Mrs. Ruth Griffith, Fontbonne College; Susan Sims, Webster College; Mrs. Emmedy Estrella, University of Puerto Rico; Mrs. Rosemary White Mitchell, Purdue University; and Mary Tsudoki, University of Idaho.
Shown above are four recent Barnes Hospital School of Nursing graduates being given honorary recognition for their achievements. Certificates to indicate this were presented by Miss Ann Campbell, Director of Nursing, to Patricia Heineche, Myrna Wacker, Mary Young, and Rose Zanter.

Barnes Hospital Woman's Auxiliary Award of $50 for Clinical Achievement (Nursing care), being presented to Emily Geiger by the Auxiliary President, Mrs. Jane Pennell.
BARNES SCHOOL OF NURSING
GRADUATES 63!

Impressive graduation exercises
for the 63 members of the 1958
Barnes Hospital School of Nursing
Class were held at 8:00 P.M. on
June 15th. at St. Johns Methodist
Church. The featured speaker was
Mr. Edwin Clark, President of
Southwestern Bell Telephone
Company, whose message was
titled 'The Satisfaction of Being
Wanted'. He viewed the 'R.N.' to
mean 'Really Needed' as well as
Registered Nurse.

Dr. Frank R. Bradley, Director
of the Barnes Hospital Group,
assisted by Miss Helen Bryant,
Science Coordinator, presented
diplomas to the graduating nurses,
and Miss Ann Campbell, Director
of Nursing, awarded the Barnes' School pins.

Several special awards were
presented to selected graduates.

ST. LOUIS PUBLIC HOUSING AVAILABLE TO MORE PEOPLE

The hospital has received word from the St. Louis Housing Authority that public housing is now available locally to more people than used to be the case.

This is because the income ceiling requirement put on those applying for the housing has been raised. As a result, many families whose incomes had exceeded the old ceiling, will now be eligible under the higher one. Further details on this can be made available to interested Barnes people if they contact the Personnel Department off the main lobby.

MR. OLIN (Continued from Front Page)

Following his graduation from Cornell, Mr. Olin entered at once upon his business career with Western Cartridge Company at East Alton, Illinois, which company was founded by his father in 1892. He served successively as Chief Inspector, Works Manager, Sales Manager, Secretary, Treasurer, and Vice President. In 1945 when Olin Industries, Inc., was formed as a consolidation of Western Cartridge Company, Winchester Repeating Arms Company, Olin Corporation, and others, he became First Vice President of Olin Industries, Inc. He continued in that position until the merger of Olin Industries, Inc., and Mathieson Chemical Corporation in 1954. At the present time he is a Director of Olin Mathieson Chemical Corporation and also serves as a Member of the Executive Committee.

In addition to his association with Olin Mathieson interests, Mr. Olin is also a Director of Illinois Bell Telephone Company, Laclede Steel Company, St. Louis Union Trust Company, First National Bank & Trust Company, Alton, Illinois, and the Illinois State Bank of East Alton.

Mr. Olin's interest in education has been evidenced, not only by his benefactions to various educational institutions, but also by his service as a Director of Washington University Corporation, as a Member of the Board of Trustees of Cornell University and also of Monticello College, Godfrey, Illinois.

Mr. Olin has been recognized on several occasions for his leadership in business and civic activities. In 1950 he was presented the Alton Civic Award by Alton Chapter, Order of DeMolay. In 1953 he received the 'Man-of-the-Year' Award from the St. Louis Chapter, Kappa Sigma, and in 1960, together with his brother John M. Olin, received the Kappa Sigma national 'Man-of-the-Year' Award. In 1956 he was given the Distinguished Citizens Award by the Greater Alton Association of Commerce. In 1955 he was appointed Chairman of the National Monument Commission by President Eisenhower for a four-year term.

Mr. Olin was married to Ann Whitney of Alton on January 12, 1928. They have four children and eight grandchildren. The children are Mary Dell (Mrs. John C. Pritzlaff, Jr.), Phoenix, Arizona; S. Truman, Jr., Barbara Ann (Mrs. F. Morgan Taylor, Jr.) Hamden, Connecticut; and Eunice Whitney (Mrs. William W. Higgins), New York City.

Hospital Group as Cashier on the day shift. After spending two years there, she was promoted to her present job and has been in it since then.

Before joining the Barnes employee family, Molly worked in the Officers' Clothing Department at Jefferson Barracks. At the end of the Second World War, she considered a government Civil Service job in Germany, but decided instead to come to work with Barnes. She enjoys meeting and dealing with the many different types of people with whom she comes in contact in her work. And they are many! Molly likes riding horseback, listening to semi-classical music, and traveling - almost anywhere! But she adds quickly that the traveling she

(Continued on Page 19)
It has been said that no man has ever had to wait for opportunity. This is certainly a very flimsy definition of something that is so important in the building of the life of an individual. The first reaction to the statement is that opportunity will just come along at most any time, and that we can take the 'rocking chair' attitude toward it. That is hardly the case. We have to extend a very sincere and cordial invitation, and back that up with devotion and effort.

Opportunity is not limited by many of the elements that so often stand in the way of progress toward other goals, such as locality, time, or existing conditions. The inner qualities of the individual count for more than all else. Many people are succeeding in circumstances that would stop most of us, in places that few of us would be willing to go, and giving time that few of us would be able to find in our busy schedules. The big difference comes in the ability one has to discern opportunities when they present themselves. This is not easy, to say the least.

We can so easily be wrong in our concept of what opportunities are, as well as the value they carry. Those who deal with law enforcement are very sure that the reason for crime is found in this fact, and is so strong that consequences of the crime can conveniently be lost in the shuffle of warped ideas.

ANNIVERSARIES (Continued from Page 3)

15 YEARS

Carry Marshall, Senior Staff Nurse on 0400, completed 15 years in nursing work on July 16. Employed as a Junior Staff Nurse, she worked in that capacity until 11 years ago when she was promoted to her present job. It must have been a mere coincidence that her anniversary with Barnes fell during her vacation this year.

The smiling face of Mrs. Gladys Powell, Nurse in charge of the Barnes Emergency Room (now located in the clinics), has been with us for 10 years in the same job. For the 20 years prior to that she also did nursing work.

Mrs. Powell went to grade school and high school in Irondale, Missouri, from which she went on to St. Louis City Hospital for her nurses' training.

Her first 'hobby' is her work-nursing! But she likes to listen to good music, enjoys a good baseball game (even if the Cardinals don't win), and especially does she enjoy educational programs on television. Future plans? To stay right on in the Emergency Room at Barnes and to try every day to improve the way the job is done.

On July 1st, 1946, Amalia (Molly) Wehrle, now Assistant Manager, Barnes Drug Store, evening shift, came to work with the Barnes

ANNIVERSARIES (Continued from Page 17)

does is limited to during her vacations. Future plans? Only to keep on doing a good job in her work with Barnes!

July 10th was the 15th anniversary as a member of Barnes Hospital Group for Miss Bama Minard, Pharmacy Aide. Bama was born in Birmingham, Alabama (though it's not known for sure if she was named after her home state).

In 1944 she moved to St. Louis and soon was employed as a Dishwasher in our Drug Store Fountain. Shortly she was transferred to the Pharmacy Department as a Bottle Washer, from which she was promoted to Pharmacy Aide.

Bama likes to watch baseball games and has a hobby of growing flowers. She has no potential plans as yet for the future - other than to do good work in her job as Pharmacy Aide.

10 YEARS

As of July 31, Ethel Stephenson has been employed in the Nursing Department for ten years. Ethel started with the hospital as a floor attendant. When the hospital began Nurse Aide classes which lasted one year, Ethel entered and went through the course, although she had been previously promoted to Nurse Assistant. Her present job is as a Floor Technician on night duty.

Ten years ago on July 11, 1951, Ralph Rothlisberger, Barnes Maintenance man started to work at Barnes. On the job since then he has gotten some valuable experience in refrigeration and air conditioning. As a result, most of his assignments now involve this kind of work. Skilled in the field, he has learned it all at Barnes.

Ralph is married and has two children. His hobbies include bowling, swimming, playing baseball. As a matter of fact, he likes all sports. He has no definite plans for the future except to say that Barnes and his present job are definitely in them and that he realizes the kind of valuable work experience he has gotten since he came with the hospital.

Leona Cooper completed her tenth year as a Barnes Hospital Group employee on July 13th. For the last eight years she has been a Cashier in the Personnel Cafeteria. To this job she was promoted from counter woman in the cafeteria. Leona was born and raised in Indiana. She went to Valparaiso University in the northeastern part of the state to study music, with plans to become a music teacher in the public schools.

Although she says she was unable to reach that ambition, she does still enjoy playing the piano and listening to all kinds of good music. She also enjoys reading and keeping up with the current events. Her future plans are to work at Barnes, trying to steadily improve the way her job is done.

5 YEARS

Those who have completed 5 years continuous employment this month are: Loretta Petty, Clinic Nurse Aide, July 30; Myrtle Hill, Laundry, July 2; Ruby Woods, Senior Nurse Assistant, July 13; Laura V. Kleinsorge, Head Nurse, Maternity, July 16; Velma J. Sims, Social Service, July 16; Lizzie M. Ward, Senior Nurse Assistant, July 17; Ruby J. Cobb, Head Nurse, Barnes, July 19; Alma Jones, Junior Housekeeping Aide, July 21; Beulah Pond, Junior Staff R. N., July 23; Dorothy J. Fluegel, Part time R. N., July 24; Essie L. Pullman, Dietary Aide, July 31.
The June graduates of the Barnes School of Anesthesia are shown above with Mrs. Dean Hayden, Director of the program. Standing, left to right, are Mrs. Donna Matt, Elizabeth Fitchard, Rita Jameson, Elizabeth Raleigh, and Mrs. Hayden. Seated are, left to right, Audrey Anderton, Rosemary Hulshof, Elaine Dallis, and Julia McGuire.

Graduation exercises were held in the Wohl dining room at 2:45 on June 22. Dr. F. R. Bradley, Director, Barnes and affiliated hospitals, made the address and then presented the graduates with their certificates. The anesthetists received their class pins from Mrs. Hayden.

A tea, for the graduates and their friends, followed the presentations.
